Noakholly Collector's Office, the 7th November 1888. A. BOROOAH, Offg. Collector.

NOTICE is hereby given that the right, title, and interest of Government, as specified in the conditions of sale below, in the Nispi land in village Durmoot, pergunnah Majnamoota, which forms the undermentioned estate, situate in the district of Midnapore, will be put up to sale at the Midnapore Collectorate on Saturday, the 12th January 1889, corresponding with 1st Magh 1296 A. S. The purchaser will be subject to the following conditions of sale :—

Conditions of sale.

1. The land comprised in the estate to be sold to the highest bidder above the upset price. The purchaser will be considered as the Nispi holder of the said land, and the entire right, title, and interest of Government in the land will be transferred to him, subject to the annual payment of the undermentioned Nispi rent and peshkush jumma to the proprietors of the temporarily-settled estate Majnamoota, which is now under direct management. The purchaser will have to pay no annual revenue to Government.

2. The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and the purchasers to be bound to respect the rights of the resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Furreedpore Collectorate, the 23rd-24th November 1888. T. J. C. GRANT, Collector.

NOTICE is hereby given that the undermentioned plots of Nalhatty Railway land, no longer required by Government, situated in the district of Moorshedabad, will be put up to sale on the 23rd January 1889, at Shagardighi, and on the 24th idem at Bokhra, in Moorshedabad district.

The purchasers of the plots will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway fencing, or plough it closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100 the whole amount to be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The plots will be sold revenue-free to the highest bidders.

5th.—The purchaser shall be put in possession on receipt of the orders of the Collector approving of the sales. But such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

To the Commissariat Storekeeper-General, Madras.	[illegible]

1. No cash or currency notes will be received with the tender, and no tender will be taken after the time fixed for the opening of tenders. Each tender must be accompanied by the deposit shown in the schedule, and in default of such deposit the tender will be rejected.

2. Rates offered in tenders are to be specified in words as well as in figures, and the column "Amount" should also be filled up. If this is not attended to, tenders are liable to be rejected.

3. Please note that the form of tender should be signed as well as the schedule of rates, without which the tender is invalid. Every tender not made in the required form will be rejected.

4. Each person tendering must submit with his tender one pair of sample boots of each size he purposes supplying.

5. The successful tenderer at out-station should have the boots inspected by a committee of officers at the nearest Commissariat station, and, if approved, deliver the boots at the Railway Station at Madras free of all charges, the boots being carefully packed in cases of fifty each, and despatched at the cost and risk of the contractor.

6. No person making a tender shall be allowed to withdraw his tender for the space of sixty days from the date thereof, and in the event of his so doing, he will be held to have committed a breach of contract, and will be held responsible for all damages which Government may sustain thereby.

7. Parties at out-stations, who may be desirous of forwarding their tenders, will do so post paid, so as to ensure their reaching the Commissariat Storekeeper-General on or before the date and before the hour named above.

8. All necessary information may be had on application at the Commissariat Storekeeper-General's Office at Madras.

9. Offers by telegram will not be accepted.

10. The Commissary-General reserves to himself the right of rejecting tenders without assigning any reason for so doing.

Notice.

THE right of working the copper mines at Chunabatti, in the sub-division of Alipur, Western Dooars, will be put up to auction on 15th March 1889, in the Court of the Sub divisional Officer of Alipur. Settlement will be made with the highest bidder for five years, commencing from 1st April 1889. Chunabatti is situate two miles west of Buxa in the Western Dooars. Plenty of labour, firewood and good water is available on the spot. There is a good road, and the mines can be worked with little difficulty. It is believed that any person or company who may work the mines will obtain a good profit. Sixteen seers of copper are said to be obtainable from each bazar maund of ore. A specimen of the copper can be seen at the Office of the Secretary to the Chamber of Commerce, Calcutta. Any further information will be supplied by the undersigned.

NOTICE.

IT is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,
Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The Indian Law Reports,
Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta. Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

BALASORE ZILLAH SCHOOL AND DISTRICT BOARD ENDOWMENTS.

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVERNMENT—No. L $\frac{L}{7}$ 2.

Calcutta, the 24th December, 1888.

From—H. J. S. COTTON, ESQ., Offg. Secretary to the Government of Bengal,

To—The Commissioner of the Orissa Division.

I AM directed to acknowledge the receipt of your letter No. 4268.-G., dated the 5th December 1888, forwarding a communication from the Magistrate of Balasore, in which he brings to the notice of Government proposals made by Kumars Baikuntha Nath De and Satyendranath De, sons of the late Rajah Shyamanund De Bahadoor of Balasore, to place at the disposal of the District Board of Balasore and of the Magistrate, certain sums to be utilized in charitable and useful objects. It is reported that these gentlemen have made the following offers, which you recommend may be accepted by Government:—

(1). To place in the hands of the Magistrate of Balasore, as a memorial of the visit of the Lieutenant-Governor to that place, a sum of Rs. 500, to be invested in Government 4 per cent. securities; the interest to be utilized in awarding annually a medal, to be called the "Sir Steuart Bayley Medal," to the boy of the Balasore Zillah School who stands highest in Sanskrit at the University Entrance examination.

(2) To transfer to the Balasore District Board, in memory of the late Rajah Shyamanund De Bahadoor, the zemindari right in mouzah Bargan, yielding an annual income of Rs. 306-8-1, out of which a sum of Rs. 200 is to be spent annually in sinking wells or excavating tanks for the supply of good drinking-water to the people in any part of the district selected for this purpose by the District Board: the wells and tanks to be called "Shyamanund Kupa" and "Shyam Sagar" respectively, and the balance to be given as an endowment to the Chandbally Pilgrim Hospital under the name of the "Ranee Sreemati Endowment."

2. In reply, I am directed to say that the Lieutenant-Governor accepts both these offers, and I am to request that you will convey to Kumars Baikuntha Nath De and Satyendranath De, an expression of His Honour's appreciation of their public spirit and liberality. This letter will be published in the *Calcutta Gazette*.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

CALCUTTA, *the* 31*st December* 1888.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 28TH OF DECEMBER 1888.

THE meteorological conditions in Bengal during the week call for little or no remark. Ordinary north-east monsoon weather has prevailed for the whole period. The sky has been practically cloudless, rainfall has been entirely absent, temperature and humidity have been low, while pressure has been high. During the earlier part of the week the temperature was somewhat above the normal for the period, while humidity was about normal; but from the middle of the week temperature commenced generally to fall, the fall being rather large at the western stations; while the fall of temperature was accompanied by a very decided diminution of humidity, and at the western stations in particular during the second half of the week the air was decidedly dry.

In the Bay also conditions have been of ordinary character throughout the week, and a nearly normal north-east monsoon has been blowing; winds being light to moderate in strength over the northern half of the Bay, though over the southern half a rather strong monsoon has been blowing.

Pressure.—The pressure changes over the province during the greater part of the week have been remarkably small, and generally for the first six days the variations have not exceeded one or two hundredths of an inch, and on some days there has been practically no variation at all, pointing to the fact that weather conditions have been of a very settled character during the week. On the 28th, however, and in some cases on both the 27th and 28th, a somewhat rapid reduction of pressure set in, the fall at a few stations almost amounting to a tenth of an inch. For the whole province for the week pressure has generally been above the normal by amounts varying from 0·01 inch to 0·03 inch.

Temperature.—At the beginning of the week temperature, though moderate only, was decidedly above the normal, but during the week it has fallen decidedly, and the last three or four days were much cooler than the first half of the week. Notwithstanding this reduction, the mean temperature of the whole province has been about a degree above the normal for the period. The excess temperatures have, however, been most marked in the minimum or night temperatures.

The general range of temperature during the week is shown in the table below where the average maximum, minimum, and mean temperatures at nine typical stations in different districts of the province are given compared with the normal values for the same period:—

Fairway Buoys moored at the entrance to the McArthur and Roper Rivers, and channels beaconed off.

THE Secretary, Marine Board, Port Adelaide, has given Notice (No. 14 of 1888) that Fairway Buoys have been moored at the entrance to the McArthur and Roper Rivers, and that the channels have been beaconed off.

McArthur River Entrance.—The Fairway Buoy is moored in 11 feet L. W. S. on the following bearings:—Centre of Small Island lying between South-West Island and Centre Island (local name Mangrove Island), N. 37° W.; S. E. point of Centre Island (local name Red Nose Point) N. 59° E. After passing the buoy, steer for the outer black beacon (which bears from the buoy S. 50° W.), then steer between the black and red beacons for the entrance to the river. Vessels drawing over seven feet should not pass the buoy until the water deepens to 14 feet. There are seven black beacons on the port hand and six red beacons on the starboard hand going in.

Roper River Entrance.—The Fairway Buoy is moored in 17 feet L. W. S., the centre of Gulnare Bluff bearing N. 58° W. From this Fairway Buoy the outer black beacon bears west, and the outer red beacon N. 57° W. From the Fairway Buoy a course for the entrance to the river can be steered between the five black beacons and the four red beacons. Vessels drawing seven feet and upwards should not take the bar until after the first quarter flood.

All bearings true.

Examination of Candidates for Pleadership and Mookhtarship in Mofussil Courts subordinate to the High Court.

THE next examination of candidates for Pleadership will be held on the 21st and 22nd February next in the Senate House of the Calcutta University.

The next examination of candidates for Mookhtarship will be held at Calcutta, Patna, Dacca, Cuttack, Gowhati and Sylhet on the same days, the examination of those candidates who have applied to be examined in Calcutta taking place in the Senate House of the Calcutta University.

Two papers will be set each day for the Pleadership examination at 10 A.M. and 2 P.M., respectively, and the two papers for the Mookhtarship candidates will be set on the 21st February at the same hours.

Under no circumstances will any candidate be admitted to the examination-room after these hours.

The candidates will be required to produce at the examination extracts from the register which will be furnished to them by the District Judge through whom their applications have been sent to the Board of Examiners.

No candidate will be allowed to enter the examination-room with any memoranda or loose papers of any description (with the exception of the extracts abovementioned).

All writing materials will be provided, with the exception of pens, which the candidates must bring with them.

HENRY T. HYDE,
Secy. to the Board of Examiners for Pleadership and Mookhtarship.

NOTICE.

THE following notification [No. 844 (Education), dated 17th September 1888, by the Government of India, page 428, Part I] from the *Gazette of India* of the 22nd September 1888 is re-printed for general information.

EDUCATION.

The 17th September 1888.

No. 844.—The Government of India having taken into its consideration certain representations made by the Central Committee of the "Countess of Dufferin's Fund," and by the Committee of School Inspectors assembled in 1886 to revise the European School Code, is anxious to prescribe a text-book on domestic economy and sanitary science for the use of the senior classes of English and Anglo-Vernacular schools. What is required is a work which shall primarily treat of the subjects dealt with in the Sanitary Primer, entitled the "Way to Health," in a manner suitable for more advanced and senior pupils, and also discuss topics of domestic economy. The principles of elementary physiology, so far as is appropriate and necessary to elucidate the other subjects, should also be discussed. It is desirable that the book should be handy in form, and it therefore should not cover more than 150 pages of small octavo size. The Governor-General in Council considers that the best means of securing a text-book of the required character is to offer a reward for the preparation of such a work. His Excellency in Council has accordingly decided to offer a reward of Rs. 1,000 for the best text-book on the subject. Competitors should send their compositions to the Home Office, Simla, either in print or in very legible manuscript (half margin), not later than the 1st September 1889. Each work should bear a motto and have a sealed envelope attached, with the same motto outside and the name of the author within.

The successful manuscript will become the property of the Government. Unsuccessful manuscripts will be returned, if the author's address be communicated in the attached sealed envelope.

The Government of India reserves to itself the right of withholding the reward of granting only a portion of it should no work attain the required standard of excellence.

The following works may with advantage be consulted by intending competitors :—

NOTIFICATION.

The 3rd January 1889.—It is hereby notified for general information that, under Rule 32 of the rules framed under section 138(*a*) of the Bengal Local Self-Government Act, 1885, the Lieutenant-Governor is pleased to fix Wednesday, the 6th March 1889, as the date for holding an election under section 19 of the Act, in thana Ketugram, in the district of Burdwan, for the purpose of filling the vacancy in the representation of that thana on the Local Board of Cutwa, caused by the death of Baboo Jogobundhu Chatterjee.

H. J. S. COTTON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 6th January 1889.—It is hereby notified for general information that, in exercise of the power vested in him by section 139, clause 2 of Act III (B.C.) of 1885, the Lieutenant-Governor confirms the bye-laws set forth below, which have been framed by the District Board of Howrah under clause 1 of the said section.

H. J. S. COTTON,
Offg. Secy. to the Govt. of Bengal.

Bye-laws.

I.—Whoever being the owner or occupier of any land in which is growing any plant, tree or hedge obstructing or overhanging any road in such manner as to be unsafe or inconvenient for passengers using the road, and being required by a notice in writing, signed by the Vice-Chairman or Chairman of the District Board or of any Local Board, to prune or trim such plant, tree or hedge, shall neglect or omit to comply with such requisition within the period therein prescribed, shall be liable to a fine not exceeding Rs. 10 and to a further fine, not exceeding Rs. 2, for each day after the imposition of a fine under this bye-law until the requisition is complied with.

II.—Whoever wilfully causes the destruction of, or damage to, any tree planted on a district road, or to any gabion erected for the protection of the same, or whoever removes any post erected on a district road, shall, when the act does not amount to an offence under the Indian Penal Code, be liable to a fine under section 140, Act III (B.C.) of 1885.

III.—Whoever, without the special permission of the Chairman or Vice-Chairman of the District or Local Board, causes an obstruction by cutting any part of a road, or by erecting any embankment for the purposes of irrigation or drainage, shall be liable to a fine not exceeding Rs. 25, and to a further fine not exceeding Rs. 2 for each day after the imposition of a fine under this bye-law until the damage done is repaired by the offender.

IV.—Whoever shall tether any beast on any district road, or within reach of any district road, shall be liable to a fine not exceeding Rs. 10, and the owner of any beast found tethered on any district road, or within reach of any district road, shall be held to have tethered his beast there.

V.—Any person who shall scrape or uproot grass on a road or on the side of a road shall be liable to a fine not exceeding Rs. 10.

Furreedpore Collectorate, the 23rd-24th November 1888. T. J. C. GRANT, Collector

NOTICE is hereby given that the undermentioned plots of Nalhatty Railway land, no longer required by Government, situated in the district of Moorshedabad, will be put up to sale on the 23rd January 1889, at Shagardighi, and on the 24th idem at Bokhra, in Moorshedabad district.

The purchasers of the plots will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway fencing, or plough it closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The plots will be sold revenue-free to the highest bidders.

5th.—The purchaser shall be put in possession on receipt of the orders of the Collector approving of the sales. But such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

Notice.

THE right of working the copper mines at Chunabatti, in the sub-division of Alipur, Western Dooars, will be put up to auction on 15th March 1889, in the Court of the Sub-divisional Officer of Alipur Settlement will be made with the highest bidder for five years, commencing from 1st April 1889. Chunabatti is situate two miles west of Buxa in the Western Dooars. Plenty of labour, firewood and good water is available on the spot. There is a good road, and the mines can be worked with little difficulty. It is believed that any person or company who may work the mines will obtain a good profit. Sixteen seers of copper are said to be obtainable from each bazar maund of ore. A specimen of the copper can be seen at the Office of the Secretary to the Chamber of Commerce, Calcutta Any further information will be supplied by the undersigned.

To the Commissariat Storekeeper-General, Madras.	300

1. No cash or currency notes will be received with the tender, and no tender will be taken after the time fixed for the opening of tenders. Each tender must be accompanied by the deposit shown in the schedule, and in default of such deposit the tender will be rejected.
2. Rates offered in tenders are to be specified in words as well as in figures, and the column "Amount" should also be filled up. If this is not attended to, tenders are liable to be rejected.
3. Please note that the form of tender should be signed as well as the schedule of rates, without which the tender is invalid. Every tender not made in the required form will be rejected.
4. Each person tendering must submit with his tender one pair of sample boots of each size he purposes supplying
5. The successful tenderer at out-station should have the boots inspected by a committee of officers at the nearest Commissariat station, and, if approved, deliver the boots at the Railway Station at Madras free of all charges, the boots being carefully packed in cases of fifty each, and despatched at the cost and risk of the contractor.
6. No person making a tender shall be allowed to withdraw his tender for the space of sixty days from the date thereof, and in the event of his so doing, he will be held to have committed a breach of contract, and will be held responsible for all damages which Government may sustain thereby.
7. Parties at out-stations, who may be desirous of forwarding their tenders, will do so post paid, so as to ensure their reaching the Commissariat Storekeeper-General on or before the date and before the hour named above.
8. All necessary information may be had on application at the Commissariat Storekeeper-General's Office at Madras.
9. Offers by telegram will not be accepted.
10. The Commissary-General reserves to himself the right of rejecting tenders without assigning any reason for so doing.

(By order of the Commissary-General.)

NOTICE.

IT is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,
Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The Indian Law Reports,
Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

WITHDRAWAL OF THE INLAND EMIGRATION ACT FROM THE DISTRICTS OF CHITTAGONG AND THE CHITTAGONG HILL TRACTS.

GENERAL DEPARTMENT—INLAND EMIGRATION.

Calcutta, the 8th January 1889.

RESOLUTION.

READ—

The following correspondence on the subject of the proposed withdrawal of the districts of Chittagong and the Chittagong Hill Tracts from the operation of the Inland Emigration Act No. I of 1882:—

Letter from the Commissioner of the Chittagong Division, No. 767GM—IX-5, dated 13th August 1888.

Letter to the Superintendent and Remembrancer of Legal Affairs, No. 95T—G, dated 18th October 1888.

Letter from the Superintendent and Remembrancer of Legal Affairs, dated 31st October 1888.

Letter from the Superintendent and Remembrancer of Legal Affairs, No. 1098, dated 9th November 1888.

Letter to the Government of India, Revenue and Agricultural Department, No. 186, dated 3rd December 1888.

Letter from the Government of India, Revenue and Agricultural Department, No. 234—26-24E., dated 21st December 1888.

The special procedure provided by Act I of 1882 for enforcing labour contracts in certain specified areas is in force, as far as the Lower Provinces are concerned, only in the districts of Chittagong and the Chittagong Hill Tracts. The Commissioner of Chittagong has frequently urged their withdrawal as not required in his division; and in reviewing the departmental report for the year 1885, Sir Rivers Thompson so far accepted this view as to express a hope that the time was approaching when, considering the falling off in the number of labourers enrolled under the Act, it would be possible to adopt the course recommended. As the results of the following year showed a further decline, Sir Steuart Bayley called for a special report on the subject, which the Commissioner has since submitted. In this communication it is stated that such planters as had been consulted are unanimous in considering that the Act is not required, the ordinary law being sufficient to guard the interests both of employers and employed. This is the view of the District Officers also, and the Commissioner gives his own opinion as follows :—

"It is not adapted to a district where labour is as plentiful as it is here, and where there is, now at least, no objection to taking work on a garden. So far as I have seen, the Act here is entirely against the interests of the cooly and of the better class of planters, while it is favourable to the worst class of planters only. Happily this last class is so small that it may be said to be non-existent. I strongly recommend, therefore, that under the provisions of section 4, the Inland Emigration Act be withdrawn entirely from the districts of Chittagong and the Chittagong Hill Tracts."

2. In deciding whether the recommendation thus forcibly expressed by the local officers should be accepted, the Lieutenant-Governor has to give due weight to the consideration that the Government of India has repeatedly indicated for adoption the policy of dispensing with special legislation on the subject of labour contracts wherever it is possible to do so, leaving the matter to the operation of the ordinary law of the country. "Such legislation," the Secretary of State observed in a despatch No. 102, dated 4th November 1886, "should be considered as temporary only, and clearly ought not to be maintained longer than is absolutely necessary for the protection of both the classes concerned." Viewed from this standpoint, it seems clear that the retention of the system in the two districts referred to scarcely admits of defence. In the Hill Tracts the Act cannot be said to be necessary, as it is not now resorted to even in the case of a single labourer. In Chittagong the number of labourers placed under contract according to the provisions of the Act was never large, and has rapidly decreased in recent years: it was 915 in 1884 and had fallen to 438 in 1887, with the prospect of a further decrease in the immediate future. There is nothing in the condition of the tea industry in Chittagong to suggest that it should be placed under an exceptional system, different from that prevailing in the rest of the province, and particularly in the districts of Darjeeling and Julpigoree, which are now the chief seats of the cultivation of the tea plant. Chittagong is more densely populated than other tea districts in Bengal, local labour is more generally used, and the importation of coolies is resorted to only on a very minute scale. The maintenance of the statutory contract system cannot, therefore, be looked upon as really a necessity in that district, and there is even reason to believe that, so far as it has any effect at all, it is rather a hindrance than an aid to the progress of tea cultivation. It certainly has not effected the object which the late Commissioner of Chittagong had in view when recommending its introduction in the year 1877—that of modifying the system of task work in the interest of the labourer.

3. The Inland Emigration Act leaves to the Local Government, with the previous consent of the Government of India, the power of altering from time to time the area within which the law is in force. The Lieutenant-Governor considers that this power should now be exercised, and accordingly issues the appended notification with the approval of the Governor-General in Council. The Superintendent and Remembrancer of Legal Affairs to Government has advised that this measure will not affect existing contracts otherwise than by putting an end to the exceptional procedure by which they are at present enforced, leaving them in operation as ordinary engagements within the cognizance of the civil courts.

ORDER—Ordered that a copy of this Resolution and of the notification be forwarded to the Commissioner of the Chittagong Division, with reference to the correspondence ending with his letter No. $\frac{767\text{G.M.}}{\text{IX}-5}$, dated 13th August 1888, for information, and for favour of communication to the Inspectors of Labourets and Managers of tea-gardens.

Ordered also, that a copy of the Resolution and of the notification be forwarded to the Superintendent of Emigration, Calcutta, for information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Government of Bengal.

Dated Calcutta, the 8th January 1889.

NOTIFICATION—By the Government of Bengal, General Department.

UNDER section 4 of the Inland Emigration Act I of 1882, the Lieutenant-Governor of Bengal, with the previous sanction of the Governor-General in Council, is pleased to declare that, on and from the 1st April 1889, the labour-districts of Chittagong and the Chittagong Hill Tracts shall cease to be subject to the provisions of the said Act by which they are declared to be labour-districts, and to all the provisions of the Act applicable only to labour-districts.

PUBLIC WORKS DEPARTMENT.

IRRIGATION.

The following notes on irrigation operations from the Sone canals during the past kharif season are published for general information.

By order of the Lieutenant-Governor of Bengal,

C. W. I. Harrison, *Lieut.-Col.*, R E.,
Offg. Joint-Secretary.

Note by C. W. Odling, Esq., *Superintending Engineer, Sone Circle, on irrigation operations from the Sone Canals during the kharif season* 1888-89,—*dated* 14*th December* 1888.

Character of the season.

(1). The most salient characteristics of the season were—

I.—The late date on which the rains commenced. No rain fell at Arrah until the 2nd of July, and the rains throughout the area commanded by the canals may be said to have been delayed until this time.

II.—The late rise of the river Sone. No water was available for irrigation before the 30th of June, though the 25th June is the day fixed for the commencement of the supply of water to five years' leases. Since 1869 water has always been available before this date.

III.—The almost entire cessation of the rains from the 7th September. The last considerable falls were 1·22 inches at Arrah on the 3rd of September, 0·55 inch at Buxar on the 19th of September, and 1·43 inches at Bankipore on the 7th of September 1888.

IV.—The course of irrigation operations was as follows:—Sowing was completed early in July. Transplanting commenced about the 20th of July, and from the 1st to the 20th August there was a great demand for canal water for this purpose, there being little rain until the 27th of August, when there was a fall of 7·70 inches at Arrah, and heavy falls elsewhere. Transplanting was completed about the middle of September, and the drying of the fields known as *nigar* was over by the 20th to the 23rd September. Rain was then eagerly looked for, but none fell, and there has practically been none from the 7th of September until the 29th of November, when there was a fall of 0·52 inch at Arrah, and similar falls elsewhere. The consequence of the entire absence of rain during the Hathia and Chitra (25th of September to 21st of October) has been that all rice not artificially irrigated from aharas or canals has failed, and there was considerable difficulty with regard to sowing rabi crops, the soil throughout the greater part of the area commanded by the canals being so dry that the seed would not germinate without artificial irrigation. The demand for canal water from the 4th to the 24th of October was excessive, and a full supply was required until the end of the month; water being also taken nominally for rice, but in reality for khesari, linseed and such crops which are sown in the standing rice fields until the 10th of November.

Rainfall.

(2). A statement of rainfall—the average of stations in each division being taken—is given below:—

		Eastern Sone Division.	Arrah Division.	Buxar Division.
		Three stations.	Five stations.	Four stations.
		Inches.	Inches.	Inches.
July	1888	15·89	15·80	12·76

September 1st to 20th	"	6·11	8·39	8·81
September 21st to 30th	"	Nil	·13	0·11
October	"	Nil	·05	0·10
November 1st to 10th	"	Nil	Nil	Nil
Year, 1st January to 10th November	...	43·39	43·60	41·31

This table does not sufficiently show the wide variations in the fall at different stations, and a more detailed statement is given as an appendix.

The normal yearly rainfall for the year for the area commanded by the Sone canals is 40·09 inches, so that the deficiency was rather at particular periods, when unfortunately it was most required, than for the year generally.

LONG LEASES.

The table following gives particulars regarding long or five-year

	Eastern Sone Division.	Arrah Division.	Buxar Division.	Total.
	Acres.	Acres.	Acres.	Acres.
I.—Leases which lapsed on the 31st March 1888 ...	7,486	7,530	15,701	30,716
II.—Leases in force on the 25th of June	32,639	94,803	51,678	179,120
III.—Leases applied for up to 1st July ...	8,511	6,060	8,581	23,152
IV.—Lease applications subsequently received ...	375	2 582	3,420	6,377
V.—Permits issued to end of November	2,998	4,356	4,993	12,347
VI.—Leases formally refused	3,852	954	768	5,574
VII.—Leases for which the application was withdrawn or in which objection to measurement was made ..	92	788	2,682	3,562
VIII.—Leases pending	1,944	2,746	5,526	10,217

Orders were given that preliminary applications for five years leases would not be taken after the 1st of July. Subsequently for special reasons selected applications were accepted. There was a general impression, especially in the Buxar Division, that the rate for five-year leases would be reduced, and the non-renewal of five years leases which lapsed was undoubtedly chiefly due to this cause. The good rainfall in July and August led the cultivators to believe that they were acting wisely in postponing the new leases for a year, and was the main cause of the withdrawal of applications; though village dissensions, objections to the proposed outlets, and other reasons had also some effect. The result has not been in accordance with their expectations, annual leases at higher rates have in many cases since been taken, and in the remainder the crop has mostly failed.

The causes for which leases were refused may be classified as follows :—

	Eastern Sone Division.	Arrah Division.	Buxar Division.
	Acres.	Acres.	Acres.
I.—Want of proper channels	1,421	217	Details not given.
II.—Application presented too late to admit of lease being completed	50	131	
III.—Block not suitable or under the prescribed minimum area	1,428	413	
IV.—Lands high and difficult to irrigate or low down a distributary, and water not always available ...	838	50	
V.—Other causes	115	143	
Total ...	3,852	954	768

The conditions as to proper channels and compactness of block were more stringently enforced than heretofore, and permits also refused where there was any considerable proportion of high land necessitating irrigation by lift. No attempt was made to induce the people to renew their five-year leases or to enter into new ones. They were left to decide the question entirely on a consideration of their own interests, and applications were rigorously refused where the prescribed conditions were not fulfilled.

Leases are still pending for the reasons mentioned below :—

	Eastern Sone Division.	Arrah Division.	Buxar Division.
	Acres.	Acres.	Acres.
I.—Application complete, but permit not yet issued or maps not furnished	509	1,846	544
II.—Application incomplete	1,103	311	3,136

IV.—Disputed measurement	......	......	500
V.—Village channels defective	......	230	231
VI.—Other causes	46	124	1,117

LANDS RENTED ON THE BHAOLI SYSTEM.

(4). There are special difficulties in obtaining long leases where lands are held on the bhaoli system, as the signatures of the proprietors who pay half the water-rates have to be obtained. The following are some of the cases noticed by Executive Engineers:—

EASTERN SONE DIVISION.

* * (55 acres).—Lands really nagdi, but incorrectly stated by the zemindars, 16 in number, to be bhaoli. All signatures obtained, including the proprietors', when there was a dispute amongst the proprietors, and the lease could not be completed. In four villages (377 acres) the ryots agreed, under Government orders No. 17241 of 2nd October 1888, to pay the zemindars' share of the rates as well as their own.

ARRAH DIVISION.

In five villages permits for 458 acres could not be given, as the zemindars refused to sign the leases.

BUXAR DIVISION.

* * Gave no written application, but frequently stated that they were prevented doing so by the proprietor. Irrigated without authority and also under annual lease.

* * Have taken an annual lease for 413 bighas, rice.

* * Have taken an annual lease undertaking to pay the whole of the rates.

* * Have taken an annual lease for a small area. Measurements for five-year lease complete, but porprietor declined to sign.

* * Have irrigated their fields without authority, and damaged adjoining lease by misappropriating water intended for it.

* * Crop has died.

* * Crop mostly dead.

* * Gave an application which was returned for the proprietor's signature. Irrigated some lands without authority; rest of the crop dead.

* * Application signed by the villagers, but not by the proprietor.

SHORT OR ANNUAL LEASES.

(5). The statement following shows the short or annual leases entered into month by month, as also the areas entered as irrigated in the patrol's registers :—

* Includes a large area subsequently leased for five years.

The leases in October and November were due to the failure of the Hathia rains, those in the latter month were to a considerable extent applications filed to cover areas irrigated without or in excess of permit.

(6). The area under irrigation during the kharif season, as measured by leases, stands as follows :—

	Five-year leases.	Annual kharif.	Annual sugar-cane.	Kharif rainfall, July to October.
	Acres.	Acres.	Acres.	Inches.
1888-89	192,339	66,537	3,148	39 08
1887-88	210,535	43,038	3,891	26·65
1886-87	194,351	27,733	5,402	49·40
1885-86	173,829	62,107	5,186	37·66

For former years the long leases include the area leased to the 31st March, so that the area of leases pending, 10,217 acres, the greater part of which will certainly be concluded, should be added to the figures for 1888-89.

In 1888-89 there was no rain during either the Hathia or Chitra, in fact not until the 29th of November; in 1887-88 the Hathia rains failed, but there was a good fall of rain in the Chitra on the 13th of October; in 1886-87 there was little need for artificial irrigation; in 1885-86 there was no rain after the 25th of September. Canal water was therefore beneficial three years out of four, and a necessity during two.

(7). The average daily discharge of the canals was as follows :—

	Main Eastern Canal.	Main Western Canal.	Arrah Canal System.	Buxar Canal System.
	Cubic feet per second.	Cubic feet per second.	Cubic feet per second.	Cubic feet per second.

IRRIGATION DURING THE HATHIA AND CHITRA.

(8). By the 26th September, the first day of the Hathia, the *nigar*, or drying the rice fields, was nearly everywhere completed, and a demand, slight at first, for water commenced, which increased in intensity early in October, and was at its height from the 10th to the 20th October; the demand for the last 11 days of the month was, however, very great, and during the first ten days of November water was taken to a limited extent for rice and largely for khesari, linseed, and such like crops which are sown in the standing paddy.

Piers Nos. 2 and 4 of the river sluices on the Dehri side of the Sone Weir had been carried away early in the season, and it was imperatively necessary to block these vents—an operation which could not be carried out until the discharge of the river was comparatively low. The opportunity occurred on the 1st of October, at midnight on that day the river was lowered, and the rubble bund completed by 3 P.M., on the 2nd. The supply was therefore partially shut off for less than 24 hours only. Throughout the whole time, when the demand was great, every shutter in the weir was closed, and the height of the water up stream kept at 9½ feet or 18 inches above its crest.

Special care had been taken to proportion the size of the outlets to the areas leased, and all outlets which did not command leased areas had been either blocked or removed. In the case of annual leases the same precautions

with regard to the size of the outlets were observed, and permits refused except for well-defined blocks supplied by good channels. The object of these measures was to prevent unauthorized irrigation by not supplying more water than was requisite, and also to conserve the supply as far as possible, so that, should necessity occur, water might be given over as wide an area as possible.

The result as narrated by the Executive Engineer, Buxar Division, has been as follows :—

"As it turned out, the season was most unfavourable. The outlets were kept hard at work during the whole of October, and it is satisfactory to know that only in a few isolated cases was it necessary to slightly modify the areas of the outlets which had been given. At the beginning of the season the complaint was universal that irrigation would be impossible with the outlets provided. The cultivators were advised to give them a fair trial, and informed that if they could prove that they were actually two small, additional pipes would be given. The strain was as great as it is ever likely to be in any future year, and I think it may be safely assumed that no further alteration will be necessary."

The following table gives the daily discharge of the canals and the areas for which applications were received each day :—

The irrigation in the Arrah Division was altogether and in the other divisions partially on the tatil system, the distributaries being kept open for ten and closed for five days. The Executive Engineer, Arrah Division, observes :— "The tatil proved a complete success, and there is no doubt that at any rate in the Arrah Division, with a full supply in the distributary for ten consecutive days, the supply can be shut off for five without injury to the crops." It is worthy of notice that from the 16th to the 25th of October the average discharge of the Arrah Canal was 2,415 cubic feet per second, the discharge for which it was originally intended being 1,660 cubic feet per second only.

Every effort was made to distribute water as widely as possible after taking care that the five-year and other leases for which permits had been issued had received a sufficient supply. The measures taken are thus recounted by Mr. Barlow :—" The demand for water in the Chitra (9th to 21st of October) was

very great, and special arrangements as to pipes and coolies had to be made to meet it. Suttahs (applications) were not allowed to be delayed by sectional officers, and a very small duty of from 50 to 100 bighas was taken for the irrigation of those villages that applied late and required water at once, though up to about the 12th October all outlets were fixed at a duty of not less than 100 bighas per cubic foot. The supply of water was very good, and the head of water above the outlet was kept up in almost every case as much as, and in most cases more than, was calculated in fixing outlets. About the middle of the Chitra (the 9th to 21st October) applications began to come in for broadcast rice and for rice that had received one watering from some ahara and tank" Before the end of the month applications were received for low-lying and krail lands, and the five-year leases had received two, and in some cases three, waterings, and had commenced to sow kesari and to water the fallow lands for ploughing the rabi crops. A few villages even took water for the first time in November with the view of benefiting what are known as paira crops.

All the applications received could not be granted, but no formality was permitted to stand in the way of issuing permits where they could be properly granted, and special efforts to deliver the water as quickly as possible.

(9.) Many villages which were loud in their complaints before the Irrigation Committee of getting no advantage from canals applied for, and for the most part were allowed to receive, water. The fact is brought forward as showing that the statements made before the Irrigation Committe as to the sufficiency of the supply of canal water and the necessity for artificial irrigation are not altogether reliable. The supply in most cases has this year been reduced in strict proportion to the area to be irrigated, and where water has not been taken, the dhan crop has very generally failed. Unfortunately, in many cases, application was made so late that the crops have not benefited to the extent they otherwise would. VILLAGES WHICH COMPLAINED TO IRRIGATION COMMITTEE.

(10.) The cases of unauthorized irrigation have been comparatively few. The size of the outlets have been proportioned to the area leased, and the practice involved considerable risk to the leased area. In the Eastern Sone Division 922 acres are reported to have been so irrigated. There were some bad cases in which the supply of water to five years leases was stopped by bunds being erected in the distributary. In two cases prosecutions have been instituted. In the Arrah Division there was little irrigation which is now technically unauthorized, as applications were submitted on the fact being discovered and permits issued. If rain had fallen, there would of course have been difficulties. In some cases a penalty rate would have been desirable; for instance, *Naahi* (No. 18) was said never to require canal water; canal water was taken in an unauthorized manner, and on discovery an application for 43 bighas of rice filed and a permit issued on the 18th October, four days later the water had been taken beyond the leased area. In the case of *Kurnol* and *Kunbali*, where bunds were erected or the distributary banks cut, and the supply to leased areas interfered with, penalties will, if possible, be imposed. In the Buxar Division the area known to have been irrigated without permit is 425 acres 20 poles. In most cases applications have subsequently been filed, and were accepted, permits being issued. So far as is at present known, penalty rates will be inflicted in four cases only, viz., *Lalgunj*, *Jaso*, *Gopalpur*, and *Goonsej*. In the case last named the unauthorized irrigation, whilst in actual progress, was witnessed by the Collector and Chief Engineer, who had the advantage of hearing the ryots' reasons for resorting thereto. In these cases the supply to five-year leases was interfered with, and it is desirable that more than the usual rate should be charged. UNAUTHORIZED IRRIGATION

(11.) The Patna Canal was cut in the Gya district on the night of the 8th of October to a depth of 2 feet below water line; the soil was fortunately firm, and the breach discovered quickly and filled up. The police and the Magistrate of Gya were at once communicated with, and a special force of police and chowkidars employed to guard the canal until the pressure subsided. If this cut had not been discovered in time, it is likely that upwards of 20,000 acres of rice would have died. The same canal was cut in three other places in the Patna district between the 5th and 9th of October, but these were of less importance. The Chowsa Canal was cut on the 9th of October, and the breach was filed up with commendable promptness by a contractor who resided near, the Assis- CUTTING THE BANKS OF CANALS AND DISTRIBUTARIES.

tant Engineer being also on the spot very soon after the cut was made. The Sub-divisional Magistrate, Mr. Garrett, arrived on the following day, and some arrests were made. The case is still under trial. The Bhojepore main distributary was cut on the night of the 22nd October, with the view of irrigating lands belonging to a neighbouring zemindar. Nine men were arrested, and the case is still under trial. There were eight cases of distributary bank cutting in the Eastern Sone, eight in the Arrah, and ten in the Buxar Division, and the distributaries were in numerous cases bunded. The Magistrates of Shahabad and Gya, in which districts these cases mostly occurred, gave every possible assistance; indeed, but for their active aid, it would not have been possible to prevent the water being made use of indiscriminately by the strongest parties. Every policeman in the Arrah reserve was detailed to assist in guarding the canals and distributaries

AREA INSUFFICIENTLY IRRIGATED. (12.) The following is a somewhat detailed account of all cases in which it is known that leased areas did not receive a sufficient supply of water:—

Eastern Sone Division—		Five years' leases. Acres.	Annual leases. Acres.
I.—Leases at end of long distributaries	...	86	184
II.—Land on high which water could not reach	...	77	6
III.—Failure due to breaches in distributaries	...	15	60

The Executive Engineer remarks—"The total area which failed from all causes was 428 acres; besides this a few acres of rice dried in small areas of one or two acres in different villages from various causes." A special report has been obtained on the failures in five-year leases, and permits will not in future be granted where there is real difficulty in supplying water. With regard to the annual leases the case is different; this year there was absolutely no rain after the fields had been dried. In three years out of four the rainfall at this time is deficient, but there is some rain, and it does not appear to be reasonable to refuse leases when there will be a sufficient supply of water, if there is any rain at all, say, 1 or 2 inches in October:—

Arrah Division—			Five-year. Acres.
I.—Leases at end of long distributaries	...	...	250
II.—Land high	.	...	25
IV.—Defective village channels ...	...	...	138
	Total	...	413

In addition to these, the crops on 512 acres at the end of the *Koormori* distributary have partially failed owing to the inhabitants of *Karnowl* cutting the distributary and taking all the water for their own lands. It was not until the arrival of the police that water could be got beyond *Karnowl*. I went to this place on the 15th October, when the demand was at its height, and offered to cancel the leases of the 512 acres mentioned above—an offer which was indignantly refused. An extra supply of water for this distributary was made available, and a considerable proportion of the crop saved. The persons to whose malpractices this failure of supply is due have, I am informed, filed a petition for remission of water-rates. In one case where the crop failed on 20 bighas, the application is endorsed by the applicants that water is only required in the rubbi season. It was known there would be a difficulty in the kharif. The lease will be cancelled.

Buxar Division.—There were three cases in which a portion of five years' leases did not receive sufficient water in proper time:—I. *Bassera.*—Water stopped by inhabitants of Gunsej who had no lease. II. *Lalgunj.*—Water stopped by inhabitants of Gopalpore who had no lease. III. *Mednipur.*—Some of the fields belonging to the poorer ryots did not receive water in consequence of its being obstructed by their more powerful neighbours.

The following are cases in which there was a short supply to annual leases:—I. *Udaipur.*—Land high and water appropriated by other villages. II. *Pareira.*—The village channel passes through *Chatur*, the inhabitants of which stopped the water. Rice dead before information was given to the Sub-divisional Officer. III. *Domraon.*—200 bighas of rice was not irrigated in time owing to the sectional officer being sick, and to neither the villagers nor patrol informing

the Sub-Divisional Officer. Water has been supplied for rubbi. IV. *Harpur.*—Water stopped by inhabitants of neighbouring village through which the channel passes. Water has with difficulty been supplied for rubbi. V. *Karmani*—Some fields did not receive water till late, when an extra pipe was given. Considerable unauthorized irrigation occurred in this village. VI. *Dheokardi*—. Applied late. Supply obstructed by neighbouring villages. Water supplied for rubbi There were other villages where one or two fields did not receive water generally owing to private quarrels. The state of things in the Buxar Division is somewhat different from the other two. The canal was never running at full power, and it would, if applications had been made in time, have been possible to irrigate a considerable larger area. The Executive Engineer states that remissions of water-rates will be for an area not exceeding 100 acres.

STATE OF THE CROPS.

(13.) The state of the irrigated crops is, generally speaking, excellent; in many cases there will be a bumper—what is known as a 20-anna crop. The thoroughness with which the fields could be dried in the last ten days of September was all in favour of the five-year leases which were certain of a full supply of water when required. I enclose a report by Mr. H. Luson, C.S., on special duty, on the subject. During the time of greatest demand the canals in Shahabad were traversed by the Chief Engineer, Colonel Harrison, and the Collector, Mr. Power. There were hardly any complaints, and the crops appeared to be in general splendid. The yield of the crops over a limited area—a tract of land mostly in the Arrah Division, 5 miles long by about ½ a mile broad—has been seriously interfered with by hail, which fell on the 29th November, and which damaged many and actually thrashed a few fields. The persons whose fields have been injured are now engaged in resisting their measurement, claiming, on the ground mentioned above, exemption of right from water-rates.

NUMBER OF COMPLAINTS RECEIVED.

(14.) The following shows the complaints received regarding the current season's irrigation from the 1st of July to date:—

Division.	Short supply.	Water prevented [illegible]	Others.	Total
Eastern Sone	211	1	......	212
Arrah	127	11	138	276
Buxar	21	5	684	710

The Executive Engineer of the Eastern Sone Division remarks that in all but 12 of the cases of complaint of short supply, action was taken in time to prevent damage to the crops. In the Arrah Division 23 applications for additional outlets have been treated as complaints of short supply. The Executive Engineer, Buxar Division, makes the following remarks regarding the complaints in that division:—"The total number of complaints received up to date is 710. The number may seem large, but it must be remembered that a separate receipt is now given to each individual who complains. In the Sikroul sub-division, where the number is largest, the complaints about cold-weather sugarcane alone came to 368, of which about 200 refer to failure of crops, and the remainder to non-irrigation. The total area in Sikroul is 1,111 acres, so that it seems questionable whether it is worth while granting sugarcane leases when they are productive of so many complaints. New sugarcane cultivation commences in December, and the clods are often irrigated illicitly from the adjoining rubbi lands. Application for leases is generally made in February, and if hot* weather leases are not taken as well, dead crop is the result, with no pecuniary gain to Government except numerous complaints." The number of applications received during October and November, when the pressure for kharif irrigation occurred, is perhaps the best indication of the number of cases in which complaint was made regarding the rice irrigation. They were as follows:—Eastern Sone Division 91, Arrah Division 212, Buxar Division 213. In former years in a crisis of the kind numbers of complaints were received through civil officers. This year there were scarcely any. It is, I may fairly say, generally admitted

*1st April to 25th June

throughout the districts affected that the efforts of the canal officers to supply water in proper time, and sufficient quantity wherever permits had been granted, was successful, and that even where application was made late in the day, a supply was in very many cases made available.

Services of Officers.

(15.) The Executive Engineers, one and all, bring to notice the efforts made by the Sub-divisional Officers to visit every part of their charges, and the energy, patience and skill displayed by them in the distribution arrangements. It is my duty to say that I consider that both Executive Engineers and Sub-divisional Officers deserve the highest praise for their untiring and successful exertions to meet the demands made on them. Amongst the Sub-divisional Officers are one European and three native upper subordinates, who have proved equal to positions of—for their classes—unusual responsibility. Where all have done so well it is almost invidious to single out special officers; but I consider that Mr. W. A Inglis, the Executive Engineer of the largest irrigation division, and Mr. H. Barlow, who is in charge of the largest and most turbulent sub-division, should be specially mentioned. The sickness amongst the staff added greatly to the labours and difficulties experienced. One section changed hands four times, and more than half the staff were laid up at one time or other. Substitutes, even inefficient, could not be procured at short notice, and the work of the sectional officers devolved on the Executive Engineers and Sub-divisional Officers.

Dated Arrah, the 5th December 1888.

From—HEWLING LUSON, ESQ., C.S., on special duty, Public Works Department,
To—The Superintending Engineer, Sone Circle.

IN accordance with paragraph 2 of your letter No. 4315 of the 26th October 1888, communicating to me the points upon which enquiry is required by the Government of Bengal, I have the honour to submit the following preliminary report upon the state of the rice crop in the area irrigated by the Sone Canals.

Since the date of the receipt of your letter above referred to, I have been constantly on tour through the canal country in the districts of Shahabad, Patna and Gya. I have visited all the places suggested by you, and have inspected on the fields the rice of 226 five-year leased areas and 190 annual leases, representing nearly a half of the whole irrigated area.

I have carefully noted the best crops irrigated under the most favourable circumstances of soil, situation and cultivation, and have compared all inferior crops with them. I estimate that, if 20 annas be taken to represent the very best crop that could possibly have been raised upon the area under irrigation this year, or, in other words, the maximum of excellence obtainable, then the general average throughout the whole circle will very nearly reach 16 annas. These figures do not pretend to be more than fairly accurate, as they are not founded upon exhaustive enquiry; but as they are taken from notes made from village to village visited, they may be considered as representing the state of all the rice under irrigation this season.

As directed, I have noted the cases in which the crops has failed or has fallen below the average, and have endeavoured to ascertain the causes. This task has been rendered easier by the existence of the following circumstances:—(1) the total failure of the *Hathia* rain, so that, as canal irrigation received no assistance from the usual rain, whatever deficiency there was in the supply of water is easily detected; (2) the universal freedom of the rice crops from blight, so that failure from other causes cannot possibly be ascribed to this.

Before setting forth the various causes of failure or inferiority of the crops, it is necessary to observe that the rice cultivation of South Behar is conducted religiously according to asterisms (*nachattrs*), calculated from the phases of the moon. The seed beds throughout the country are, if possible, sown within a period of 15 days, called the *adra nachattra*, which this year included the 20th June and the 3rd July. Transplantation from the seed beds goes on during the *Punerbas Pukh and Asraisa Nachattra* (18th July—15th August). The water on the fields in which the young plant has grown up after transplantation is regularly drained off in the *Uttra Nachattra* (12th—25th September), a period when, as a rule, there is little rain, and after the exposure of the soil to the air and sun, the usual heavy rain of the next *Nachattra*, the *Hathia*, is awaited.

Although there are sometimes slight variations in the times of sowing and transplanting from those given above, owing to various circumstances, yet the cultivators are extremely strict in draining off the water from the fields in the *Utra Nachatra*. It may be said that every cultivator begins, if he possibly can, to let off the water on the 1st day of the *Utra Nachattra*, and this is done, without any hesitation, in the country commanded by the canals, because the cultivator looks to the Irrigation authorities to supply him with water, whether the *Hathia* rain fails entirely or not.

It is generally agreed that after this draining or *nigar* rice plants cannot exist for more than from 15 to 20 days according to the soil, unless watered, without rapid deterioration, and as no ryot will under any circumstances take water till the *Hathia Nachattra* has commenced, the Canal Department is called upon to irrigate within a very few days every acre under lease. If water is delayed a week after it is wanted at this stage, the crop suffers; if it is delayed three weeks, it withers beyond redemption. This is the critical period It is obvious that it is necessary to have ready a full supply of water, and to use the greatest skill in distributing it.

During my tour I have generally observed that the fields adjoining the large canal and the upper reaches of the distributries obtained a sufficient and timely supply of water, but those towards the tails of some of the distributaries had evidently had to wait. In almost every case where there has been failure (except on high land for which leases should not have been accepted) it has been on the leases furthest down the distributaries. The causes of this seem to me preventible, and to require the most careful adjustment of the outlets from the distributaries into the village channels. In several cases I found the total capacities of the outlets greater than the capacity of the distributary, so that when the distributary is running at full supply and all the outlets are open, water cannot possibly get down to the tail, and the leased areas low down have to wait until these above are satisfied, a delay which may mean the loss of the crop. In some other cases I found the outlets at the head of the distributary much too large, so that while water was flowing through them beyond the leased areas and consequent wastage and unauthorized irrigation was going on, the areas in lease lower down were without water at the most critical time. In most years there is some rain in the *Hathia Nachattra*, and the immediate demand for water for every lease at the same time is not so great, but in a year like the present one, when the rain gives no assistance, any deficiency in the regulation of the outlets becomes clearly apparent. It is right to say that the correction of the outlets is now perfectly appreciated by all officers, and that much improvement has lately been made.

The next most important cause of the crop falling in places below the average is the delay in the case of annual leases (or as they should be called crop leases) in the applications for water. The ryots hold off to the very last moment in hopes of rain, and only come in when the supplies of the *ahras* or catchment bunds have dried up. Crops for which water was applied for so late, that it could not be supplied to do any practical benefit, I have left out of consideration entirely, as many such have been irrigated only for the sake of the *khesari* or second crop sown with the rice.

Another chief cause of variation in the crop is the deficiency of the majority of the village channels which take the water from the distributaries to the fields. Some very good channels made by the Irrigation Department, or by enterprising landlords exist, but the greater part of those which are supposed to be made and kept in repair by the villagers are extremely bad and lead to much wastage and consequent unauthorised irrigation, and so prevent the fields on the further edges of the leased areas from obtaining a sufficient supply in time. The special report called for on the subject will be submitted at a later date.

Another reason for the inferiority of some fields is the unscrupulousness of the stronger cultivators. When there is likely to be a deficiency of water, or when it is very urgently wanted, the stronger take it first, whilst the weaker have to wait and perhaps go without. In several cases I found the big men had taken two waterings, while the weakers' crops were dying. This of course is hard for the canal officers to prevent, but it exists to a much less extent than under the *ahra* system, where the maliks, and the Brahmins' and Rajputs' fields, which are generally situated near the reservoirs, are always watered, but the low caste men's only if there is a sufficiency.

Again, in some places the cultivators have put up embankments in the distributaries to obtain a greater head of water for themselves to the injury of the areas to be irrigated lower down. As these bunds are frequently erected at night, it is difficult to remove them until after some damage has been caused. Similarly in several places distributaries have been wilfully cut by the villagers, and in one case a large area below one of such cuts has lost its entire crop.

There are a number of other circumstances preventing the outturn from reaching what it might, but these are entirely beyond the control of the canal officers, such as bad cultivation, which is often owing to the sickness of the cultivator, late transplantation, and the sowing of crops in seed beds

Notwithstanding all the circumstances detailed as having affected the crop, which from paragraph 8 it will be seen, I think, reduces it a little more than 20 per cent. from what it could possibly have been, the rice this year, as I have seen it, has reached on the average a high standard of excellence, and stands out in very bright contrast with the sad picture of the almost total failure of the crop which depended upon rain water alone, or rain water stored in *ahras* with small local catchment basins.

No.	District and date of return.		Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BEHAR				
Patna Divn. 26	Patna	Jan. 5, '89	Nil	Weather—cold. Prospects of *rubbi* and poppy favourable. Prices stationary.
27	Gya	„ 5, '89	Nil	Weather—cold and seasonable. Paddy is being harvested and threshed. Prospects of *rubbi* and poppy crops continue on the whole favourable. Prices of food-grains stationary.
28	Shahabad	„ 5, '89	Nil	Weather—cool and bright. Threshing of paddy in progress. *Rubbi* coming on well and prospects are cheering. Poppy doing well; weather continues favourable for the crop. Prices stationary.
29	Durbhunga	„ 5, '89	Nil	Weather—bright, cold, and dry. *Dhan* harvest completed; 12 annas in Tajpore sub-division; 10 annas in Durbhunga thana, and 8 annas in the other thanas of the head-quarters sub-division; in Madhubani as a whole about 6 annas. Prices since last week have not risen, but are unusually high. *Rubbi* prospects fair and promising, but rain undoubtedly wanted. Tobacco and poppy doing well. Labourers everywhere finding work.
30	Mozufferpur	„ 5, '89	Nil	Weather—cold and bright. Poppy progressing satisfactorily everywhere. *Rubbi* doing well in the Sudder and Hajepore sub-divisions, but prospects in the northern part of Sitamarhi continue unfavourable. Rain would do much good to all crops.
31	Sarun	„ 5, '89	Nil	Weather—colder than the preceding week. Prospects of poppy and *rubbi* crops continue favourable. Prices of food-grains falling.
32	Chumparun	„ 5, '89	Nil	Weather—cold and bright. Outturn of paddy in Bettiah about 9 annas for the whole sub-division. *Rubbi* and poppy both promise well, but the outturn depends on timely rainfall. Prices rising gradually and pressure on labouring classes in the affected tract increasing.
Bhagulpore Divn. 33	Monghyr	Jan. 5, '89	Nil	Weather—cold and seasonable. Prospects of *rubbi* and poppy continue favourable. Prices of food-grains almost stationary.
34	Bhagulpur	„ 5, '89	Nil	Weather—seasonable. Rice harvest nearly over. *Rubbi* doing very fairly, but will want rain later on. Prices steady except in the south, where there is a tendency to rise.
35	Purneah	„ 5, '89	Nil	Particulars not given.
36	Maldah	„ 5, '89	Nil	Weather—seasonable. Harvest of winter rice all but complete. *Kalai* pulse is being reaped with very good results. Prospects of *rubbi* crops fair. Rain is required to benefit these crops.
37	Sonthal Perghs.	„ 5, '89	Nil	Weather—cold. *Dhan* harvest nearly over. *Rubbi* doing well.
ORISSA.				
Orissa Divn. 38	Cuttack	Jan 4, '89	Nil	Weather—cool and fair. Reaping of *sarad* rice in progress. Common rice sells at 19 seers 11 chittacks per rupee in town.
39	Pooree	„ 3, '89	Nil	Weather—seasonable. Harvesting of winter rice (late *sarad*) continues. *Dalua* crop doing well. Common rice 19 seers 7 chittacks per rupee in the Sudder sub-division, and 20 seers 10 chittacks in the Koordah sub-division.
40	Balasore	„ 4, '89	Nil	Weather—seasonable. Harvesting of *sarod* rice pretty well completed. Prospects of *dalua* rice in Bhuddruck sub-division said to be good.
CHOTA NAGPORE.				
South-West Frontier Agency.				
Chota Nagpore Divn. 41	Hazaribagh	Jan. 4, '89	Nil	Weather—seasonable. Rain urgently wanted for *rubbi* crops. Poppy doing well, but rain would do the crop good.
42	Lohardugga	„ 5, '89	Nil	Weather—seasonable. Prospects of *rubbi* not good. Rain badly wanted. Harvesting of winter paddy finished. Prices as before.
43	Singbhoom	„ 4, '89	Nil	Weather—seasonable. Prospects of *rubbi* crops very bad for want of rain. Slight rise in the prices in Dhalbhoom during the week.
44	Manbhoom	„ 5, '89	Nil	Weather—seasonable. Paddy harvest practically over; outturn 12 annas. New rice selling at from 20 to 24 seers the rupee. Sugarcane, mustard, wheat and barley coming on; outturn probably from 8 to 12 annas.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, DURING THE MONTH OF DECEMBER 1888.

THE normal meteorology in December of Bengal and Assam is usually very simple, and the north-east monsoon conditions are always present in a well-marked degree Temperature generally steadily diminishes, and is decidedly low, while pressure increases and becomes very high; humidity remains low, and there is an almost complete absence of cloud. Rainfall is also usually entirely absent from the province, except when the normal conditions become almost reversed by the occurrence of barometric disturbances which appear over Northern India, and drift in a southerly or south-easterly direction. When such depressions pass through the province, the sky becomes heavily clouded, temperature usually increases, particularly at night, while pressure falls with the advance of the depression. If the depression is at all considerable, general light rain will also usually fall. It is from such actions as these that practically the whole of the rainfall of December in Bengal is received, and from the nature of the case the occurrence of any rainfall at all in this month is uncertain, while its amount is always liable to considerable variation. A second class of disturbances sometimes occur in the form of cyclonic storms in the Bay; but usually in December such storms are generated in the extreme south of the Bay, and they are rarely sufficiently large and intense to affect the weather in Bengal to any considerable extent.

The average rainfall in Bengal is therefore small in all districts; it is slightly over half an inch in Orissa, about equal to a third of an inch in Chutia Nagpur and East Bengal, and to about a fifth of an inch in South-West Bengal and South Behar; while in North Bengal and North Behar the average fall is even less than a fifth of an inch.

Meteorology of the month.—The chief features in the meteorology of December have been—

1. Slight excess pressure over the province of Bengal, the mean excess equalling about 0·02 inch, the excess being usually largest in the northern districts, and smallest in the centre of the province; while in the upper layers of the atmosphere, as represented by Darjeeling, pressure has been in slight defect. In Assam, pressure has been nearly normal.

2. A mean temperature distinctly below the normal; the defect ranging up to nearly 2° in North Behar, and averaging 0·8° over the entire province. In Assam, also, temperature has been slightly below the normal.

3. Decided dryness of the air, the humidity being about 8 per cent. below the normal.

4. Cloud proportion also decidedly below the normal.

5. A complete absence of barometric depressions entering the province from Northern India; but though no depression of this kind entered the province in December, yet at the latter end of November disturbed conditions had been brought to Bengal by one of these depressions, and the effects of the disturbance had not quite passed away at the beginning of December.

6. A cyclonic storm of small extent, but of very considerable intensity, was formed in the south of the Bay, and advancing in a westerly direction struck the South Madras coast on the 14th of December near Negapatam. It, however, scarcely affected the weather in Bengal.

7. Except for a few local showers during the first two or three days of the month, brought about by the disturbance previously mentioned as having passed into the province at the latter end of November, the whole province has been rainless throughout the month.

With the exception of a few slight local showers, the disturbance, which was passing away from the province at the end of November, had ceased to affect the weather, and with a falling thermometer and rapidly diminishing humidity, normal cold weather conditions returned. The mean pressure was slightly in excess in the early part of the month, but though very small changes occurred, the excess disappeared, and during the second week the pressure became almost normal. Very high pressures were afterwards reported by the western stations, and though a small depression formed in South-East Bengal, over Dacca, the mean pressure again became in excess. This was owing to the wave of high pressure which was passing over Central and North-Western India, extending over part of Bengal. The weather in Bengal was very slightly affected by the cyclonic storm off the South Madras coast which occurred at the end of the second week of December. A few clouds appeared in South Bengal and Orissa, but north-east winds continued. The low temperature that came in with the return of the north-easterly winds at the beginning of December, continued throughout the month, a considerable defect being experienced in the first half. This gradually disappeared, and by the end of the month there was a small excess above the normal. With the exception of the few showers at the beginning of the month, and the light clouds occurring at the time of the Madras cyclonic storm, fine clear weather of the ordinary north-east monsoon character with low temperature and humidity has prevailed throughout the whole month.

Pressure.—Pressure changes have been small and unimportant during the whole month, the general tendency being to excess above the normal. A slight fall occurred in the early part of the month, but the mean for the province was 0·04 inch in excess, the largest excess being 0·062 inch at Durbhunga. Though no important changes took place, the pressure was very nearly normal from the 8th to the 15th, when there was a distinct rise, after which pressure remained in excess till the end of the month. The most decided change was on the

27th and 28th, when the barometer in some places fell almost a tenth of an inch. Thus the mean for the month shows a slight excess equal to about 0·02 inch. Apart from the usual cold weather oscillations, the only changes have been a slight fall in the early part of the month, a distinct rise on the 15th, and a fall on the 27th and 28th. The only instances of defect were during the second week, when pressure at about half the stations was below normal.

Temperature.—The most notable feature of the month's meteorology has been the low temperature. The decidedly low temperature, which set in on the 2nd and 3rd, continued till the end of the third week. In the early part of the month, the mean for the whole province was 1·3° in defect, the largest defect being 3·6° in North Behar. During the second week the defects increased, and in several districts amounted to more than 4°. For the whole province the defect was about 3°. After that a general small rise began, and by the 20th the temperatures were slightly in excess at most of the stations. This excess remained, and to a small extent intensified towards the end of the month, but during the last few days a defect again became prevalent. The largest excess of over 2° was at Patna and Darjeeling. The monthly mean shows considerable defect.

The general variation of temperature from the normal during the month is best shown by the following table, which gives the variations of the average maximum, minimum and mean temperatures at nine typical stations in different districts in the province from the normal values, week by week, throughout the month:—

Rainfall.—Except for a few local showers at the commencement of the month, rainfall has been practically absent. The only districts which have received any falls worth mentioning are Bankoora, Moorshedabad, Bogra, Pubna, and Sonthal Pergunnahs, though small amounts also fell in Maldah, Bhagulpore, and Manbhoom. The largest average fall, however, was only 0·16 inch in Bankoora district.

The following table gives in a condensed form the summary of the rainfall information in Bengal for the whole year. It gives a comparison between the actual monthly and total rainfall of the year, with the normal values in each of the seven meteorological divisions of Bengal; the actual falls being expressed as percentages of the normal amounts. From these figures it will be seen that the only districts which have received a normal fall for the year are South Behar, South-West Bengal and East Bengal:—

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 2·3° lower; and finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

CALCUTTA, *the 8th January* 1889.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 4TH OF JANUARY 1889.

At the commencement of the present week conditions were of ordinary north-east monsoon character in Bengal, and nearly normal for the season, though pressure was somewhat in defect on the Arakan coast and at the eastern stations, thus giving a somewhat westerly set to the winds at the stations in the south of the province and over the northern half of the Bay. This defective pressure at the eastern stations generally continued for some days, and up till the 1st of January the pressure variations were small and of rather irregular amounts; but from the 1st to the 2nd a brisk increase of pressure took place, which by the morning of the 3rd had caused pressure generally to become somewhat above the normal. In the middle of the week also there was a general reduction of temperature, this reduction being apparently part of a general wave of low temperature which passed from Northern India over Bengal. Humidity has also been fairly low throughout the week, and the sky has been almost absolutely free from cloud, while no rain has fallen; so that conditions have been of a strongly pronounced cold weather character throughout the week.

Pressure.—The mean pressure for the week, owing to the comparatively low pressure prevailing during the greater part of it, has been distinctly below the normal, but the variations at neighbouring stations are a little irregular. Generally speaking, the variations from the normal do not exceed 0·02 inch or 0·03 inch.

Temperature—Has fallen decidedly during the week, and the average mean temperature of the whole of the province is about 1·5° lower than that of the previous week; while in South-West, East and North Bengal, the general decrease of temperature has equalled from two to nearly three degrees. This reduction of temperature has been particularly marked in the night temperatures, and some very low minimum temperatures have been recorded. Thus temperatures of about 43° to 44° have during the week been recorded at Krishnagur, Rampore Beauleah, Maldah, Arrah, Doomka, and Ranchi, while at Motihari a temperature of 40 0° was reported on the night of the 1st At Calcutta the lowest minimum temperature recorded was 48·8°. For the whole province the defect in the mean temperature from the normal has equalled nearly 1°.

The general range of temperature during the week is shown in the table below, where the average maximum, minimum and mean temparatures at nine typical stations in different districts of the province are given compared with the normal values for the same period. At these stations the mean night or minimum temperature has been more than two degrees below the normal, while the day or maximum temperature has been about a tenth of a degree in excess of the normal: --

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four foot above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

Births and deaths were registered in the principal Municipalities in Bengal during the week ending 15th December 1888, at the rates, respectively, of ·25·7 and 29·8 per 1,000 of population, against 27· and 35·5 per 1,000, during the preceding week ending 8th December, indicating a large reduction in the registration of both events, particularly in the registration of deaths.

2. In the following Municipalities births and deaths were recorded at the highest rates:—

Births.

	Ratio per *mille.*
Narainganj	58·0
Serampore	60·9
Comillah	53·9
Rampore Beauleah	42·0
Monghyr	38·9

Suburbs of Calcutta	52·1
Purneah	48·5
Puri	42·0
Hughli	37·6
Gya	31·8
Monghyr	32·5

3. The following table shows that, as compared with the results of the preceding week, there was a diminution in the death-rates from cholera, fever and bowel-complaints. The mortality from the other diseases mentioned exhibit fractional variations:—

	Ratio per *mille* during the weeks ending— 15th Dec. 1888.	8th Dec. 1888.
Cholera	4·5	5·9
Small-pox	·2	·03
Fever	11·6	14·3
Bowel-complaints	4·1	5·3
Injury	·2	3
Other causes	9·2	9·6

4. Of the diseases specified above, excluding injury, the casualties from which were nowhere noticeably large, and small-pox which appears to have prevailed noticeably in the Gya town, attended with three deaths, the other diseases caused the highest mortality in the following Municipalities:—

Cholera.

	Ratio per *mille.*
Narainganj ...	45·5
Rampore Beauleah	21·0
Howrah ...	10·9
Suburbs of Calcutta ...	9·5

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "Age," the ratios under which have been omitted, inasmuch as the census of [illegible] cannot be employed as a basis of calculation owing to the result of the census under this head not having been recorded under the authorized form of age classification.

General remarks on the fluctuation of principal staples carried over the East Indian Railway during the month ended 24th November 1888.

INCREASES.

Coal and coke.—There was an increase in both the upward and downward despatches—that in the former was nominal, and the latter was due to a good demand in Calcutta for local consumption and shipment.

Cotton.—The small increase under this head was due to despatches from Firozabad, Hathras, Kurja and Gaziabad to Howrah and Bombay.

Piece-goods, European.—This increase was chiefly in the despatches from Howrah to Cawnpore and Delhi, owing to improved demand at those places.

Jute, raw.—This was principally in the despatches from Sahebgunge, from the Assam-Behar State Railway *viâ* Sahebgunge, and from the Eastern Bengal State Railway *viâ* Naihati to Howrah.

Wheat.—Due to demand in Calcutta for export.

Gram and pulses.—There was a decrease in the weight carried and an increase in the earnings, due to smaller despatches from Behar, and increases in long distance traffic from the North-West to Howrah to meet requirements on the east coast, where a famine was impending.

Government stores.—The increase was chiefly in the despatches of ammunition from Howrah to Agra, Firozepur and Quetta; and military baggage from Jubbulpore to Mooltan.

Oil.—Chiefly in kerosine oil from Howrah.

Railway material, Foreign.—There was a decrease in weight carried and an increase in earnings—the former was due to heavy despatches last year *viâ* Jubbulpore, and the latter was in despatches from Howrah to Assnsol and Katni for the Bengal-Nagpur Railway.

DECREASES.

Rice (husked and unhusked).—There was an increase in weight carried, attended with a decrease in earnings; the former was in short distance despatches on the Howrah district, and the latter was in long lead despatches from the R. district station to stations on the North-West Provinces last year.

Indigo.—Due to a late season.

Gunny.—Due to fall in export seed traffic and to the late cotton season.

Fruits, other kinds.—Chiefly in betelnuts from Digha Ghât, where a large quantity was brought up last year by steamers and rebooked thence.

Other grain.—This was chiefly at stations on the Dinapore district, and was due to prices obtained locally being sufficiently remunerative.

Hides.—The decrease in this article was in despatches from Digha Ghât and Delhi, and is attributable to there being no demand in the Calcutta market.

Brass and copper.—Due to high rates being still maintained.

Opium.—This decrease is attributable to a late season.

Ghee.—A limited demand in the Calcutta market is the cause of the falling off in this staple.

Salt.—This decrease was chiefly due to despatches from Howrah to Patna owing to steamer competition.

Seeds.—Chiefly in linseed due to demand from Europe having fallen very considerably.

Sugar (refined and unrefined).—The decrease was in despatches from the Shahabad district due to the sugarcane crop being late owing to unseasonable rain.

Tobacco.—This was chiefly in despatches from the Tirhoot State Railway *viâ* Mokameh Ghât.

Potatoes.—This was principally in despatches from the Dinapore district, owing to supplies locally having been much greater this season.

Fairway Buoys moored at the entrance to the McArthur and Roper Rivers, and channels beaconed off.

THE Secretary, Marine Board, Port Adelaide, has given Notice (No. 14 of 1888) that Fairway Buoys have been moored at the entrance to the McArthur and Roper Rivers, and that the channels have been beaconed off.

McArthur River Entrance.—The Fairway Buoy is moored in 11 feet L. W. S. on the following bearings:—Centre of Small Island lying between South-West Island and Centre Island (local name Mangrove Island), N. 37° W.; S. E. point of Centre Island (local name Red Nose Point) N. 59° E. After passing the buoy, steer for the outer black beacon (which bears from the buoy S. 50° W.), then steer between the black and red beacons for the entrance to the river. Vessels drawing over seven feet should not pass the buoy until the water deepens to 14 feet. There are seven black beacons on the port hand and six red beacons on the starboard hand going in

Roper River Entrance.—The Fairway Buoy is moored in 17 feet L. W. S., the centre of Gulnare Bluff bearing N. 58° W. From this Fairway Buoy the outer black beacon bears west, and the outer red beacon N. 57° W. From the Fairway Buoy a course for the entrance to the river can be steered between the five black beacons and the four red beacons. Vessels drawing seven feet and upwards should not take the bar until after the first quarter flood.

All bearings true.

Every person causing an obstruction in any lik, or in a waterway, drain or channel, running alongside of or under any road or in the immediate vicinity of any bridge or culvert constructed or being constructed in any road, so as to injure or tend to injure such road, bridge or culvert, shall be liable to a fine not exceeding Rs. 10, and to a further fine not exceeding Rs. 5 for every day on which the offence is continued, after notice to discontinue the obstruction has been issued.

3. Every person cutting or damaging trees planted by, or under charge of, the District or Local Board, or causing any damage to be done to any gabion or other defensive enclosure erected for the protection of the same, or damaging fences on any roadway or its slope or scraping or uprooting grass on a road or on the side of a road, shall be liable to a fine not exceeding Rs. 10.

4. Every person excavating a hole on a roadway, or a hole, pit, tank or well without the permission of the District Engineer, within 15 feet from the bottom of a road slope, shall be liable to a fine not exceeding Rs. 50, and to a further fine not exceeding Rs. 5 for every day that such hole, pit, tank, or well remains unfilled after due notice given.

5. Every person driving any vehicle, horse or cattle, or taking any elephant along a road, while under construction and before it is opened for traffic, or taking any elephant over any wooden bridge, shall be liable to a fine not exceeding Rs. 10, besides being liable to such damages as the Court may adjudge.

6. During the course of repairing any road or bridge, the person in charge of such repairs may stop traffic from passing over such road or bridge, provided he leaves some portion of the roadway or bridge or makes a diversion over which traffic can pass. Any person wilfully disobeying any such order shall be liable to a fine not exceeding Rs. 10.

7. Every person steeping jute, hemp, bamboos, or other vegetable matter in a roadside drain, and every person ploughing up for purposes of cultivation, or growing any crops, on any portion of a roadway or drain, shall be liable to fine not exceeding Rs. 10, and to a further fine not exceeding Rs. 2 for every day on which the offence is continued.

8. Whoever being in possession of, or having control over, any plants, trees or hedges obstructing, overhanging or overshadowing any road in such manner as to be unsafe or inconvenient for passengers using the road, and being required by a notice in writing signed by the Chairman or Vice-Chairman of the District Board or of any Local Board to cut down, prune or trim such plants, trees or hedges, shall neglect or omit to comply with such requisition within the period therein prescribed, shall be liable to a fine not exceeding Rs. 10 and to a further fine not exceeding Rs. 2 for each day after the imposition of a fine under this bye-law, until the requisition is complied with.

9. Where liks exist along a road, every driver of a cart must keep to the lik, which is on his left hand, except where it is, at any place, obstructed by want of repair or accumulation of water. The penalty for infringement shall be a fine not exceeding Rs. 5.

10. Every person carrying bamboos in a cart shall do so in such a manner as to prevent them from scraping the roadway. The penalty shall be a fine not exceeding Rs. 5.

11. Every elephant or camel proceeding on a road shall be provided with a bell, and the driver shall, on the approach of a carriage, cart, or horses, remove the elephant or camel to such a distance from the road as to avoid all risk of accident. The penalty for infringement shall be a fine not exceeding Rs. 5.

Balasore Collectorate, the 13th December 1888. T. J. MENDES, Deputy Collector in charge.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Rungpore, will be put up to sale at the Rungpore Collectorate on the 4th February 1888, corresponding with 23rd Magh 1295 B.S.

The purchaser will be subject to the following conditions of sale :—

Conditions of sale.

1*st*.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchaser to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3*rd*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding one day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Collector's Office, District Rungpore, the 21st December 1888. F. H. SKRINE, Collector.

NOTICE is hereby given that the undermentioned plots of Nalhatty Railway land, no longer required by Government, situated in the district of Moorshedabad, will be put up to sale on the 23rd January 1889, at Shahdighi, and on the 24th idem at Bokhra, in Moorshedabad district.

The purchasers of the plots will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway fencing, or plough it closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The plots will be sold revenue-free to the highest bidders.

5th.—The purchaser shall be put in possession on receipt of the orders of the Collector approving of the sales. But such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

(2238—1) MATADIN, First Subordinate Judge.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the main line of the Tirhoot State Railway (Simuria Extension), in the Durbhunga district, from Mouza Basaria to Mouza Ajnaul, will be put up to sale at the Dalsing Sarai Railway Station on the 25th March 1889.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The balance of purchase money due under the 3rd condition may be paid either to the Collector or into the Government treasury at Durbhunga for lands situated in the Durbhunga district.

5th. The plots of land will be sold revenue free to the highest bidders.

6th.—The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

A. H. WARDE-JONES, for Collector.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated within the boundaries of the abandoned Bazitpur Branch of the Tirhoot State Railway, in the district of Durbhunga, from mouza Sahit to mouza Basaria, will be put up to sale at the Dalsing Sarai Railway Station on the 25th March 1889.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The balance of purchase money due under the 3rd condition may be paid either to the Collector or in the Government Treasury at Durbhunga for lands situated in the Durbhunga district.

5th.—The plots of land will be sold revenue free to the highest bidders.

6th.—The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceeding.

Notice.

THE right of working the copper mines at Chunabatti, in the sub-division of Alipur, Western Dooars, will be put up to auction on 15th March 1889, in the Court of the Sub-divisional Officer of Alipur. Settlement will be made with the highest bidder for five years, commencing from 1st April 1889. Chunabatti is situate two miles west of Buxa in the Western Dooars. Plenty of labour, firewood and good water is available on the spot. There is a good road, and the mines can be worked with little difficulty. It is believed that any person or company who may work the mines will obtain a good profit. Sixteen seers of copper are said to be obtainable from each bazar maund of ore. A specimen of the copper can be seen at the Office of the Secretary to the Chamber of Commerce, Calcutta. Any further information will be supplied by the undersigned.

PEARL FISHERY AT DUTCH BAY IN CEYLON.

The following communication is published for general information.

By order of the Lieutenant-Governor,
P. NOLAN,
Secretary to the Govt. of Bengal.

Dated the 15th January 1889

No. 39, dated Colombo, the 17th December 1888.

From—The Colonial Secretary, Government of Ceylon,
To—The Secretary to the Government of India.

I AM directed by His Excellency the Hon'ble Arthur H. Gordon, Governor of Ceylon, to transmit to you the accompanying advertisement of a Pearl Fishery which it is intended to hold in Dutch Bay on the west coast of Ceylon in February 1889, and I am to request you to be good enough, with the permission of His Excellency the Viceroy and Governor-General of India in Council, to have them widely circulated.

PEARL FISHERY OF 1889.

NOTICE is hereby given that a Pearl Fishery will take place at Dutch Bay, in the Island of Ceylon, on or about 10th February 1889. The bank to be fished is the Muttuwartu Paar, in 5 to 7 fathoms water, estimated to contain oysters sufficient to employ 100 boats for 30 days with average loads of 10,000 oysters each per day.

It is therefore necessary that such boat owners and divers as may wish to be employed at the said fishery should be at Dutch Bay on or before 6th February next; and it is notified that the first day's fishing will take place on or about 10th February, if possible.

Dutch Bay is on the west coast of Ceylon, 25 miles south of Silávatturai and 4 miles north of Kalpitiya. It can be reached by sea or by backwater from Colombo.

The fishery will be conducted on account of Government, and the oysters put up to sale in such lots as may be deemed expedient.

The arrangements of the fishery will be the same as have been usual on similar occasions.

All payment to be made in ready money in Ceylon currency.

Drafts on the banks in Colombo or bills on the Agents of this Government in India, at ten days' sight, will be taken, on letters of credit being produced to warrant the drawing of such drafts or bills.

For the convenience of purchasers, the Treasurer at Colombo and the different Government Agents of Provinces will be authorised to receive cash deposits from parties intending to become purchasers, and receipts of these officers will be taken in payment of any sums due on account of the fishery.

No deposit will be received for a less sum than Rs. 250.

By His Excellency's command,
[illegible]. NOEL WALKER,
Colonial Secretary.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

WITHDRAWAL OF THE INLAND EMIGRATION ACT FROM THE DISTRICTS OF CHITTAGONG AND THE CHITTAGONG HILL TRACTS.

GENERAL DEPARTMENT - INLAND EMIGRATION.

Calcutta, the 8th January 1889.

RESOLUTION.

READ—

The following correspondence on the subject of the proposed withdrawal of the districts of Chittagong and the Chittagong Hill Tracts from the operation of the Inland Emigration Act No. I of 1882:—

Letter from the Commissioner of the Chittagong Division, No. 767GM—IX-5, dated 13th August 18 8.

Letter to the Superintendent and Remembrancer of Legal Affairs, No. 95T—G, dated 18th October 1888.

Letter from the Superintendent and Remembrancer of Legal Affairs, dated 31st October 1888.

Letter from the Superintendent and Remembrancer of Legal Affairs, No. 1098, dated 9th November 1888.

Letter to the Government of India, Revenue and Agricultural Department, No. 186, dated 3rd December 1888.

Letter from the Government of India, Revenue and Agricultural Department No. 234—26-24E., dated 21st December 1888.

The special procedure provided by Act I of 1882 for enforcing labour contracts in certain specified areas is in force, as far as the Lower Provinces are concerned, only in the districts of Chittagong and the Chittagong Hill Tracts. The Commissioner of Chittagong has frequently urged their withdrawal as not required in his division; and in reviewing the departmental report for the year 1885, Sir Rivers Thompson so far accepted this view as to express a hope that the time was approaching when, considering the falling off in the number of labourers enrolled under the Act, it would be possible to adopt the course recommended. As the results of the following year showed a further decline, Sir Steuart Bayley called for a special report on the subject, which the Commissioner has since submitted. In this communication it is stated that such planters as had been consulted are unanimous in considering that the Act is not required, the ordinary law being sufficient to guard the interests both of employers and employed. This is the view of the District Officers also, and the Commissioner gives his own opinion as follows :—

"It is not adapted to a district where labour is as plentiful as it is here, and where there is, now at least, no objection to taking work on a garden. So far as I have seen, the Act here is entirely against the interests of the cooly and of the better class of planters, while it is favourable to the worst class of planters only. Happily this last class is so small that it may be said to be non-existent. I strongly recommend, therefore, that under the provisions of section 4, the Inland Emigration Act be withdrawn entirely from the districts of Chittagong and the Chittagong Hill Tracts."

2. In deciding whether the recommendation thus forcibly expressed by the local officers should be accepted, the Lieutenant-Governor has to give due weight to the consideration that the Government of India has repeatedly indicated for adoption the policy of dispensing with special legislation on the subject of labour contracts wherever it is possible to do so, leaving the matter to the operation of the ordinary law of the country. "Such legislation," the Secretary of State observed in a despatch No. 102, dated 4th November 1886, "should be considered as temporary only, and clearly ought not to be maintained longer than is absolutely necessary for the protection of both the classes concerned." Viewed from this standpoint, it seems clear that the retention of the system in the two districts referred to scarcely admits of defence. In the Hill Tracts the Act cannot be said to be necessary, as it is not now resorted to even in the case of a single labourer. In Chittagong the number of labourers placed under contract according to the provisions of the Act was never large, and has rapidly decreased in recent years: it was 915 in 1884 and had fallen to 433 in 1887, with the prospect of a further decrease in the immediate future. There is nothing in the condition of the tea industry in Chittagong to suggest that it should be placed under an exceptional system, different from that prevailing in the rest of the province, and particularly in the districts of Darjeeling and Julpigoree, which are now the chief seats of the cultivation of the tea plant. Chittagong is more densely populated than other tea districts in Bengal, local labour is more generally used, and the importation of coolies is resorted to only on a very minute scale. The maintenance of the statutory contract system cannot, therefore, be looked upon as really a necessity in that district, and there is even reason to believe that, so far as it has any effect at all, it is rather a hindrance than an aid to the progress of tea cultivation. It certainly has not effected the object which the late Commissioner of Chittagong had in view when recommending its introduction in the year 1877—that of modifying the system of task work in the interest of the labourer.

3. The Inland Emigration Act leaves to the Local Government, with the previous consent of the Government of India, the power of altering from time to time the area within which the law is in force. The Lieutenant-Governor considers that this power should now be exercised, and accordingly issues the appended notification with the approval of the Governor-General in Council. The Superintendent and Remembrancer of Legal Affairs to Government has advised that this measure will not affect existing contracts otherwise than by putting an end to the exceptional procedure by which they are at present enforced, leaving them in operation as ordinary engagements within the cognizance of the civil courts.

ORDER—Ordered that a copy of this Resolution and of the notification be forwarded to the Commissioner of the Chittagong Division, with reference to the correspondence ending with his letter No. $\frac{767G.M.}{IX-5}$, dated 13th August 1888, for information, and for favour of communication to the Inspectors of Labourers and Managers of tea-gardens.

Ordered also, that a copy of the Resolution and of the notification be forwarded to the Superintendent of Emigration, Calcutta, for information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Government of Bengal.

Dated Calcutta, the 8th January 1889.

NOTIFICATION—By the Government of Bengal, General Department.

UNDER section 4 of the Inland Emigration Act I of 1882, the Lieutenant-Governor of Bengal, with the previous sanction of the Governor-General in Council, is pleased to declare that, on and from the 1st April 1889, the labour-districts of Chittagong and the Chittagong Hill Tracts shall cease to be subject to the provisions of the said Act by which they are declared to be labour-districts, and to all the provisions of the Act applicable only to labour-districts.

RESOLUTION ON THE REPORT ON PUBLIC INSTRUCTION IN BENGAL FOR THE YEAR 1887-88.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 11th January 1889.

RESOLUTION.

READ—

The General Report on Public Instruction in Bengal for 1887-88.

Delay in submitting the report.

This report is exceptionally complete and clear, but the Lieutenant-Governor regrets that it is necessary in reviewing it to notice in the first instance the delay which has occurred in its preparation. The date fixed by Government as the latest for the submission of the annual reports of the Director of Public Instruction was originally the 1st of August, and Sir Alfred Croft proposed during the year that it should be postponed to the 1st of October. The present report was not, however, received until the 17th December, and no explanation has been given of the great delay thus indicated. The Director's attention will be drawn again to this important subject, and he will be requested to make arrangements which will secure the submission of the next annual report before the 1st October, 1889, or on that day at latest.

Controlling agencies.

2. The most important event in the educational history of the year under this head was the transfer of the control of primary education from District Magistrates, acting under the advice of Local Committees, to District Boards. On this subject the Director observes—

As to the general character of the work done by the District and Local Boards, it is too early yet to form any decided opinion It was natural to suppose that at the outset they would take no very strong or independent line, but simply conform to the traditions and practices of the Department to whose duties they succeeded. It appears, however, that the Boards have not followed a uniform policy in educational matters. The Assistant Inspector of the Bhagulpore Division writes of them:—"During the short time they have been at work, there has been not a single instance of any friction between them and the Department; the suggestions and recommendations of the inspecting officers have been always duly considered and adopted, and the Inspector of Schools has been often consulted in important matters." Still, some inconvenience has been felt from delay in the despatch of business by the Boards. In the neighbouring division of Patna a less confident note is heard. In the districts of Patna and Sarun, there have been no particular changes, and the working of the Board has been satisfactory. Of Gya it is said that "the Board has done nothing in connection with education that would look like its own work." But of Shahabad—" it is a fact that the Shahabad District Board has not worked smoothly with the Department."

In the few differences that I have had with District Boards, I have found that on a candid representation of the facts the causes of difference have in every case disappeared. When more serious difficulties have arisen, and some form of arrangement or compromise was desirable, it has been readily accepted When the Boards were, one after another, coming into existence and assuming charge of their duties, I sometimes found it necessary at the outset to trench upon the province of the Boards, and to take action which I had ceased to have the right to take, in order to avoid obstructive delay and to hand over the business of administration as a going concern in working order. In no case has a Board finally refused to confirm the action taken. On a general review of the causes of friction that have arisen here and there, I should be disposed to say that while Boards are grateful for advice and suggestions when asked for, and even when not asked for if given with an obviously helpful purpose, they resent interference with the duties that have been entrusted to them. In saying this, I do not wish to utter one word of complaint against any departmental officer. It is only natural that officers who have hitherto had the work of education in their own hands should

still take a keen interest in its progress, and should seek to avert any lapse from the standard to which they have been accustomed, even though such lapses are inevitable incidents of a change of system. But it is no less necessary for departmental officers to remember that District Boards have rights secured to them under the Act, and that any attempt to limit those rights in the interests of education will certainly be resisted. It may be assumed that officers of the Department know for the present a good deal more about school management than a District Board knows. They can best utilise their knowledge in the interests of education by adopting towards the Board such an attitude of friendly vigilance as will make it clear that, while always ready to render help when help is desired or is necessary, it is equally their wish that the Board should learn how to do for itself, and to do well, the work which has been entrusted to its hands. I am glad to be able to state that this is the attitude which officers of the Department have almost uniformly taken up.

The view taken by the Director appears very judicious, and its expressions calculated to conduce to the harmonious working of the department. It may be added that some of the officers whose views are quoted seem to have an erroneous conception of the system which has been superseded by the management of Boards. Primary education since its introduction has never been placed under the control of departmental Inspectors, but of Magistrates and local Committees. In one of the districts referred to as administered by a Board in an independent spirit, it is within the Lieutenant-Governor's knowledge that this is nothing new, the former Education Committee having shewn even more decided indications of a determination to promote the cause of popular education in its own way.

3. Two vacancies which occurred during the year in the superior inspecting staff were not filled up, the retrenchment being made in accordance with a recommendation of the Finance Committee, provisionally adopted by this Government, that the number of such officers should be reduced to nine, so as to correspond with that of Divisional Commissioners. The officers whose work has in this manner been increased by enlarging their jurisdiction report unfavourably of the arrangement, as was perhaps to have been expected. But, apart from obvious considerations of economy, it seems desirable to make the jurisdiction of Educational officers coincide with the administrative divisions of the country, and nothing has occurred during the year to alter the Lieutenant-Governor's opinion as to the expediency of the retrenchment proposed. The Director has very properly noticed the degree of activity shewn by different inspecting officers, commending those who have done best, and dealing in different ways with those who have failed Such disciplinary action is particularly necessary, since the travelling allowance drawn for journeys of less than 20 miles has been curtailed on financial grounds, and the Director plainly indicates that tours have often been conducted inefficiently in order to secure the higher rate now given in the case of long journeys, or, as it is otherwise put, to avoid loss. The amendment of the rule which has been the occasion of this difficulty is now under consideration, a reference having been made to the Government of India; but, pending the issue of orders on this subject, the defect noticed by the Director may be remedied by calling upon Sub-Inspectors to submit beforehand programmes of their tours, which will then be regulated by their immediate superiors in the best interests of the schools to be visited. The Director will be requested to report upon the above suggestion.

University Education.

4. The history of higher instruction during the year is marked by three striking features—the foundation of new colleges, the increased attendance of pupils, and the development of private enterprise, which at first supplemented, and now rivals the efforts of the State in promoting this form of education. The new colleges are four in number—the Bangabasi, founded by Mr. G. C. Bose, M.A., F.C.S., a returned Agricultural Scholar, which had 53 students at the close of the year; the Roberts' Memorial College, with 3 students only; the Tej Narain Jubilee College at Bhagulpore, with 17 students; and the collegiate classes added by the late Baboo Joy-Kissen Mookerjea to the Utterpara School, with 29 students. All these are private institutions, founded and kept up without direct aid from the State, and their establishment raises the number of

colleges in Bengal to 33, of which only one-third are maintained by Government. The increase in the attendance is shown in the following statement:—

Some annual addition to the number of students is to be expected as the natural result of the gradual progress of the educated classes in Bengal. The fact that the increase was unusually large this year is, as the Director remarks, explained by the results of the Entrance examination of 1887, at which 2,409 competitors were successful, or 69 per cent. of the candidates, against 913, or 29 per cent. in the previous year; and it is understood that this success was itself due to an alteration in the system of examination designed to facilitate admission to the University, the number of marks required for success being reduced from 33 to 30 per cent. in English, and from 33 to 25 per cent. in the second language and mathematics, while the aggregate minimum of 33 per cent. was not insisted on. The development of private enterprise, referred to above, as the third feature of college administration during the year, is illustrated by the fact that the increase has been greatest in the unaided colleges, both

absolutely and also in proportion to their previous attendance. With the figures showing the numerical strength of the several classes of institutions, the following statement should be considered, as it indicates their efficiency, ascertained by the only test readily applicable, that of success at public examinations—

Class of College.	Number of students.	Number of students passed at examinations in 1887-88.				
		F. A.	F. A. Scholarship.	B. A.	B. A. Honours.	M. A.
State	1,383	183	28	68	43	27
Private	3,111	287	23	152	42	13

It will be seen that the Government colleges, with reference to the number of their pupils, obtained more than their share of degrees of all kinds, and that the proportion in their favour was larger as the examinations progressed in difficulty. This is most marked in the M. A. course, and is there entirely due to the superior instruction given in the Presidency College, a most useful and necessary institution, which maintains by its example, as well as by direct support, the standard of education in the province. The Director's observations on this subject are in entire accordance with the views entertained by Government. He writes: "The Presidency College, with its high fee of Rs. 12 a month, has nearly doubled its numbers of two years back; and indeed in July, 1888, four months after the close of the year, the number on its rolls exceeded 500, a greater strength than it has ever before known. The demands made by the various courses of the University upon a limited educational staff have much increased of late years; and if, in accordance with the present policy, the strength of the Presidency College professoriate be maintained at such a level as to meet all requirements, the foregoing figures show that students will flock to its class-rooms in such numbers as to more than repay the additional cost involved. The Presidency College must maintain its position among the colleges of Bengal as that in which the best and most varied education is given, realising as far as possible the idea of a 'teaching University.' That end must be secured even though, in order to attain it, we have to weaken the staff of some of the less important Government colleges in the province. Moreover, the rapid up-springing of private colleges throughout Bengal affords a clear proof that collegiate education to a moderate standard no longer demands the sustaining arm of Government as the necessary condition of its existence; and the policy to which I have adverted will render the gradual transition from Government control to private management a natural and easy process of development." The Presidency College is also the principal institution in which scientific knowledge is fostered, a very important consideration, as it appears that the science course is losing its popularity, and that higher education in Bengal is taking a character too exclusively literary. It has long been the policy of Government to give a practical bent to instruction, and yet, whether from the effect of the system on which University examinations are conducted, or owing to the predilections of the students themselves, the actual tendency is in the contrary direction. It is stated that of 51 senior scholars elected in 1888, only 21 chose the science course, which in former years was adopted by the great majority, and only 78 candidates passed by that standard, against 245 by the literary course. Even in the minor Government Colleges, where until lately the science course only was taught, it is now to a great extent superseded by the more popular form of instruction. The Krishnager Municipality was asked during the year to take over the Government College at that station, with a grant-in-aid, and the offer was declined. The Lieutenant-Governor can hardly view with regret the delay which has occurred in giving full effect to the policy recommended by the Education Commission, that of the gradual and cautious withdrawal of the State from the direct management of the minor colleges, as private institutions become year by year more equal to the task of conducting collegiate instruction. It is, however, well that those interested in higher education should understand that the policy in question has been accepted, and that the work of carrying it out, of which a beginning has been made in the case of the Berhampore and Midnapore Colleges, will eventually be completed.

Secondary Education.

5. The progress of secondary education during the year, as indicated by the multiplication of schools and the increased attendance of pupils, has been substantial and satisfactory, though it has not been as great as that made in collegiate instructions.

The following statement defines its extent :—

Class of Schools.		1886-87.		1887-88.	
		Schools.	Pupils.	Schools.	Pupils.
High English	... ...	272	61,227	292	67,430

The expenditure of Government under this head was Rs 5,17,235 in 1886-87, and increased in 1887-88 by the sum of Rs. 16,057. The Director notices that applications for new grants have been accumulating for the last two or three years, and observes that it is much to be wished that Government were in a position to afford more liberal aid. This is doubtless desirable, but the fulfilment of the wish is very improbable, considering not only existing financial conditions, but also the more urgent claims of primary and technical education. Under the circumstances, it is necessary to draw attention to the rule on the subject of grants-in-aid, quoted in the margin, which was framed to prevent existing grants from becoming permanent, and so preventing the concession of new grants in rising localities. It is not to be supposed that Government will be able to maintain all old grants-in-aid indefinitely, and at the same time to make new allowances from year to year.

Grants will be sanctioned ordinarily for a term of three years; but the Inspector may at any time during its currency recommend the revision of any grant. A grant should ordinarily be reduced on renewal, when this can be done without serious loss of efficiency. In this way money will, from time to time, be set free, and the Department will be able to aid new schools even though the grant-in-aid allotment remains stationary. Notice of any proposed reduction shall in all cases be given to the managers, who shall be allowed an opportunity of stating any objection that they may have to the reduction.

6 It is chiefly in connection with schools of the secondary class that the question of moral training and the maintenance of due discipline occurs. Under this head the Director observes—

"The question of school discipline continues to occupy the attention of the higher officers of the Department, and the subject has been discussed at length in a report recently submitted to Government. A school mainly dependent for support on the fees paid by its pupils is at times compelled to tolerate breaches of discipline which a well-endowed institution can punish without fear. In Bengal the number of educational institutions of really independent position is by no means large. The admittedly superior discipline of a Government or of a missionary school is justly attributed to its solvency."

By way of diminishing the evil noticed, he suggests that the Calcutta University should refuse to recognise any school until it has been two years in existence, and until the managers have supplied full particulars of the establishment and accommodation to be provided. Such a measure might do some small good; but as the only effect of the non-recognition of a school by the University is that its candidates at the Entrance Examination are entered as private students, no great result can be expected The Lieutenant Governor will be glad to receive in future reports a fuller account of the discipline and moral training enforced in public schools. The importance of the subject is undeniable, but, in the absence of provision for periodical notice, it may frequently be overlooked

Primary education.

7. There has also been some slight progress in the department of primary education, the number of schools having increased from 48,483 in 1886-87 to 48,621 in 1887-88, the number of pupils from 1,080,085 to 1,103,422; but here the gain in numbers is comparatively small, and does not compensate for a loss which occurred in 1885-86. Practically, primary education in Bengal has reached a stationary state, and such variations as occur from year to year in the numbers are due rather to alterations in the system of registration than to any real advance or retrogression. The Provincial Government has not in recent years been able to make any increase in the assignment under this head, and there is not, as in the case of English education, a spontaneous tendency to the spread of elementary instruction, irrespective of Government assistance, beyond the classes which it at present reaches. With regard to the point which has hitherto been attained

in the education of the people generally, the Director of Public Instruction writes—

"The population of Bengal, excluding Cooch Behar, Hill Tipperah, and the Tributary States of Chota Nagpore, of which the schools are not included in our returns, amounted by the last census to 68,160,598, of whom 33,917,217 were males, and 34,243,381 were females. Reckoned at the usual proportion of 15 per cent., the number of male children of school-going age would be 5,087,582, and the number of female children 5,136,507. Of the scholars in our returns, 1,362,119 are boys and 90,826 are girls. Hence, of all boys of a school-going age over one in four is at school; of girls, 1 in 56. It has recently, however, been argued that 20 per cent. more nearly represents the proportion of children of school-going age. As the number of towns and villages in Bengal is close upon 260,000, it appears that there is one school to every four villages."

The estimate that one boy in every four is at school indicates how much remains to be done, as it implies that three-fourths of the male population have not as yet been touched by our educational system: and there is reason to believe that the estimate itself is sanguine. If the school-going age be taken as from five to fifteen the proportion of children which it includes is not 15 or even 20, but 26·93 per cent. The population must have increased since the census of 1881, and there is reason to believe that the figures given, which are taken from the return of those on the rolls at the close of the year, include many children who never attend or never learn. Out of more than 1,100,000 pupils registered, only 330,921 were examined under the system of payment by results, of whom 199,880 were passed. The census report showed only one male in ten as able to read and write. The Lieutenant-Governor regrets the depletion of Provincial finances on no account more strongly than because it prevents him, at least for the present, from carrying out the recommendations of the Education Commission in regard to primary education, which included a considerable increase in the annual expenditure.

8. The total expenditure from Provincial and District Funds on primary education during the year was Rs. 6,82,089, against Rs. 7,36,243 in 1886-87, the decrease of Rs. 54,154 being apparently due to delay in payments, which caused large sums due in 1887-88 to fall over into the following year. There was certainly no desire on the part of Government to make the transfer of these schools to District Boards an opportunity for diminishing the grant, which was founded on the actual expenditure of 1885-86. The Director observes that "the total amount contributed by municipalities to the support of primary schools was Rs. 16,355, varying from Rs. 7,805 in the Presidency Division, Rs. 2,815 in Patna, and Rs. 1,968 in Burdwan, to smaller sums in other divisions. In the 24-Pergunnahs the municipal contributions fell off by Rs. 1,182. The new Municipal Act for Calcutta contains a section empowering the Commissioners to spend money on primary and technical schools." The Lieutenant-Governor notices with approval these contributions from municipal resources, considering the importance of popular education to be such that it has a fair claim to aid, even from an income on which there are numerous and urgent demands. The mofussil municipalities benefited at the expense of provincial funds to the extent of over three lakhs of rupees a year, when the police charges in urban areas were assumed by Government from the beginning of the year 1882, and it was then assumed that a part of the surplus thus created would be devoted to education.

9. The following statement shows the manner in which the available funds were utilised in the different divisions:—

The amount for expenditure being so limited in comparison with the population to be educated, it is of the utmost importance that the method should be adopted which produces the greatest effect at the smallest cost. Experience has shown that this system is for Bengal what is known as that of payment by results, as distinguished from the grant of fixed stipends to teachers, and the rules made for the guidance of District Boards recognise no other as permissible. These instructions appear to have been generally observed, except in the district of Rajshahye, as to which the Director states that the Board have during the past twelve months raised the cost of each school from Rs. 16·5 to Rs. 56·3 a year by the adoption of a system of stipends all round, in substitution of a mixed system of stipends and rewards. The number of schools in Rajshahye has at the same time been reduced from 578 to 291, that of pupils from 11,901 to 7,490. The Director was informed in December last that the change thus made was inconsistent with the rules, and he will now be asked to report what action has since been taken to place the administration of the grant in Rajshahye on a proper footing. A stipendiary school costs five or six times as much as one conducted on the principle of payment by results, and a general reversion to the former principle could only be interpreted, under present financial circumstances, as the abandonment of the attempt to give an elementary education to any considerable proportion of the population. In the 24-Pergunnahs, Moorshedabad, Midnapore, Hooghly, Howrah, the regulation districts of Chittagong, Shahabad, Sarun, Purneah, and Cuttack, the average cost of schools to Government has been kept below ten rupees a year. This economy can only have been obtained by a careful and intelligent adoption of small means to a great end, in particular by utilising to the utmost all indigenous methods and institutions. It is believed that results not dissimilar might be produced in some other districts, and the subject needs the most careful consideration on the part of the Educational authorities.

Special instruction.

It will be observed that the law students are far the most numerous, that, excepting a small and decreasing minority, not constituting a ninth of the whole, they read in unaided schools, and that they cost the public nothing even when they attend Government schools. These facts and the increase in the number of law students illustrate the popularity of the profession, and its profitable nature. The study of medicine on the other hand, at least on the ordinary lines, is confined to Government institutions, and in its higher department is proportionately very expensive to the State, each student costing Government Rs. 877-8-1 a year, a sum far in excess of that reported in regard to any other form of instruction. The number of pupils in the Medical College has diminished from 172 last year to 160, though there has been an increase of ten in the free female class. On the other hand, the schools where instruction is given in the vernacular are advancing in number and reputation. There has been an increased attendance in the Engineering College, Seebpore, but it is marked as an unfavourable sign that only one student from that institution passed for the B. E. degree. The condition of this most important school has formed the subject of enquiry during the year, with special reference to the small success which has attended it at the University examinations, and the report of the Committee appointed to investigate the subject has been very recently received by the Director of Public Instruction. The survey schools have done well during the year, and their pupils readily find employment. The number of pupils in the Government School of Art increased from 152 to 158. As to this valuable institution, which is somewhat of the nature of a technical college, the Director writes—

"In July, 1887, a revised course of instruction was framed for each class. Arrangements have also been made to hold annual examinations in free-hand drawing, model-drawing geometry, and perspective. Art certificates of the third or higher grade will be awarded to those students who execute the prescribed works in each class and pass the required examinations in each group These groups comprise advanced free-hand and light-and-shade drawing, elementary painting and design, advanced painting and drawing, architectural and mechanical drawing, and modelling. Certificates of proficiency will also be granted to competent students in the lithographic, wood-engraving, metal-chasing, and wood-carving classes. Four annual scholarships have been established by the Public Works Department for competition by students in the architectural and mechanical drawing classes. The successful students, after completing the preliminary course in the school prescribed by the Public Works Department, will have the advantage of one year's practical work in the drawing branch of the Chief Engineer's office, with an allowance of Rs. 15 a month each for the first six months, and an increase of Rs. 5 a month if satisfactory progress is made. There were seven competitors for the studentships, whose works were submitted for examination to Mr. W. Banks Gwyther, A.R.I.B.A., who expressed his satisfaction with the quality of the work done by this newly-inaugurated class.

"Their Excellencies the Viceroy and the Countess of Dufferin visited the school on the 27th March, 1888. His Excellency was pleased to award a silver and a bronze medal for competition: 'the silver medal to be awarded to the student who, at the end of the year, has executed the best series of works in any of the classes.'

"Mr. Jobbins reports that, as a result of the practical character of the instruction now imparted, the students are finding remunerative employment. One has lately been appointed head-draftsman in the office of the Engineer-in-Chief, Sind-Pishin State Railway."

The industrial schools are conducted on a small scale, aiming at little more than the teaching of ordinary mechanical arts to a limited number of pupils of the artisan class; but on the whole they did well during the year. It may be said generally that the few technical institutions which exist in Bengal hold their own, without any marked advance or retrogression, being in this respect less successful than the colleges and schools for English education, which progress rapidly, though receiving much less assistance from Government. This remark does not apply to the law classes, which flourish of their own vitality, without assistance from the State. The question of promoting technical education in new directions has been examined during the year by the Seebpore College Committee, and will come before Government again when the report of that body is received with the remarks of the Director of Public Instruction. All schemes for instruction of this class involve considerable expense, and it has not been thought necessary to expedite their examination during a season of financial pressure.

Female education.

11. The Lieutenant-Governor notices with satisfaction the statement of the Director of Public Instruction that the medical education of women made a decided advance

during the year. In the Medical College five young ladies were reading as regular students for the L.M.S. or M.B. degree, and one of them (Miss Virginia Mitter) headed the list of successful candidates at the first M.B. examination. Besides the regular students, 21 young ladies attend lectures in the Medical College for a special certificate under the new regulations. A class for instructing females through the medium of the vernacular was opened in June, 1886, in the Campbell Medical School, and is attended by 15 students. The progress of female education generally is indicated by the figures given below:—

	1886-87.		1887-88.	
	Schools.	Pupils.	Schools.	Pupils.
Girls' schools	2,198	43,290	2,247	46,038
Girls in boys' schools ...	......	37,764	......	37,785
GRAND TOTAL ...	2,198	81,054	2,247	83,828

The Director draws attention to the fact that the greatest numerical results are produced in this department by rewarding the teachers of primary schools for the attendance of girls. He observes that "a grant-in-aid girls' school costs Rs. 178 a year, while a primary grant school costs only Rs. 20. There is no limit to the number of girls that can be educated in boys' schools, if the District and Local Boards, in whose hands the administration of the primary grant now rests, find it possible to maintain and increase the existing rates of aid." There has been a most satisfactory advance in the number of girls under instruction in the Dacca and Patna Divisions, counterbalanced, to some extent, by a falling off in some other divisions. In the higher walks of female education it is noticed that the Bethune College, the Free Church Normal School, and the Doveton Institution for Young Ladies, sent up successful candidates for the Entrance Examination of the Calcutta University, while the Bethune College also passed two candidates at the B.A. Examination.

Education of Europeans.

12. The number of European schools remained the same as in the previous year, being 72 in all; there was an increase in the attendance from 6,391 to 6,541. The Government expenditure under this head was Rs. 1,73,018 against Rs. 2,50,367 last year, the decrease being in the grants for buildings. The effort which has been made for some years to give to the education of Europeans a more practical turn, by substituting a special examination for that of the Entrance to the Calcutta University, has entirely failed, not a single boy having appeared as a candidate. It is evident that the authority of a University having a monopoly of the power to grant degrees is sufficient to regulate the course of study in all Bengal schools, of whatever class, and this is an additional argument in favour of introducing an alternative standard, adapted to the requirements of those who need a practical rather than a literary education. The allowances to high schools continue to be regulated by a very minute system of payment by results, involving the examination by a Government Inspector of every boy in every subject. The success of the schools may be roughly gauged by the percentage earned of the total possible grant, which was 73 per cent., a great improvement on the results of the previous year. This progress is, however, attributed in part to a change in the system of marking.

Education of Muhammadans.

13. The Director notices that there has been a satisfactory increase in the attendance of Muhammadans at the higher institutions of instruction. In Arts colleges such pupils have increased from 138 to 217; in English schools, from 13,218 to 14,864; in middle vernacular schools, from 9,053 to 9,860; and besides this absolute increase, the percentage is in each case higher than last year. The total number of Muhammadan students also rose from 366,886 to 401,671, and the percentage from 26·9 to 27·6, figures to be compared with the percentage of 31·5 borne by Muhammadans to the whole population of Bengal; the apparent improvement is not, however, due to any real development, but to the correction of an error made during the last two years in the method of registering certain Koran schools, which were removed from the aided list, without being placed on that of private institutions. There is still some doubt as to the expediency of the course adopted in withdrawing

aid from these schools, and the matter is under consideration The appointment of two Muhammadan Assistant Inspectors, which has been sanctioned for some time, and is now to be immediately carried into effect, will afford facilities for considering such questions from the Muhammadan point of view. Three scholarships were founded in July, 1886, of Rs. 20 a month each, tenable for a year-and-a-half, by any student of the Calcutta Madrassa who has obtained the B.A. degree with honours. This raises the total number of special Muhammadan scholarships to 134. The attendance at Madrassas generally increased from 1,120 to 1,229, in the Calcutta Madrassa (Oriental Department) from 839 to 862. The total number of students in the Calcutta Madrassa was 1,183 against 1,119 in the previous year. A change has recently been effected in the constitution of the College Department of the Madrassa, which, it is hoped, will give the students the advantage of the superior tuition of the Presidency College, without depriving them of the special attraction of a denominational institution.

General summary.

14. The progress made in the extension of education of all kinds during the year may be gathered from the following statement of the number of enrolled pupils:—

It is observed with satisfaction that there has been an improvement in the general result, and also in all the more important departments.

15. The thanks of the Lieutenant-Governor are given to Sir Alfred Croft for his able management of the Education Department during the year.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Govt. of Bengal.

THE following report is published for general information.

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPT., P. NOLAN,

The 10th January 1889. *Secy. to the Govt. of Bengal.*

METEOROLOGICAL SUMMARY OF THE MONSOON PERIOD OF 1888.

THE following statement is intended to give a very brief history of the more important features which have characterised the south-west monsoon period and the preceding months of 1888 in Bengal.

The month of January was of ordinary cold-weather character, and was rather free from the influence of land-formed storms, for, up till the 22nd, no depression affected the weather in the province. From this date the usual conditions were almost reversed in Bengal by the formation and advance of a depression from Northern India. The storm first made its appearance to the south of Quetta and west of Jacobabad on the 20th, having apparently been already fully formed before it crossed from Afghanistan into India. It then travelled through Central India and passed through the south of the province of Bengal, entering the Bay of Bengal near Gopalpore and crossing it to near Akyab, when it again passed inland or disappeared. As the result mainly of this storm, rainfall was decidedly heavier than usual in Chutia Nagpur, South Behar, Orissa, South-West Bengal and East Bengal, though it was below the normal in North Bengal and North Behar. Pressure was also above the normal by 0·033 inch, while temperature was below it by nearly a degree and a half. Humidity was also slightly below the normal, while on the other hand cloud proportion was above it.

In February two feeble low pressure areas drifted across Bengal in an easterly direction, which gave rainfall mainly to Chutia Nagpur and Orissa, and South-West and East Bengal, which divisions received falls in excess of the normal. Smaller amounts of rain than usual fell in North Bengal, while Behar was practically rainless. Pressure in February was practically normal, and temperature about one degree above it, and the normal steady rise in temperature during the month was clearly marked. There were also as usual some remarkable oscillations of humidity, due to the occasional setting in of moist sea winds from the head of the Bay, and their subsequent retreat on being driven back by the land winds.

In March there was again the usual continued rapid rise of temperature, and the mean temperature of the province at the end of the month was nearly 10° higher than at the commencement, while temperature remained about one degree above the normal. Two periods of disturbance, during which hot-weather storms or nor'-westers were numerous, also existed during the month, and these gave rainfall heavier than the normal to North Behar, North Bengal and East Bengal, while the falls in Chutia Nagpur, South Behar, South-West Bengal and Orissa were comparatively small and below the normal. Some of these storms were very intense, and probably two of them were of the nature of tornadoes. The first of these was on March 27th at Magura in the Jessore district, which did a moderate amount of damage, and the second was on the same day in the Pubna district, when several villages were much affected by it. Pressure in March was almost normal, while humidity and cloud proportion were somewhat below it.

In April ordinary hot-weather conditions prevailed for the first few days, and a few ordinary nor'-westers only were recorded up till the 7th, when one of the most violent storms on record in India occurred, Dacca being visited by an extremely fierce tornado at about 7 o'clock in the evening of April 7th. The breadth of the tornado path was about 200 paces, and the length about three and a-half miles, and it caused 118 deaths, while 1,200 persons were somewhat severely wounded. After the occurrence of this storm ordinary hot-weather conditions continued up till about the 18th, when again a period of disturbance set in accompanied by local storms or nor'-westers, which lasted up till the close of the month. Again, one of these storms was of the nature of a tornado, and Bhudressur, a small town close to Serampore, was partially demolished at about 8 p.m. on April 23rd, when several persons were killed and many injured. The rainfall brought up by these disturbed conditions was in excess of the normal amount in South-West Bengal, East Bengal, North Bengal, and North Behar,

while it was below the normal in Orissa, South Behar, and Chutia Nagpur. Pressure was also no less than 0·042 inch below the normal, while temperature was about half a degree above it.

In May there were three periods during which the weather was disturbed, and when local storms with rain occurred: the first period was for the first two or three days of the month, the second from the 6th to the 10th, and the third from the 16th to the end of the month, but except in North Behar, where rainfall was normal in amount, all divisions reported a rainfall rather decidedly in defect of the normal, the defect in South-West Bengal, Chutia Nagpur, and South Behar being large.

Up till the end of May therefore the general meteorological conditions in Bengal had not differed to any very large extent from the normal, and in the south of the Bay the first advance of south-west monsoon winds had been reported from the Ceylon stations on about the 8th and 9th of May, and in front of this advance a small cyclonic storm was formed, which crossed the Madras coast. This advance, however, does not appear to have progressed very far up the Bay. The second advance commenced about the 17th of the same month, and lasted about five days, as shown by the high wind velocities at the Ceylon stations, and it would appear that in this advance the monsoon winds reached about the centre of the Bay when they again died away. The third advance of the monsoon current commenced in the south of the Bay on the 27th, and very strong winds were reported at the Ceylon stations up till the 1st of June, and fairly strong winds for some days afterwards. This represented a very powerful advance of the monsoon current, and it is probable that squally unsettled weather obtained over the whole of the centre and south of the Bay at this time. This afterwards developed into a diffused depression, which advanced towards the west coast of the Bay, reaching the South Orissa coast on the morning of the 5th, and in its advance over the land it brought up moderate general rain to a large part of the province, which continued up till the 9th and 10th of the month. At this time all the meteorological conditions appeared favorable for the early setting in of the rains, and under ordinary circumstances the next advance of monsoon winds would have drifted over the province and the regular rains would have broken. But though strong winds continued to be reported in the south of the Bay, particularly for some days about the 6th, again from the 17th and from the 21st, indicating that there were successive waves of strong monsoon winds passing up the Bay, yet rainfall remained practically absent from Bengal from about the 10th up till the 27th to the 29th of the month. The cause of this almost complete stoppage of the progress of the rain-bearing current towards Bengal appears to have been that a feeble but very persistent area of comparatively low pressure with disturbed conditions generally existed at this period in the centre of the Bay off the Arakan and West Pegu coasts. This was accompanied by a feeble but distinctly marked whirl or cyclonic circulation of winds, and this had the effect of deflecting the rain-bearing current in an easterly direction towards Burma and Assam. This area of depression from the Bay apparently advanced over South-West Bengal at the end of June, and at the same time the monsoon current from the Arabian Sea began to make itself felt in Bengal, and general and rather heavy rain set in from June 27th to the 29th, and the rains may thus be said to have broken at this date or at least a fortnight later than the usual date for their commencement.

During this almost rainless interval, from the 10th to the 27th, a period of excessive heat set in over Bengal, and at some stations temperatures were most exceptionally high—higher than ever before recorded. At Calcutta, in particular, a temperature of about 1·2° higher than ever previously known at that station was registered. At many stations also during this period the mean temperature was from 10° to 15° higher than the normal for the period. Thus for June the mean temperature was generally rather largely in excess, while pressure was in distinct defect. The rainfall in June over the province averaged less than half the normal amount, and in such divisions as Orissa, Chutia Nagpur, and South Behar, it was only about a third of the normal. In this month rainfall was exceptionally deficient in the districts of Cuttack, Maldah, and Hazaribagh.

In July the south-west monsoon current was particularly strong, and the general rainfall of the province was nearly twenty per cent. in excess of the normal fall. The only division, indeed, which received a diminished fall was Orissa, where the actual only equalled about four-fifths of the normal, but in South-West Bengal, Behar, and Chutia Nagpur the falls were particularly heavy. Very large defects were in July again reported in the rainfall of the Cuttack district, while in the Pooree district the fall was less than half the usual amount. In North Bengal also the Bogra and Rungpore districts reported rather considerable defects. In this month three barometric depressions and one small cyclonic storm were formed. Two of the depressions were generated over the land and the third close to the Sunderbuns, while the small cyclonic storm formed in the centre of the Bay and crossed the Orissa coast between Pooree and Gopalpore.

In August, again, the monsoon current, as judged by the heaviness of the rainfall brought up by it, was exceptionally strong, and, generally speaking, the rainfall of the whole of the province was about 40 per cent. in excess of the normal. So heavy in fact was the rainfall in this month that in most districts the deficiency in the rainfall caused by the serious retardation of the monsoon current in June was more than neutralized, and the rainfall for the year up to the end of August was above the normal in all districts except North Bengal. Notwithstanding the heaviness of the general rainfall in August, the Purneah and Julpigoree districts received falls largely in defect of the normal, while in Rungpore, Cooch Behar, Darjeeling, Chumparun, and Durbhanga the falls were in moderate defect. On the other hand, some districts, such as Cuttack, Howrah, and Gya, received falls more than twice the normal. The falls in Orissa, South-West Bengal, and South Behar were in fact particularly heavy, and were partly brought about by the passage of a cyclonic storm which was generated over the Sunderbuns on the 19th, and passed through South-West Bengal into South Behar, breaking up in the North-West Provinces on the 29th. Besides this cyclonic storm, there were also two influential and two smaller and rather feeble depressions which influenced the province, three of which formed over the north-west angle of the Bay and part of South-West Bengal, and advanced in a north-westerly direction, while the fourth formed in North Bengal and moved in a westerly direction across the whole of India, only breaking up in the Runn of Cutch. In August pressure was decidedly in defect of the normal, while temperature was also rather lower than usual.

In September the monsoon current weakened much more rapidly than usual, and the total rainfall of the month was only equal to about three-fourths of the normal amount. In addition to the lightness of the rainfall, the greater part of the rain was received during the first half of the month, and rainfall was generally very light for the second half. Indeed, in some districts rainfall had entirely ceased before the close of September. Thus in Behar the south-west monsoon rains almost entirely ceased from about the 27th, and the same was to a great extent true in Chutia Nagpur. The largest defects in this month were reported in North Bengal and North Behar, where the falls were only from one-half to two-thirds of the normal amounts, while in the Pubna, Cooch Behar, Purneah, and Mozufferpore districts the falls varied from only one-half to one-third of the usual amounts.

Three depressions were formed over the Bay in this month—the first two were unimportant, and they occurred during the first seven days and gave moderate rain only, but the third was a very noticeable storm, and it lasted from the 12th to the 20th. This storm apparently originated in the Gulf of Siam, and it crossed from that place to the north of Tavoy into the Gulf of Martaban as a well-formed cyclone. It then crossed South Pegu a little to the north of Diamond Island, strengthening rapidly in its advance, and then advanced across the Bay of Bengal, striking the Orissa coast near False Point, and as it approached the land the velocity of advance of the storm was probably at least 20 miles an hour. The storm then passed through Orissa and afterwards advanced, first in a north-westerly and then in a northerly direction, finally breaking up in the Mussoorie and Simla Hills on the 20th or 21st. It brought very heavy rain in the line of its advance.

When the effects of this storm passed away, the monsoon current rapidly retreated from the province and commenced to retreat down the Bay, so that at the end of September practically no rain was falling. In front of the retreating current, however, a cyclonic storm of moderate intensity was formed near Diamond Island on October 1st, and this very slowly advanced up to the head of the Bay, striking the coast near Burisal on the night of the 6th, and then advancing in a north-easterly direction. This storm brought heavy rain to East Bengal, which received almost its normal fall for October; but in all other districts rainfall was much below the normal, the falls generally varying from a quarter to a third of the normal amount. In South-West Bengal, Orissa, and Chutia Nagpur, moderate showers fell in the early part of the month up to about the 7th, but the falls in North Bengal and South Behar were particularly scanty, and in North Behar practically no rain at all fell. Even the falls which were received were less valuable than they might have been, from the fact that they were confined to a few days only in the early part of the month, and rainfall was practically absent over the greater part of the province from the 7th, though a few showers fell in Chutia Nagpur and parts of South Behar on the 28th and 29th. It must also be added that general rain commenced to fall in the south of Orissa at the end of October.

In previous years it has been the custom to close the review of the monsoon season with the meteorology of October, but in the present year the meteorology of November has been so important that it is desirable to state briefly the general conditions during this month. At the close of October a violent cyclone was formed in the south of the Bay, which passed almost over Madras on the 31st, crossing the peninsula into the Arabian Sea. The wave of moist winds accompanying and following the cyclone then advanced up the west coast of the Bay of Bengal, and gradually and slowly spread over Bengal. This moist current gave moderate rain to Orissa from about the 30th October to the 14th of November; moderate rain to South-West Bengal from the 9th to the 14th; and moderate rain to East and North Bengal on the 14th November; and light, but rather local, rain in South Behar and Chutia Nagpur from the 12th to the 14th. The moist winds then retired, but at the end of November a land-formed disturbance from Upper India drifted over the province and good general rain was received over practically the whole of Behar on about the 28th or 29th. All divisions therefore received fairly general, and in some cases rather heavy, rain in November, and the falls in all divisions, except East Bengal, were largely above the normal. Orissa received an average fall of nearly three inches, South-West Bengal one of about one and-a-half inches. In North Bengal, East Bengal, South Behar, and Chutia Nagpur the falls averaged from about four to five-tenths of an inch, but in North Behar the average was only about two-tenths. The districts in which the falls were smallest in November were—Chittagong, Noakholly, Durbhunga, Chumparun, Mozufferpur, Sarun, Backergunge, and Rajshahye.

The most important features of the monsoon season of 1888 and of the months preceding it in Bengal have been—

1. The occurrence of several tornadoes of an extremely violent type during March and April.

2. The general rainfall was fairly normal in character for the first five months of the year, *i.e.*, nearly up to the usual date of the commencement of the true rainy season.

3. There was a period of exceptionally intense heat in June owing to the serious retardation of the rains.

4. The advance of monsoon current took place at about the usual period in the south of the Bay; but owing to the existence of an area of barometric depression off the Arakan and Pegu coasts, the monsoon winds were deflected towards Burma and Assam during the greater part of June, and the true rains did not break in Bengal until the 27th June, or rather more than a fortnight later than usual.

5. The rainfall current was very strong during July and August, and gave exceptionally heavy rain.

6. The monsoon current was very light in September, and retreated more rapidly than usual, and rainfall in this month was only about three-fourths as large as usual.

7. In October, except at the commencement of the month and in East Bengal, rainfall was to a great extent absent.

8. In November good general, but in most cases rather light, rain fell over practically the whole province.

9. The following tables give briefly the amount and variation of the rainfall in each of the seven meteorological divisions of the province, month by month, for the monsoon season, May to October inclusive:—

10. Finally, the rainfall of the whole province from May to October has averaged 52·22 inches, while the normal fall is 57·04 inches, or the actual fall has been 4·82 inches less than the normal. Expressed as a percentage, the actual rainfall in Bengal for this period has been nearly 9 per cent. in defect of the normal.

	4	Midnapur	„ 12, '89	Nil	Weather—cold and dry. *Amun* harvesting completed. *Boro* being extensively cultivated. *Rubbi* crops doing well.
	5	Hugli	„ 12, '89	Nil	Weather—seasonable. Condition and prospects of crops satisfactory.
		Howrah	„ 14, '89	Nil	Weather—rather warm. South wind blowing. State and prospects of crops fair.
		Central Districts.			
PRESIDENCY DIVN.	6	24-Perghs.	Jan. 15, '89	Nil	Weather—hot for the season, with foggy mornings. Harvesting of *amun* paddy is practically over; outturn is expected to be from 8 to 11 annas. Prospects of other crops are fair. Sugar is being manufactured.
	7	Nuddea	„ 12, '89	Nil	Weather—cool and seasonable. Prospects of *rubbi* crops good. Harvesting of *amun* paddy completed.
	8	Khoolna	„ 12, '89	Nil	Weather—cool and clear. *Amun* is being reaped; outturn expected to be about 10 annas. Prospect of cold weather crop fair.
	9	Jessore	„ 12, '89	Nil	Weather—cool with foggy mornings. *Amun* harvesting nearly completed. Other standing crops fair.
	10	Moorshedabad	„ 12, '89	Nil	Weather—cold. Both *haimanti* rice and *kalai* are still being cut and threshed. *Rubbi* crops promising.
RAJSHAHYE DIVN.	11	Dinagepur	„ 12, '89	Nil	Weather—seasonable. The rice harvest is nearly over, and yield has been better than [illegible] expected. The average outturn for the district will be over a ¾ crop. *Rubbi* prospects fair.
	12	Rajshahye	„ 12, '89	Nil	Weather—seasonable. Winter rice being harvested. Rain wanted for spring crops.
	13	Rungpur	„ 12, '89	Nil	Weather—seasonable. Harvesting of *amun* is all but completed, with an average yield of 8 annas. Tabacco, pulse and wheat are doing well.
	14	Bogra	„ 12, '89	Nil	Weather—seasonable; mornings foggy. The harvest of winter rice is still going on. Sugarcane and *rubbi* crops are growing. Potatoes are being sown. Rice is selling at 20 seers per rupee.
	15	Pubna	„ 12, '89	Nil	Weather—fine. Outturn of *amun* only 8 annas on the average. Sugarcane moderate. *Rubbi* crops bad. Rain wanted.
	16	Darjeeling	„ 12, '89	Nil	Weather—still unusually dry. Crops doing well.
	17	Julpigoree	„ 12, '89	Nil	Weather—seasonable. Harvesting of *amun* nearly completed. Outturn is estimated at about 10 annas. Tobacco and other crops doing fairly well. Common rice selling at 18 seers per rupee.
		Eastern Districts.			
DACCA DIVN.	18	Dacca	Jan. 12, '89	Nil	Weather—very cold and fine. *Boro* paddy being planted. Pulses being gathered. Cutting of sugarcane continues. Prospects of winter crops good.
	19	Furreedpur	„ 12, '89	Nil	Weather—seasonable and fine. No change of any sort to report. The *rubbi* prospects are good.
	20	Backergunge	„ 11, '89	Nil	Weather—seasonable. Prospects of crops fair. Harvesting of *amun* still going on; outturn 12 annas
	21	Mymensingh	„ 11, '89	Nil	Weather—very cold for the last two or three days. Prospects of crops good.
CHITTAGONG DIVN.	22	Chittagong	„ 15, '89	Nil	Weather—seasonable. *Amun* harvested; outturn moderate. Winter crops thriving. Prices steady.
	23	Noakholly	„ 11, '89	Nil	Weather—seasonable. Reaping of *amun* completed. *Rubbi* crops getting on well.
	24	Tipperah	„ 10, '89	Nil	Weather—dry and cold. Winter rice crop has yielded a very good outturn generally. *Rubbi* crops are coming on nicely.
	25	Chittagong Hill Tracts.	„ 8, '89	Nil	Weather—very cold and foggy in the morning throughout the week. Mustard, tobacco, chillies, and other winter crops progressing. Prospects not good for want of rain.
		Hill Tipperah	„ 9, '89	Nil	Weather—seasonably cold. Reaping of *amun* paddy finished. Prospects chillies, tobacco and mustard fair.

	No.	District and date of return.		Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BEHAR.					
Patna Divn.	26	Patna	Jan. 12, '89	Nil	Weather—cold. Prospects of *rubbi* and poppy continue favourable. Prices stationary.
	27	Gya	„ 12, '89	Nil	Weather—cold and seasonable. Paddy is being harvested and threshed. Prospects of *rubbi* and poppy promising.
	28	Shahabad	„ 12, '89	Nil	Weather—rather warm. Paddy is being threshed. Prospects of *rubbi* crops fair, but rain wanted. Poppy doing well. Prices stationary.
	29	Durbhunga	„ 12, '89	Nil	Weather—somewhat cloudy for the last two days. Rain much wanted especially in the north. *Rubbi* suffering in that part, but poppy and tobacco good. Prices slightly easier. Common rice selling at 15¼ seers per rupee in Durbhunga.
	30	Mozufferpur	„ 12, '89	Nil	Weather—cold and bright. Poppy doing well overywhere. Prospects of *rubbi* favourable in the Sudder and Hajeepur sub-divisions, and fair in South Sitamurhi, but unfavourable in North Sitamarhi. Rain would do good to all crops.
	31	Sarun	„ 12, '89	Nil	Weather—occasionally cloudy, but no rain. Poppy and *rubbi* crops progressing satisfactorily and give excellent prospects. Lands are being prepared for indigo. Prices of food-grains falling.
	32	Chumparun	„ 12, '89	Nil	Weather—too cold and fair. Prospects of both *rubbi* and poppy remain unchanged; a shower of rain will do immense good. *Arhar* doing well. Prices rising gradually, and affecting labouring classes in the distressed area.
Bhagulpore Divn.	33	Monghyr	Jan. 12, '89	Nil	Weather—cold and seasonable. *Rubbi* crops doing well. *Kurthi* being harvested. Prices stationary.
	34	Bhagulpur	„ 12, '89	Nil	Weather—seasonable. Outturn of late rice seems to be up to estimates already given. *Rubbi* doing fairly, but rain would now do good. *Cheena* being sown.
	35	Purneah	„ 12, '89	Nil	Weather—fair and cold. *Rubbi* crops doing fairly well. *Aghani* outturn about an eight-anna crop.
	36	Maldah	„ 12, '89	Nil	Weather—fair and cold. Slight fogs. *Kulai* reaping continues with very good results. *Rubbi* crops thriving, but require rain.
	37	Sonthal Perghs.	„ 12, '89	Nil	Weather—cold and clear. *Dhan* harvest nearly over. State of winter crops fair. Sugarcane is being cropped.
ORISSA.					
Orissa Divn.	38	Cuttack	Jan. 11, '89	Nil	Weather—seasonable. Reaping of *sarad* rice and *rubbi* in progress. Price of rice stationary.
	39	Pooree	„ 10, '89	Nil	Weather—dry and clear. Rain is wanted for *rubbi* crops. Harvesting of winter rice (late *sarad*) continues. *Dalua* crop doing well. Common rice 19 seers 7 chittacks per rupee in the Sudder sub-division and 20 seers 10 chittacks in the Khoorda sub-division.
	40	Balasore	„ 11, '89	Nil	Weather—seasonable. *Sarad* rice is being threshed with an average outturn of nearly 10 annas. *Rubbi* crops yielding well.
CHOTA NAGPORE.					
South-West Frontier Agency.					
Chota Nagpore Divn.	41	Hazaribagh	Jan. 11, '89	Nil	Weather—seasonable, but slightly cloudy to-day (11th). *Rubbi* beginning to suffer for want of rain. Poppy doing well; weeding and irrigation in progress. Grounds being prepared for sugarcane. Prices stationary.
	42	Lohardugga	„ 12, '89	Nil	Weather—somewhat warm and cloudy. Rain urgently wanted for *rubbi* crops. Prices fluctuating. Coarse rice is rather dear in Palamow sub-division.
	43	Singbhoom	„ 11, '89	Nil	Weather—seasonable. Prospects of *rubbi* crops have not improved. Prices almost the same as in last week.
	44	Manbhoom	„ 12, '89	Nil	Weather—seasonable. Sugarcane pressing in progress; outturn varies from 14 annas in the south and west to 8 annas in the north. Prospects of *rubbi* moderate.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

CALCUTTA, *the 15th January* 1889.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 11TH OF JANUARY 1889.

DURING the week fine weather has again prevailed over the whole reporting area. The very high pressure over South Bengal, and the northern part of the Bay, which obtained during the early part of the week, was accompanied by light irregular breezes, and almost cloudless skies. These light winds had in Bengal and over the northern half of the Bay a westerly tendency, but further south, strong north-easterly winds have prevailed. From the middle of the week, the abnormally high pressure began to give way, and, with the exception of Thursday, the 10th, pressure continued to fall to the end of the week, the fall on the last day being rapid, and at some stations almost equalling a tenth of an inch. The temperature changed by small irregular amounts, humidity increased, and light variable winds became common in Bengal and over the Bay. Pressure was above the normal the first three days of the week, but during the latter half, the continued falls resulted in a defect. Temperature has been about normal, and humidity high. Slight clouds have been reported from some districts of Bengal, but generally fine cloudless weather has prevailed with light variable north-westerly winds, high pressure, and fairly steady temperature.

Pressure.—On Saturday, the first day of the week, a general small rise took place, and pressure was almost uniform over the province and the Bay. On Sunday a rapid rise began, the greatest changes being reported from the East Coast stations and those of North-East Bengal. The rise continued till Monday, the 7th, when abnormally high pressures were recorded in South-West Bengal and Orissa in some cases exceeding 30·2 inches. Gradients over the Bay became very steep. Afterwards the pressure began to fall, and this fall continued, with the exception of Thursday, the 10th, to the end of the week. The fall was most rapid at the head of the Bay. The total change during the week has been very small, and but for the difference of pressure in the Bay being not quite so large as they were, the pressure distribution at the end of this week is almost identical with that at the close of the preceding week.

The general average pressure for the week has been above the normal in all districts, the excess averaging 0·04 inch. The excess is, however, smallest in the north of the province as indicated by such stations as Purneah and Durbhunga, and in South-West Bengal as represented by Calcutta and Burdwan, while it is comparatively large in East and Central Bengal.

Temperature.—The changes of temperature have been small and irregular, and there has been no general variation from the mean, some stations reporting small excess, and the others a similar defect. At the beginning of the week a slight rise was reported from almost all stations. This rise continued in Bengal for the three first days of the week, but a fall, commencing in Burmah on Monday, became general, and slight falls were everywhere reported on Tuesday, the 8th. After that, though the changes were very irregular, slight falls were generally reported. On Friday, the 11th, a rise occurred over the whole of Bengal, but several Burmah stations and Chittagong reported a slight fall.

The mean temperature for the week for the whole province has been about one degree below the normal; but while defective temperatures have been recorded in the north and east of the province as indicated by such districts as North Behar, North Bengal, and East Bengal; on the other hand, South Behar and Chutia Nagpur have shown excess temperatures. The lowest temperature reported during the week is from Burdwan, where 44·0° was registered on the 7th. The minimum or night temperatures have indeed been distinctly low during the week. This is shown clearly in the following table, where the average maximum, minimum and mean temperatures for the week at nine typical stations in the province are compared with the normal values for the same period. At almost all these stations the minimum or night temperatures have been in defect of the normal, while the day temperatures have been in considerable excess.

MEMORANDUM.

FROM the annexed table, exhibiting the mortuary statistics of the districts in Bengal for the month of October 1888, it appears—

1. That the deaths of 149,631 persons were registered out of a population of 66,055,695, presenting a death-rate of 27·12 per 1,000 per annum, against 22·20 per 1,000 during the preceding month, and 24·48 per 1,000 during the corresponding month of 1887, indicating, as compared with both the past periods, a considerable advance in the registration of deaths.

2. That the undermentioned districts returned the highest proportions of deaths :—

Districts.	Ratio per *mille.*	*Districts.*	Ratio per *mille.*
Shahabad	57·96	24-Pergunnahs	28·20
Gya	55·32	Murshedabad	28·20
Monghyr	40·56	Khulna	27·84

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

Fairway Buoys moored at the entrance to the McArthur and Roper Rivers, and channels beaconed off.

THE Secretary, Marine Board, Port Adelaide, has given Notice (No. 14 of 1888) that Fairway Buoys have been moored at the entrance to the McArthur and Roper Rivers, and that the channels have been beaconed off.

McArthur River Entrance.—The Fairway Buoy is moored in 11 feet L. W. S. on the following bearings:—Centre of Small Island lying between South-West Island and Centre Island (local name Mangrove Island), N. 37° W.; S. E. Point of Centre Island (local name Red Nose Point) N. 59° E. After passing the buoy, steer for the outer black beacon (which bears from the buoy S. 50° W.), then steer between the black and red beacons for the

entrance to the river. Vessels drawing over seven feet should not pass the buoy until the water deepens to 14 feet. There are seven black beacons on the port hand and six red beacons on the starboard hand going in.

Roper River Entrance.—The Fairway Buoy is moored in 17 feet L. W. S., the centre of Gulnare Bluff bearing N. 58° W. From this Fairway Buoy the outer black beacon bears west, and the outer red beacon N. 57° W. From the Fairway Buoy a course for the entrance to the river can be steered between the five black beacons and the four red beacons. Vessels drawing seven feet and upwards should not take the bar until after the first quarter flood.

All bearings true.

BOARD OF REVENUE, L. P., *Calcutta, the* 31*st December* 1888.

No. 64*B.*

NOTICE.

I.—Whereas the refund of the duty paid on salt has as a matter of grace been granted from time to time when the salt has been lost, SALT MERCHANTS, their AGENTS, and MANJIS, engaged in obtaining delivery of duty-paid salt ARE HEREBY INFORMED that no claim for the refund of duty on salt lost by boat-wreck will in future be entertained, unless the following points are proved to the satisfaction of the Board of Revenue:—

1st—That the Preventive Officer, before giving delivery, was satisfied that the boat was not obviously unsafe or unfit for a salt cargo.

2nd—That the salt was lost

3rd—That every possible effort was made by the crew of the boat to save the cargo.

4th—That there was no neglect or fraud on the part of any person concerned with the salt.

5th—That the loss of the salt occurred before the completion of the act of formal delivery of the boat's cargo.

6th—That application for reweighment was made without any avoidable delay to the Superintendent of the Preventive Service.

7th—That before the reweighment the salt was (except under special circumstances which may render this impossible) in the custody of a Customs Officer to be deputed under paragraph VI.

8th—That the expenses incurred for custody of the salt and reweighment have been paid by the rowannah-holder or other person concerned with the salt.

II.—The act of formal delivery of the boat's cargo is to be considered to be completed when (a) the salt in the boat has been adulled, or (b) the boat-note has been made over, or (c) the boat with a full cargo has cast off from the ship's side or the jetty at the salt golahs.

III.—Refunds of duty will not be allowed after completion of delivery in the case of loss by any accident, such as collision with buoys, the Hooghly bridge, ships or other boats, or stormy weather. On the occurrence of a cyclone, the special circumstances of the case will be considered.

IV.—The PREVENTIVE OFFICER is, before commencing delivery, to give notice in writing to the rowannahdar or his koyal or sirdar cooly, or the person taking delivery on his behalf, whose name is endorsed on the back of the rowannah, whether the boat into which it is proposed to take delivery is unsafe or unfit for a salt cargo; and, if the boat appears to become unsafe or unfit during the course of delivery, he is similarly to give notice.

V.—If the rowannah-holder or his representative (as described in paragraph IV) decide to take delivery or to continue taking delivery into a boat which the Preventive Officer has stated to be unsafe or unfit for a salt cargo, he is to be required to endorse his decision on the written notice given by the Preventive Officer, and no claim for refund of duty will, in event of loss, be entertained.

VI.—If the PREVENTIVE OFFICER during the course of delivery, *i.e.*, before it is formally complete, consider it necessary for the safety of the salt to order that the boat be cast off from the ship and beached, he may do so. He is then to arrange for the Customs flag to be hoisted on the foremast head for the information of the DIVISIONAL AND PATROL CUSTOMS OFFICER, who is on arrival to arrange for the safe custody of the salt by placing it, if possible, under adul, and if necessary sending an application to the SUPERINTENDENT of the PREVENTIVE SERVICE for a special CUSTOMS OFFICER to take charge thereof.

VII.—The special CUSTOMS OFFICER deputed under paragraph VI is to be paid for at the rate of five rupees a day with the usual fees for overtime work. If the rowannah-holder or his representative (as described in paragraph IV) declines to ask for the services of a special officer, the salt is to be left at his risk, and no claim for refund of duty will be entertained. If the salt has already been taken into safe custody, it is not to be given up until all expenses have been paid.

VIII.—On an application for reweighment of salt alleged to have been saved from boat-wreck, the SUPERINTENDENT of the PREVENTIVE SERVICE is to require the applicant to pay the expenses of the special officer deputed under paragraph VI and of the reweighment, and is on payment thereof to have the salt reweighed at once.

IX.—The object of this notice is to show the circumstances under which a claim for refund of duty on loss of salt by boat-wreck will not be entertained. No promise is made that claims entertained will necessarily be granted, and no admission is hereby made that any claim can be made as of right under any section of any law.

Offg. Secretary.

NOTIFICATION.

The 21st January 1889.—It is hereby notified for general information that, in exercise of the power vested in him by section 139, clause 2 of Act III (B.C.) of 1885, the Lieutenant-Governor confirms the bye-laws set forth below, which have been framed by the District Board of Chumparun under clause 1 of the said section.

H. J. S. COTTON,
Offg. Secy. to the Govt. of Bengal.

Bye-laws.

1. Whoever encroaches on any part of a district road by cultivating crops or otherwise, or any person whose cattle are found grazing within the boundaries of any such road, shall be liable to a fine not exceeding Rs. 50.

2. Whoever wilfully causes the destruction of, or any damage to, any tree planted on a district road, or to any gabion erected for the protection of the same, or whoever removes any post on a district road, shall be liable to a fine not exceeding Rs. 50.

3. Whoever being in possession of, or having control over, any plants, trees, or hedges obstructing, overhanging, or overshadowing any road, and being required by a notice in writing, signed by the Chairman or Vice-Chairman of the District or Local Boards, or by the District Engineer, to cut down, prune, or trim such plants, trees, or hedges shall neglect or omit to comply with such requisition within the period therein prescribed, shall be liable to a fine not exceeding Rs. 50, and to a further fine not exceeding Rs. 5 for each day after the imposition of a fine under this bye-law, until the requisition is complied with.

4. Whoever on any road or on the side or side drains of any road, by means of any building, hut, fence, pit, embankment, or ditch, or by means of any cut or drain, or water-course intended for the purpose of drainage or of irrigation, or by exposing thereon goods for sale or by placing thereon any substance or material, shall make or cause any encroachment, or shall obstruct traffic, or shall cause any inconvenience to passengers, or shall hinder or impede the flow of water, shall be liable to a fine not exceeding Rs. 50, and to a further daily fine not exceeding Rs. 5 for every day during which the offence is continued.

5. Whoever driving along the road, and meeting any other vehicle, shall fail to keep on the left or near side of the road so as to allow sufficient room for the other vehicle to pass, and whoever driving along the road and overtaking any other vehicle shall attempt to pass it otherwise than on the right or offside of the road, and whoever shall wilfully prevent any person from passing, or shall otherwise interrupt the free passage of the road, shall be liable to a fine not exceeding Rs. 50.

6. Whoever being the driver of, or in charge of, any vehicle without springs, drawn by cattle, the breadth of the tyre of the wheels of which is less than 4 inches, shall omit to use the portion of the road set apart for that class of traffic during the dry weather months, shall be liable to a fine not exceeding Rs. 50.

7. Whoever being the rider or driver of any animal shall allow such animal to stand or wander on any road without a rider or driver, and whoever being in charge of, or having control over, any animal, shall allow such animal to stray on, or to lie about on, any road, or across any part thereof, shall be liable to a fine not exceeding Rs. 50.

8. The owner, rider, or person in charge of any elephant, which by travelling over any newly constructed road, or any road in wet weather, shall injure the same, shall be liable to a fine not exceeding Rs. 50.

9. Whoever being the driver of any elephant or camel, and being required by the driver or rider of a horse to remove such elephant or camel to a sufficient distance from the road to allow such horse to pass safely along the road, shall omit so to remove his elephant or camel with reasonable promptitude, shall be liable to a fine not exceeding Rs. 50.

10. Whoever being the owner or driver in charge of an elephant shall take it across a wooden bridge shall be liable to a fine not exceeding Rs. 50.

11. Whoever shall remove soil or turf, or shall dig, scrape, or uproot any grass off the side of a district road, shall be liable to a fine not exceeding Rs. 50.

12. Whoever shall ease himself on any road, or on the side thereof, shall be liable to a fine not exceeding Rs. 50.

NOTIFICATION.

The 21st January 1889.—It is hereby notified that the Commissioners of the Mozufferpore Municipality, in the district of Mozufferpore, having at a meeting requested the Local Government to appoint a Chairman in the place of Mr. W. H. D'Oyly, on leave, the Lieutenant-Governor is pleased to appoint, under sections 23 and 27 of Act III (B.C.) of 1884, Mr. C. W. Bolton, C.S., to be the Chairman of that Municipality.

H. J. S. COTTON,

Monghyr Collectorate, the 20th December 1888.

W. O'REILLY, for Collector.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the main line of the Tirhoot State Railway (Simuria Extension), in the Durbhunga district, from Mouza Basaria to Mouza Ajuaul, will be put up to sale at the Dalsingsarai Railway Station on the 25th March 1889.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The balance of purchase money due under the 3rd condition may be paid either to the Collector or into the Government treasury at Durbhunga for lands situated in the Durbhunga district.

5th.—The plots of land will be sold revenue free to the highest bidders.

6th.—The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated within the boundaries of the abandoned Bazitpur Branch of the Tirhoot State Railway, in the district of Durbhunga, from mouza Sahit to mouza Basaria, will be put up to sale at the Dalsing Sarai Railway Station on the 25th March 1889.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The balance of purchase money due under the 3rd condition may be paid either to the Collector or in the Government Treasury at Durbhunga for lands situated in the Durbhunga district.

5th.—The plots of land will be sold revenue free to the highest bidders.

6th.—The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

Moorshedabad Collectorate, Berhampore, the 8th December 1888.

R. H. ANDERSON, Deputy Collector, for Collector.

NOTICE is hereby given that the undermentioned plots of the Nizamut lakhraj State lands, situated in the district of Moorshedabad, will be put to sale at the Collectorate of Moorshedabad on the 28th March 1889, corresponding with 16th Chait 1295 (B.S.)

The purchasers of the plots will be subject to the following conditions:—

I.—The plots will be sold revenue free to the highest bidders above the upset price.

II.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators.

III.—If the amount of the purchase money do not exceed Rs. 100, the whole amount will be paid down at once.

IV.—If the amount of the purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited by Government) and the estates to be again put up for sale at the risk of the defaulting purchasers after issue of advertisement as in the case of original sale.

V.—The purchasers shall be put in possession on receipt of the orders of the Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

R. H. ANDERSON, for Offg. Collector.

NOTICE is hereby given that the undermentioned plots of the Nizamut lakhraj State lands, situated in the district of Burdwan, will be put up to sale at the Collectorate of Burdwan on Thursday, the 28th March 1889, corresponding to 16th Choitra 1295B.S.

The purchasers of the plots will be subject to the following conditions :—

I.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale.

II.—The sale to be subject to existing leases, and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

III.—If the amount of the purchase-money do not exceed Rs. 100, the whole amount will be paid down at once.

IV.—If the amount of the purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up for sale at the risk of the defaulting purchasers after issue of advertisement as in the cas of original sale.

V.—The purchasers shall be put in possession on receipt of the orders of the Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

A. MANSON, Collector.

NOTICE is hereby given that the undermentioned plots of the Nizamut Lakhraj Estate lands, situate in the district of Hooghly, will be put up to sale at the Collectorate of Hooghly on Thursday, the 21st March 1889.

The purchasers of the plots will be subject to the following conditions :—

I.—The plots will be sold revenue free to the highest bidders above the upset price.

II.—The sale to be subject to existing leases, and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

III.—If the amount of the purchase-money do not exceed Rs 100, the whole amount will be paid down at once.

IV.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estates to be again put up for sale at the risk of the defaulting purchasers after issue of advertisement as in the case of original sale.

V.—The purchasers shall be put in possession on receipt of the orders of the Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

PEARL FISHERY AT DUTCH BAY IN CEYLON.

The following communication is published for general information.

By order of the Lieutenant-Governor,
P. NOLAN,
Secretary to the Govt. of Bengal.

Dated the 15th January 1889.

No. 89, dated Colombo, the 17th December 1888.

From—The Colonial Secretary, Government of Ceylon,
To—The Secretary to the Government of India.

I AM directed by His Excellency the Hon'ble Arthur H. Gordon, Governor of Ceylon, to transmit to you the accompanying advertisement of a Pearl Fishery which it is intended to hold in Dutch Bay on the west coast of Ceylon in February 1889, and I am to request you to be good enough, with the permission of His Excellency the Viceroy and Governor-General of India in Council, to have them widely circulated.

PEARL FISHERY OF 1889.

NOTICE is hereby given that a Pearl Fishery will take place at Dutch Bay, in the Island of Ceylon, on or about 10th February 1889. The bank to be fished is the Muttuwartu Paar, in 5 to 7 fathoms water, estimated to contain oysters sufficient to employ 100 boats for 30 days with average loads of 10,000 oysters each per day.

It is therefore necessary that such boat owners and divers as may wish to be employed at the said fishery should be at Dutch Bay on or before 6th February next; and it is notified that the first day's fishing will take place on or about 10th February, if possible.

Dutch Bay is on the west coast of Ceylon, 25 miles south of Silávatturai and 4 miles north of Kalpitiya. It can be reached by sea or by backwater from Colombo.

The fishery will be conducted on account of Government, and the oysters put up to sale in such lots as may be deemed expedient.

The arrangements of the fishery will be the same as have been usual on similar occasions.

All payment to be made in ready money in Ceylon currency.

Drafts on the banks in Colombo or bills on the Agents of this Government in India, at ten days' sight, will be taken, on letters of credit being produced to warrant the drawing of such drafts or bills.

For the convenience of purchasers, the Treasurer at Colombo and the different Government Agents of Provinces will be authorised to receive cash deposits from parties intending to become purchasers, and receipts of these officers will be taken in payment of any sums due on account of the fishery.

No deposit will be received for a less sum than Rs. 250.

By His Excellency's command,
E. NOEL WALKER,
Colonial Secretary.

Notice.

THE right of working the copper mines at Chunabatti, in the sub-division of Alipur, Western Dooars, will be put up to auction on 15th March 1889, in the Court of the Sub divisional Officer of Alipur. Settlement will be made with the highest bidder for five years, commencing from 1st April 1889. Chunabatti is situate two miles west of Buxa in the Western Dooars. Plenty of labour, firewood and good water is available on the spot. There is a good road, and the mines can be worked with little difficulty. It is believed that any person or company who may work the mines will obtain a good profit. Sixteen seers of copper are said to be obtainable from each bazar maund of ore. A specimen of the copper can be seen at the Office of the Secretary to the Chamber of Commerce, Calcutta. Any further information will be supplied by the undersigned.

DONALD SUNDER,
Sub-divisional Officer, Alipur Dooars.

Alipur Dooars Sub-division, dated 12th Nov. 1888.

MOHAMED ISHFAK, B.A., B.L., intends to apply for enrolment as a Vakeel of the High Court.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 18th January, 1889:—

No. 1 OF 1889.

A Bill to amend the Sea Customs Act, 1878, and the Indian Tariff Act, 1882.

WHEREAS it is expedient to amend the Sea Customs Act, 1878, and the Indian Tariff Act, 1882; It is hereby enacted as follows:—

Sea Customs Act, 1878.

Amendment of section 37, Act VIII, 1878.

8. **1.** For the provisos to section 37 of the Sea Customs Act, 1878, the following proviso shall be substituted, namely:—

"Provided that, if such goods are warehoused under this Act, the rate and valuation (if any) applicable thereto shall be the rate and valuation in force on the date on which application is made to clear such goods from the warehouse for home-consumption."

Amendment of section 110, Act VIII, 1878.

2. For section 110 of the same Act the following shall be substituted, namely:—

Clearance of bonded goods for home-consumption.

"**110.** Any owner of goods warehoused may, at any time within three years from the date of the bond executed in respect thereof under section [illegible] clear such goods for home-consumption by paying—

(a) the duty levi[illegible]nt, [illegible]ch goods at the rate and a[illegible]orce the valuation (if any) applicable thereto on the date on which application is made to clear such goods from the warehouse for home-consumption, and

(b) all rent, penalties, interest and other charges payable to the Customs-collector in respect of such goods."

Amendment of section 115, Act VIII, 1878.

3. In section 115 of the same Act, the words "in accordance with the second proviso to section 37" are hereby repealed.

Indian Tariff Act, 1882.

Addition of new section to Act XI, 1882.

4. The following section shall be added to the Indian Tariff Act, 1882, namely:— XI of 1882.

When contracts have been entered into, amount of increased or decreased duty to be added or deducted.

"**10.** In the event of any duty of customs or excise on any article being imposed, increased, decreased or remitted after the making of any contract for the sale of such article without stipulation as to the payment of duty where duty was not chargeable at the time of the making of the contract, or for the sale of such article duty-paid where duty was chargeable at that time,— [39 & 40 Vict., c. 36, s. 20.]

(a) if such imposition or increase so takes effect that the duty or increased duty, as the case may be, is paid, the seller may add so much to the contract-price as will be equivalent to the duty or increase of duty, and he shall be entitled to be paid and to sue for and recover such addition, and

(*b*) if such decrease or remission so takes effect that the decreased duty only or no duty, as the case may be, is paid, the purchaser may deduct so much from the contract-price as will be equivalent to the decrease of duty or remitted duty, and he shall not be liable to pay or be sued for or in respect of such deduction."

Amendment of the Second Schedule to Act XI, 1882.

5. In No. 1 of the Second Schedule to the same Act, for the following, namely :—

No.	Names of Articles.	Per	Tariff valuation.	Rate of duty.
*	*	*	*	*
			Re. A.	
	Gunpowder, common.	lb.	0 5	10 per cent.
	Gunpower, sporting.	lb.	1 0	10 per cent.
	All other sorts .	...	*Ad valorem.*	10 per cent.

there shall be substituted the following, namely :—

No.	Names of Articles.	Per	Tariff valuation.	Rate of duty.
*	*	*	*	*
			Re. A.	
	Gunpowder, common.	lb.	0 5	10 per cent.
	Gunpowder, sporting.	lb.	1 0	10 per cent.
	All other sorts of Arms, Ammunition and Military Stores.	...	*Ad valorem*	10 per cent.

Explanation.—The expression "Arms, Ammunition and Military Stores," as used in the foregoing part of this Schedule, includes, in addition to any article specifically mentioned in that part,—

(*a*) all articles which are either "arms" or "ammunition" within the meaning of the Indian Arms Act, 1878, and XI of 1878.

(*b*) any articles which the Governor General in Council may from time to time, by notification in the Gazette of India, declare to be "military stores" for the purposes of this Act.

STATEMENT OF OBJECTS AND REASONS.

THE main object of this Bill (section 1) is to repeal the proviso to section 37 of the Sea Customs Act, 1878, which enacts that when the rate of duty or tariff-valuation (if any) applicable to any goods imported has been raised after the grant of port-clearance at the port of shipment, the rate and valuation applicable to such goods shall be, not the rate and valuation in force on the date on which the bill-of-entry thereof is delivered to the Customs-collector under section 86 of the Act, but the rate and valuation in force on the date on which port-clearance at the port of shipment was granted. There is no precedent for such a proviso either in the law of England or, so far as the Government of India has been able to ascertain, in the law of any other country. The proviso was adversely criticised while the Bill, which became the Sea Customs Act, 1878, was under consideration : it has had the effect, which was then anticipated, of seriously disturbing trade, and it has caused very heavy loss of revenue to the Government.

Another object of the Bill (section 2) is to make it clear that where, after goods liable to duty have been assessed and warehoused, the duty is repealed, the goods may be cleared from the warehouse for home-consumption free of duty.

A third object (section 4) is to introduce into India the rule enacted in 18 & 19 Vict., c. 97, s. 9, and continued in 39 & 40 Vict., c. 36, s. 20. It was proposed to incorporate such a rule in the Bill which became the Sea Customs Act, 1878, but the proposal was not approved by the mercantile community and was on that account abandoned. The rule, however, has been in operation in the United Kingdom since 1855, and would seem, from the fact of its re-enactment by Parliament in 1876 and from the absence of any reference to it in the Law Reports, not to have entailed the ill effects which were feared when its introduction into India was last considered. In these circumstances, it is held to be desirable to insert the rule in the Bill with a view to its being carefully considered again.

A fourth object (section 5) is to define the expression "arms, ammunition and military stores," as used in the Indian Tariff Act, 1882, and to enable the Governor General in Council to declare from time to time what articles are to be deemed to be "military stores" within the meaning of the Act. The amendment necessary for this purpose will not affect any notification for the time being in force under section 23 of the Sea Customs Act, 1878.

- Letter to the Government of India, Revenue and Agricultural Department, No. 186, dated 3rd December 1888.
- Letter from the Government of India, Revenue and Agricultural Department, No. 234—26-24E., dated 21st December 1888.

The special procedure provided by Act I of 1882 for enforcing labour contracts in certain specified areas is in force, as far as the Lower Provinces are concerned, only in the districts of Chittagong and the Chittagong Hill Tracts. The Commissioner of Chittagong has frequently urged their withdrawal as not required in his division; and in reviewing the departmental report for the year 1885, Sir Rivers Thompson so far accepted this view as to express a hope that the time was approaching when, considering the falling off in the number of labourers enrolled under the Act, it would be possible to adopt the course recommended. As the results of the following year showed a further decline, Sir Steuart Bayley called for a special report on the subject, which the Commissioner has since submitted. In this communication it is stated that such planters as had been consulted are unanimous in considering that the Act is not required, the ordinary law being sufficient to guard the interests both of employers and employed. This is the view of the District Officers also, and the Commissioner gives his own opinion as follows:—

"It is not adapted to a district where labour is as plentiful as it is here, and where there is, now at least, no objection to taking work on a garden. So far as I have seen, the Act here is entirely against the interests of the cooly and of the better class of planters, while it is favourable to the worst class of planters only. Happily this last class is so small that it may be said to be non-existent. I strongly recommend, therefore, that under the provisions of section 4, the Inland Emigration Act be withdrawn entirely from the districts of Chittagong and the Chittagong Hill Tracts."

2. In deciding whether the recommendation thus forcibly expressed by the local officers should be accepted, the Lieutenant-Governor has to give due weight to the consideration that the Government of India has repeatedly indicated for adoption the policy of dispensing with special legislation on the subject of labour contracts wherever it is possibie to do so, leaving the matter to the operation of the ordinary law of the country. "Such legislation," the Secretary of State observed in a despatch No. 102, dated 4th November 1886, "should be considered as temporary only, and clearly ought not to be maintained longer than is absolutely necessary for the protection of both the classes concerned." Viewed from this standpoint, it seems clear that the retention of the system in the two districts referred to scarcely admits of defence. In the Hill Tracts the Act cannot be said to be necessary, as it is not now resorted to even in the case of a single labourer. In Chittagong the number of labourers placed under contract according to the provisions of the Act was never large, and has rapidly decreased in recent years: it was 915 in 1884 and had fallen to 433 in 1887, with the prospect of a further decrease in the immediate future. There is nothing in the condition of the tea industry in Chittagong to suggest that it should be placed under an exceptional system, different from that prevailing in the rest of the province, and particularly in the districts of Darjeeling and Julpigoree, which are now the chief seats of the cultivation of the tea plant. Chittagong is more densely populated than other tea districts in Bengal, local labour is more generally used, and the importation of coolies is resorted to only on a very minute scale. The maintenance of the statutory contract system cannot, therefore, be looked upon as really a necessity in that district, and there is even reason to believe that, so far as it has any effect at all, it is rather a hindrance than an aid to the progress of tea cultivation. It certainly has not effected the object which the late Commissioner of Chittagong had in view when recommending its introduction in the year 1877—that of modifying the system of task work in the interest of the labourer.

3. The Inland Emigration Act leaves to the Local Government, with the previous consent of the Government of India, the power of altering from time to time the area within which the law is in force. The Lieutenant-Governor considers that this power should now be exercised, and accordingly issues the appended notification with the approval of the Governor-General in Council. The Superintendent and Remembrancer of Legal Affairs to Government has advised that this measure will not affect existing contracts otherwise than by putting an end to the exceptional procedure by which they are at present enforced, leaving them in operation as ordinary engagements within the cognizance of the civil courts.

ORDER—Ordered that a copy of this Resolution and of the notification be forwarded to the Commissioner of the Chittagong Division, with reference to the correspondence ending with his letter No. $\frac{7670\text{ M.}}{\text{IX}-5}$, dated 13th August 1888, for information, and for favour of communication to the Inspectors of Labourers and Managers of tea-gardens.

Ordered also, that a copy of the Resolution and of the notification be forwarded to the Superintendent of Emigration, Calcutta, for information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Government of Bengal.

Dated Calcutta, the 8th January 1889.

NOTIFICATION—By the Government of Bengal, General Department.

UNDER section 4 of the Inland Emigration Act I of 1882, the Lieutenant-Governor of Bengal, with the previous sanction of the Governor-General in Council, is pleased to declare that, on and from the 1st April 1889, the labour-districts of Chittagong and the Chittagong Hill Tracts shall cease to be subject to the provisions of the said Act by which they are declared to be labour-districts, and to all the provisions of the Act applicable only to labour-districts.

BEHAR.				
Patna Divn.	26	**Patna** Jan. 19, '89	0·04	Weather—occasionally cloudy. Poppy doing well everywhere. Prospects of *rubbi* favourable. Prices almost stationary.
	27	**Gya** " 19, '89	Nil	Weather—hot and cold. Paddy is being harvested and threshed. Prospects of *rubbi* and poppy promising. Prices almost stationary.
	28	**Shahabad** " 19, '89	0·01	Weather—cool and bright with occasional clouds. Threshing of paddy and pressing of sugarcane going on. Prospects of *rubbi* and poppy continue favourable, but more rain wanted. Prices stationary.
	29	**Durbhunga** " 19, '89 Tajpore ... Madhubani ...	0·02 0·25 0·30	Weather—occasionally cloudy. *Rubbi* prospects generally fair. Poppy and tobacco continue promising. A little injury is reported to have been done to *rahar* crop by hail in Tajpore sub-division. Common rice selling at 11 seers (pucka) per rupee in Durbhunga.
	30	**Mozufferpur** " 19, '89 Sitamarhi ...	0·50 0·03	Weather—cold and cloudy. Poppy doing well everywhere. Prospects of *rubbi* favourable in Sudder and Hajipore sub-divisions, and fair in South Sitamarhi, but unfavourable in North Sitamarhi. The rainfall on the 13th instant has been beneficial to *rubbi* crops, but it was not general. Hail did some damage on same date.
	31	**Sarun** " 19, '89 Sewan ..	0·10 0·48	Weather—cloudy. Slight rain on 13th, and a few showers this morning (19th). *Rubbi* and poppy much benefited by rain, but slightly damaged by hail in some places in the Sewan sub-division. Prospects, however, continue excellent.
	32	**Chumparun** " 19, '89	Nil	Weather—cloudy off and on; unusually warm for this time of year. Prospects of standing *rubbi* and poppy crops fair, but rain is needed. Prices ruling very high as compared with the corresponding period of last year. Pressure in the affected tract increasing, but not acute.
Bhagulpore Divn.	33	**Monghyr** Jan. 19, '89 Beguserai ...	0·14 0·24	Weather—seasonable, cloudy at times. The hail which accompanied the rain on the 13th has done a little injury to the crops in flower; otherwise the rain has been beneficial to the young *rubbi* crops. Prices steady.
	34	**Bhagulpur** " 19, '89	0·34	Weather—too warm for the season. The rai[illegible] though lighter in the north and south, has done good; but more is wan[illegible]d for the cereals. It was heaviest in the chief *rubbi* tract. Prospec[illegible] very fair. Mustard being gathered. Prices pretty steady.
	35	**Purneah** " 19, '89	0·15	Weather—cloudy and chilly. *Rubbi* crops doing fai[illegible] well.
	36	**Maldah** " 19, '89 Chanchal ... Shibgunge ... Gajole ...	0·48 0·13 0·07 0·09	Weather—cool and seasonable [illegible]he rai[illegible] has done g[illegible] to the *rubbi* crops, and prospects are now favoura[illegible]
	37	**Sonthal Perghs.** " 19, '89 Jamtara ... Rajmahal ...	0·19 0·30 0·46	Weather—rather hot for the seaso[illegible] *Dhan* harvest is over. The little rain o[illegible] this week did some good [illegible] the *rubbi* crops, which promise well.
ORISSA				
Orissa Divn.	38	**Cuttack** Jan. 18, '89	Nil	Weather—seasonable. Reaping of *sarad* rice in progress. Prices rising. Common rice s[illegible]lls at 18 seers 6 chittacks per rupee in town.
	39	**Pooree** " 17, '89	Nil	Weather—seasonable. Threshing of winter rice going on. *Dalua* crop doing well. *Moong* [illegible]s being sown. Common rice 20 seers 13 chittacks per rupee in the Sudde[illegible] sub-division, and 19 seers 9 chittacks in the Khoorda sub-division.
	40	**Balasore** " 18, '89	Nil	Weather—rather [illegible]t for this time of year. *Rubbi* crops being harvested. Prospects favo[illegible]able. Price of rice ranges from 21 to 32 seers per rupee in the district.
CHOTA NAGPORE.				
		South-West Frontier Agency.		
Chota Nagpore Divn.	41	**Hazaribagh** Jan. 18, '89	0·24	Weather—warm f[illegible] the season Very slight rain on the 13th. It has not improved pros[illegible]cts of *rubbi* materially. Poppy doing well except in Bogodur, where [illegible]t is suffering for want of proper irrigation Prices show a slight tendency [illegible]o rise in the towns of Hazaribagh and Chutra.
	42	**Lohardugga** " 19, '89	0·02	Weather—getting [illegible]arm. Some slight rain during the week; more urgently wanted for *rub[illegible]* crops. Prices almost steady.
	43	**Singbhoom** " 18, '89	Nil	Weather—getting [illegible]tter every day. Sky was cloudy for a few days of the week. Paddy [illegible]early harvested; outturn would be about 14 annas. Prospects of *rubb[illegible]* crops bad owing to want of rain. Sugarcane seems to be good, and out[illegible]rn will be about 14 annas and in some places 16 annas. Outturn of *bi[illegible]* crop will be about 10 to 12 annas, of mustard about 4 annas, and of gram [illegible]bout 6 or 7 annas. Prices same as in last week.
	44	**Manbhoom** " 19, '89 Gobindpur ..	0·12 0·12	Weather—for t[illegible] time being very hot. Sugarcane pressing is going on: outturn varie[illegible] from 8 to 14 annas. *Rubbi* suffered greatly for want of rain; outturn as fo[illegible]ws:—*Surso* (mustard) 7 annas, *surguja* 8 annas, gram 8 annas. Padd[illegible] harvest almost over; outturn about 12 annas.

* Means of six days.

† Do. of five ,,

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last ten yea[rs]
The *humidity* of the atmosphere is expressed at percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numb[ers]
are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past
stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

or the week ending Friday, the 18th of January 1889.

* Mean of six days.

The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater. [illegible] denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head District observ[illegible]ions of rainfall the normal means [illegible] years. The means of the distri[illegible] are the numerical average of the rainfall return received in the district, *i.e.*, from [illegible] rainfall at the sub-divisional

CALCUTTA, *the 22nd January* 1889.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 18TH JANUARY 1889.

At the end of the previous week the barometer was falling at all stations. On the 12th a brisk fall of pressure occurred over the greater part of the province which resulted in the formation of a shallow but distinct low-pressure area over Central and West Bengal and over the greater part of Behar. In consequence of this depression moist southerly winds set in over the north of the Bay and the neighbouring districts, though northerly winds still continued to blow in the centre and south of the Bay. With the reversal of the winds in Bengal temperature increased very rapidly in the southern districts and became abnormally high, while at the same time humidity became very high, and in some cases the air was almost saturated with moisture. On the 13th pressure rose briskly in Bengal and the shallow depression filled up, but still southerly winds continued to blow at most of the stations near the sea coast. At this time also it would appear that the disturbed conditions which had been travelling south-eastwards along the line of the Himalayas existed over the hills to the north of Bengal, and there is little doubt that the southerly moist winds blowing from the head of the Bay went to feed this disturbance, for on the 13th fairly general rain was reported over almost the whole of Behar, and on the 14th the rainfall had extended over considerable parts of North Bengal and Chutia Nagpur and to a few districts in Central and East Bengal. The disturbance, however, rapidly passed away, and on the 15th practically no rain was reported from any station. The rainfall was decidedly heaviest in North Bengal, but falls exceeding an inch were only received at two or three stations. Notwithstanding the filling up of the depression and the disappearance of the disturbance, light and rather variable, but usually southerly winds still continued to blow at the head of the Bay for several days, and temperature in South Bengal continued to increase, while humidity remained very high, and these conditions remained almost unchanged over this district until the close of the week. Northerly winds were, however, commencing to blow from the middle of the week in North Bengal and North Behar, and were slowly driving back the moist southerly winds which prevailed in South Bengal; and thus while at the close of the week conditions over the north of the province were normal for the cold weather, very abnormal conditions as to temperature and humidity prevailed over the whole of South Bengal.

Pressure.—Pressure has been slightly in defect over almost the whole province, a few stations only in East Bengal and Chutia Nagpur reporting slight excess. On the 12th a very abnormal distribution occurred. There was a general fall, in some cases amounting to nearly a tenth of an inch, in South Bengal, and causing there a slight depression, which decidedly influenced the wind directions and weather during the whole of the week. On Sunday, the 13th, the depression began to fill up, though, owing to a slight fall on the following day, the normal distribution was not restored till about the middle of the week. Though pressure has been highest over Orissa, there has been a slight defect there. The largest defect is in South-West Bengal in the neighbourhood of Calcutta, where it amounts to about ·05 inch. The principal changes have thus been the general fall reported on Saturday, 12th, and, with some exceptions, a slight steady rise until the last day of the week, when there was again a general fall.

Temperature.—The main feature in the temperature changes during the week was the extraordinarily rapid rise which took place from the 11th to the 12th at the southern stations, and from the 12th to the 13th further inland. The rise was most rapid in South-West Bengal, where at several stations the minimum temperature increased 10° and upwards in the 24 hours. Temperature also continued generally to increase in all districts except the north of the province, and thus the average temperature for the week for the greater part of the province has been largely in excess. The excess in the mean temperature for the week in South-West Bengal has been nearly 7°, while in Chutia Nagpur it has been nearly 8°. Smaller excess temperatures have been registered in all other districts except North Behar, where a defect of 1·4° is registered.

The general range of temperature during the week and its large variation from that usually obtaining at this season is shown in the table below, where the average maximum, minimum and mean temperatures at nine typical stations in different districts of the province are given, compared with the normal values for the same period:—

Rainfall.—The average rainfall in North Bengal during the week has equalled nearly three-tenths of an inch, while in East Bengal, Behar, and Chutia Nagpur it has averaged from one to two-tenths. In South-West Bengal the average fall has been smaller than this, while Orissa has been rainless. Taking up the rainfall district by district, the following districts have received an average fall from half to one inch:—Pubna and Rajshahye; the following falls averaging from a quarter to half an inch:—Beerbhoom, Moorshedabad, Mymensing, Bogra and Maldah; and the following falls from a tenth to a quarter of an inch:—Comillah, Dinagepore, Rungpore, Mozufferpore, Sarun, Bhagulpore, Sonthal Pergunnahs, Lohardugga, and Manbhoom.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 18th of January 1889:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

From the annexed table exhibiting the vital statistics of the principal municipalities in Bengal for the week ending 5th January 1889, it appears—

1. That during the week in question births and deaths were registered in the proportions, respectively, of 25·4 and 28·9 per 1,000 of population, as opposed to 23·6 and 29·6 per 1,000, respectively, during the preceding week ending 29th December 1888, indicating an improvement in the registration of births.

2. That births and deaths were recorded at the highest rates from the following municipalities:—

Births.

	Ratio per *mille.*
Utterpara	56·6
Monghyr	41·6
Howrah	37·8
Puri	37·8
Naraingangj	37·3
Chupra	36·1
Rampore Beauleah	34·2
Darjiling	32·6
Durbhanga	32·3
Bhagulpore	30·8
Gya	30·1
Ranaghat	29·9

Deaths.

	Ratio per *mille.*
Suburbs of Calcutta	59·6

Naraingangj	37·3
Puri	35·7
Rampore Beauleah	34·2
Burdwan	33·6
Darjiling	32·6
Howrah	29·2

3. That the only noticeable point, in connection with the incidence of the specific death-causes in comparison with the outcome of the preceding week, is a sensible abatement in the mortality from cholera, *vide* subjoined table:—

	Ratio per *mille* during the weeks ending— 5th January 1889	29th December 1888.
Cholera	[illegible]	13·7
Small-pox	·2	·1
Fever	11·3	11·3
Bowel-complaints	5·3	5·0
Injury	·5	·4
Other causes	8·9	9·0

4. That no municipalities suffered much from small-pox, or presented a large number of casualties from injury. The following municipalities returned high death-rates from the other diseases specified in the foregoing table:—

Cholera.

	Ratio per *mille.*
Naraingangj	16·6
Suburbs of Calcutta	7·7
Mozufferpore	4·9
Howrah	4·0

Fever.

	Ratio per *mille.*
Rampore Beauleah	26·3

5. That under the heads of *Sex, Class* and *Age*, the mortality stood as follows:—

According to Sex.

	Ratio per *mille.*
Males	32·4
Females	25·0
Ratio of male deaths to every 100 female deaths	146

According to Class.

	Ratio per *mille.*

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorised form of age classification.

AT THE COURT AT WINDSOR, THE 17TH DAY OF NOVEMBER 1888.

PRESENT :

THE QUEEN'S MOST EXCELLENT MAJESTY.

Lord President	...	...	Sir Henry Ponsonby.
Marquess of Lothian	...	...	Mr. Robertson.

WHEREAS by the "Foreign Deserters Act, 1852," it is provided that, whenever it is made to appear to Her Majesty that due facilities are or will be given for recovering and apprehending seamen who desert from British merchant ships in the territories of any Foreign Power, Her Majesty may, by Order in Council, stating that such facilities are or will be given, declare that seamen, not being slaves, who desert from merchant ships belonging to a subject of such Power when within Her Majesty's dominions shall be liable to be apprehended and carried on board their respective ships, and may limit the operation of such Order, and may render the operation thereof subject to such conditions and qualifications, if any, as may be deemed expedient:

And whereas it hath been made to appear to Her Majesty that due facilities for recovering and apprehending seamen (not being Brazilian subjects) who desert from British merchant ships in the territories belonging to His Majesty the Emperor of Brazil will be given under an agreement between the Governments of Great Britain and Brazil signed at Rio de Janeiro on the 30th July 1888:

Now, therefore, Her Majesty, by virtue of the power vested in Her by the said "Foreign Deserters Act, 1852," and by and with the advice of Her Privy Council, is pleased to order and declare, and it is hereby ordered and declared, that, from and after the publication hereof in the *London Gazette*, seamen, not being slaves, and not being British subjects, who, within Her Majesty's dominions, desert from merchant ships belonging to subjects of His Majesty the Emperor of Brazil, shall be liable to be apprehended and carried

on board their respective ships: Provided always that if any such deserter has committed any crime in Her Majesty's dominions he may be detained till he has been tried by a competent Court, and until his sentence, if any, has been carried into effect.

And Her Majesty, by virtue of the powers vested in Her by the said "Foreign Deserters Act, 1852," and by and with the advice of Her Privy Council, is further pleased to order and declare that upon and after the publication hereof in the *London Gazette*, the Order in Council relating to seamen who desert from the merchant ships belonging to the subjects of the Emperor of Brazil made by virtue of the said Act on 17th day of May 1876, shall be revoked, and the same is hereby revoked accordingly.

And the Secretary of State for the Home Department, the Secretary of State for the Colonies, and the Secretary of State for India in Council are to give the necessary directions herein accordingly.

To—The Secretary to the Government of Bengal.

IN continuation of my telegram of the 14th instant, I am directed to forward herewith, for the information of the Government of Bengal, copy of a Resolution of this Government, No. 285, dated 22nd idem, and of the notification issued thereunder, regarding the enforcement of the B Quarantine Rules at Aden and Perim against arrivals from Bombay.

Quarantine, Imposition of—at Aden and Perim against arrivals from Bombay.

No. 285, dated Bombay Castle, the 22nd January 1889.

[GENERAL DEPARTMENT.]

Telegram from the Government of India, Home Department, dated 21st January 1889:—

"No. 12. Your telegram 14th. Imposition of quarantine at Aden and Perim against arrivals from Bombay sanctioned."

RESOLUTION.—A notification should be published in a *Bombay Government Gazette* Extraordinary bringing the B Quarantine Rules into operation at Aden and Perim against arrivals from Bombay.

2. Copies of the notification should be forwarded to the Political Resident, Aden, and the other Officers and Departments concerned, for information, with reference to Government Resolution No. 157, dated 14th instant. Copies should also be forwarded to the Governments of India, Bengal, Madras and Ceylon, and the Chief Commissioner, Burmah.

J. DEC. ATKINS,
Under-Secretary to Government.

NOTIFICATION.

GENERAL DEPARTMENT.

Bombay Castle, 22nd January 1889.

No. 285.—In exercise of the power conferred by Act I of 1870, the following Rules for Quarantine against Cholera have been made by the Government of Bombay, with the previous sanction of the Governor-General in Council: they have effect from the 13th instant in the Port of Aden and at Perim as a temporary measure:—

I.—The Commander of every vessel, including buggalows or other native craft, arriving from Bombay, shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on arrival, the Commander shall cause the letter R of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port, or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all necessary enquiries, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the

Resident, there to remain for a period of seven days from the date of arrival, or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects, and suspectible goods.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:—

After eight days of voyage	...	...	six days of quarantine.
Do. nine ditto	...	...	five ditto.
Do. ten ditto	...	...	four ditto.
Do. eleven ditto	...	...	three ditto.
Do. twelve ditto	...	...	two ditto.
Do. thirteen ditto	and upwards	...	twenty-four hours of quarantine.

V.—If during the period a vessel is at the quarantine anchorage aforesaid, any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden and Perim, which may have communicated with vessels coming from Bombay, shall be subjected to the same quarantine as vessels arriving at Aden and Perim from that Port.

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their Bills of Health.

By order of His Excellency the Right Hon'ble the Governor in Council,

J. NUGENT,
Chief Secretary to Government.

AUSTRALIA—NORTH-WEST COAST.

EIGHTY MILES BEACH.

Bank southwestward of Patterson Shoals.

INFORMATION has been received from the British Admiralty, London (Notice to Mariners No. 396 of 1888), that the Government of Western Australia has given notice, dated 10th October 1888, that the Inspector of Pearl Shell fisheries has reported, that having sounded over the bank lying off Eighty Miles beach, he finds that it extends in a north-east and south-west direction for a distance of about 25 miles, forming a narrow ridge with depths of 3 to 7 fathoms at low water spring tides, and 12 to 15 fathoms on each side of the bank.

The position of the south-west end of the bank is lat. 19° 14′ S.; long. 121° 2′ E.; and it is evidently a continuation of Patterson shoals, the positions of which are marked "doubtful" on Admiralty Charts.

BOARD OF REVENUE, L.P., FORT WILLIAM, *the 29th January* 1889.

No. 64*B*.

NOTICE.

I.—Whereas the refund of the duty paid on salt has as a matter of grace been granted from time to time when the salt has been lost, SALT MERCHANTS, their AGENTS, and MANJIS, engaged in obtaining delivery of duty-paid salt ARE HEREBY INFORMED that no claim for the refund of duty on salt lost by boat-wreck will in future be entertained, unless the following points are proved to the satisfaction of the Board of Revenue:—

1st—That the Preventive Officer, before giving delivery, was satisfied that the boat was not obviously unsafe or unfit for a salt cargo.

2nd—That the salt was lost

3rd—That every possible effort was made by the crew of the boat to save the cargo.

4th—That there was no neglect or fraud on the part of any person concerned with the salt.

5th—That the loss of the salt occurred before the completion of the act of formal delivery of the boat's cargo.

6th—That application for reweighment was made without any avoidable delay to the Superintendent of the Preventive Service.

7th—That before the reweighment the salt was (except under special circumstances which may render this impossible) in the custody of a Customs Officer to be deputed under paragraph VI.

8th—That the expenses incurred for custody of the salt and reweighment have been paid by the rowannah-holder or other person concerned with the salt.

II.—The act of formal delivery of the boat's cargo is to be considered to be completed when (*a*) the salt in the boat has been adulled, or (*b*) the boat-note has been made over, or (*c*) the boat with a full cargo has cast off from the ship's side or the jetty at the salt golahs.

III.—Refunds of duty will not be allowed after completion of delivery in the case of loss by any accident, such as collision with buoys, the Hooghly bridge, ships or other boats, or stormy weather. On the occurrence of a cyclone, the special circumstances of the case will be considered.

IV.—The PREVENTIVE OFFICER is, before commencing delivery, to give notice in writing to the rowannahdar or his koyal or sirdar cooly, or the person taking delivery on his behalf, whose name is endorsed on the back of the rowannah, whether the boat into which it is proposed to take delivery is unsafe or unfit for a salt cargo; and, if the boat appears to become unsafe or unfit during the course of delivery, he is similarly to give notice.

V.—If the rowannah-holder or his representative (as described in paragraph IV) decide to take delivery or to continue taking delivery into a boat which the Preventive Officer has stated to be unsafe or unfit for a salt cargo, he is to be required to endorse his decision on the written notice given by the Preventive Officer, and no claim for refund of duty will, in event of loss, be entertained.

VI.—If the PREVENTIVE OFFICER during the course of delivery, *i.e.*, before it is formally complete, consider it necessary for the safety of the salt to order that the boat be cast off from the ship and beached, he may do so. He is then to arrange for the Customs flag to be hoisted on the foremast head for the information of the DIVISIONAL AND PATROL CUSTOMS OFFICER, who is on arrival to arrange for the safe custody of the salt by placing it, if possible, under adul, and if necessary sending an application to the SUPERINTENDENT of the PREVENTIVE SERVICE for a special CUSTOMS OFFICER to take charge thereof.

VII.—The special CUSTOMS OFFICER deputed under paragraph VI is to be paid for at the rate of five rupees a day with the usual fees for overtime work. If the rowannah-holder or his representative (as described in paragraph IV) declines to ask for the services of a special officer, the salt is to be left at his risk, and no claim for refund of duty will be entertained. If the salt has already been taken into safe custody, it is not to be given up until all expenses have been paid.

VIII.—On an application for reweighment of salt alleged to have been saved from boat-wreck, the SUPERINTENDENT of the PREVENTIVE SERVICE is to require the applicant to pay the expenses of the special officer deputed under paragraph VI and of the reweighment, and is on payment thereof to have the salt reweighed at once.

IX.—The object of this notice is to show the circumstances under which a claim for refund of duty on loss of salt by boat-wreck will not be entertained. No promise is made that claims entertained will necessarily be granted, and no admission is hereby made that any claim can be made as of right under any section of any law.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 23rd January 1889.—Whereas a notification, dated the 17th April 1888, declaring the intention of the Lieutenant-Governor to extend the provisions of Act IV (B.C.) of 1865 (an Act for the prohibition of the practice of inoculation) to the four thanas named in the margin, situated in the district of Cuttack, was published at page 325, Part I of the *Calcutta Gazette* of the 18th idem, and whereas no objection has been raised to the proposal, it is hereby notified for general information that, in the exercise of the power vested in the Local Government under section 3 of the Act, the Lieutenant-Governor is pleased to order that the provisions of the Act be extended to the thanas named above.

1. Cuttack.
2. Jagatsingpore.
3. Tirtol.
4. Banki.

H. J. S. COTTON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 24th January 1889.—It is hereby notified for general information that, under the power vested in him by section 19 of Act II (B.C.) of 1888, the Lieutenant-Governor has been pleased to prescribe the following rules for the election of the Commissioners for the Town of Calcutta :—

1. The first election of Commissioners under Act II (B.C.) of 1888 shall take place on 15th March 1889.

2. The polling shall take place at such stations as the Chairman may determine as soon as the ward for which contests will take place under section 31 are known. Notice of the places fixed upon shall be given by advertisement in the Municipal Office and in at least two daily newspapers not later than the 11th March.

3. The Commissioners of the Town of Calcutta shall appoint a polling officer to preside at each station, and as many assistant polling officers as they may think requisite, and may pay to each officer so appointed such reasonable remuneration for his services as they may think fit.

4. The Chairman shall supply to each polling officer a sufficient number of copies of so much of the list of voters revised in accordance with Section 22, Act II (B.C.) of 1888, as may relate to the wards for which such polling officer is appointed to take votes, and no vote shall be received by the polling officer or his assistants, unless the name of the voter is entered in such list. The Chairman shall also furnish the polling officer with the names of the candidates for each ward as announced in accordance with Section 31 of the above Act, and no vote shall be received in favour of any person other than one of such candidates.

5. All votes must be given at the poll on forms to be provided by the Chairman at the polling stations. Separate forms easily distinguishable shall be provided for each candidate, and the voter, unless he declares himself unable to write, shall write in his own hand, in the presence of the polling officer or one of his assistants, his own name, the name of the candidate for whom he votes, and the number of votes given for him. If he declares himself

unable to write, the names and number shall be written at the dictation of the voter by the polling officer or one of his assistants, and such polling officer or assistant shall in that case append his own signature to the form.

6. The Chairman shall circulate to the voters of all wards for which there will be a poll under Section 31, a post-card containing in English the name of the voter, the number of votes he is entitled to give, the names of the candidates for his ward, the polling station, and such other directions as the Chairman may think fit; such post-card shall be posted not less than two nor more than seven days before the date of election.

7. The post-card shall also advise the addressee to bring it with him to the poll as a help to identification, and if so brought, it shall be attached to the voting paper.

8. If a voter gives some of his votes to one candidate and others to one or more other candidates, he shall fill up a separate voting paper for each candidate for whom he votes.

9. It shall be the duty of the polling officer or one of his assistants to satisfy himself—

(1) That the name of the voter is entered in the list;
(2) That the voting paper is filled up in the manner prescribed in rule 5;
(3) That the name of the candidate voted for corresponds with the form assigned for such candidate.
(4) That the post-card, if brought by the voter, is attached to his voting paper or one of his voting papers;
(5) That the voter has not given more votes than he is entitled to.

10. No objection shall be taken at the polling station to the name of any voter entered in the list or to the number of votes assigned to him, but if any objection is taken to the identity of any voter, it shall be recorded on the back of the voting paper by the polling officer or his assistant.

11. If any voter gives more votes than he is entitled to, and the mistake escapes detection till after the voter has left the poll, a sufficient equal number of votes shall be deducted from each candidate voted for to bring the number of votes within the number allotted to the voter.

Illustration.—A being entitled to 6 votes gives 8 votes to X; 2 shall be deducted.

B being entitled to 4 votes gives 5 to X and 3 to Y; 3 votes shall be allowed to X and 1 to Y.

C being entitled to 7 votes gives 4 to X, 4 to Y and 3 to Z; 2 shall be allowed to X, 2 to Y and 1 to Z and 2 votes be lost.

12. The polling shall commence at 9 A.M. and close at 6 P.M., and if it cannot be finished for any ward by that hour, it shall be continued on the following day at 9 A.M. till finished.

13. The polling officer shall be entrusted with the maintenance of order at the polling station, and all voters shall, while at or near the polling station, comply with all reasonable orders issued by him for the preservation of order.

14. At the close of the poll for each ward, the polling officer shall forward to the Chairman the voting papers which have been received by him duly sealed and secured, sending the voting papers to which objections have been taken separately from those to which no objections have been taken.

15. All claims or objections preferred under Section 21 shall be decided by the Chairman ward by ward, and he shall give such notice in the Municipal Office of the date of hearing for each ward as may be practicable. Such hearing shall be conducted with open doors in order that any intending candidates or their agents may be present, and the Chairman shall hear any person present who asks to be heard before disposing of such claim or objection.

16. After the publication of the revised list under Section 22, further objections to the list may be taken on the following grounds:—

(*a*) That the voter is dead or is a woman or has not attained the age of 21 years;
(*b*) That the voter is the same as another person whose name is on the list, and ought to appear only once on the list;
(*c*) That the voter, though purporting to be authorised to vote under Section 24 on behalf of a Hindu joint-family, company, firm or other association of persons, is not duly authorised;
(*d*) Such objection must be in writing and must be delivered to the Chairman on or before the 14th March.

17. Such objections, as well as all objections under rule 10 or 11, shall be heard by the Chairman after the date of election, and the provisions of rule 15 shall apply to the hearing of the objections.

18. The Chairman shall, as soon as practicable, after disposing of objections under the last preceding rule, publish at the Municipal Office and in the *Calcutta Gazette*—

(*a*) The names of all candidates elected for wards for which there was no polling as provided in Section 24;
(*b*) The names of all candidates for wards for which there has been polling, together with the number of valid votes given for each candidate, and the two candidates who have obtained the majority of valid votes shall be deemed to be duly elected Commissioners.

19. Except as otherwise provided in section 23, the Chairman's decision in all matters connected with the preparation of the list of voters and the validity of votes shall be final for the purposes of the election.

20. The following penalties are imposed for breach of these rules :—

(*a*) For signing a name other than the writer's own name on a voting form under rule 5, or for giving a name other than the voter's own name to the polling officer or assistant polling officer, a fine not exceeding Rs. 200.

(*b*) For intercepting a post-card or intentionally hindering the delivery of a post-card addressed to a voter under rule 6, a fine not exceeding Rs. 100.

(*c*) For taking away a post-card from a voter after it has reached him without his consent, a fine not exceeding Rs. 100.

(*d*) For refusing to obey the reasonable orders or directions of a polling officer under rule 13, a fine not exceeding Rs. 50.

(*e*) For tampering with any voting paper after it has been duly filled up and before the result of the election is declared under rule 18, a fine not exceeding Rs. 200.

N.B.—The word Chairman in these rules includes any other officer appointed under section 27 or 28 of Act II (B.C.) of 1888.

H. J. S. COTTON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 29th January 1889.—It is hereby notified that the Lieutenant-Governor is pleased to approve the election by the members of the Sasseram Local Board, in the district of Shahabad, under section 29 of Act III (B.C.) of 1885, of Mr. A. Monghyr Collectorate, the 20th December 1888.

W. O'Reilly, for Collector.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the main line of the Tirhoot State Railway (Simuria Extension), in the Durbhunga district, from Mouza Basaria to Mouza Ajnaul, will be put up to sale at the Dalsing Sarai Railway Station on the 25th March 1889.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The balance of purchase money due under the 3rd condition may be paid either to the Collector or into the Government treasury at Durbhunga for lands situated in the Durbhunga district.

5th.—The plots of land will be sold revenue free to the highest bidders.

6th.—The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

A. H. WARDE-JONES, for Collector.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated within the boundaries of the abandoned Bazitpur Branch of the Tirhoot State Railway, in the district of Durbhunga, from mouza Sahit to mouza Basaria, will be put up to sale at the Dalsing Sarai Railway Station on the 25th March 1889.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then at noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The balance of purchase money due under the 3rd condition may be paid either to the Collector or in the Government Treasury at Durbhunga for lands situated in the Durbhunga district.

5th.—The plots of land will be sold revenue free to the highest bidders.

6th.—The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

A. H. WARDE-JONES, for Collector.

NOTICE is hereby given that the undermentioned plots of the Nizamut lakhraj State lands, situated in the district of Burdwan, will be put up to sale at the Collectorate of Burdwan on Thursday, the 28th March 1889, corresponding to 16th Choitra 1295B.S.

The purchasers of the plots will be subject to the following conditions :—

I.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale.

II.—The sale to be subject to existing leases, and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

III.—If the amount of the purchase-money do not exceed Rs. 100, the whole amount will be paid down at once.

IV.—If the amount of the purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up for sale at the risk of the defaulting purchasers after issue of advertisement as in the cas of original sale.

V.—The purchasers shall be put in possession on receipt of the orders of the Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

A. AHMED, for Collector of Burdwan.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Rungpore, will be put up to sale at the Rungpore Collectorate on the 4th February 1888, corresponding with 23rd Magh 1295 B.S.

The purchaser will be subject to the following conditions of sale:—

Conditions of sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchaser to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

C. G. H. ALLEN, For Collector.

PEARL FISHERY AT DUTCH BAY IN CEYLON.

The following communication is published for general information.

By order of the Lieutenant-Governor,
P. NOLAN,
Dated the 15th January 1889. *Secretary to the Govt. of Bengal.*

No. 39, dated Colombo, the 17th December 1888.

From—The Colonial Secretary, Government of Ceylon,
To—The Secretary to the Government of India.

I AM directed by His Excellency the Hon'ble Arthur H. Gordon, Governor of Ceylon, to transmit to you the accompanying advertisement of a Pearl Fishery which it is intended to hold in Dutch Bay on the west coast of Ceylon in February 1889, and I am to request you to be good enough, with the permission of His Excellency the Viceroy and Governor-General of India in Council, to have them widely circulated.

PEARL FISHERY OF 1889.

NOTICE is hereby given that a Pearl Fishery will take place at Dutch Bay, in the Island of Ceylon, on or about 10th February 1889. The bank to be fished is the Muttuwartu Paar, in 5 to 7 fathoms water, estimated to contain oysters sufficient to employ 100 boats for 30 days with average loads of 10,000 oysters each per day.

It is therefore necessary that such boat owners and divers as may wish to be employed at the said fishery should be at Dutch Bay on or before 6th February next; and it is notified that the first day's fishing will take place on or about 10th February, if possible.

Dutch Bay is on the west coast of Ceylon, 25 miles south of Silávatturai and 4 miles north of Kalpitiya. It can be reached by sea or by backwater from Colombo.

The fishery will be conducted on account of Government, and the oysters put up to sale in such lots as may be deemed expedient.

The arrangements of the fishery will be the same as have been usual on similar occasions.

All payment to be made in ready money in Ceylon currency. Drafts on the banks in Colombo or bills on the Agents of this Government in India, at ten days' sight, will be taken, on letters of credit being produced to warrant the drawing of such drafts or bills.

For the convenience of purchasers, the Treasurer at Colombo and the different Government Agents of Provinces will be authorised to receive cash deposits from parties intending to become purchasers, and receipts of these officers will be taken in payment of any sums due on account of the fishery.

No deposit will be received for a less sum than Rs. 250.

By His Excellency's command,
E. NOEL WALKER,
Colonial Secretary.

Notice.

THE right of working the copper mines at Chunabatti, in the sub-division of Alipur, Western Dooars, will be put up to auction on 15th March 1889, in the Court of the Sub divisional Officer of Alipur. Settlement will be made with the highest bidder for five years, commencing from 1st April 1889. Chunabatti is situate two miles west of Buxa in the Western Dooars. Plenty of labour, firewood and good water is available on the spot. There is a good road, and the mines can be worked with little difficulty. It is believed that any person or company who may work the mines will obtain a good profit. Sixteen seers of copper are said to be obtainable from each bazar maund of ore. A specimen of the copper can be seen at the Office of the Secretary to the Chamber of Commerce, Calcutta. Any further information will be supplied by the undersigned.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the C[illegible] High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad [illegible] Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay and Allahabad respectively.

In supersession of the p[illegible]s advertisements, on and from the 1st January 188[illegible] terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

SANITARY CONTROL OF EMIGRANTS TO THE LABOUR DISTRICT OF ASSAM.

GENERAL DEPARTMENT—INLAND EMIGRATION.

Calcutta, the 28th January 1889.

RESOLUTION.

READ—

The undermentioned letters and previous correspondence regarding the outbreak of cholera amongst emigrants from Bengal to Assam.

From the Superintendent of Emigration—

(1) No. 1036, dated the 1st September, 1888.
(2) No. 1037, dated the 3rd September, 1888.

From the Sanitary Commissioner for Bengal—

(1) No. 6676, dated the 26th October, 1888.
(2) No. 8569, dated the 22nd December, 1888.

The Lieutenant-Governor has had under consideration the circumstances connected with the outbreaks of cholera among emigrants on their way from Bengal to the labour districts of Assam, and the means best calculated to check such epidemics. The present law (Act I of 1882) recognises two distinct systems of emigration; labourers executing engagements under the first are kept under strict sanitary supervision from the date of recruitment to that of their arrival in Assam, every detail as to their lodging in depôts, their journey, their food, and their clothing being regulated on an elaborate plan, while those who adopt the second system, known as that of free emigration, do not execute any formal engagements until they reach Assam, and are on that account, as ordinary travellers, exempted from any special sanitary supervision while passing through Bengal. The latter constitute the great majority, and it has been ascertained that they are conveyed in large bodies, and detained for a considerable period in depôts, so that their position, so far as the necessity for sanitary control is concerned, does not differ from that of labourers engaged under the Act. The depôts now used for their reception at Raneegunge were recently inspected at the instance of the Indian Tea Association by the Superintendent of Emigration, who reported that he had found the sanitary arrangements to be very defective, the water-supply to be drawn in many cases from more or less unclean tanks, the cooking of the food to be imperfectly attended to, and the total absence of special hospital accommodation for the treatment of coolies attacked with cholera or other contagious diseases, and of satisfactory arrangements for the disposal of the dead or of their belongings. It seems to the Lieutenant-Governor to be most necessary that these depôts or rest-houses should be brought under sanitary supervision; and the question whether the law should not be amended with this object has been submitted for the consideration of the Government of India. In the meantime it seems desirable to take such temporary measures as are within the power of Government for the prevention of the more flagrant sanitary abuses, without having recourse to the suspension of emigration, which had to be enforced in 1886 in certain districts.

2. A cholera shed and place of inspection for coolies going to Assam, with the necessary establishment required for the proper treatment and care of the sick, was last year established at Kurigram, and the agency sanctioned for medical inspection at Mugra was at the same time transferred to Naihatti, emigrants having ceased to break the journey at the former place. Arrangements were also made for the proper treatment of emigrants during the transit by rail, and for reporting by telegram to the Emigration authorities at Dhubri all cases of cholera occurring along the line of railway and at Goalundo. The Commissioners of the Chota Nagpore and Burdwan Divisions were further instructed, pending the contemplated amendment of the law, to take such executive measures as they could adopt with the co-operation of municipalities to mitigate the sanitary abuses brought to light by the inspection of the depôts in both divisions by the Sanitary Commissioner for Bengal. These orders are now repeated; and, in addition, the Lieutenant-Governor desires

that the Sanitary Commissioner or the Superintendent of Emigration, as they may agree between themselves, in conjunction with a Magistrate to be deputed for the purpose by the District Magistrate, should inspect the private depôts at Raneegunge, and indicate to the owners any sanitary improvements which the inspection may show to be urgently necessary. It is hoped that such requisitions will be obeyed, but if they are not, it will probably be necessary to take further steps under the municipal law, or by stopping emigration from infected areas. The depôts at Calcutta should be similarly inspected, in communication with the Commissioner of Police. The Municipality will be requested to ensure the due disposal at Raneegunge of the bodies of coolies dying at the depôts: cremation need not be insisted on, but all interments should be duly performed. The Superintendent of Inland Emigration will also be instructed to open a temporary cholera hospital at Raneegunge for infected coolies on a plan which he has prepared. In the event of an outbreak of cholera a medical officer will be deputed to the Sealdah station, and another to the Raneegunge station, to examine emigrants, and, in communication with the Railway authorities, to prevent those infected from starting. The depôt from which an infected coolie comes should be ascertained in each case with a view to the adoption of precautionary measures.

The increased expenditure involved in these arrangements should be borne by the Inland Labour Transport Fund.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Government of Bengal.

DONATION MADE BY MAHARANI SURNOMOYEE, C.I.E., OF CASSIMBAZAR FOR THE RELIEF OF DISTRESS IN ORISSA.

THE following correspondence is published for general information.

This office letter, No. 2114, dated 7th December, 1888.
The Maharani's letter, No. 336, dated 13th December, 1888.

IN forwarding copy of the correspondence noted in the margin, relative to a donation of Rs. 1,000 presented by Maharani Surnomoyee, Member of the Imperial Order of the Crown of India, for the relief of distress in Orissa, I have the honour to suggest that the thanks of Government may be given to the Maharani for her benevolent act, and that my retention of the money in deposit against future contingencies may be approved.

No. 301, dated Cassimbazar Rajbaree, the 9th November, 1888.

From—MAHARANI SURNOMOYEE, Member of the Imperial Order of the Crown of India, Cassimbazar,
To—The Commissioner of the Orissa Division.

I AM grieved to learn that scarcity is on its utmost height in the province of Orissa, and that actual distress has already prevailed in some parts of the country. I feel under the circumstances, a duty incumbent on me to come forward at this critical moment with my humble aid on behalf of the suffering people, and beg to enclose a donation of Rs. 1,000* (one thousand rupees) towards their relief.

* Half Government Currency Note R/95 68113 for Rs. 1,000.

An acknowledgment is solicited.

No. 2114R, dated Cuttack, the 7th December, 1888.

From—C. F. WORSLEY, ESQ., Commissioner of the Orissa Division,
To—MAHARANI SURNOMOYEE, Member of the Imperial Order of the Crown of India, Cassimbazar.

WITH reference to your No. 309 of the 26th November, 1888, I have the honour to acknowledge receipt of the right half of the currency note for rupees one thousand, and to thank you for your liberal donation for the relief of distress in Orissa.

2. I am happy to inform you that at the present time, owing to the late seasonable rains and the improved prospects of the crops, there is no necessity for the administration of relief in any district of this division. With your approval I propose to keep the money in deposit for some months, and should it not be required, as I trust it will not, for charitable relief during the next hot season, I will again communicate with you as to its disposal. Though happily your anticipation of continued distress has not as yet been realized, I none the less warmly appreciate your kind motives and solicitude for the people of Orissa.

No. 336, dated Cassimbazar Rajbaree, the 13th December, 1888.

From—MAHARANI SURNOMOYEE, Member of the Imperial Order of the Crown of India, Cassimbazar,
To—The Commissioner of the Orissa Division.

I HAVE the honour to acknowledge the receipt of your letter, No. 2114R, dated the 7th instant, and in reply beg to state that I feel a pleasure which I know no words to express at the happy turn the events have taken of late. I am really glad of the agreeable disappointment of my hopes of affording relief in distress which is no longer apprehended. If, however, on some future occasion my humble help goes to meet even in the slightest measure the wants of the suffering humanity or to promote the cause of any public interest, I shall consider myself amply repaid. I respectfully leave to you the disposal of the amount of my donation. I shall only be happy to hear how it is appropriated when occasion occurs.

No. 351—23Fam., dated Calcutta, the 28th January 1889.

From—H. W. C. CARNDUFF, ESQ., Under-Secretary to the Government of Bengal, Revenue Department,
To—The Commissioner of the Orissa Division.

I AM directed to acknowledge the receipt of your letter No. 28R, dated the 7th instant, and annexures, regarding a donation of Rs. 1,000 made by Maharani Surnomoyee, C.I.E., of Cassimbazar, for the relief of distress in Orissa.

2. In reply, I am to say that the Lieutenant-Governor approves your proposal that the sum referred to should be kept in deposit for the present against future contingencies, and I am at the same time to request that the Lieutenant-Governor's thanks may be conveyed to the Maharani for her benevolence.

Letter dated the 19th September 1887, from Messrs. Finlay, Muir and Company and others, urging the necessity for the construction of a tramway between the tea-gardens in the Dooars and the Northern Bengal State Railway.

Letter No. 2015C., dated the 21st February 1887, to the Inspector of Local Works in the Rajshahye Division, communicating orders for making a survey for the line of tramway proposed, and preparing an estimate of the cost of constructing the tramway.

Letter No 2149C., dated the 13th December 1887, to Messrs. Finlay, Muir and Company and others, informing them of the steps that have been taken to have a project prepared for the tramway.

RESOLUTION.—The question of improving the means of communication between the Dooars tea districts and Julpigoree has been brought several times to the notice of the Government of Bengal. In September 1887, Messrs. Finlay, Muir and Company and others again urged upon the Government the pressing necessity for connecting the tea-gardens in the Dooars with the Northern Bengal State Railway, and asked for a guarantee of four per cent. for a fixed period to enable them to raise the capital required. The Lieutenant-Governor then determined to have the surveys for the line carried out by the Public Works Department and expressed his willingness to give free of charge, the land, and at a nominal rate such timber as might be available from the adjoining Government forests; also favourable rates for the carriage of the tramway material over State Railways: and His Honour further stated that when the result of the survey was received he would consider any fresh proposals that might be made, and see if terms could be arrived at for a work which would be of great utility to the tea districts.

2. In November 1887, the Government of Bengal ordered the commencement of the surveys and the preparation of the necessary plans and estimates of the cost of constructing the tramway.

3. Two proposals had been submitted for connecting the tea-gardens with the railway. The first, and that which had received the most support, was for a tramway starting from the bank of the river Teesta opposite Julpigoree and running north through the country to the west of the Durlah river to a point above its junction with the Chel and below its junction with the Mal and the Neora. Crossing the Durlah in this locality, the line would run along the general alignment of the Mal road to near the Mal post-office, thence running west *viâ* the Bullabaree bungalow to the Chel. To serve the Nagracotta gardens there would be a branch leaving this line at a point below the crossing of the Durlah and running in an easterly direction to the point where the Nagracotta road crosses the Juldaka river. The length of the main line would be 35 miles and that of the branch about 6 miles.

The second proposal was for a line joining the Northern Bengal State Railway at Silliguri. This line would run in a north-easterly direction to a point on the Teesta below its junction with the Gheesh, where there would be a steam ferry. From this point the line would trend towards the north, running between the Gheesh and the Chel rivers to some point on the latter at which it could be bridged. It would then run in an easterly direction as far as the Mal river, beyond which it was understood it could not be carried except at great cost.

4. The survey for the line was begun in December 1887, and, after some correspondence as to the proper route to be adopted, was completed in August

1888. The plans and estimates of the cost of constructing the tramway have now been completed, and the whole project is sufficiently matured for the consideration of any definite proposals that may be made.

5. The project as it now stands is for a tramway from a point opposite Julpigoree on the east side of the Teesta river to Mal, a mart in the centre of the Western Dooars, with branches to Dam-Dim and Ramsahai, the whole being 40 miles in length. The reasons for placing the line as laid down are given in detail in the report on the estimate which accompanies this Resolution. The line will provide access to most of the tea-gardens, and it is capable of being extended to the Chalsa gardens hereafter.

6. The total cost of the tramway was estimated by the Inspector of Local Works who had charge of the surveys at Rs. 12,56,682. The estimate has been revised and corrected in this office, and now stands at Rs. 11,26,017, as shown in the accompanying note (Appendix F). The estimate as it now stands is believed to be a reliable one, but the Government can undertake no responsibility for its accuracy.

7. The estimate of the traffic can at best be only approximate, and the Government of Bengal cannot be responsible for its correctness. Returns of traffic will be found appended to this Resolution, and it is for those who propose to take up the scheme to estimate what portion of this traffic would be carried on the tramway, and what receipts would be derived from it.

8. It is now left to those interested to submit proposals framed in accordance with the "Bengal Tramways Act, 1883," for the construction of this tramway. The demands on the District Fund are such as to preclude the District Board from giving any guarantee for the payment of interest on the capital required for the undertaking, and the concessions which the Government is prepared to make must be considered as limited to those specified in the first paragraph of this Resolution.

ORDER.—Ordered that this Resolution be published in the Supplement to the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

E. J. MARTIN,
Offg. Secy. to the Govt. of Bengal,

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government, during the week ending the 26th January 1889.

Division	No.	District and date of return.		Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.					
		Western Districts.			
Burdwan Divn.	1	Burdwan	Jan. 26, '89	Nil	Weather—cool. Spring prospects fair. Prices stationary.
Burdwan Divn.	2	Bankoora	„ 26, '89	Nil	Weather—seasonable. No change in prospects of standing crops. Mustard and sugarcane are being cut. Prices continue stationary.
Burdwan Divn.	3	Birbhum	„ 26, '89	0·05	Weather—seasonable. Paddy is being threshed out. *Rubbi* crops promising.
Burdwan Divn.	4	Midnapur	„ 26, '89	Nil	Weather—rather warm for the time of year. The *rubbi* will be poor for want of rain. *Boro* is still being transplanted in parts.
Burdwan Divn.	5	Hugli	„ 26, '89	Nil	Weather—fair. *Rubbi* crops promising.
		Howrah	„ 28, '89	Nil	Weather—seasonable. State and prospects of crops fair, but a little rain is wanted.
		Central Districts.			
Presidency Divn.	6	24-Perghs.	Jan. 29, '89	Nil	Weather—cloudy and foggy. Harvesting of *amun* nearly over. Winter crops suffering from want of rain. Manufacture of sugar continues.
Presidency Divn.	7	Nuddea	„ 26, '89	Slight rain.	Weather—cool and seasonable; slight rain on 24th. *Rubbi* crops [illegible]sing, except in Kushtea and in parts of the Meh[illegible]pore sub-division. Rain urgently wanted.
Presidency Divn.	8	Khoolna	„ 26, '89	0·07	Weather—cool and clear. Cold-weather crops fair. *Amun* harvest nearly over with 10 annas outturn.
Presidency Divn.	9	Jessore	„ 26, '89	[illegible]	Weather—pretty cool towards the latter part of the week. *Amun* harvesting over. Rain wanted for the *rubbi* crops, the prospects of which are fair.
Presidency Divn.	10	Moorshedabad	„ 26, '89	0·[illegible]	Weather—a portion of the week was cloudy and hot for the season; cold from the 25th. *Haimanti* harvesting almost completed. *Kalai* being cut and gathered still. *Rubbi* promising.
Rajshahye Divn.	11	Dinagepur	[illegible] 26, [illegible]	N[illegible]	Weather—seasonable. Harvesting of *haimanti* paddy almost over. Sugarcane is still being cut. Prospects of [illegible] Coarse rice selling at 18 seers [illegible] rupee.
Rajshahye Divn.	[illegible]	Rajshahye	„ 26, '89	0·13	Weather [illegible] *Amun* harvest nearly over. Recent rain will be beneficial to standing crops. Prospects of spring [illegible] generally fair.
		Nattore	...	0·20	
Rajshahye Divn.	13	Rungpur	„ 26, '89	0·01	Weather—cloudy and cool. The standing crops are doing well, but some rain is urgently needed. Land is being prepared for *aus* paddy and jute.
Rajshahye Divn.	14	Bogra	„ 26, '89	0·06	Weather—seasonable; slight showers fell on 24th. Harvest of winter rice over. Spring crops growing fairly, but more rain needed. Sugarcane is being cut. Common rice selling at 20 seers per rupee.
		Sherpore	...	0·05	
		Nowkh[illegible]	...	0·10	
Rajshahye Divn.	15	Pubna	„ 26, '89	Nil	Weather—fine. *Rubbi* crops are becoming worse for want of rain.
		Serajgunge	...	0·09	
Rajshahye Divn.	16	Darjeeling	„ 25, '89	0·51	Weather—cold and cloudy. More rain wanted. Crops doing fairly well.
Rajshahye Divn.	17	Julpigoree	„ 26, '89	0·46	Weather—cool, occasionally cloudy. Harvesting of *haimanti* rice completed except in a few places. Rain, which fell on the 24th, will do much good. Prices stationary.
		Eastern Districts.			
Dacca Divn.	18	Dacca	Jan. 26, '89	Nil	Weather—fine and cold. Pulses and mustard are being gathered. Cutting of sugarcane continues. Prospects of winter crops good.
Dacca Divn.	19	Furreedpur	„ 26, '89	Nil	Weather—warm; another threat of rain has passed off without any rain. State and prospects of crops good. Rain would benefit them, and the absence of it is certainly disappointing. But in this district rain is less needed than in most other districts, for the land lies low, and the rivers are numerous, and the soil is never dry, and for the cold-weather crops the absence of rain is not of much importance.
Dacca Divn.	20	Backergunge	„ 25, '89	Nil	Weather—seasonable. Prospects of crops fair. Harvesting of *amun* crop is still going on; outturn 12 annas.
Dacca Divn.	21	Mymensingh	„ 25, '89	Slight rain.	Weather—cool with foggy mornings. Slight rain on the 24th at the Sudder sub-division. Prospects of crops good. Mustard is being harvested.
Chittagong Divn.	22	Chittagong	„ 29, '89	Nil	Weather—seasonable. Winter crops thriving, but rain wanted. Prices steady.
Chittagong Divn.	23	Noakholly	„ 25, '89	Nil	Weather—seasonable. Mornings sometimes foggy. *Rubbi* crops going on well. Rain wanted.
Chittagong Divn.	24	Tipperah	„ 25, '89	Nil	Weather—seasonable and dry. Cold-weather crops are everywhere reported good, and their area is normal. Prices easy.
Chittagong Divn.	25	Chittagong Hill Tracts.	„ 22, '89	Nil	Weather—mornings and nights foggy and cold, but at noon very sultry throughout the week. Mustard, chillies and other winter crops progressing. Mustard is forming into seeds in some places. Prospects not good for want of rain.
		Hill Tipperah	„ 21, '89	Nil	Weather—gloomy. Sugarcane still being cut. Prospects of chillies and tobacco fair.

Division	No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BEHAR.				
PATNA DIVN.	26	Patna Jan. 26, '89 Behar ...	Nil 0·07	Weather—cold and cloudy. Prospects of standing *rubbi* and poppy crops favourable. Early mustard is being harvested in the Barh sub-division. *Boro* rice is being transplanted. Prices stationary.
	27	Gya „ 26, '89	0·05	Weather—cold. Harvesting of paddy is being finished. Prospects of *rubbi* and poppy are promising.
	28	Shahabad „ 26, '89 Buxar ... Sasseram ...	0·11 0·15 0·20	Weather—cloudy and foggy. Showers have done some good to the *rubbi* crops, the prospects of which are on the whole fair. The outturn of the *aghani* crop is better than was formerly estimated, and probably does not fall short of ten annas. Prices stationary.
	29	Durbhunga „ 27, '89 Madhubani ...	0·21 0·14	Weather—bleak and cloudy at times, but on the whole hot and bright. Tobacco and poppy promise well and *rahar* very fair. *Rubbi* has been benefitted in Madhubani by the rain. Food-grains slightly falling in prices. Common rice ranging from 13 to 19 seers per rupee throughout the district.
	30	Mozufferpur „ 26, '89 Hajipur ... Sitamarhi ...	0·15 0·16 0·15	Weather—cloudy during the greater part of the week and temperature low. The slight rain has been beneficial to the *rubbi* crops in the Sudder and Hajipur sub-divisions and in the southern part of Sitamarhi, and some good has also been done to the scanty crops in North Sitamarhi. Poppy is prospering satisfactorily.
	31	Sarun „ 26, '89 Gopalgunge ..	0·36 0·53	Weather—cloudy throughout the week, with occasional rain and heavy morning fogs. Rain has been very beneficial to the young *rubbi* crops, of which the prospects are very favourable. Poppy is also doing well everywhere. Lands are being prepared for indigo. Prices stationary.
	32	Chumparun „ 26, '89	0 23	Weather—foggy, cloudy and fair alternately. Very cold since 25th. Prospects of standing *rubbi* and poppy crops improved to an appreciable extent by a shower of rain on the 24th. Prices show no tendency to fall, and pressure continues in the area affected by failure of the winter rice crop.
BHAGULPORE DIVN.	33	Monghyr Jan. 26, '89	0 02	We[illegible]good and occasionally cloudy. *Rubbi* crops doing well. Prices have risen slightly.
	34	Bhagulpur „ 26, '89 Banka ...	Nil 0 13	Weather seasonable; cloudy with slight drizzle on 24th. Mustard is being harvested. Planting of sugarcane is in progress. Lands are being ploughed in places. Prospects of *rubbi* crops favourable. Prices fairly stationary.
	35	Purneah [illegible] 26, '89	Nil	Weather—cold and foggy at night and in the morning. Paddy has been harvested with deficient outturn. *Rubbi* crops doing well, but rain is badly wanted.
	36	Maldah „ 26, '89 Shibgunge ...	0·05 0·10	Weather—fair, occasionally cloudy. *Rubbi* crop[illegible] in good condition.
	37	Sonthal Perghs. „ 26, '89 Godda ... Rajmahal ...	0·11 0·20 0·12	Weather seasonable. Prospects of *rubbi* crops continue favourable. The rain of this week will do great good to the standing [illegible]
ORISSA.				
ORISSA DIVN.	38	Cuttack Ja[illegible], '89	Nil	Weather—fair and seasonable. *Sarad* rice is being threshed. Common rice sells at 18 seers 6 chittacks per rupee in town.
	39	Pooree „ 24, '89	Nil	Weather—seasonable. Rain is wanted for *rubbi* crops. Winter rice is being threshed. *Dalua* crop doing well. Common rice 19 seers 11 chittacks per rupee in the Sudder sub-division and 17 seers 12 chittacks per rupee in the Khoorda sub-division.
	40	Balasore „ 25, '89	Nil	Weather— seasonable. *Rubbi* is being harvested. Prospects of *dalua* rice in the Bhudruck sub-division are good.
CHOTA NAGPORE.				
South-West Frontier Agency.				
CHOTA NAGPORE DIVN.	41	Hazaribagh Jan. 25, '89	Nil	Weather—cold and seasonable. Rain, if it fall even now, will do good to *rubbi*, estimated outturn between 8 and 10 annas. Poppy doing well. Mustard being gathered; outturn about 9 annas. Sugarcane pressing continues; yield may be estimated at about 10 annas. Prices stationary, but high for the season.
	42	Lohardugga „ 26, '89	0·05	Weather—cool. Slight rain with high winds on the 24th. Weather is now cool and bright. Prospect of *rubbi* not good. Prices steady.
	43	Singbhoom „ 25, '89	Nil	Weather—seasonable, sky somewhat cloudy. Prospect of *rubbi* crops has not improved. Prices nearly the same as in last week.
	44	Manbhoom „ 26, '89	Nil	Weather—seasonable with occasional clouds. Sugarcane pressing nearly over; outturn 8 to 12 annas. *Rubbi* crops coming up fairly.

* Means of six days.
† Do. of five „

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last ten years.

The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The number are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past 21 stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 25TH JANUARY 1889.

The meteorological conditions in Bengal at the end of the previous week were very abnormal from the fact that temperature was excessive, while humidity was also high, and the most important weather changes during the present week have been—first, the reduction of temperature in Bengal, in some districts of which an excess of 7° continued during the two first days of the week; second, the decrease of humidity reported on Sunday, the 20th, especially in South Bengal with the renewal of northerly winds; and third, the changes consequent on the extension towards the end of the week to Behar, South Bengal, and Orissa, of two disturbances which had formed in Central and Northern India.

On Saturday, the 19th, a few showers fell in Behar, but the skies were everywhere rapidly clearing, and fine weather became general over the whole of the province. Temperature was still abnormally high, and southerly winds recommenced at the head of the Bay, in consequence of the low-pressure area which prevailed over North Bengal. This low-pressure area filled up, however, on the following day, and northerly winds returned over South Bengal and the Bay, and these caused a large reduction of humidity, though the temperature still remained rather high, specially in the southern districts. The excess temperature was generally largest during the day, and when the high temperature began to give way, the change was greatest in the night temperatures. On the 21st pressure increased rapidly in South Bengal and Orissa, and was accompanied by a large reduction of temperature, the fall amounting in some cases to almost 10°. From the 21st to the 24th fine weather prevailed in all districts, until the fall of the barometer and increase of humidity in Orissa and Behar were [illegible]ed by the eastward movement of the disturbances in Central and Northern India. D[illegible]g these days the pressure and temperature were falling in South-West Bengal a[illegible] Orissa, giving a slightly defective temperature in the western parts of t[illegible]ese districts. [illegible] the 24th pressure continued falling in Orissa, due to the [illegible]rly moveme[illegible] of the depression which had formed in Central India but rose elsewhere, [illegible]w-pressu[illegible] area became distinctly marked over Orissa and part of Sou[illegible]-West Bengal. [illegible]his affect[illegible] th[illegible] in Bengal on Thursday, giving cloudy weather [illegible]d slight showers. [illegible]he disturbance rapidly passed away, and had almost ceased to exist o[illegible] Friday, the 25th. The few showers and humid cloudy weather which obtain[illegible] in Beha[illegible] on Thursday were caused by the eastward passage of the second depression w[illegible] had f[illegible]ed in Northern India, but its influence also rapidly disappeared, and with [illegible]e [illegible]ising p[illegible]ssure on Thursday fine weather was quickly restored, and ordinary north-eas[illegible] [illegible] [illegible]onditions obtained generally at the end of the week.

Pressure.—Pressure [illegible] normal at the b[illegible]ng of the week, and for the fi[illegible] two days only sm[illegible]rregular change[illegible] [illegible]out sensibly altering the variation from the normal at th[illegible]fferent stations. On Monday, the 21st, a general, and in some districts a rapid, rise o[illegible]red, giving everywhere an excess. The rise was most rapid in Behar, North Benga[illegible] [illegible]ssam, the greatest change of over one-tenth of an inch being at Purneah. This wa[illegible]rtly removed on the following day, when there was a general fall, largest in Behar, where it averaged about ·05." On Wednesday the fall continued with gr[illegible] rapidity in Orissa and the western districts of the Province, in connection with the low-pressure areas which had formed in Central India and the Punjab, both of which moved eastward. On Thursday the low pressure over Orissa and the north-west corner of the Bay intensified, and was made more decided by a rise elsewhere, especially towards the east. The depression rapidly filled up, a general rise being reported on Friday, especially in Orissa and South-West Bengal. The important changes during the week were therefore the rise on Monday, the fall on Tuesday and Wednesday, and the filling up of the Orissa low-pressure area. The changes were otherwise irregular, and the normal pressure conditions with which the week opened were almost restored at the close, though the average pressure for the week was slightly higher than the normal.

Temperature.—Notwithstanding the rapid fall of temperature which took place in the early part of the week, the average mean temperature for the Province has been about 3° above the normal, the excess being strongly marked in Orissa and Chutia Nagpur, where it has equalled from 4° to 5°.

The general range and distribution of temperature for the week and its variation from the normal is shown in the following table, where the average maximum, minimum and mean temperatures at nine typical stations in the Province are compared with the normal

values for the same period. In both day and night readings it will be seen that temperature has been considerably in excess:—

Rainfall—The average rainfall in North Bengal, Behar, and Chutia Nagpur for the week has been between a tenth and a fifth of an inch; elsewhere it has been practically rainless. The largest falls have actually occurred in the Sarun, Darjeeling, Jupigooree, Cooch Behar, and Shahabad districts; but even here the falls have averaged considerably less than half an inch.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 25th of January 1889:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

The mortuary statistics of the districts in Bengal for the month of November 1888 present the following results :—

1. The deaths of 140,186 persons were registered among a population of 66,055,695, representing an annual death-rate of 25·44 per 1,000, against 27·12 per 1,000 in the preceding month, and 26·76 per 1,000 in the corresponding month of 1887, indicating, as compared with both the past periods, a large decrease in mortality.

2. The following districts returned the highest proportions of deaths :—

Districts.	Ratio per mille.	*Districts.*	Ratio per mille.
Maldah	70·32	Rungpore	31·56
Shahabad	39·48	Hazaribagh	30·36
Julpaiguri	36·64	Serampore	29·76
Murshedabad	33·48	Noakhali	29·04
Gya	33·48	Nuddea	28·92
Purneah	33·36	Darjiling	28·32
Jessore	33·24	Backerganj	27·96
Dinajpur	33·12	Hughli	27·84
Khulna	32·76	Pubna	27·84
24-Pergunnahs	32·52	Rajshahye	26·64
Monghyr	32·04	Tipperah	26·52
Bhagulpore	32·04	Bogra	25·44

3. The mortality from the principal diseases under record stood, during the month under review, contrasted with similar information for the corresponding month of the preceding year, as follows :—

	Ratio per mille during— November 1888.	November 1887.
Cholera	1·32	·48
Small-pox	·03	·02
Fever	19·56	21·48
Bowel-complaints	·60	·72
Injury	·01	·12
Other causes	3·48	3·60

The only noticeable fact disclosed by the above comparison is that the death-rate from fever was considerably lower in November 1888 than in November 1887.

4. The undermentioned districts suffered pre-eminently from cholera, fever and the maladies classed under the head of "Other causes." The other diseases (indicated in the above table) exhibit no noticeable fluctuation :—

Cholera.	Ratio per mille.	*Fever.*	Ratio per mille.	*Other causes.*	Ratio per mille.

P. NOLAN,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 2nd February, 1889.—The following reports of the Bruce Institution for the years 1887 and 1888 are published for general information.

P. NOLAN,
Secretary to the Govt. of Bengal.

THE BRUCE INSTITUTION.

I.—THE BRUCE LEGACY.

1. The testatrices of this bequest, Miss Sarah Bruce and Miss Mary Ann Bruce, were the daughters of Mr. Alexander Bruce, who was for many years engaged as an indigo planter in India. After making a fortune in this country, he returned to England with his two daughters, at that time of a tender age, and took up his residence in London. In 1827 Mr. Bruce died, and left his two daughters all his fortune. They had only one near relation, a Colonel Bruce, who was their first cousin, and who is reported to have been a Waterloo veteran, and to have fought with Wellington throughout the Peninsular war.

2. The elder sister, Miss Sarah Bruce, actuated, it may be presumed, by a knowledge of the lamentable condition of the poorer classes of the domiciled Christian community in and about Calcutta, was desirous of leaving the bulk of her property for the purpose of founding an institution in Calcutta for the

maintenance and education of Eurasian female children. She persuaded her sister to follow her example, and they finally executed wills by which they dedicated the greater portion of their joint fortunes to that object. The trusts created under those wills directed that the bequests should be applied "for or towards the foundation and endowment of any institution at Calcutta or at any place within 50 miles thereof for the education and maintenance of half-caste or Eurasian female children, whether legitimate or otherwise, and in particular orphans or those deserted by their parents, such children to be admitted only between the ages of 5 and 10 years, and to be maintained until they can be provided for in some respectable and useful station in life.

3. The elder sister died in 1878, and the younger in 1880. The sums received under Miss Sarah Bruce's will, after deducting legal expenses, amount to £28,766-11-6, and further securities valued at £22,000 will be added to the bequest on the death of two legatees mentioned in her will; the amount received under Miss Mary Ann Bruce's will is about £17,000. The ultimate value of the joint bequest may therefore be estimated at nearly ten lakhs of rupees.

4. It appears that as early as the year 1886, the Secretary of State for India had received communications from the Misses Bruce, intimating their intention of founding this Indian charity. In 1881, however, after the death of the testatrices, the Government of India, at the instance of the Secretary of State, requested the Government of Bengal to prepare a scheme for the administration of the legacy. On the recommendation of the Director of Public Instruction, Bengal, the subject was referred to the Committee appointed to consider the question of European and Eurasian education in India. The Director of Public Instruction, as President of the Committee, in his report on the subject pointed out that a serious difficulty presented itself at the outset in the meaning to be attached to the term 'institution' Was it necessary to build and maintain a separate home and school; or would it be sufficient if the girls to be benefited by the trust were placed in one or more existing institutions having similar objects? A further and more serious difficulty presented itself in the absence of any reference to religious distinctions. The wills made poverty and necessity the sole grounds for admission to the benefits of the trust; but the Director proceeded to say, in reference to the claim of the Roman Catholic Church to control over the secular education of children of that communion, that "if religious distinctions are ignored, the necessary result will be to deprive the majority of the class for whom the trust was devised from any share in its benefits." "It is only by recognising religious distinctions that the benefits of the trust can be extended to all denominations of the Eurasian community."

5. This was also the view which commended itself to the Governments of India and Bengal. On the receipt of the Committee's report, however, the Government of Bengal, in consultation with the law officers of Government, finally resolved to have a scheme for the administration of the trust prepared under the direction of the High Court of Calcutta A suit was accordingly instituted (the Advocate-General of Bengal *versus* the Secretary of State for India in Council) "for the construction of the wills of Miss Sarah Bruce and Miss Mary Ann Bruce, deceased, as to the charitable trusts therein mentioned, and to have a scheme framed for administering the said trusts, &c." By a decree of the Hon'ble High Court, dated the 26th August 1886, a scheme for the administration of the Bruce Legacy Fund was adopted, and provision was made for the establishment and management of the Institution on an undenominational basis. The costs incurred in this suit, on both sides, amounted to a sum slightly above Rs 6,000.

6. Under this decree it was declared that "an institution shall be established for the purpose of carrying out the trusts for the benefit of half-caste or Eurasian female children, contained in the wills of Miss Sarah Bruce and Miss Mary Ann Bruce, and of administering the funds provided for that purpose. The Institution shall be called the Bruce Institution," and "shall be under the management of twelve Governors . . . . The Governors shall provide an office in Calcutta at which . . . . the business of the Institution shall be carried on . . . . The girls to receive the benefits of the Institution shall be elected by the

Governors . . . . . Each girl who has been elected shall be educated and maintained by the Governors at such suitable boarding school as they may from time to time select. In selecting from time to time the school at which the girls shall be educated and maintained, the Governors shall take into account . . . . the religious denomination of the school and all other circumstances which they may deem material." By the interpretation thus given to the term 'institution,' the religious difficulty altogether disappeared.

II.—The Bruce Institution, 1887.

7. *Control.*—Under the scheme the management of the Institution is vested in a representative body of twelve Governors, five *ex-officio* and seven others, nominated in the first instance by the High Court for a term of three years, and thereafter to be appointed by the Local Government. The *ex-officio* Governors are the Hon'ble the Chief Justice of Bengal, the Bishop of Calcutta, the Inspector-General of Civil Hospitals in Bengal, the Chairman of the Calcutta Municipality, and the Director of Public Instruction. The Governors have the entire control of the Institution and of its income, subject in certain cases to the approval and confirmation of the Local Government. The first meeting of the Governors was held on the 1st December 1886, at which Sir Alfred Croft, Director of Public Instruction, was asked, and consented, to accept the appointment of Honorary Secretary to the Institution under rule 22, and it was agreed that with his consent the office of the Director of Public Instruction in Writers' Buildings should, for the present, be the office at which, in conformity with rule 21, the meetings of the Governors should take place, and the business of the Institution be carried on. Mr. Wilmot C. Dover was appointed under rule 23, and placed in charge of the office.

8. During the year 1887 there were two changes in the Board of Governors: the Government of Bengal under rule 10 appointed the Ven'ble F. R. Michell, Officiating Archdeacon of Calcutta, to be a Governor of the Institution, vice the Ven'ble Archdeacon Atlay, retired; and the Reverend G. W. Manson, Officiating Senior Chaplain of the Church of Scotland, to be a Governor, *vice* the Reverend G. Gillan, on furlough. Mr. C. H. Tawney, while officiating for the Director of Public Instruction, acted as Honorary Secretary to the Institution for a period of four months, from May to September 1887, during Sir Alfred Croft's absence on deputation.

9. *Capital and Income.*—The capital funds of the Institution, invested in Government securities and in the hands of the Secretary of State, amount to Rs. 6,33,900; a further investment of Rs. 1[illegible],000 was made by the Governors out of the accumulations of interest in May 1887, making in all a total of six-and-a-half lakhs in round numbers—a sum nearly equal to the aggregate capital of the trust funds, about thirty-six in number, administered by the District Charitable Society of Calcutta. The cash balance of the fund, amounting to Rs. 13,266-3-5, was made over to the Governors and placed to the credit of an account current, opened in the name of the Institution in the Bank of Bengal. The annual income of the Institution amounts to nearly Rs. 26,000, and is applied solely to the objects specified in rules 3 and 20 of the scheme of management. The accounts were closed up to the 31st December 1887, and were audited by the Examiner of Local Accounts; the report of the auditor, together with a copy of the accounts, was forwarded to the Chief Secretary to the Government of Bengal under rule 28.

10. *Elections.*—The preliminary election was held in the month of February, and the first annual election in August 1887. The opinion expressed by the Director of Public Instruction, in his report abovementioned, that "the Eurasian poor are more than sufficient to fill many times over the Bruce Institution," and that there would "be no want of candidates.........who fulfil, in every respect of poverty and destitution, all the conditions required by the trust," was fully borne out by subsequent facts. For the preliminary election, applications for admission were received on behalf of 221 girls, and at the election held in August 1887, about 80 applications were received for the ten vacancies that were notified. At the preliminary election, it was held by the Governors that all children who had attained the age of ten years not earlier than the month of August 1886, the time fixed for the annual election, should be

considered eligible; and except in the case of children who had lost both parents, preference was given to those who were approaching the higher limit of age, and to those who were members of large families. On the report of a Sub-committee appointed to consider the applications for admission, 69 children were elected to the benefits of the Institution at the preliminary election; at the election in August, 10 others were added to the number; making in all a total of 79 girls, who are being educated and maintained at the cost of the Institution. The following statements exhibit particulars as to the class and religion of the girls on the foundation:—

CLASS.	ELECTION.		TOTAL.
	February.	August.	
I.—Orphans, or those deserted by their parents ...	20	4	24
II.—Fatherless or those deserted by their father, or father incapable	45	6	51
III.—Cases of extreme poverty	4	......	4
Total ...	69	10	79

RELIGION.	ELECTION.		TOTAL.
	February.	August.	
Roman Catholic	37	5	42
Church of England	28	3	31
Non-Conformist	4	2	6
Total ...	[illegible]	10	79

11. *Schools.*—The schools at present selected by the Governors under rule 39, and approved by the Local Government under rule 43, as suitable for the education and maintenance of girls on the Foundation are nine in number, viz:—

1. La Martinière for Girls, Calcutta.
2. Calcutta Free School.
3. Pratt Memorial School, Calcutta.
4. Doveton Institution for Young Ladies, Calcutta.
5. Wesleyan Girls' School, Calcutta.
6. Calcutta Girls' School.
7. Loretto Convent, Entally, Calcutta.
8. St. Paul's Mission School, Calcutta.
9. Protestant European School, Cuttack.

12. *Nature and Cost of Education.*—The nature of the education afforded to the girls is that of primary and middle schools as defined in the Code of Regulations for European Schools in Bengal; in special cases, however, a higher standard of education may be imparted. The end sought is to fit the girls for a respectable and useful station in life. The average monthly cost of the education of each girl on the Foundation amounts to Rs. 16-2-11; an additional allowance is made to the Pratt Memorial and Calcutta Girls' Schools on account of outfit. The total amount paid under the head of "Education and Maintenance" during the year 1887 was Rs. 11,435.

13. *Examinations.*—As all the schools at which the girls are at present placed are under Government inspection, the Governors have prescribed no separate examination, but obtain from the Inspector of European Schools copies of the reports of his annual examination and inspection of each school, together with copies of the examination schedules of each girl on the Foundation. The subjoined table shows the results of the annual examination for the

school year 1886-87. A large number (33) of the girls, being at present in the infant class, were not examined:—

Standard.	Number of pupils in each standard.	Number presented for examination.	Number passed in all subjects.	Number failed in— One subject.	Two subjects.	Three subjects.	Four subjects.	Number that earned grants.
I	16	15	11	4	......	......	......	15
II	16	16	8	6	1	1	1	15
III	10	10	4	3	2	1	......	9
IV	3	3	1	1	1	......	......	3
Total ...	45	44	24	14	4	2	1	42

These results were considered by the Governors to be satisfactory.

14. *Inspection.*—The Governors, however, reserve to themselves full powers of inspection and supervision over all matters affecting the health and comfort of the girls; and for this purpose they appoint one of their number to be a visiting Governor for six months, whose duty it is to visit each school within that term, and to report upon them at its expiration. Favourable reports have generally been made of the girls in regard to conduct, application and attendance. They have generally enjoyed good health, with the single exception of a girl, named Hilda Pereira, who was admitted to the Entally Convent in March 1887. It was remarked by the Convent authorities that the child was ailing at the time of her admission. On the 27th July she was removed by her mother to the Calcutta Medical College Hospital, where, about a fortnight later, she died.

15. *Meetings.*—The Governors held 10 meetings during the year, including two in December 1886.

[illegible]CE INSTITUTION, 1888.

1. *Control.*—During the year 1888, Mr. A. M. Nash, Inspector of European Schools, Bengal, was appointed under rule 10 to be a Governor, *vice* Mr. [illegible] J. Simmons, resigned. The Lord Bishop of Calcutta proceeded to Europe on furlough, and the Reverend G. W. Manson obtained three months' leave on account of ill-health. The following is the list of Governors at the close of the year:—

The Hon'ble the Chief Justice of Bengal ... ⎫
The Most Reverend the Lord Bishop of Calcutta ... ⎪
Dr. A. J. Cowie, Inspector-General of Civil Hospitals, Bengal. ⎪
The Hon'ble Sir Henry Harrison, Kt., Chairman of the Calcutta Municipality. ⎬ *Ex-officio.*
The Hon'ble Sir Alfred Croft, K.C.I.E., Director of Public Instruction, Bengal. ⎭
The Hon'ble Mr. Justice Beverley.
The Very Reverend E. Lafont, S.J., C.I.E.
W. H. Ryland, Esq.
The Reverend R. Robinson.
The Ven'ble F. R. Michell, Officiating Archdeacon of Calcutta.
The Reverend G. W. Manson.
A. M. Nash, Esq.

Mr. W. C. Dover, the assistant in charge of the office, having obtained an appointment in the Education Department, left in the month of July, and Mr. J. D'Silva was placed in temporary charge, in which he has subsequently been confirmed.

2. *Capital and income.*—The capital funds of the institution invested in Government securities, amounting to Rs. 6,45,900, were increased by further investments of Rs. 8,100 and Rs. 6,000 out of savings in the income of the institution, thus making a total of Rs. 6,60,000. The investments in Government securities have been converted into stock-notes under Chapter 10 of the Civil Account Code, and are held by the Comptroller-General.

The annual income of the institution, which in 1887 amounted to Rs. 25,836, has, owing to these investments, increased to Rs. 26,320.

3. *Elections.*—The annual election was held in the month of August. For the ten vacancies that were notified, 80 applications were received, and of this number the ten most deserving cases were selected on the report of a Sub-Committee appointed for the purpose On the special recommendation of the Sub-Committee, another child was added to the number. Three of the children in the Loretto Convent, Entally, were withdrawn during the year by their parents or guardians. At the close of the year there were 86 girls on the foundation, distributed among the various schools as follows:—

Loretto Convent, Entally	43
Calcutta Free School	21
St. Paul's Mission School	2
Pratt Memorial School	9
Calcutta Girls' School	7
Doveton Institution for Young Ladies	1
Protestant European Orphanage, Cuttack	3
Total ...	86

In the following table will be found particulars as to the class and religion of the girls on the foundation:—

Class.	Religion.			Total.

II.—Fatherless or those deserted by their father, or father incapable	22	26	6	54
III.—Cases of extreme poverty	2	1	......	3
Total ...	42	38	6	86

4. *Education.*—The average monthly cost of the education and maintenance of each girl on the foundation was the same as in the previous year, namely, Rs. 16-3. The amount paid for education and maintenance during the year was Rs. 15,522, or Rs. 4,087 above that of the preceding year.

5. *Examinations.*—The results of the annual examination of the foundationers for the school year 1887 88, as obtained from the Inspector of European Schools, are shown in the following table. In the infant classes were 27 girls who were exempted from examination; and two girls in the Pratt Memorial School, were not examined.

* One did not earn a grant on account of insufficiency of attendance.

6. *Inspection.*—Mr. W. H. Ryland was appointed visiting Governor for the first, and the Reverend G. W. Manson for the second half-year, the Ven'ble Archdeacon Michell taking up the work of visitation during the absence of the Reverend G. W. Manson, on leave. A favourable report has been generally given by the school authorities of the conduct, application, and attendance of the girls on the foundation, the only exception being that of a very young girl in the Calcutta Free School, who was accused of stealing.

Mr. Ryland in his report states that a spacious dormitory has lately been added to the building of the Loretto Convent, Entally, which has in this respect an advantage over some of the other institutions, but that in the provision made for the health, comfort, care, and cleanliness of the girls, nothing seems wanting in any of the schools to which girls on the foundation have been admitted.

7. *Meetings.*—Four meetings were held during the year, and among the various resolutions passed, the following may be noted :—

(*a*) To allow a uniform rate of Rs. 32, plus Re. 1-8, Burial Board fees, for the funeral expenses of girls dying while on the foundation

(*b*) To support the authorities of the schools in any disciplinary measures, which they might adopt in order to secure the punctual return of girls on the foundation to school after the close of a vacation.

AUSTRALIA—NORTH-WEST COAST.

EIGHTY MILES BEACH.

Bank southwestward of Patterson Shoals.

INFORMATION has been received from the British Admiralty, London (Notice to Mariners No. 396 of 1888), that the Government of Western Australia has given notice, dated 10th October 1888, that the Inspector of Pearl Shell fisheries has reported, that having sounded over the bank lying off Eighty Miles beach, he finds that it extends in a north-east and south-west direction for a distance of about 25 miles, forming a narrow ridge with depths of 3 to 7 fathoms at low water spring tides, and 12 to 15 fathoms on each side of the bank.

The position of the south-west end of the bank is lat. 19° 14′ S. ; long. 121° 2′ E. ; and it is evidently a continuation of Patterson shoals, the positions of which are marked "doubtful" on Admiralty Charts.

NOTICE.

I.—Whereas the refund of the duty paid on salt has as a matter of grace been granted from time to time when the salt has been lost, SALT MERCHANTS, their AGENTS, and MANJIS, engaged in obtaining delivery of duty-paid salt ARE HEREBY INFORMED that no claim for the refund of duty on salt lost by boat-wreck will in future be entertained, unless the following points are proved to the satisfaction of the Board of Revenue:—

1st—That the Preventive Officer, before giving delivery, was satisfied that the boat was not obviously unsafe or unfit for a salt cargo.

2nd—That the salt was lost.

3rd—That every possible effort was made by the crew of the boat to save the cargo.

4th—That there was no neglect or fraud on the part of any person concerned with the salt.

5th—That the loss of the salt occurred before the completion of the act of formal delivery of the boat's cargo.

6th—That application for reweighment was made without any avoidable delay to the Superintendent of the Preventive Service.

7th—That before the reweighment the salt was (except under special circumstances which may render this impossible) in the custody of a Customs Officer to be deputed under paragraph VI.

8th—That the expenses incurred for custody of the salt and reweighment have been paid by the rowannah-holder or other person concerned with the salt.

II.—The act of formal delivery of the boat's cargo is to be considered to be completed when (*a*) the salt in the boat has been adulled, or (*b*) the boat-note has been made over, or (*c*) the boat with a full cargo has cast off from the ship's side or the jetty at the salt golahs.

III.—Refunds of duty will not be allowed after completion of delivery in the case of loss by any accident, such as collision with buoys, the Hooghly bridge, ships or other boats, or stormy weather. On the occurrence of a cyclone, the special circumstances of the case will be considered.

IV.—The PREVENTIVE OFFICER is, before commencing delivery, to give notice in writing to the rowannahdar or his koyal or sirdar cooly, or the person taking delivery on his behalf, whose name is endorsed on the back of the rowannah, whether the boat into which it is proposed to take delivery is unsafe or unfit for a salt cargo; and if the boat appears to become unsafe or unfit during the course of delivery, he is similarly to give notice.

V.—If the rowannah-holder or his representative (as described in paragraph IV) decide to take delivery or to continue taking delivery into a boat which the Preventive Officer has stated to be unsafe or unfit for a salt cargo, he is to be required to endorse his decision on the written notice given by the Preventive Officer, and no claim for refund of duty will, in even of loss, be entertained.

VI.—If the PREVENTIVE OFFICER during the course of delivery, *i.e.*, before it is formally complete, consider it necessary for the safety of the salt to order that the boat be cast off from the ship and beached, he may do so. He is then to arrange for the Customs flag to be hoisted on the foremast head for the information of the DIVISIONAL AND PATROL CUSTOMS OFFICER, who is on arrival to arrange for the safe custody of the salt by placing it, if possible, under adul, and if necessary sending an application to the SUPERINTENDENT of the PREVENTIVE SERVICE for a special CUSTOMS OFFICER to take charge thereof.

VII.—The special CUSTOMS OFFICER deputed under paragraph VI is to be paid for at the rate of five rupees a day with the usual fees for overtime work. If the rowannah-holder or his representative (as described in paragraph IV) declines to ask for the services of a special Officer, the salt is to be left at his risk, and no claim for refund of duty will be entertained. If the salt has already been taken into safe custody, it is not to be given up until all expenses have been paid.

VIII.—On an application for reweighment of salt alleged to have been saved from boat-wreck, the SUPERINTENDENT of the PREVENTIVE SERVICE is to require the applicant to pay the expenses of the special officer deputed under paragraph VI and of the reweighment, and is on payment thereof to have the salt reweighed at once.

IX.—The object of this notice is to show the circumstances under which a claim for refund of duty on loss of salt by boat-wreck will not be entertained. No promise is made that claims entertained will necessarily be granted, and no admission is hereby made that any claim can be made as of right under any section of any law.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 29th January 1889.—It is hereby notified for general information that, in exercise of the power vested in the Local Government by section 351 of Act III (B.C.) of 1884, and on the recommendation of the Commissioners of the Kurseong Municipality, made at a meeting, the Lieutenant-Governor confirms the bye-laws set forth below, which have been framed by the Commissioners of the said Municipality under section 350 of the said Act.

J. S. C[illegible]TON,
Offg. [illegible] to the Govt. of Bengal.

BYE-LAWS.

Rules for the conduct of business at meetings of the Commissioners.

1. An ordinary meeting of the Commissioners shall be held on the first Monday of every month.

2. All such meetings shall be convened by the Chairman or Vice-Chairman, by notice to be served on each Commissioner not later than three days preceding the date of the meeting.

3. In the event of the Chairman or Vice-Chairman determining to call an extraordinary general meeting, not less than three clear days' notice shall be given to the Commissioners of the day fixed for such extraordinary general meeting.

4. A notice book shall be kept by the Head Clerk of the Commissioners, in which all notices of motions shall be entered. All such notices shall be dated and numbered as received.

5. Every notice concerning a meeting shall be accompanied by a list signed by the Chairman or Vice-Chairman of the business to be brought forward at such meeting.

6. Any Commissioners wishing to bring forward any business shall give notice of such intention in writing to the Chairman a week before the meeting, when the Chairman or Vice-Chairman shall include such business in the list of business to be laid before such meeting. But the Chairman may, in urgent cases, at his own discretion, accept a notice sent in any time before the issue of the notice of meeting.

7. No business shall be considered, or proposition received, at any meeting if it does not appear in the list of business, except with the unanimous consent of the Commissioners present.

8. At all ordinary general meetings the proceedings shall be commenced by the Chairman or Vice-Chairman reading the minutes of the last ordinary or extraordinary general meeting with the view to ascertain if the resolutions passed at such meeting have been faithfully and accurately recorded in the words used by the movers of such resolutions, or if amendments thereto shall have been passed in the words used by the movers of such duly passed amendments.

9. In the event of any Commissioner being of opinion that any such resolution or amendment has not been accurately recorded, it shall be competent to such Commissioner to state his opinion to that effect, and thereupon the Chairman shall decide whether or not such resolution or amendment has been accurately recorded, by reference to the original draft of such resolution or amendment written and signed by the mover ; and if he finds

the minute to be inaccurate, he shall then and there make the necessary correction in the minute-book, provided that no discussion as to the propriety or otherwise of such resolution or amendment shall be allowed.

10. The order in which the several subjects shall be discussed at a meeting shall be determined by the order in which they are mentioned in the Chairman's list, provided that if two-thirds of the meeting consent to the alteration, the order in which any subject stands on the Chairman's list may be altered at the meeting.

11. On the Commissioners proceeding to the consideration of any subject, the Chairman or Vice-Chairman shall first read to the Commissioners the letters and papers connected with such subject, and thereupon any Commissioner may make a proposition regarding such subject, and address the meeting prior to the question being put to the vote by the President, provided that such Commissioner shall confine his remarks to the subject under consideration, and that after discussion, and before the original proposition or any amendments on it are put to the vote, the mover of the original proposition shall have the right of addressing the meeting by way of reply to any objections or amendments put forward against his proposition.

12. Every proposition made shall be in writing and shall be signed by the proposer.

13. Every proposition shall be seconded by one Commissioner, who shall also sign or initial the draft proposition written.

14. Any Commissioner shall be at liberty to call the attention of the President to a point of order, even when a Commissioner is addressing the meeting.

15. Any Commissioner may propose an amendment to a proposition to the effect that certain words in the proposition originally made be omitted therefrom, that certain words be substituted, or that certain words be added thereto, provided that such amendment be proposed when the subject is being discussed, and the original proposition is still before the meeting.

16. The President shall have the power of declaring the discussion on any question closed, and of putting the question to the vote, saving the privilege of the proposer to sum up in favour of the original proposition.

17. On the discussion being concluded, in the event of several amendments having been proposed, the President shall put the last amendment to the vote first; if negatived, he shall put the second amendment, and then the first; and if all the amendments are lost, the original proposition shall be put to the vote.

18. Votes shall be taken by show of hands, except in any question concerning the Chairman, Vice-Chairman or any servants of the municipality, whose pay is Rs. 50 and upwards, when the vote shall be taken by ballot.

19. All votes shall be put by the President, first for the proposition and then against.

20. Any Commissioner may decline to vote on any subject without assigning his reason for abstaining from voting.

21. Any Commissioner may make a proposition that a subject under consideration be postponed, or that the consideration of it be adjourned either to a fixed date or *sine die*.

22. It shall be competent to any Commissioner to move a resolution to the effect that the subject under consideration be referred to a Committee, provided that such Commissioner shall also at the same time propose the names of the members of such Committee.

23. Should any Commissioner object to any part of a report submitted by such Committee, such Commissioner shall be competent to make a proposition that the report be adopted, except with regard to the particular part objected to by him; or that such report be again referred to the Committee; or that the report be entirely set aside.

24. A subject once finally disposed of by a resolution duly passed at a meeting shall not be re-opened at any subsequent meeting, unless at least three-fourths of the Commissioners present at a meeting, of which due notice has been given, consent that such subject shall be re-opened and reconsidered, provided that resolutions adjourning the consideration of a subject may be reconsidered at any meeting after the usual notice.

25. The minutes of the proceedings of all meetings shall show the names of the President and of all members attending, the words of every proposition and every amendment, and, in cases where votes are taken, the number of votes *pro* and *con*, and when a majority of the meeting consider it necessary, the names *pro* and *con*.

For regulating the time and mode of collecting the taxes.

26. Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show this certificate if required.

27. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of the service of requisition in the manner described in section 85 of the Act.

28. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale, and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss which shall be recoverable as a debt due to them.

For regulating the conduct of persons employed by the Commissioners.

29. All persons employed by the Commissioners, whose services may be no longer required, shall be liable to be discharged after receipt of previous notice, or pay in advance for the period of one month, and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month on pain of forfeiture of one month's salary.

30. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix, and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For regulating the disposal of offensive matter, rubbish, and dead bodies of animals.

31. Every person within whose premises, or on whose land, any animal may die, shall, unless he can show reasonable excuse, within four hours after its death, or if the death occurs at night, within four hours after day-light, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcasses, or report its death to the conservancy overseer of the division within which such premises or land may be situated, and in such latter case shall pay to the said overseer the expense of removing the carcass at such rate as the Commissioners may determine, provided that in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 10.

32. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcasses.

Monghyr Collectorate, the 29th December 1888.

W. O'Reilly, for Collector.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the main line of the Tirhoot State Railway (Simuria Extension), in the Durbhunga district, from Mouza Basaria to Mouza Ajnaul, will be put up to sale at the Dalsing Sarai Railway Station on the 25th March 1889.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The balance of purchase money due under the 3rd condition may be paid either to the Collector or into the Government treasury at Durbhunga for lands situated in the Durbhunga district.

5th.—The plots of land will be sold revenue free to the highest bidders.

6th.—The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

A. H. WARDE-JONES, for Collector.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government situated within the boundaries of the abandoned Bazitpur Branch of the Tirhoot State Railway, in the district of Durbhunga, from mouza Sahit to mouza Basaria, will be put up to sale at the Dalsing Sarai Railway Station on the 25th March 1889.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 16th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The balance of purchase money due under the 3rd condition may be paid either to the Collector or in the Government Treasury at Durbhunga for lands situated in the Durbhunga district.

5th.—The plots of land will be sold revenue free to the highest bidders.

6th.—The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

C. G. H. ALLEN, For Collector.

Advertisement of Sale.

NOTICE is hereby given that the right, title and interest of Government, as specified in the conditions of sale below, in the nispi land, in village Durmoot, pergunnah Majnamutha, which forms the undermentioned estate, situate in the district of Midnapore, will be put up to sale at the Midnapore Collectorate, on Thursday, the 28th March 1889, corresponding with 16th Chait 1296A.S.

Conditions of Sale.

1. The land comprised in the estate to be sold to the highest bidder above the upset price. The purchaser will be considered as the nispi holder of the said land, and the entire right, title and interest of Government in the land will be transferred to him, subject to the annual payment of the undermentioned nispi rent and peshkush jumma to the proprietors of the temporarily-settled estate Majnamutha, which is now under direct management. The purchaser will have to pay no annual revenue to Government.

2. The sale to be subject to existing leases, and to the rights conferred by the settlement proceedings and by the laws in force, and the purchasers to be bound to respect the rights of the resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Notification.

IN THE COURT OF SMALL CAUSES AT MONGHYR.
The 25th January 1889.

IT is hereby notified that in execution of the decrees in cases Nos. 1218 and 1219 of 1884, obtained by one Sewa Marwary, of Monghyr, against Mrs. S. Gibbons and Osman Boyce, the properties of the abovenamed judgment-debtors were attached and advertised for sale on the 16th February 1885, and a portion of them realized the sums due upon the decrees. The rest, consisting of a chest-of-drawers and boxes of clothes, plates and other sundry articles of domestic use, as per list, kept in the Nazir's custody, and the Nazir was directed to make them over to the judgment-debtors on their appearing before him, but up to date no one has appeared. This notice is given for the judgment-debtors to appear and take away their things within one month. Should they fail to appear, the properties will be sold by public auction and the proceeds will be kept in deposit in the names of the abovenamed debtors.

GIRISH CHANDER CHATTERJI, Judge, Small Cause Court, Monghyr.

Notice.

THE right of working the copper mines at Chunabatti, in the sub-division of Alipur, Western Dooars, will be put up to auction on 15th March 1889, in the Court of the Sub-divisional Officer of Alipur. Settlement will be made with the highest bidder for five years, commencing from 1st April 1889. Chunabatti is situate two miles west of Buxa in the Western Dooars. Plenty of labour, firewood and good water is available on the spot. There is a good road, and the mines can be worked with little difficulty. It is believed that any person or company who may work the mines will obtain a good profit. Sixteen seers of copper are said to be obtainable from each bazar maund of ore. A specimen of the copper can be seen at the Office of the Secretary to the Chamber of Commerce, Calcutta. Any further information will be supplied by the undersigned.

DONALD SUNDER,
Sub-divisional Officer, Alipur Dooars.

Postal Notice.

WITH effect from the 1st April 1889, the sender of a value-payable article will be required to sign a certificate to the effect that the article is sent in execution of a *bonâ fide* order; and in the case of a value-payable unregistered packet, the sender will, in addition to signing the certificate referred to above, be required to prepay the usual money order commission on the amount specified for recovery from the addressee, by affixing postage stamps of the value of the commission to the form filled up by him.

2. In lieu of the forms at present filled up by the senders of value-payable articles, two revised forms will be substituted from the 1st April 1889—one for use with all value-payable articles other than value-payable unregistered book packets, and the other for use with value-payable unregistered book packets. Each form will contain the certificate to be signed by the sender, and space is provided in the form for use with value-payable unregistered packets for the postage stamps to be affixed in payment of commission.

3. In case a value-payable unregistered packet is refused by the addressee or returned as unclaimed to the sender, no refund of the commission prepaid will be granted.

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 1st February, 1889, and is hereby promulgated for general information :—

ACT NO. [illegible] OF 1889.

An Act for the Protection of Coinage and other Purposes.

WHEREAS it is expedient to prohibit the making, or the possession for issue, or the issue, by private persons of pieces of metal for use as money ;

And whereas it is also expedient to amend section 28 of the Indian Penal Code ; IV of 1860.

It is hereby enacted as follows :—

Title, extent and commencement.

1. (*1*) This Act may be called the Metal Tokens Act, 1889.

(*2*) It extends to the whole of British India ; and

(*3*) It shall come into force at once.

Definition.

2. In this Act "issue" means to put a piece of metal into circulation for the first time for use as money in British India, such piece having been made in contravention of this Act or brought into British India by sea or by land in contravention of any notification for the time being in force under section 19 of the Sea Customs Act, 1878. of 1878.

Prohibition of making by private persons of pieces of metal to be used as money.

3. No piece of copper or bronze or of any other metal or mixed metal, which, whether stamped or unstamped, is intended to be used as money, shall be made except by the authority of the Governor General in Council.

Penalty for unlawful making, issue or possession of such pieces.

4. (*1*) In either of the following cases, namely :—

(*a*) if any person makes in contravention of the last foregoing section, or issues or attempts to issue, any such piece as is mentioned in that section,

(*b*) if after the expiration of three months from the commencement of this Act, any person has in his possession, custody or control any such piece as is mentioned in the last foregoing section, with intent to issue the piece,

the person shall be punished,—

(*i*) if he has not been previously convicted under this section, with imprisonment which may extend to one year, or with fine, or with both ; or,

(*ii*) if he has been previously convicted under this section, with imprisonment which may extend to three years, or with fine, or with both.

(*2*) If any person is convicted of an offence under sub-section (*1*), he shall, in addition to any other punishment to which he may be sentenced, forfeit all such pieces as aforesaid, and all instruments and materials for the making of such pieces, which may have been found in his possession, custody or control.

(*3*) If in the trial of any such offence the question arises whether any piece of metal or mixed metal was intended to be used or to be issued for use as money, the burden of proving that the piece was not intended to be so used or issued shall lie on the accused person.

Cognizance of offences under the last foregoing section.

5. (*1*) The offence of making, in contravention of section 3, any such piece as is mentioned in that section shall be a cognizable offence.

(2) Notwithstanding anything in the Code of Criminal Procedure, 1882, no other offence punishable under section 4 shall be a cognizable offence, or beyond the limits of a presidency-town be taken cognizance of by any Magistrate, except a District Magistrate or Subdivisional Magistrate, without the previous sanction of the District Magistrate or Subdivisional Magistrate.

X of 1882.

Application of certain of the foregoing provisions of this Act to importation of pieces of metal for use as money.

VIII of 1878.

6. If at any time the Governor General in Council sees fit, by notification under section 19 of the Sea Customs Act, 1878, to prohibit or restrict the bringing by sea or by land into British India of any such pieces of metal as are mentioned in section 3, he may by the notification direct that any person contravening the prohibition or restriction shall be liable to the punishment to which he would be liable if he were convicted under this Act of making such pieces in British India, instead of to the penalty mentioned in section 167 of the Sea Customs Act, 1878, and that the provisions of sub-section (3) of section 4 and sub-section (1) of section 5, or of either sub-section, in relation to the offence of making such pieces shall, notwithstanding anything in the Sea Customs Act, 1878, apply, so far as they can be made applicable, to the offence of contravening the prohibition or restriction notified under section 19 of that Act.

Addition to section 98, Act X, 1882.

X of 18[illegible]

7. To section 98 of the Code of Criminal Procedure, 1882, the following shall be added, namely:—

"The provisions of this section with respect to (a) counterfeit coin,

(b) coin suspected to be counterfeit, and

(c) instruments or materials for counterfeiting coin,

shall, so far as they can be made applicable, apply, respectively, to—

(a) pieces of metal made in contravention of the Metal Tokens Act, 1889, or brought into British India in contravention of any notification for the time being in force under section 19 of the Sea Customs Act, 1878, VII

of 1889.

(b) pieces of metal suspected to have been so made or to have been so brought into British India or to be intended to be issued in contravention of the former of those Acts, and

(c) instruments or materials for making pieces of metal in contravention of that Act."

Prohibition of receipt by local authorities and railways as money of metal which is not coin.

8. (1) No piece of metal which is not coin as defined in the Indian Penal Code shall be received as money by or on behalf of any railway-administration or local authority. XI

(2) If any person on behalf of a railway-administration, or on behalf of a local authority, or on behalf of the lessee of the collection of any toll or other impost leviable by a railway-administration or local authority, receives as money any piece of metal which is not such coin as aforesaid, he shall be punished with fine which may extend to ten rupees.

Amendment of section 28 of the Indian Penal Code.

9. For the *Explanation* to section 28 of the Indian Penal Code the following shall be substituted, namely:— XI

"*Explanation 1.*—It is not essential to counterfeiting that the imitation should be exact.

"*Explanation 2.*—When a person causes one thing to resemble another thing, and the resemblance is such that a person might be deceived thereby, it shall be presumed, until the contrary is proved, that the person so causing the one thing to resemble the other thing intended by means of that resemblance to practise deception or knew it to be likely that deception would thereby be practised."

S. HARVEY JAMES,
Secretary to the Government of India.

The following Report of the Select Committee on the Bill to prohibit the making or issue by private persons of pieces of metal for use as money and the making of coins in resemblance or similitude of coins of Foreign States was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 18th January, 1889 :—

LEGISLATIVE DEPARTMENT.

WE, the undersigned, Members of the Select Committee to which the Metal Tokens Bill was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as revised by us annexed thereto.

2. We have amended the definition of "issue" in section 2, so as to make it clear that the Act is not intended to apply to tokens now in circulation.

3. From section 3, sub-section (1) (section 3 of the rev[illegible] Bill), we have omitted the words "or likely". Section 4, sub-section (3), of the rev[illegible]d B[illegible]ll appears to us to render the retention of those words unnecessary.

4. We have proposed, in section 4 of the revised Bi[illegible] attempt to "issue", and possession with intent to "issue", any pieces of metal [illegible] British India in contravention of the Act or imported into British [illegible] contravention of any prohibiti[illegible] under the Sea Cus[illegible]ms Act, 1878, shall [illegible]ences punishable in the same manner as the offence of issuing such pieces.

5. For section 3, sub-section (5), of the Bill as introduced we have proposed to substitute a section (section 7 of the revised Bill) applying to the pieces of metal to which the Bill mainly relates the provisions of section 98 of the Code of Criminal Procedure, 1882, respecting counterfeit coin.

6. For section 3, sub-section (6), of the Bill as introduced we have substituted a section (section 5 of the revised Bill) providing that no offence relating in any way to the "issue" of unauthorised pieces of metal for use as money is to be cognizable by the police or, without the previous sanction of the District Magistrate or Subdivisional Magistrate, by any Magistrate except a District Magistrate or Subdivisional Magistrate.

7. In section 4 we have reduced the maximum period of imprisonment to one year for a first offence, and to three years after a previous conviction.

8. We have added to section 5 of the Bill as introduced (section 8 of the revised Bill) a clause making it an offence for any person on behalf of a railway-administration or local authority, or on behalf of the lessee of any tolls leviable by such an administration or authority, to receive as money any piece of metal which is not coin as defined in the Indian Penal Code.

9. As regards section 6 of the Bill as introduced (section 9 of the revised Bill) we agree with Mr. R. J. C[illegible]sthwaite, the Judicial Commissioner of the Central Provinces, in thinking that the effect of that section might be to weaken the existing law as to Queen's coin, and we think that the purposes not only of section 231 but also of other sections of the Indian Penal Code will be better served by the addition to the definition of "counterfeit", in section 28 of that Code, of an *Explanation* applicable as well to coin as to

every other thing with reference to which the word "counterfeit" is used in the Code

THE SECOND SCHEDULE.—ENACTMENTS REPEALED.

The Indian Ports Bill.

(Chapter I.—Preliminary.—Sections 1-3. Chapter II.—Powers of the Local Government.—Section 4.)

A Bill to consolidate and amend the law relating to Ports and Port-charges.

WHEREAS it is expedient to consolidate and amend the law relating to ports and port-charges; It is hereby enacted as follows:—

CHAPTER I.

PRELIMINARY.

[ct XII, 75, ss. 1 d 2.] 1. (*1*) This Act may be called the Indian Ports Act, 1889; and

Title, commencement and extent.

(*2*) It shall come into force on the first day of April, 1889.

(*3*) It shall extend, save as otherwise appears from its subject or context,—

(*a*) to the ports mentioned in the first schedule, and to such parts of the navigable rivers and channels leading to such ports respectively as have been declared to be subject to Act XXII of 1855 (*for the regulation of Ports and Port-dues*) or to the Indian Ports Act, 1875; [I of 875.]

(*b*) to the other ports or parts of navigable rivers or channels to which the Local Government, in exercise of the power hereinafter conferred, extends this Act:

(*4*) But nothing in this Act shall—

(i) apply to any vessel belonging to, or in the service of, Her Majesty or the Government of India, or to any vessel of war belonging to any Foreign Prince or State, or

(ii) deprive any person of any right of property or other private right, except as hereinafter expressly provided, or

(iii) affect any law or rule relating to the customs or any order or direction lawfully made or given pursuant thereto:

(*5*) And nothing in section 31 or section 32 shall apply to any port, river or channel to which the section has not been specially extended by the Local Government.

[ct XII, 75, s. 3.] 2. (*1*) The enactments mentioned in the second schedule are hereby repealed to the extent specified in the third column of that schedule.

Repeal.

(*2*) All declarations, appointments, requisitions, orders and rules made, authorisations, directions and permissions given, prohibitions issued and notifications published under any of those enactments or under any enactment repealed by any of them shall, if in force at the commencement of this Act, be deemed, so far as may be, to have been made, given, issued and published under this Act: and

(*3*) Any enactment or document referring to any such repealed enactment shall, so far as may be, be construed to refer to this Act or to the corresponding portion thereof.

3. In this Act, unless there is something repugnant in the subject or context,— [Act XII, 1875, s. 4.]

Definitions.

(*1*) "port" includes also any part of a river or channel in which this Act is for the time being in force:

(*2*) "vessel" includes anything made for the conveyance by water of human beings or of property:

(*3*) "master", when used in relation to any vessel, means, subject to the provisions of any other enactment for the time being in force, any person (except a pilot or harbour-master) having for the time being the charge or control of the vessel:

(*4*) "pilot" means a person for the time being authorized by the Local Government to pilot vessels:

(*5*) "owner" includes also any agent to whom a vessel is consigned:

(*6*) "ton" means a ton as determined or determinable by the rules for the time being in force for regulating the measurement of the tonnage of British ships: and [New.]

(*7*) "Magistrate" means a person exercising powers under the Code of Criminal Procedure, 1882, not less than those of a Magistrate of the second class, and includes, in the towns of Calcutta, Madras and Bombay, a Presidency Magistrate. [of 1882.]

CHAPTER II.

POWERS OF THE LOCAL GOVERNMENT.

4. (*1*) With the previous sanction of the Governor General in Council, the Local Government may, by notification in the official Gazette,— [Act XII, 1875, s. 5.]

Power to extend or withdraw the Act or certain portions thereof.

(*a*) extend this Act to any port in which this Act is not in force or to any part of any navigable river or channel which leads to a port and in which this Act is not in force;

(*b*) specially extend the provisions of section 31 or section 32 to any port to which they have not been so extended;

(*c*) withdraw this Act, or section 31 or section 32, from any port or any part thereof in which it is for the time being in force.

The Indian Ports Bill.

(Chapter II.—Powers of the Local Government.—Sections 5-6.) (Chapter III.—Port-officials and their Powers and Duties.—Section 7.)

(2) A notification under clause (*a*) or clause (*b*) of sub-section (*1*) shall define the limits of the area to which it refers.

(3) Limits defined under sub-section (2) may include any piers, jetties, landing-places, wharves, quays, docks and other works made on behalf of the public for convenience of traffic, for safety of vessels, or for the improvement, maintenance or good government of the port and its approaches, whether within or without high-water-mark, and, subject to any rights of private property therein, any portion of the shore or bank within fifty yards of high-water-mark.

(4) In sub-section (3) the expression "high-water-mark" means the highest point reached by ordinary spring-tides at any season of the year.

[Act XII, 1875, s. 6.]

Alteration of limits of ports.

5. (*1*) The Local Government may, with the previous sanction of the Governor General in Council and subject to any rights of private property, alter the limits of any port in which this Act is in force.

(2) When the Local Government alters the limits of a port under sub-section (*1*), it shall declare or describe, by notification in the official Gazette, and by such other means, if any, as it thinks fit, the precise extent of such limits.

[Act XII, 1875, s. 7.]

Power to make port-rules.

6. The Local Government may, in addition to any rules which it may make under any other enactment for the time being in force, make such rules consistent with this Act as it thinks necessary for any of the following purposes, namely:—

(*a*) for regulating the time at which, and the manner in which, vessels are to enter or leave any port subject to this Act;

(*b*) for regulating the berths, stations and anchorages to be occupied by vessels in any such port;

(*c*) for striking the yards and top-masts, and for rigging-in the booms and yards, of vessels in any such port, and for swinging or taking-in davits, boats and other things projecting from such vessels;

(*d*) for the removal or proper hanging or placing of anchors, spars and other things being in or attached to vessels in any such port;

[Partly new.] (*e*) for regulating vessels whilst taking-in or discharging passengers, ballast or cargo, or any particular kind of cargo, in any such port, and the stations to be occupied by vessels whilst so engaged;

(*f*) for keeping free passages of such width as may be deemed necessary within any such port, and along or near to the piers, jetties, landing-places, wharves, quays, docks, moorings and other works in or adjoining to the same, and for marking out the spaces so to be kept free;

(*g*) for regulating the anchoring, fastening, mooring and unmooring of vessels in any such port;

(*h*) for regulating the moving and warping of all vessels within any such port and the use of warps therein;

(*i*) for regulating the use of the mooring buoys, chains and other moorings in any such port;

(*j*) for fixing the rates to be paid for the use of such moorings when belonging to the Government, or of any boat, hawser or other thing belonging to the Government;

(*k*) for licensing and regulating catamarans plying for hire, and cargo, passenger and other boats plying, whether for hire or not and whether regularly or only intermittently, in, or partly within and partly without, any such port, and for determining the quantity of cargo or number of passengers to be carried by any such vessel; [Partl

(*l*) for regulating the use of fires and lights within any such port;

(*m*) for enforcing and regulating the use of signals or signal-lights by vessels by day or by night in any such port; [Part

(*n*) for regulating the number of the crew which must be on board any vessel afloat within the limits of any such port;

(*o*) for regulating the employment of persons engaged in cleaning or painting vessels, or in working in the bilges, boilers or double bottoms of vessels, in any such port. [..e

CHAPTER III.

PORT-OFFICIALS AND THEIR POWERS AND DUTIES.

Appointment of conservator.

7. (*1*) The Local Government shall appoint some officer or body of persons to be conservator of every port subject to this Act, and may suspend or remove such officer or body. [Ac 187

(2) Subject to any direction by the Local Government to the contrary,—

(*a*) in ports where there is a port-officer, the port-officer shall be the conservator:

(*b*) in ports where there is no port-officer, but where there is a harbour-master, the harbour-master shall be the conservator.

The Indian Ports Bill.

(Chapter III.—Port-officials and their Powers and Duties.—Sections 8-13.)

(3) Where the harbour-master is not conservator, the harbour-master and his assistants shall be subordinate to, and subject to the control of, the conservator.

(4) The conservator shall be subject to the control of the Local Government, or of any intermediate authority which that Government may appoint.

XII, , s. 9.]

Power of conservator to give and enforce directions for certain specified purposes.

8. (1) The conservator of any port subject to this Act may, with respect to any vessel within the port, give directions for carrying into effect any rule for the time being in force therein under section 6.

(2) If any person wilfully and without lawful excuse refuses or neglects to obey any lawful direction of the conservator, after notice thereof has been given to him, he shall, for every such offence, be punished with fine which may extend to one hundred rupees, and with further fine which may extend to one hundred rupees for every day on which, after such notice as aforesaid, he wilfully and without lawful excuse continues to disobey the direction.

(3) In case of such refusal or neglect the conservator may do, or cause to be done, all acts necessary for the purpose of carrying the direction into execution, and may hire and employ proper persons for the purpose, and all reasonable expenses incurred in doing such acts shall be recoverable by him from the person so refusing or neglecting to obey the direction.

t XII, 5, s. 10.]

Power to cut warps and ropes.

9. The conservator of any such port may, in case of urgent necessity, cut, or cause to be cut, any warp, rope, cable or hawser endangering the safety of any vessel in the port or at or near to the entrance thereof.

t XII, 5, s. 11.]

Removal of obstructions within limits of port.

10. (1) The conservator may remove, or cause to be removed, any timber, raft or other thing, floating or being in any part of any such port, which in his opinion obstructs or impedes the free navigation thereof or the lawful use of any pier, jetty, landing-place, wharf, quay, dock, mooring or other work on any part of the shore or bank which has been declared to be within the limits of the port and is not private property.

(2) The owner of any such timber, raft or other thing shall be liable to pay the reasonable expenses of the removal thereof, and if such owner or any other person has without lawful excuse caused any such obstruction or impediment, or causes any public nuisance affecting or likely to affect such free navigation or lawful use, he shall also be punished with fine which may extend to one hundred rupees.

(3) The conservator or any Magistrate having jurisdiction over the offence may cause any such nuisance to be abated.

[Act XII, 1875, s. 12.]

Recovery of expenses of removal.

11. If the owner of any such timber, raft or other thing, or the person who has caused any such obstruction, impediment or public nuisance as is mentioned in the last foregoing section neglects to pay the reasonable expenses incurred in the removal thereof, within one week after demand, or within fourteen days after such removal has been notified in the official Gazette or in such other manner as the Local Government by general or special order directs, the conservator may cause such timber, raft or other thing, or the materials of any public nuisance so removed, or so much thereof as may be necessary, to be sold by public auction;

and may retain all the expenses of such removal and sale out of the proceeds of the sale, and shall pay the surplus of such proceeds, or deliver so much of the thing or materials as may remain unsold, to the person entitled to receive the same;

and, if no such person appears, shall cause the same to be kept and deposited in such manner as the Local Government directs;

and may, if necessary, from time to time, realize the expenses of keeping the same, together with the expenses of sale, by a further sale of so much of the thing or materials as may remain unsold.

[Act XII, 1875, s. 13.]

Removal of lawful obstructions.

12. (1) If any obstruction or impediment to the navigation of any port subject to this Act has been lawfully made, or has become lawful by reason of the long continuance of such obstruction or impediment, or otherwise, the conservator shall report the same for the information of the Local Government, and shall, with the sanction of that Government, cause the same to be removed or altered, making reasonable compensation to the person suffering damage by such removal or alteration.

(2) Any dispute arising concerning such compensation shall be determined according to the law relating to like disputes in the case of land required for public purposes.

[Act XII, 1875, s. 14.]

Fouling of Government moorings.

13. (1) If any vessel hooks or gets foul of any of the buoys or moorings laid down by or by the authority of the Local Government in any such port, the master of such vessel shall not, nor shall any other person except in case of emergency, lift the buoy or mooring for the purpose of unhooking or getting clear from the same without the assistance of the conservator;

The Indian Ports Bill.

(Chapter III.—Port-officials and their Powers and Duties.—Sections 14-18.)

and the conservator, immediately on receiving notice of such accident, shall assist and superintend the clearing of such vessel;

and the master of such vessel shall, upon demand, pay such reasonable expenses as may be incurred in clearing the same.

(2) Any master offending against the provisions of this section shall, for every such offence, be punished with fine which may extend to one hundred rupees.

[Act XII, 1875, ss. 15 and 44.]

Raising or removal of wreck impeding navigation within limits of port.

14. (1) If any vessel is wrecked, stranded or sunk in any such port, so as to impede, or be likely to impede, the navigation thereof, the conservator may cause the vessel to be raised, removed or destroyed.

(2) If any property recovered by a conservator acting under sub-section (1) is unclaimed, or the person claiming it fails to pay the reasonable expenses incurred by the conservator under that sub-section, the conservator may sell the property by public auction, if the property is of a perishable nature, forthwith, and, if it is not of a perishable nature, at any time not less than six months after the recovery thereof.

(3) The expenses incurred by the conservator under sub-section (1) shall be payable to him out of the sale-proceeds of the property, and the balance shall be paid to the person entitled to the property recovered, or, if no such person appears and claims the [illegible], shall be held in deposit for payment, without interest, to any person thereafter establishing his right [illegible] to:

Provided that the person makes his claim within one year from the date of the sale.

[Act XII, 1875, s. 16.]

Power to board vessels.

15. (1) The conservator or any of his assistants may, whenever he suspects that any offence against this Act has been, or is about to be, committed, or whenever it is necessary for him so to do in the performance of any duty imposed upon him by this Act,

and the person appointed under this Act to receive any port-dues, fees or other charges payable in respect of any vessel, may, whenever it is necessary for him so to do in the performance of any duty imposed upon him by this Act,

either alone or with any other person, board any vessel, or enter any building or place, within the limits of any port subject to this Act.

(2) If the master of the vessel, or any person in possession or occupation of the building or place, without lawful excuse, refuses to allow any such person as is mentioned in sub-section (1) to board or enter such vessel, building or place in the performance of any duty imposed upon him by this Act, he shall for every such offence be punished with fine which may extend to two hundred rupees.

[Ac 187

Power to require crews to prevent or extinguish fire.

16. (1) For the purpose of preventing or extinguishing fire in any port subject to this Act, the conservator or port-officer may require the master of any vessel within the port to place at his disposal such number as he requires, not exceeding three-fourths, of the crew then under the orders of such master.

(2) Any master refusing or neglecting to comply with such requisition shall be punished with fine which may extend to five hundred rupees, and any seaman then under his orders who, after being directed by the master to obey the orders of the conservator or port-officer for the purpose aforesaid, refuses to obey such orders shall be punished with fine which may extend to twenty-five rupees.

[A 18 s. V, s.

Appointment and powers of health-officer.

17. (1) The Local Government may appoint at any port subject to this Act an officer to be called the health-officer, and may suspend or remove from office any officer so appointed.

(2) A health-officer shall, subject to the control of the Local Government, have the following powers within the limits of the port for which he is appointed, namely:—

(a) with respect to any ship, the powers conferred on a shipping-master by Act I of 1859, section 71;

(b) power to enter on board any vessel and medically examine all or any of the seamen or apprentices on board the vessel;

(c) power to require and enforce the production of the log-book and any other books, papers or documents which he thinks necessary for the purpose of enquiring into the health and medical condition of the persons on board the vessel;

(d) power to call before him and examine for any such purpose all or any of those persons and to require true answers to any questions which he thinks fit to ask;

(e) power to require any person so examined to make and subscribe a declaration of the truth of the statements made by him.

Indemnity to Government against act or default of port-official or pilot.

18. The Government shall not be responsible for any act or default of any conservator, port-officer or harbour-master of any port subject to this Act, or of any deputy or assistant of any of the authorities afore-

Injuring buoys, beacons and moorings.

19. (*1*) No person shall, without lawful excuse, lift, injure, loosen or set adrift any buoy, beacon or mooring fixed or laid down by, or by the authority of, the Local Government in any port subject to this Act.

(*2*) If any person offends against the provisions of this section he shall for every such offence be liable, in addition to the payment of the amount of damage done, to fine which may extend to two thousand rupees, or to imprisonment for a term which may extend to two years.

t XII, 5, s. 21.]

Wilfully loosening vessel from moorings.

20. If any person wilfully and without lawful excuse loosens or removes from her moorings any vessel within any such port without leave or authority from the owner or master of the vessel, he shall, for every such offence, be punished with fine which may extend to two hundred rupees, or with imprisonment for a term which may extend to six months.

t XII, 5, s. 22.]

Improperly discharging ballast.

21. (*1*) No ballast or rubbish, and no other thing likely to form a bank or shoal or to be detrimental to navigation, shall, without lawful excuse, be cast or thrown into any such port, or into or upon any place on shore from which the same is liable to be washed into any such port, either by ordinary or high tides, or by storms or land-floods.

(*2*) Any of the following persons, namely :—

(*a*) any person who by himself or another so casts or throws any ballast or rubbish or any such other thing,

(*b*) the master of any vessel from which the same is so cast or thrown,

. R. 9 849.]

(*c*) any person employed to remove any ballast or rubbish or any such other thing whose agents or servants so cast or throw the same or cause the same to be so cast or thrown,

shall be punished with fine which may extend to five hundred rupees and shall pay any reasonable expenses which may be incurred in removing the same.

(*3*) If, after receiving notice from the conservator of the port to desist from so casting or throwing any ballast or rubbish or such other thing, any master continues so to cast or throw it, he shall also be liable to simple imprisonment for a term which may extend to two months.

(*4*) Nothing in this section applies to any case in which the ballast or rubbish or such other thing is cast or thrown into any such port with the consent in writing of the conservator, or within any limits within which such act may be authorized by the Local Government.

Graving vessel within prohibited limits.

22. If any person graves, breams or smokes any vessel in any such port, contrary to the directions of the conservator, or at any time or within any limits at or within which such act is prohibited by the Local Government, he and the master of the vessel shall for every such offence be punished with fine which may extend to five hundred rupees each. [Act XII, 1875, s. 23.]

Boiling pitch, &c., on board vessel within prohibited limits.

23. If any person boils or heats any pitch, tar, resin, dammer, turpentine, oil or other such combustible matter on board any vessel within any such port, or at any place within its limits where such act is prohibited by the Local Government, or contrary to the direction of the conservator, he and the master of the vessel shall for every such offence be punished with fine which may extend to two hundred rupees each. [Act XII, 1875, s. 24.]

Drawing spirits by unprotected artificial light.

24. If any person, by an unprotected artificial light, draws off spirits on board any vessel within any port subject to this Act, he and the master of the vessel shall for every such offence be punished with fine which may extend to two hundred rupees each. [Act XII, 1875, s. 25.]

Warping.

25. (*1*) Every master of a vessel in any port subject to this Act shall, when required so to do by the conservator, permit warps or hawsers to be made fast to the vessel for the purpose of warping any other vessel in the port, and shall not allow any such warp or hawser to be let go until required so to do. [Act XII, 1875, s. 26.]

(*2*) A master offending against sub-section (*1*) shall be punished for every such offence with fine which may extend to two hundred rupees.

Leaving out warp or hawser after sunset.

26. (*1*) A master of a vessel shall not cause or suffer any warp or hawser attached to his vessel to be left out in any port subject to this Act after [Act XII, 1875, s. 27.]

The Indian Ports Bill.

(Chapter IV.—Rules for the Safety of Shipping and the Conservation of Ports. Sections 27-32. Chapter V.—Port-dues, Fees and other Charges.—Section 33.)

sunset in such a manner as to endanger the safety of any other vessel navigating in the port.

(2) A master offending against sub-section (1) shall be punished for every such offence with fine which may extend to two hundred rupees.

[Act XII, 1875, s. 35.]

Discharge of fire-arms in port.

27. If any person, without lawful excuse, discharges any fire-arm in any port subject to this Act, or on or from any pier, landing-place, wharf or quay thereof, except a gun loaded only with gunpowder for the purpose of making a signal of distress, or for such other purpose as may be allowed by the Local Government, he shall for every such offence be punished with fine which may extend to fifty rupees.

[Act XII, 1875, s. 36.]

Penalty on master omitting to take order to extinguish fire.

28. If the master of any vessel in which fire takes place while lying in any such port wilfully omits to take order to extinguish the fire or obstructs the conservator or the port-officer, or any person acting under the authority of the conservator or port-officer, in extinguishing or attempting to extinguish the fire, he shall be punished with imprisonment which may extend to six months, or with fine which may extend to one thousand rupees, or with both.

[Act XII, 1875, s. 40.]

Unauthorized person not to search for lost stores.

29. (1) No person, without the permission of the conservator, shall in any port subject to this Act, creep or sweep for anchors, cables or other stores lost or supposed to be lost therein.

(2) If any person offends against the provisions of sub-section (1), he shall be punished with fine which may extend to one hundred rupees.

[Act XII, 1875, s. 41.]

Removing stones or injuring shores of port prohibited.

30. (1) No person without the permission of the conservator shall in any port subject to this Act remove or carry away any rock, stones, shingle, gravel, sand or soil or any artificial protection from any part of the bank or shore of the port;

and no person shall sink or bury in any part of such bank or shore, whether the same is public or private property, any mooring-post, anchor or any other thing, or do any other thing which is likely to injure or to be used so as to injure such bank or shore, except with the permission of the conservator, and with the aid or under the inspection of such person, if any, as the conservator may appoint to take part in, or overlook the performance of, such work.

(2) If any person offends against sub-section (1), he shall for every such offence be punished with fine which may extend to one hundred rupees and shall pay any reasonable expenses which may be incurred in repairing any injury done by him to the bank or shore.

Special Rules.

[Act ... 187...]

Moving of vessels without pilot or permission of harbour-master.

31. (1) No vessel of the burden of two hundred tons or upwards shall enter, leave or be moved in any port to which this section has been specially extended without having a pilot, harbour-master or assistant of the port-officer or harbour-master on board;

and no vessel of any burden less than two hundred tons and exceeding one hundred tons shall enter, leave or be moved in any such port without having a pilot, harbour-master or assistant of the port-officer or harbour-master on board, unless authority in writing so to do has been obtained from the conservator or some officer empowered by him to give such authority.

(2) If any vessel, except in case of urgent necessity, enters, leaves or is moved in the port contrary to the provisions of sub-section (1), the master of the vessel shall for every such offence be punished with fine which may extend to two hundred rupees, unless upon application to the proper officer the master was unable to procure a pilot, harbour-master or assistant of the port-officer or harbour-master to go on board the vessel.

(3) Nothing in sub-sections (1) and (2) shall apply to Native vessels when they are entering, leaving or being moved in the port of Bombay.

(4) If any question arises as to whether any vessel is a Native vessel within the meaning of this section, the decision thereon of such authority as the Governor of Bombay in Council may appoint in this behalf shall be conclusive.

Provision of certain vessels with fire-extinguishing apparatus.

32. (1) Every vessel exceeding the burden of two hundred tons and lying in any port to which this section has been specially extended shall be provided with a proper force-pump and hose and appurtenances, for the purpose of extinguishing any fire which may occur on board.

(2) The master of such a vessel who, having been required by the conservator to comply with the provisions of sub-section (1), neglects or refuses, without lawful excuse, so to do for the space of seven days after such requisition, shall be punished with fine which may extend to five hundred rupees.

CHAPTER V.

PORT-DUES, FEES AND OTHER CHARGES.

Levy of port-dues.

33. (1) In each of the ports mentioned in the first schedule such port-due, not exceeding the amount specified for the port in the third column of the

The Indian Ports Bill.

(Chapter V.—Port-dues, Fees and other Charges.—Sections 34-35.)

schedule, as the Local Government or, in the case of the port of Bombay, the Board of Trustees of that port from time to time directs, shall be levied on vessels entering the port and described in the second column of the schedule, but not oftener than the time fixed for the port in the fourth column of the schedule.

(2) Whenever the Local Government, with the previous sanction of the Governor General in Council, declares any other port to be subject to this Act, it may, with the like sanction, by the same or any subsequent declaration, further declare,—

(a) in the terms of any of the entries in the second column of the first schedule, the vessels which are to be chargeable with port-dues on entering the port,

(b) the highest rates at which such dues may be levied in respect of vessels chargeable therewith, and

(c) the times at which such vessels are to be so chargeable.

(3) All port-dues now leviable in any port shall continue to be so leviable until it is otherwise declared in exercise of the powers conferred by this section.

(4) An order increasing or imposing port-dues under this section shall not take effect till the expiration of [illegible] days from the day on which [illegible] order was published in the local official Gazette.

[Act XII, 1875, s. 46.] **34.** The Local Government or, in the case of the port of Bombay, the Board of Trustees of that port may from time to time exempt the vessels entering a port subject to this Act from payment of port-dues and cancel the exemption, or may from time to time vary the rates at which port-dues are to be levied in the port, in such manner as, having regard to the receipts and charges on account of the port, it thinks expedient, by reducing or raising the dues, or any of them:

Variation of port-dues by Local Government.

Provided that the rates shall not in any case exceed the amount authorized to be taken by or under this Act.

[Act XII, 1875, ss. 47, 48.] **35.** (1) The Local Government shall appoint some officer or body of persons at every port at which any dues, fees or other charges are authorized to be taken by or under this Act to receive the same and, subject to the control of the Local Government, to expend the receipts on any of the objects authorized by this Act.

Receipt, expenditure and account of port-charges.

(2) Such officer or body shall keep for the port a distinct account, to be called the port fund account, showing, in such detail as the Local Government prescribes, the receipts and expenditure of the port, and shall publish annually as soon after the first day of April as may be practicable an abstract in such form as that Government prescribes of the account for the past financial year.

(3) If, for any of the purposes of this Act, an advance of money has been or shall be made by the Government on account of any port subject to this Act, simple interest upon that advance, or upon so much of it as remains or shall remain unrepaid, at such rate as the Governor General in Council may determine, shall be charged in the port fund account of the port.

(4) All moneys, excluding receipts on account of pilotage but including fines and proceeds of waifs, received under this Act at or on account of any port subject to this Act shall be credited in the port fund account of the port.

(5) All expenses incurred for the sake of any such port, excluding expenses on account of pilotage but including—

(a) the pay and allowances of all persons upon the establishment of the port,

(b) the cost of buoys, beacons, lights and all other works maintained chiefly for the benefit of vessels being in or entering or leaving the port or passing through the rivers or channels leading thereto,

(c) pensions, allowances and gratuities of persons who have been employed in the port under this or any other enactment relating to ports and port-dues, or such portion of those pensions, allowances and gratuities as the Local Government may by rule determine, [Act V, 1885, s. 2.]

(d) with the previous sanction of the Local Government, contributions towards the support of public hospitals or dispensaries suitable for the reception or relief of seamen or otherwise towards the provision of sanitary superintendence and medical aid for the shipping in the port and for seamen, whether ashore or afloat, belonging to ships in the port, and [Act V, 1885, s. 2.]

(e) with the like sanction, contributions towards sailors' homes, institutes, rest-houses and coffee-houses and for other purposes connected with the health, recreation and temporal well-being of sailors, [New.]

shall be charged to the port fund account of the port.

(6) The Local Government may direct that for the purposes of this section any number of ports shall be regarded as constituting a single port, and thereupon all moneys to be credited to the port fund account under sub-section (4) shall form a common port fund account which shall be available for the payment of all expenses incurred for the sake of any of the ports:

Provided, with respect to the ports of Calcutta, Madras, Bombay, Karáchi and Rangoon, that none of those ports may be grouped with any other port, and that the port fund account of each of those ports shall be kept separate from the port fund account of any other port.

(7) Subject to the provisions of any local law as to the disposal of any balance from time to time standing to the credit of a port fund account, any such balance may be temporarily in-

(Chapter V.—Port-dues, Fees and other Charges.—Sections 36-41.)

vested in such manner as the Local Government may direct.

[Act XII, 1875, s. 48.]

Receipts for port-charges.

36. The person to whom any dues, fees or other charges authorized to be taken by or under this Act are paid shall grant to the person paying the same a proper voucher in writing under his hand, describing the name of his office, the port or place at which the dues, fees or other charges are paid, and the name, tonnage and other proper description of the vessel in respect of which the payment is made.

[Act XII, 1875, s. 49.]

Master to report arrival.

37. (*1*) Within twenty-four hours after the arrival within the limits of any port subject to this Act of any vessel liable to the payment of port-dues under this Act the master of the vessel shall report her arrival to the conservator of the port.

(*2*) A master failing without lawful excuse to make such report within the time aforesaid shall for every such offence be punished with fine which may extend to one hundred rupees.

(*3*) Nothing in this section applies to tug-steamers, ferry-steamers or river-steamers plying in any of the ports subject to this Act.

[Act XII, 1875, s. 50.]

Conservator may in certain cases ascertain draught and charge expense to master.

38. If any vessel liable to the payment of port-dues is in any such port without proper marks on the stem and stern posts thereof for denoting her draught, the conservator may cause the same to be ascertained by means of the operation of [illegible]king, and the master of the vessel shall be liable to pay the expenses of the operation.

[Act XII, 1875, s. 51.]

Ascertainment of tonnage of vessel liable to port-dues.

39. In order to ascertain the tonnage of any vessel liable to pay port-dues the following rules shall be observed:—

(*1*) (*a*) If the vessel is a British registered vessel, or a vessel registered under Act X of 1841 or Act XI of 1850 or under any other law for the time being in force for the registration of vessels in British India, the conservator may require the owner or master of the vessel or any person having possession of her register to produce the register for inspection.

(*b*) If the owner or master or such person neglects or refuses to produce the register or otherwise to satisfy the conservator as to what is the true tonnage of the vessel in respect of which the port-dues are payable, he shall be punished with fine which may extend to one hundred rupees, and the conservator may cause the vessel to be measured, and the tonnage thereof to be ascertained, according to the mode of measurement prescribed by the rules for the time being in force for regulating the measurement of British ships, and in such case the owner or master of the vessel shall also be liable to pay the expenses of the measurement.

(*2*) If the vessel is not a British registered vessel or a vessel registered under Act X of 1841 or Act XI of 1850, or under any other law for the time being in force for the registration of vessels in British India, and the owner or master thereof fails to satisfy the conservator as to what is her true tonnage according to the mode of measurement prescribed by the rules for the time being in force for regulating the measurement of British ships, the conservator shall cause the vessel to be measured and the tonnage thereof to be ascertained, according to the mode aforesaid, and in such case the owner or master of the vessel shall be liable to pay the expenses of the measurement.

(*3*) If the vessel is a vessel of which the tonnage cannot be ascertained according to the mode of measurement mentioned in clauses (*1*) and (*2*), the tonnage of the vessel shall be determined by the conservator on such an estimate as may seem to him to be just of the burden of the vessel. [New].

[Act XII, 1875, s. 52.]

Distraint and sale on refusal to pay port-charges.

40. If the master of any vessel in respect of which any port-dues, fees or other charges are payable under this Act refuses or neglects to pay the same on demand, the authority appointed to receive such port-dues, fees or other charges may distrain or arrest the vessel, and the tackle, apparel and furniture belonging thereto, or any part thereof, and detain the same until the amount due is paid;

and in case any part of the port-dues, fees or other charges, or of the costs of the distress or arrest or of the keeping of the vessel or other thing distrained or arrested, remains unpaid for the space of five days next after any such distress or arrest, may cause the vessel or other thing distrained or arrested to be sold, and with the proceeds of such sale may satisfy the port-dues, fees or other charges and the costs, including the costs of sale, remaining unpaid, and shall render the surplus, if any, to the master of the vessel upon demand.

[Act XII, 1875, s. 53.]

No port-clearance to be granted until port-charges are paid.

41. The officer of Government whose duty it is to grant a port-clearance for any vessel shall not grant such clearance—

(*a*) until her owner or master, or some other person has paid or secured to the satisfaction of such officer the amount of all port-dues, fees and other charges, and of all fines, penalties and expenses to which

The Indian Ports Bill.

(Chapter V.—Port-dues, Fees and other Charges.—Sections 42-47.)

the vessel or her owner or master is liable under this Act;

(*b*) until all expenses, which by the Merchant Shipping Act, 1854, section 228, are to be borne by her owner, incurred since her arrival in the port from which he seeks clearance, have been paid.

[& 18 Vict., 04.]

[Act XII, 1875, s. 54.]

Port-charges payable in one port recoverable at any other port.

42. (*1*) If the master of any vessel in respect of which any such sum as is mentioned in the last foregoing section is payable causes her to leave any port without having paid the sum, the authority appointed to receive port-dues, fees and other charges at the port under this Act may require in writing the authority appointed to receive port-dues, fees and other charges under this Act at any other port in British India to which she may proceed, or in which she may be, to levy the sum.

(*2*) The authority to whom the requisition is directed shall proceed to levy such sum in the manner prescribed in section 40, and a certificate purporting to be made by the authority appointed to receive port-dues, fees and other charges at the port where such sum as is mentioned in the last foregoing section became payable, stating the amount payable, shall be sufficient *primâ facie* proof of such amount in any proceeding under section 40, and also (in case the amount payable is disputed) in any subsequent proceeding under section 58.

[Act XII, 1875, s. 55.]

Penalty for evading payment of port-charges.

43. (*1*) If the master of a vessel evades the payment of any such sum as is mentioned in section 41, he shall be punished with fine which may extend to five times the amount of the sum.

(*2*) In any proceeding before a Magistrate on a prosecution under sub-section (*1*), any such certificate as is mentioned in section 42, sub-section (*2*), stating that the master has evaded such payment, shall be sufficient *primâ facie* proof of the evasion, unless the master shows to the satisfaction of the Magistrate that the departure of the vessel without payment of the sum was caused by stress of weather, or that there was lawful or reasonable ground for such departure.

(*3*) Any Magistrate having jurisdiction under this Act in any port to which the vessel may proceed, or in which she may be found, shall be deemed to have jurisdiction in any proceeding under this section.

[Act XII, 1875, s. 56.]

Port-due on vessels in ballast.

44. A vessel entering any port subject to this Act (other than a port in Burma) in ballast and not carrying passengers shall be charged with a port-due at a rate to be determined by the Local Government or, in the case of the port of Bombay, by the Board of Trustees of that port, and not exceeding three-fourths of the rate with which she would otherwise be chargeable.

[Act XII, 1875, s. 57.]

Port-due on vessels not discharging or taking in cargo.

45. When a vessel enters a port subject to this Act, but does not discharge or take in any cargo or passengers therein (with the exception of such unshipment and reshipment as may be necessary for purposes of repair), she shall be charged with a port-due at a rate to be determined by the Local Government or, in the case of the port of Bombay, by the Board of Trustees of that port and not exceeding half the rate with which she would otherwise be chargeable:

Provided that a vessel entering any of the ports within the territories administered by the Governor of Fort St. George in Council and leaving the same within forty-eight hours, without discharging or taking in any passengers or cargo, shall not be charged with any port-due.

[Act XII, 1875, s. 58, and Act XVII, 1882, s. 3.]

Port-dues not chargeable on pleasure-yachts or on vessels re-entering from stress of weather.

46. No port-due shall be chargeable in respect of any pleasure-yacht, nor shall any such due be chargeable in respect of any vessel which, having left any port, is compelled to re-enter it by stress of weather or in consequence of having sustained any damage.

[Act XII, 1875, s. 59.]

Power to impose hospital port-dues.

47. (*1*) The Local Government may, by notification in the official Gazette, order that there shall be paid in respect of every vessel entering any port subject to this Act, within a reasonable distance of which there is a public hospital or place suitable for the reception or relief of seamen requiring medical aid, such further port-dues not exceeding one anna per ton as the Local Government thinks fit.

(*2*) Such port-dues shall be called hospital port-dues, and the Local Government shall, in making any order under sub-section (*1*), have regard to any contributions made under section 35, sub-section (*5*), clause (*d*).

(*3*) An order imposing or increasing hospital port-dues shall not take effect till the expiration of sixty days from the day on which the order was published in the local official Gazette.

[New.]

(*4*) Whenever the Local Government is satisfied that proper provision has been made by the owners or agents of any class of vessels for giving medical aid to the seamen employed on board such class of vessels, or that such provision is unnecessary in the case of any class of vessels, it may, by notification in the official Gazette, exempt such class of vessels from any payment under this section.

[Act V, 1883, s. 4.]

(*5*) The Local Government may, by notification in the official Gazette, cancel any order under sub-section (*1*) or withdraw any exemption under sub-section (*4*).

The Indian Ports Bill.

(Chapter V.—Port-dues, Fees and other Charges.—Sections 48-49. Chapter VI.—Hoisting Signals.—Sections 50-52.) Chapter VII.—Provisions with respect to Penalties.—Sections 53-57.)

[Act XII, 1875, s. 60.]

Application of hospital port-dues.

48. Hospital port-dues shall be applied, as the Local Government may direct, to the support of any such hospital or dispensary as aforesaid, or otherwise for providing sanitary superintendence and medical aid for the shipping in the port in which they are levied and for the seamen belonging to the ships therein, whether such seamen are ashore or afloat.

[Act XII, 1875, s. 61.]

Fees for pilotage and certain other services.

49. (1) Within any port subject to this Act, fees may be charged for pilotage, hauling, mooring, re-mooring, hooking, measuring and other services rendered to vessels, at such rates as the Local Government may direct:

Provided that, in the case of fees for pilotage, the previous sanction of the Governor General in Council has been obtained.

(2) The fees now chargeable for such services shall continue to be chargeable unless and until they are altered in exercise of the power conferred by sub-section (1).

CHAPTER VI.

HOISTING SIGNALS.

[Act XII, 1875, ss. 62 and 63.]

Master to hoist number of vessel.

50. (1) The master of every inward or outward bound vessel, on arriving within signal-distance of any signal-station established within the limits of the river Hooghly, or within the limits of any part of a river or channel leading to a port subject to this Act, shall, on the requisition of the pilot in charge of the vessel, signify the name of the vessel by hoisting the number by which she is known, or by adopting such other means to this end as may be practicable and usual, and shall keep the signal flying until it is answered from the signal-station.

(2) If the master of a vessel arriving as aforesaid offends against sub-section (1), he shall be punished for every such offence with fine which may extend to one thousand rupees.

[Act XII, 1875, s. 63.]

Pilot to require master to hoist number.

51. (1) Every pilot in charge of a vessel shall require the number of the vessel to be duly signalled as provided by the last foregoing section.

(2) When, on such requisition from the pilot, the master refuses to hoist the number of a vessel, or to adopt such other means of making her name known as may be practicable and usual, the pilot may, on arrival at the first place of safe anchorage, anchor the vessel and refuse to proceed on his course until the requisition has been complied with.

[Act XII, 1875, s. 65.]

Penalty on pilot disobeying provisions of this Chapter.

52. Any pilot in charge of a vessel who disobeys, or abets disobedience to, any of the provisions of this Chapter shall be punished with fine which may extend to five hundred rupees for each instance of such disobedience or abetment, and in addition shall be liable to have his authority to act as a pilot withdrawn.

CHAPTER VII.

PROVISIONS WITH RESPECT TO PENALTIES.

[Act XII, 1875, s. 42.]

Penalty for disobedience to rules and orders of the Local Government.

53. If any person disobeys any rule or order which a Local Government has made in pursuance of this Act and for the punishment of disobedience to which express provision has not been made elsewhere in this Act, he shall be punished for every such offence with fine which may extend to one hundred rupees.

[Act XII, 1875, s. 66.]

Offences how triable, and penalties how recovered.

54. All offences against this Act shall be triable by a Magistrate, and any Magistrate may, by warrant under his hand, cause the amount of any fine imposed upon the owner or master of any vessel, for any offence committed on board of the vessel, or in the management thereof, or otherwise in relation thereto, whereof the owner or master is convicted, to be levied by distress and sale of the vessel, and the tackle, apparel and furniture thereof, or so much thereof as is necessary.

[Act XII, 1875, s. 67.]

Costs of conviction.

55. (1) In case of any conviction under this Act the convicting Magistrate may order the offender to pay the costs of the conviction in addition to any fine or expenses to which he may be liable.

(2) Such costs may be assessed by the Magistrate, and may be recovered in the same manner as any fine under this Act.

[Act XII, 1875, ss. 68 and 70; cf. Act X, 1887, s. 46.]

Ascertainment and recovery of expenses and damages payable under this Act.

56. (1) If any dispute arises as to the sum to be paid in any case as expenses or damages under this Act, it shall be determined by a Magistrate upon application made to him for that purpose by either of the disputing parties.

(2) Whenever any person is liable to pay any sum, not exceeding one thousand rupees, as expenses or damages under this Act, any Magistrate, upon application made to him by the authority to whom the sum is payable, may, in addition to or instead of any other means for enforcing payment, recover the sum as if it were a fine.

[Act XII, 1875, s. 69.]

Costs of distress.

57. Whenever any fine, expenses or damages is or are levied under this Act by distress and sale, the costs of the distress and sale may be levied

The Indian Ports Bill.

(Chapter VII.—Provisions with respect to Penalties.—Sections 58-60. Chapter VIII. —Supplemental Provisions.—Section 61-63.)

in addition to such fine, expenses or damages, and in the same manner.

[Act XII, 1875, s. 70.]

Magistrate to determine the amount to be levied in case of dispute.

58. If any dispute arises concerning the amount leviable by any distress or arrest under this Act or the costs payable under the last foregoing section, the person making the distress or using the arrest may detain the goods distrained or arrested, or the proceeds of the sale thereof, until the amount to be levied has been determined by a Magistrate, who, upon application made to him for that purpose, may determine the amount, and award such costs to be paid by either of the parties to the other of them as he thinks reasonable, and payment of such costs, if not paid on demand, shall be enforced as if they were a fine.

[Act XII, 1875, s. 71.]

Jurisdiction over offences beyond local limits of jurisdiction.

59. (*1*) Any person offending against the provisions of this Act in any port subject to this Act shall be punishable by any Magistrate having jurisdiction over any district or place adjoining the port.

(*2*) Such Magistrate may exercise all the powers of a Magistrate under this Act, in the same manner and to the same extent as if the offence had been committed locally within the limits of his jurisdiction, notwithstanding that the offence may not have been committed locally within such limits, and, in case any such Magistrate exercises the jurisdiction hereby vested in him, the offence shall be deemed, for all purposes, to have been committed locally within the limits of his jurisdiction.

[Act XII, 1875, s. 72.]

Conviction to be quashed on merits only.

60. (*1*) No conviction, order or judgment of any Magistrate under this Act shall be quashed for error of form or procedure, but only on the merits, and it shall not be necessary to state, on the face of the conviction, order or judgment, the evidence on which it proceeds.

(*2*) If no jurisdiction appears on the face of the conviction, order or judgment, but the depositions taken supply that defect, the conviction, order or judgment shall be aided by what so appears in the depositions.

CHAPTER VIII.

SUPPLEMENTAL PROVISIONS.

[Act XII, 1875, s. 73.]

Hoisting unlawful colours in port.

61. (*1*) If any vessel belonging to any of Her Majesty's subjects, or sailing under British colours, hoists, carries or wears, within the limits of any port subject to this Act, any flag, jack, pennant or colours, the use whereof on board such vessel has been prohibited by the Merchant Shipping Act, 1854, or any other statute now or hereafter to be in force, or by any proclamation made or to be made in pursuance of any such statute, or by any of Her Majesty's regulations in force for the time being, the master of the vessel shall, for every such offence, be punished with fine which may extend to fifty rupees.

[17 & 18 Vict., c. 104.]

(*2*) Such fine shall be in addition to any other penalty recoverable in respect of such an offence.

(*3*) Any officer of Her Majesty's Navy or of the Indian Marine Service within the limits of such port, or the conservator of such port, may enter on board any such vessel, and seize and take away any flag, jack, pennant or colours so unlawfully hoisted, carried or worn on board the same.

[Act XII, 1875, s. 74.]

Foreign deserters.

62. Any Magistrate, upon an application being made to him by the Consul of any Foreign Power to which the Foreign Deserters Act, 1852, has by an order of Her Majesty in Council been, or shall hereafter be, declared to be applicable, or by the representative of such Consul, and upon complaint on oath of the desertion of any seaman, not being a slave, from any ship of such Foreign Power, may, until a revocation of such Order in Council has been publicly notified, issue his warrant for the apprehension of any such deserter, and, upon proof of the desertion, may order him to be conveyed on board the vessel to which he belongs, or, at the instance of the Consul, to be detained in custody until the vessel is ready to sail, or, if the vessel has sailed, for a reasonable time not exceeding one month:

[15 & 16 Vict., c. 26.]

Provided that a deposit be first made of such sum as the Magistrate deems necessary for the subsistence of the deserter during the detention, and that the detention of the deserter shall not be continued beyond twelve weeks.

[Act XII, 1875, s. 75.]

Application of sections 10 and 21.

63. (*1*) The provisions of sections 10 and 21 shall be applicable to all ports heretofore or hereafter declared by the Local Government to be ports for the shipment and landing of goods but not otherwise subject to this Act, and may be enforced by any Magistrate to whose ordinary jurisdiction any such port is subject.

(*2*) Any penalties imposed by him, and any expenses incurred by his order, under the said provisions shall be recoverable respectively in the manner provided in sections 54 and 56.

(*3*) In any of the said ports for the shipment and landing of goods the consent referred to in section 21, sub-section (*4*), may be given by the principal officer of customs at such port or by any other officer appointed in that behalf by the Local Government.

The Indian Ports Bill.

(Chapter VIII.—Supplemental Provisions.—Sections 64-69.)

[Act XII, 1875, s. 77, and Act IX, 1879, s. 17.]

Application of Maulmain and Bassein port-dues.

64. The port-due leviable under this Act in either of the ports of Maulmain and Bassein shall, to the extent of one anna and six pie per ton, be applicable in the first place to defray the expenses of maintaining the existing port-lights of Burma.

[New.]

Validation of irregular contributions.

65. Any money contributed before the passing of this Act from any port fund for any purpose connected with the health, recreation and well-being of sailors shall be deemed to have been lawfully contributed from the fund.

[17 & 18 Vict., c. 104, s. 546.]

Grant of sites for sailors' institutes.

66. Any local authority in which any immoveable property in or near a port is vested may, with the previous sanction of the Local Government, appropriate, and either retain and apply, or transfer by way of gift or otherwise, the whole or any part of the property as a site for, or for use as, a sailors' home or other institution for the health, recreation and temporal well-being of sailors.

[Act XII, 1875, s. 18.]

Exercise of powers of conservator by his assistants.

67. (*1*) All acts, orders or directions by this Act authorized to be done or given by any conservator may, subject to his control, be done or given by any harbour-master or any assistant of such conservator or harbour-master.

(*2*) Any person authorized by this Act to do any act may call to his aid such assistance as may be necessary.

[Act XII, 1875, s. 9.]

Service of written notices of directions.

68. Any written notice of a direction given under this Act, left for the master of any vessel with any person employed on board thereof, or affixed on a conspicuous place on board of the vessel, shall, for the purposes of this Act, be deemed to have been given to the master thereof.

[Act XII, 1875, s. 42, and Act V, 1885, s. 1.]

Publication of orders of Local Government.

69. Every declaration, order and rule of a Local Government made in pursuance of this Act shall be published in the official Gazette, and a copy thereof shall be kept in the office of the conservator and at the custom-house, if any, of every port to which the declaration, order or rule relates and shall there be open at all reasonable times to the inspection of any person without payment of any fee.

Explanations to Part II of the First Schedule.

Explanation 1.—In this Part of the Schedule—

(*a*) "ship" means a sailing vessel, and "steamer" a steam-vessel:

(*b*) "coasting ship" or "coasting steamer" means respectively a ship or steamer which at any port discharges cargo exclusively from, or takes in cargo exclusively for, any port in the island of Ceylon or in any part of India between the western-most part of Sind and the south-easternmost part of Burma; and "coasting steamer" includes a coasting steam-vessel having a general pass under section 164 of the Sea Customs Act, 1878: VIII of 1878.

(*c*) "foreign ship" or "foreign steamer" means respectively a ship or steamer not being a coasting ship or coasting steamer.

Explanation 2.—As regards the levy of port-[illegible]ch of the following pairs of ports, namely, Cocanada and Coringa, Nagore and N[illegible] Beypore and Calicut, is to be treated as if it were only one port; every vessel in respect of which such dues have been charged and taken at one of any of the said pairs being exempted from the dues on entering the other of the same pair immediately after leaving the one in which the dues were charged and taken.

STATEMENT OF OBJECTS AND REASONS.

FOURTEEN years have passed since the law relating to Indian ports and port-dues was last consolidated. During that time places which were ports have ceased to be so, and places which were not previously ports have had the Ports Act of 1875 extended to them. The Act has itself been amended by no fewer than nine Acts, and a Bill for further amending it was pending in the Council of the Governor General when proposals for the introduction of a further Bill for still further amending the Act were received by the Government of India. In these circumstances it appeared to the Government that the time had come for again consolidating, as well as amending, the law relating to ports and port-dues. A Bill was accordingly prepared in October last and submitted for the criticism of the Governments of Madras, Bombay, Bengal and Burma. The replies of those Governments, and the opinions of the authorities consulted by them, have now been received and considered, and the Bill has been amended accordingly. Effect has not been given to all the suggestions received, partly because some will, it is believed, be more suitably complied with in a Bill which is about to be introduced into the Council of the Lieutenant-Governor of Bengal, and partly because others are such as should, in the opinion of the Government of India, be left for consideration by the Select Committee, which will have the advantage of hearing what the mercantile members of the Council have to say about them.

2. The principal amendments which it is proposed to effect in the existing law will now be stated in the order of the sections and schedules in which they occur in the Bill:—

(*1*) *Section 1, sub-section* ([illegible]).—It has been proposed by the Government of Bengal that sections 40 and 41 of the Act of 1875 (sections 29 and 30 of the Bill) should apply to all ports without being specially extended thereto.

(*2*) *Section 3, clause* (*6*).—The definition of the word "ton" has been added for the purpose of giving effect to a proposal made by the Board of Trustees for the Port of Bombay.

(*3*) *Section 6, clause* (*e*).—The mention of "passengers" is suggested by the Governor of Bombay in Council and the Lieutenant-Governor of Bengal.

(*4*) *Section 6, clauses* (*k*) *and* (*m*).—These clauses have been re-modelled in the direction suggested by the Lieutenant-Governor of Bengal and the Governor of Bombay in Council, respectively.

(*5*) *Section* [illegible], *clause* (*o*).—This [illegible] has been proposed by the Board of Trustees for the Port of Bombay, and is believed to be as necessary for other ports in India as for that port.

(*6*) *Section 21, sub-section* (*2*), *clause* (*c*).—This clause is suggested by the case reported at I. L. R. 9 Cal. 849.

(*7*) *Section 35, sub-section* (*5*), *clause* (*e*), *and section 65*.—These clauses are designed to authorise for the future, and validate as regards the past, certain contributions which Port Commissioners and Trustees make in aid of sailors' homes, coffee-houses and other institutions for purposes connected with the well-being of seamen ashore. Apart from legal considerations, the action of Port Commissioners and Trustees in this matter appears to have been, and to be, generally defensible and proper.

(*8*) *Section 39, clause* (*3*).—This clause has been suggested by the Commissioner of Customs at Bombay to meet the case of firewood and other articles being conveyed from one port to another on rafts which are incapable of being measured as ships.

(*9*) *Section 47, sub-section* (*4*).—The addition to this clause has been suggested by the Lieutenant-Governor of Bengal to meet the case of native seamen in the coasting brigs plying from Chittagong. These brigs are manned almost entirely by men of the Chittagong District, who, when ill, do and will continue to go to their homes. Provision for giving medical aid to these seamen at Chittagong is not necessary, but the want of such provision there for Europeans is much felt.

(*10*) *Section 66*.—This clause reproduces a section of the Merchant Shipping Act, 1854 which is in force in the United Kingdom, and may be found useful in

British India, where most local authorities are now bodies corporate, with their powers as to the disposition of their property strictly defined.

(*11*) *First Schedule, Parts I and IV.*—It is proposed that tug-steamers and river-steamers at Chittagong and Rangoon pay a rate not exceeding four and a half annas and four annas, respectively, per ton every half-year.

(*12*) *First Schedule, Part II.*—This Part of the Schedule is still unsettled, its details being under the consideration of the Governor of Fort St. George in Council and local experts, including the members of the Madras Chamber of Commerce.

(*13*) *First Schedule, Part III.*—The rate of port-dues for coasting steamers visiting ports of the Northern and Southern Groups in the Bombay Presidency has, at the instance of the Commissioner of Customs and the Collector of Salt-revenue, been modified in favour of ship-owners.

(*14*) *Second Schedule.*—It will be for the consideration of the Government of Madras whether Act II of 1872 of the Governor in Council need be maintained. It is obviously desirable that the power to make port-rules should be as uniform as possible for the whole of British India, and it appears that, up to the beginning of last year at any rate, it had not been found by the Madras Government to be necessary to make any rules under its Act of 1872.

It may here be observed that a clause in the direction of clause XVI in that Act has been supported by the Board of Trustees for the Port of Bombay, but has not been adopted at this stage of the Bill because a power to detain the master, and therefore his ship, for the purposes of a departmental inquiry as to the conduct of a port-official or pilot ought not, in the opinion of the Government of India, to be given unless the power is conclusively proved to be necessary in the public interests.

The power conferred on the Madras Government by clause XVII in its Act of 1872 for regulating the use of day-signals is proposed to be taken in clause (*m*) of section 6 of the Bill.

3. The chief authorities of Indian ports having already been consulted on the Bill as circulated in October last, it is requested that opinions on the revised Bill may be furnished to the Government of India in the Legislative Department by the 1st of March, 1889.

CONTENTS.

No. 18Mne., dated Calcutta, the 30th January 1889.

THE following report of the seventh quarterly inspection of the Dock Works at Kidderpore, which are being carried out by the Commissioners for making improvements in the Port of Calcutta, is published for general information.

By order of the Lieutenant-Governor of Bengal,

W. B. BESTIC,

Under-Secy. to the Govt. of Bengal,
P. W. Dept.

QUARTERLY INSPECTION OF THE KIDDERPORE DOCK WORKS.

Dated Calcutta, the 28th January 1889.

From—MESSRS. H. CLOËTE AND W. CONNAN,
To—The Secretary to the Government of Bengal, P. W. Dept.

WE have the honour to report that, in accordance with the instructions contained in the Government of Bengal's letter No. 103M., dated the 12th instant, we made the seventh quarterly inspection of the works at the Kidderpore docks, as shown in the progress report submitted by the Superintending Engineer of the docks on the 10th instant.

2. The index plan with tabular statement showing work done during the quarter under report, and the [illegible]antity of work executed from the commencement of the docks, which have been prepared by the Superintending Engineer in charge of the works, are with Government.

PERMANENT WORKS.

Sixty-feet Lock.—About 3½ lakhs of excavation were taken out, and over 1½ lakhs masonry and 2,500 square feet of foundation were done during the quarter. The two end and centre sections of the lock have been built up to coping level. The founding of the intervening sections was well in hand on our inspection, and arrangements were being made for the erection of the gates.

Eighty-feet Entrance.—Over 6½ lakhs of excavation were taken out, and 56,300 cubic feet of masonry and 5,440 square feet of foundation were done during the quarter. The foundation of this work is now well in hand.

Tidal Basin.—Over 6¼ lakhs of excavation were taken out. Work on the quay walls was stopped, pending further progress on the eighty-feet and double entrances.

Graving Dock.—This work is now well in hand, and good progress may be expected. During the quarter over 9 lakhs of excavation were removed, and nearly 1½ lakhs of masonry and 7,840 square feet of foundation were done.

Double Entrance.—Over 5¼ lakhs of excavation were taken out, and nearly 3 lakhs of masonry and 17,280 square feet of foundation were done. This work is now in good progress.

Dock No. 1.—Up to date about 75 per cent. of the total quay wall masonry has been completed, and about half the total excavation taken out. During the quarter 251 running feet foundation and 240,346 cubic feet masonry were done and 34 lakhs of excavation removed.

Boat Canal.—The piers and abutments for the road bridges were commenced, and good progress was made with them, and excavation for the foundations for the lift lock and syphon culvert was commenced.

Expenditure.—The total expenditure up to end of the quarter was reported to be Rs. 1,19,51,253, of which Rs. 93,83,903 were spent on account of works and Rs. 25,67,350 for land.

SANITARY.

The average number of work-people employed was 8,974, among whom there were 85 deaths (56 of these being from cholera), showing a death-rate of 35 82 per thousand per annum.

GENERAL REMARKS.

We are of opinion that fair progress has been made with the works, and that, so far as we have been able to judge from our inspection the character of the work is satisfactory.

CALCUTTA, *the 5th February* 1889.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 1st FEBRUARY 1889.

The week commenced with fine settled weather everywhere, pressure was generally a little above the normal, and was increasing with moderate rapidity; temperature was high, and was also undergoing slight irregular upward changes; winds were northerly, and humidity fairly low. The important changes have been, first, the fall of pressure, which began everywhere on Sunday, and continued in North Bengal till the end of the week; second, the rapid fall which occurred in Bengal about the middle of the week in consequence of the eastward movement of the low-pressure areas in Central and Northern India; third, the rapid increase of humidity and temperature, and the general rainfall lasting almost everywhere for about two days.

The fine weather with which the week commenced continued everywhere in Bengal till Monday, and except Behar and South Bengal till Tuesday. The barometer continued rising on Saturday, but on the following day the fall set in, and continued without interruption for some days. During these days changes of temperature were somewhat irregular, but generally it was falling slightly on Saturday and Sunday, and rising about the same the following two days. On Monday the fall of pressure was fairly rapid in South-West Bengal, and on Tuesday it fell there more rapidly. The greatest change on Tuesday, however, was in the extreme north-west of the province, where pressure gave way about a tenth of an inch. The humidity and temperature increased, and the wind direction in South-West Bengal became south-westerly, forming part of the cyclonic circulation of winds in Central India. The sky was overcast in Behar and Assam, and a few showers fell in parts of these districts and South-West Bengal, the heaviest fall being 1·6 inches at Midnapore. On Wednesday the barometer continued to fall, and the disturbed conditions extended over the whole province. Except in Orissa, rain fell everywhere, more especially in Behar and some parts of South-West Bengal. The south-westerly winds had extended over almost the whole province, and the temperature was still increasing. On Thursday the centre of the disturbance was over Bengal; the barometer fell rapidly in South Bengal, in some parts as much as an eighth of an inch. Wind force increased, and the cyclonic motion was more distinct. Though cloud still continued, there was general rain only in North Behar and North Bengal, but in parts of these districts more than two inches fell. The temperature still rose, and humidity remained high. The depression passed rapidly over Bengal, and on Friday was on the extreme east of the province. In the north and east pressure was still falling, but in the west it began to rise more rapidly. Rain had almost ceased to fall, except in East Bengal, and temperature and humidity were beginning to be reduced. The disturbed conditions began on the same day in the north west and south west corners of the province, and after affecting the weather conditions everywhere during the latter half of the week, passed off to the east.

Pressure.—Pressure changes have been, except as to intensity, of the same nature during almost the whole week. On Saturday, the first day of the week, the barometer rose in some cases with considerable rapidity. In parts of Behar and North Bengal the rise was over a tenth of an inch. After that a fall everywhere set in, slowly and irregularly at first, but with increasing intensity, especially in Behar and South-West Bengal. Up till Tuesday the greatest fall was a tenth of an inch at Patna on the 29th. Considerable falls occurred on the two following days, and altogether the reduction became about a quarter of an inch in Behar. During these days slight falls had been occurring in the southern districts, but they rarely exceed a twentieth of an inch. On Thursday, however, the barometer fell much more rapidly in South-West and East Bengal. At Midnapore the reduction amounted to three-tenths of an inch. The total fall of pressure at Midnapore is therefore considerably greater than at any of the stations in Behar. The total fall at Burdwan and Balasore was in each case about ·25". The centre of the low pressure area must therefore have passed near Midnapore. Thus two low pressure areas almost simultaneously entered Bengal—one from the north-west over Behar, the other of a little greater intensity from Central India. On Thursday there was a distinct depression passing eastward over Bengal. It moved away rapidly, and on Friday the pressure was rising on the west of the province.

Temperature.—At the beginning of the week, temperature, though generally in excess, was only slightly so except in Orissa. On Saturday Cuttack had an excess of 8°. On the two following days the changes were generally small, and the excess amounts became very little altered. During these three days the temperature in Behar was about normal. On the 29th a general rise set in, causing everywhere an excess of three to four degrees the greatest being 7·8° at Calcutta. On Wednesday, the 30th and Thursday small irregular rises were general, and in many places continued on Friday but the increase was usually small, and on the west of the province the temperature had begun to fall. The temperature has therefore been increasing, though slowly, during almost the whole week, and the mean for the week is, except in the north, considerably in excess. In Orissa and Chutia Nagpur the excess is about 5°.

The general range and distribution of temperature for the week, and its variation from the normal, is shown in the following table, where the average, maximum, minimum, and

mean temperatures at nine typical stations in the province are compared with the normal values for the same period :—

Rainfall.—Rain commenced to fall in South-West Bengal and Behar on Tuesday, the 29th, and became general over the whole province the following day. The largest falls were in one or two cases over three inches in South Behar; but at many places in Behar and North Bengal, and at a few in South-West Bengal, more than two inches fell. The rain continued in North and East Bengal on Thursday, but was practically absent from South-West Bengal and Orissa. In some cases heavy showers fell on Friday in East Bengal, one station reporting almost two inches. The average rainfall has been largest in North Behar, amounting to nearly two and-a-half inches. The average in North Bengal is exactly two inches, and in South Behar very nearly two. South-West Bengal received only three-quarters of an inch, but the fall there, though general, was very irregular. In Orissa the average is little over a twentieth of an inch.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 1st February 1889 :—

The results of observations at the Alipore Observatory are not rigorously comparabl[illegible] the registers of past years ([illegible] the Park-street Observatory). The barometer is about higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal ra temperature is also greater at Alipore, and the mean temperature apparently about 2·5° lowe finally, the thermometer which furnished the record of temperature at the Surveyor-General's during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, is the standard of reference at the present Observatory.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

For the week ending 19th January 1889 the returns from the principal Municipalities in Bengal present the following results.

1. The ratios per *mille* of births stood at 24·8, as opposed to 25·9 during the preceding week ending 12th January, and of deaths at 24·1 against 26·6. There was thus a retrogression in the registration of both births and deaths.

2. The following Municipalities registered the highest proportions of births and deaths:—

Births.

	Ratio per *mille*.
Monghyr	49·7
Utterpara	47·2
Narainganj	45·5
Rampore Beauleah	42·0
Santipore	36·8
Bhagulpore	36·2
Purneah	31·2
Durbhanga	29·9
Hughli	29·5
Serampore	29·4

Deaths.

Purneah	45·0
Puri	39·9
Suburbs of Calcutta	39·3
Serampore	33·4
Bali	31·6
Hughli	30·9

3. The only noticeable point in connection with the incidence of the specific diseases, in comparison with the outcome of the preceding week, is a sensible abatement in the mortality from fever—*vide* subjoined table:—

	Ratio per *mille* during the weeks ending— 19th Jan. 1889.	12th Jan. 1889.

Fever	8·9	10·2
Bowel-complaints	4·4	4·3
Injury	·2	·3
Other causes	8·2	[illegible]

4. Of the diseases mentioned above, fever proved noticeably fatal in the Purneah Municipality, where the rate of death was 34·6 per 1,000 of the population. Small-pox furnished no death. Injury exhibited normal fatality. Cholera, bowel-complaints and the maladies coming under the head of "Other causes" caused the highest mortality in the following Municipalities:—

Cholera.

	Ratio per *mille*.
Narainganj	20·7
Bali	10·5
Howrah	9·1
Suburbs of Calcutta ...	5·0

Bowel-complaints.

Increase.

	Tons.
Coal	682
This increase is due to greater import of brick-burning coal.	
Cotton piece-goods—	
(1) European	13
This increase is due to steamer service between Jeagunge and Calcutta being closed.	
Jute—	
(1) Raw	118
This traffic is carried by railway this year, the river communication between Jeagunge and Calcutta having been stopped for want of sufficient water.	
Grains—	
(2) Rice	93
The increase under this head is due to greater despatches from intermediate stations.	
(5) Others	27
This is due to steamer service between Jeagunge and Calcutta being stopped.	
Railway plant and rolling-stock	99
This increase is due to more materials carried this year.	
Oilseeds—

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 3362A.

GENERAL.—*The 3rd January* 1889.—Mr. F. W. V. Peterson, District and Sessions Judge, Purneah, is allowed furlough for nine months, under section 50 of the Civil Leave Code, with effect from the 1st March 1889, or such subsequent date as he may avail himself of it.

The 14th January 1889.—Mr. F. W. Badcock, Officiating District and Sessions Judge, Rajshahye, is allowed furlough for eight months and a half, under section 50 of the Civil Leave Code, with effect from the 1st March 1889, or such subsequent date as he may avail himself of it.

The 8th February 1889.—Baboo Anund Chunder Sen, Deputy Magistrate and Deputy Collector, Manickgunge, Dacca, is allowed leave for three months, under section 72 of the Civil Leave Code, with effect from the 21st instant, or such subsequent date as he may be relieved.

Moulvie Mahomed Serajul Huq, Deputy Magistrate and Deputy Collector, Chittagong, on leave, is transferred to Dacca, and is appointed to have charge of the Manickgunge sub-division of that district, during the absence, on leave, of Baboo Anund Chunder Sen, or until further orders.

Mr. P. H. O'Brien, C.S., reported his departure from India, on furlough, on the 23rd January 1889.

The 9th February 1889.—Baboo Rash Behary Dutt, Temporary Sub-Deputy Collector, is posted to the Sonthal Pergunnahs district for the purpose of carrying out the settlement of certain Government estates in that district.

Mr. D. J. Macpherson, Joint-Magistrate and Deputy Collector, Hooghly, is posted temporarily to the Sudder station of the 24-Pergunnahs district.

The 11th February 1889.—Mr. F. B. Taylor, Officiating District and Sessions Judge, Cuttack, is appointed to act as District and Sessions Judge of Purneah during the absence, on furlough, of Mr. F. W. V. Peterson, or until further orders.

NOTIFICATION.

The 11th February 1889.—The following revised rules which have been framed by the Chief Presidency Magistrate for the guidance of Benches of Magistrates in the Town of Calcutta, under section 21 of Act X of 1882, and sanctioned by the Lieutenant-Governor, are published for general information in supersession of the rules published in the *Calcutta Gazette* of the 4th July 1888 :—

1. The Honorary Presidency Magistrates shall sit in the rotation arranged by the Chief Magistrate.

2. The Honorary Presidency Magistrates shall try only such cases as may be referred to them by the Chief Magistrate or by his orders.

3. The Honorary Presidency Magistrates shall ordinarily open their Courts at noon, and rise at 5 P.M., on the dates fixed by the Chief Magistrate. A special bench may, however, be convened on any other day or any other hour by the Chief Magistrate.

4. A bench shall ordinarily be composed of not less than three Magistrates, when they are all Honorary Magistrates; or of two when one of them is a Stipendiary; but the Chief Magistrate may, in his discretion, permit any two Honorary Presidency Magistrates to proceed with the hearing and disposal of cases.

5. The Chief Magistrate may, should he deem it desirable, appoint any Honorary Presidency Magistrate sitting singly to be a Court, and on business being sent to him by the Chief Magistrate, he shall dispose of the same, but not otherwise.

6. Should any Honorary Presidency Magistrate named for attendance on a Bench fail to be present on the appointed day, the Chief Magistrate may, in his discretion, either summon another Magistrate, or direct that the Bench should proceed without the absent member.

7. The Stipendiary Magistrates shall be *ex-officio* members of benches: the Chief Magistrate shall, if present, officiate as Chairman: in his absence, the Junior Stipendiary Magistrate shall, if sitting, officiate as Chairman. In the absence of both the Stipendiary Magistrates, the Chief Magistrate shall nominate the Chairman.

8. The Chairman shall conduct the proceedings of the Court, and exercise all the functions in that behalf usually exercised by a Stipendiary Magistrate when sitting singly. He will decide upon the admissibility of evidence, and maintain order in the Court; but it shall be open to any member of the bench to put questions to the witnesses either direct or through the Chairman as the latter may deem advisable, and to suggest any matter for the Chairman's consideration.

9. Every member of a Bench shall have a voice in the finding and sentence. In a bench consisting of three members, the opinion of the majority shall prevail; when there are only two members, the Chairman shall have a casting vote.

10. The Chairman shall himself ordinarily record the evidence and judgment in cases where a record of evidence and judgment is necessary; but such duty may, with his consent, be performed by any of his colleagues, or the evidence and judgment may be taken down by the Registrar of the Court at the dictation of the Chairman.

11. A bench may hold one or more adjourned sittings, should it be necessary to do so for the disposal of business or of part-heard cases; but it shall be open to a bench at the close of each sitting either to refer unheard cases back to the Chief Magistrate for disposal, or to postpone them to some other day as may be most convenient, but adjournments should be, as far as possible, *de die in diem*.

12. Any part-heard case adjourned by a bench composed of three Magistrates may be proceeded with on the day fixed for the adjourned hearing before any two of the said Magistrates; provided always that the accused person or persons give his or their consent. At subsequent hearings of the case, where further adjournments are necessary, shall be before the same two Magistrates.

13. Any part-heard case may be sent back to the Chief Magistrate for disposal, should it appear unsuited for trial by a bench.

AUSTRALIA—NORTH-WEST COAST.

EIGHTY MILES BEACH.

Bank southwestward of Patterson Shoals.

INFORMATION has been received from the British Admiralty, London (Notice to Mariners No. 396 of 1888), that the Government of Western Australia has given notice, dated 10th October 1888, that the Inspector of Pearl Shell fisheries has reported, that having sounded over the bank lying off Eighty Miles beach, he finds that it extends in a north-east and south-west direction for a distance of about 25 miles, forming a narrow ridge with depths of 3 to 7 fathoms at low water spring tides, and 12 to 15 fathoms on each side of the bank.

The position of the south-west end of the bank is lat. 19° 14′ S.; long. 121° 2′ E.; and it is evidently a continuation of Patterson shoals, the positions of which are marked "doubtful" on Admiralty Charts.

NOTICE TO MARINERS—(No. 11).

AUSTRALIA—SOUTH COAST.

PORT PHILLIP ENTRANCE.

Alterations in Buoyage—South and West Channels.

INFORMATION has been received from the British Admiralty, London, (Notice to Mariners No. 398 of 1888), that the Government of Victoria has given notice that on 30th November 1888, the two undermentioned buoys in the entrance to Port Phillip would be altered in character as follows:—

SOUTH CHANNEL.—Black buoy No. 15, at the eastern end of South Channel, is withdrawn, and a light-buoy moored in the same position:—

The light is a fixed *green* light, elevated 10 feet above the sea, and should be visible in clear weather from a distance of 3 miles.

WEST CHANNEL.—White buoy No. 12, at the elbow or bend in West Channel, is withdrawn and a light-buoy moored in the same position:—

The light is a fixed *white* light, elevated 10 feet above the sea, and should be visible in clear weather from a distance of 5 miles.

By direction of the Government of Bengal,

EATON W. PETLEY,
Offg. Port Officer of Calcutta.

Monghyr Collectorate, the 20th December 1888.

W. O'Reilly, for Collector.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government situated along the main line of the Tirhoot State Railway (Simuria Extension), in the Durbhunga district, from Mouza Basaria to Mouza Ajnaul, will be put up to sale at the Dalsing Sarai Railway Station on the 25th March 1889.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The balance of purchase money due under the 3rd condition may be paid either to the Collector or into the Government treasury at Durbhunga for lands situated in the Durbhunga district.

5th.—The plots of land will be sold revenue free to the highest bidders.

6th.—The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

A. H. WARDE-JONES, for Collector.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated within the boundaries of the abandoned Bazitpur Branch of the Tirhoot State Railway, in the district of Durbhunga, from mouza Sahit to mouza Basaria, will be put up to sale at the Dalsing Sarai Railway Station on the 25th March 1889.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The balance of purchase money due under the 3rd condition may be paid either to the Collecter or in the Government Treasury at Durbhunga for lands situated in the Durbhunga district.

5th.—The plots of land will be sold revenue free to the highest bidders.

6th.—The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

A. AHMED, for Collector of Burdwan.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the district of Burdwan, will be put up to sale at the Kalna Deputy Collectorate on Monday, the 25th March 1889, corresponding with the Bengali year 1295, 13th Choitra.

The purchasers will be subject to the following conditions of sale :—

Conditions of sale.

1st.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

C. G. H. ALLEN, For Collector.

NOTICE is hereby given that the right, title and interest of Government, as specified in the conditions of sale below, in the nispi land, in village Durmoot, pergunnah Majnamutha, which forms the undermentioned estate, situate in the district of Midnapore, will be put up to sale at the Midnapore Collectorate, on Thursday, the 28th March 1889, corresponding with 16th Chait 1296A.S.

Conditions of Sale.

1. The land comprised in the estate to be sold to the highest bidder above the upset pr[illegible]. The purchaser will be considered as the nispi holder of the said land, and the entire right, title and interest of [illegible]ernment in the land will be transferred to him, subject to the annual payment of the underm[illegible]tioned nispi [illegible]nd peshkush jumma to the proprietors of the temporarily-settled estate Majnamutha, which is now under direct management. The purchaser will have to pay no annual revenue to Government.

2. The sale to be subject to existing leases, and to the rights conferred by the settlement proceedings and by the laws in force, and the purchasers to be bound to respect the rights of the resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Notice.

THE right of working the copper mines at Chunabatti, in the sub-division of Alipur, Western Dooars, will be put up to auction on 15th March 1889, in the Court of the Sub divisional Officer of Alipur. Settlement will be made with the highest bidder for five years, commencing from 1st April 1889. Chunabatti is situate two miles west of Buxa in the Western Dooars. Plenty of labour, firewood and good water is available on the spot. There is a good road, and the mines can be worked with little difficulty. It is believed that any person or company who may work the mines will obtain a good profit. Sixteen seers of copper are said to be obtainable from each bazar maund of ore. A specimen of copper can be seen at the Office of the Secretary to Chamber of Commerce, Calcutta. Any further information will be supplied by the undersigned.

WITH effect from the 1st April 1889, the sender of a value-payable article will be required to sign a certificate to the effect that the article is sent in execution of a *bonâ fide* order; and in the case of a value-payable unregistered packet, the sender will, in addition to signing the certificate referred to above, be required to prepay the usual money order commission on the amount specified for recovery from the addressee, by affixing postage stamps of the value of the commission to the form filled up by him.

2. In lieu of the forms at present filled up by the senders of value-payable articles, two revised forms will be substituted from the 1st April 1889—one for use with all value-payable articles other than value-payable unregistered book packets, and the other for use with value-payable unregistered book packets. Each form will contain the certificate to be signed by the sender, and space is provided in the form for use with value-payable unregistered packets for the postage stamps to be affixed in payment of commission.

3. In case a value-payable unregistered packet is refused by the addressee or returned as unclaimed to the sender, no refund of the commission prepaid will be granted.

REVENUE DEPARTMENT—FAMINE.

Calcutta, the 6th February, 1889.

RESOLUTION.

READ—

Letter No. 84G.F., dated 24th January, 1889, from the Commissioner of Patna, reporting upon the prospects of the crops and condition of the people in the districts of that Division for the fortnight ending the 15th January, 1889.

THIS report has been prepared since the date on which the Lieutenant-Governor completed his tour through the distressed portion of the Patna Division, and touches on some of the topics discussed on the occasion of that visit. The general result of His Honor's enquiries was to confirm the estimate of the situation made as soon as the result of the winter harvest was known, and reported on the 10th December to the Government of India. Briefly it may be said that the yield of that crop was deficient throughout Behar generally, but the prospects of the *rabi* are at least fair, and the stocks from previous harvests are quite as large as usual. While this resolution was under preparation, the Lieutenant-Governor received reports of good rain, varying from $1\frac{1}{2}$ to $2\frac{1}{2}$ inches, having fallen over the whole of Behar on the last days of January. This may be expected to secure a good *rabi* wherever a spring crop has been sown and to keep prices steady; it will allow of cheena (a millet) being sown, and so adding something to the food-supply in April, and will have also the effect of inducing people to plough their lands at once,

while the most serious symptom noticed by the Lieutenant-Governor, viz., the deficiency of water in the tanks, will to some extent have been remedied. None the less the circumstances are such as to call for watchfulness, for liberality in providing earthwork on roads somewhat in excess of that given in normal years, and for advances under the Land Improvement Act to zemindars willing to construct petty irrigation works, such as those on account of which the Lieutenant-Governor has by orders issued on the 1st instant granted a loan of Rs. 50,000 on the recommendation of the Collector of Gya. Further measures do not seem to be required at present except in a limited area, and it is hoped that the necessity for action involving any very serious expense will not arise. The area referred to as exceptionally situated is a narrow strip, stretching for about 90 miles from east to west along the Nepal frontier, through the northern parts of the districts of Chumparun, Mozufferpore, and Durbhunga, with some extension, not so clearly defined, in Bhagulpore. In the eastern part of this tract, as noticed by the Collector of Durbhunga after a careful enquiry village by village, the area of crop failure is not so continuous as elsewhere, fair and tolerable patches of land being interspersed with those on which the loss was almost complete. The rainfall in the afflicted area was very small, and it ceased prematurely, with the result that the winter rice crop, on which the cultivators mainly depend, was almost all lost, and the *rabi*, which is of no great importance in that neighbourhood, was sown under unfavourable conditions. This, taken with the high prices at present prevalent, has produced among the poorer inhabitants of the area in question a certain amount of distress, very different in degree from that felt during actual famine, but nevertheless quite unmistakeable, and such as to call for relief.

2. This relief has hitherto been afforded mainly in the form of employment on earthwork, which has been provided throughout the distressed area in a great number of places, so that every one desirous of earning a maintenance can get it within easy reach of his or her own home. The wages given are fixed in accordance with the provisions of the Famine Code according to the varying price of common rice, which in that part of the country is the staple-food of workmen, the scale being so adjusted that those who accept piece-work can earn the value of a full ration on the scale laid down by the Code, while those who can only perform light work get 75 per cent. of the value of such a ration. Work has to be given to all who seek it without exception, to women and children and those unused to the *khardali*, as well as to skilled labourers, and payments are made daily under strict supervision. A large number of applications have been received for advances under the Land Improvement and the Agriculturists Loans Acts, and these are, for the most part, under enquiry. A small grant has also been made for charitable relief, with the intention that as long as there is no acute distress, it shall be used only for the support of wanderers, and in other urgent cases. The system adopted may therefore be described as consisting in supplying work for all on the wages prescribed by the Code, and supplementing the relief thus afforded by loans in approved cases after due enquiry, and a sparing resort to charitable assistance. In other words, the system laid down by the Famine Code is being adopted gradually and tentatively in adjustment to the deepening necessities of the situation. The works have been, and in some cases still are, merely test works, intended to lead up, should occasion arise, to the full development of large works conducted by professional agency; to be supplemented by circle establishments (organised at present only on very modest lines) for village enquiry and gratuitous relief. The aim of the Government has been to secure itself from being taken by surprise, and to arrange such an organisation as may easily be developed gradually in strength sufficient to cope with deepening distress.

3. The Lieutenant-Governor was most gratified to observe that these instructions had been observed by the district officers under the direction of the Commissioner; they have shown great zeal, thoroughness and intelligence in this work, which has been carried on with a due sense of their responsibility for preserving life on the one hand, and on the other for observing economy in the expenditure of public money. The statements submitted by Mr. Power, Collector of Chumparun, with this report show a daily average of 5,535 labourers employed in

his district during the fortnight on works carried on at the expense of this Government, 1,937 on private works, and 963 on the works of the District Board,—in all 8,435. Of these, 1,476 are women and 1,304 boys. The Government works in Chumparun, 32 in number, and also those conducted by private agency, take the form of facilitating irrigation, by re-excavating old tanks, and by damming up hill streams, and distributing the water thus collected at a head by means of pynes or channels. The labour for damming the streams was generally obtained simply by calling the villagers together, who worked voluntarily to save their crops by a traditional method. To the energy and intelligence of Mr. Henry, the late Collector, and to the professional skill and supervision of Mr. Sealy, District Engineer, are due the carrying out of these most useful works, but their task was greatly facilitated by the fact that the dams and the channels were all in the property of a single owner, the Maharajah of Bettiah, who gave all possible assistance, and there was none of the friction arising from the existence of numerous shareholders or divided ownership, which has in other districts baffled the endeavours of the local officers to get similar works undertaken. These irrigation channels have done immense good, and their value is thoroughly appreciated by the people. They are also so located as to make the assistance afforded to those wanting employment very complete. In Mozufferpore 927 persons were employed on the roads, at the expense of the District Board, during the first week of the fortnight, and the number during the second week increased to 4,100. The excavation of tanks at Government expense employed 1,902 persons, of whom 718 were women and 288 children. Mr. Bolton, Collector of Mozufferpore, writes that he has refrained from undertaking tank work more extensively, because the entire cost is borne by Provincial funds, while in his opinion the zemindars, who derive the chief gain from works of this class, should contribute a portion of the cost. He proposes in future to offer to excavate tanks if the zemindars pay half the expenses, which the Collector can advance under the Land Improvement Act. This suggestion is approved in principle by the Lieutenant-Governor, who would, however, leave to the discretion of the local officers the conditions under which assistance should be demanded from zemindars rather than lay down a hard-and-fast rule such as that proposed. The Commissioner's report does not give the actual number employed during the fortnight on the works in Durbhunga, but from the figures given to the Lieutenant-Governor while on tour, the daily average employed by the District Board on roads in the affected tract appears to have been about 4,000. The Lieutenant-Governor observes with satisfaction that private persons, in particular the Maharajah of Durbhunga, are excavating tanks on their own account. No expense has as yet been incurred by Government, but a list is being made of tanks upon which work can be commenced hereafter, should occasion arise.

4. A large share of the burthen of providing test works and ultimately relief works has fallen on the District Boards, the sums devoted to this purpose during the current year being in Gya, Rs. 13,000; in Mozufferpore, Rs. 6,000; in Chumparun, Rs. 11,000; and in Durbhunga, about Rs. 1,00,000. Much of this is only what the District Boards would in ordinary circumstances have devoted to the repair and raising of the roads in the affected tracts; but in some instances they have forestalled the period for such work, and in others they have specially diverted sums from other parts of the district for relief purposes, and in all cases they have accepted the necessity of regulating their rates and methods of payment in accordance, more or less complete, with the requirements of the Famine Code. In a case like the present, where in no district is distress general, or extended beyond limited tracts, there is a natural tendency on the part of members representing the unaffected area to object to money and establishment being diverted from the usual channels of district expenditure to the special purpose of relief in the distressed area. But in the Lieutenant-Governor's opinion there can be no doubt that the duty of providing relief in the way of work should fall in a gradual scale with the deepening of distress first, on Local, secondly, on Provincial, and thirdly, on Imperial funds. The District Boards are not an organisation altogether outside the Government, but form an integral part of the administration of the country, specially organised

for the proper local expenditure of funds raised by local taxation, and from this point of view it becomes their duty, just as it is that of other departments of Government in time of serious distress or famine, to subordinate the ordinary objects and methods of their expenditure to the special consideration of saving life. This is the general principle, the application of which, however, has to be regulated, both in regard to funds and establishment, as well as in regard to methods, by the intensity of the distress in each particular case. The Lieutenant-Governor does not doubt that, should distress be found to deepen in the early months of the coming financial year, the District Boards will not be unwilling to act on the principle above laid down, and to devote (especially in the case of Mozufferpore) considerably larger sums to the special purpose of providing relief in the affected tracts. The Lieutenant-Governor is prepared, apart from the works which are or may be carried out by their own civil or professional agency, to assist the District Boards with additional establishment, and where, by employing the methods prescribed in the Famine Code, the cost of the work is materially increased beyond what under ordinary conditions it would have amounted to, the Lieutenant-Governor is willing to consider favourably applications for recoupment from Provincial funds.

5. In order to legalise the action which the Boards may take for the relief of distress, the Lieutenant-Governor has consented, at the suggestion of the Commissioner of Patna, to extend section 99 of the Local Self-Government Act of 1885 to that Division.

6. In Chumparun and Mozufferpore all relief work is managed by officers of Government or by the District Board directly, while in Durbhunga the intervention is permitted of gangers, or petty contractors. These men are supposed to make no profit out of the earthwork, being remunerated for their services by the rate given for "finishing," &c., and they are compelled by rule to employ all comers. The Commissioner desired to extend the system prevalent elsewhere to Durbhunga also, as he is not satisfied that the arrangements made in the latter district are such as to ensure that all applicants will really receive work, while the Chairman of the Local Board wished to retain an agency which he was satisfied he could control, and which certainly secured excellent results as far as the quality of the work done is concerned. The Lieutenant-Governor was convinced by the result of local enquiries that all applicants were admitted to the works, and that all who worked were regularly paid, so that the system had acted well up to the date of inspection. Moreover, he was satisfied that, owing to the extraordinarily bountiful rice crop of the previous year and to other causes, the people in this sub-division of Madhubani are not as yet so hard pressed as their neighbours to the west, and that for the present at all events it is unnecessary to apply to this tract the full rigidity of the Famine Code. For these reasons, Sir Steuart Bayley is most unwilling to interfere in the details of arrangements made by a Board like that of Durbhunga, which has hitherto borne the whole cost of charitable relief, and is willing to permit the continuance of the system, as a temporary arrangement, as long as no acute distress is felt in Durbhunga, provided a proper agency is appointed to secure that all who seek work obtain it, and that wages are paid regularly. The fact that these objects have been secured up to a certain date, when distress was but little felt, is not, in His Honor's opinion, a sufficient assurance that they will always be attained. As suggested by the Commissioner, the system must be supplemented by the provision of task work, under direct management, for the feeble.

7. The Lieutenant-Governor is glad to receive the Commissioner's statement that grain stocks are everywhere reported to be sufficient, that prices are fairly stationary, and that there is no apparent increase of crime. The Lieutenant-Governor was specially glad to observe that wandering had nowhere commenced, as it does where famine is felt, and the small expenditure on charitable relief denotes the absence of cases of this class. The works now open serve not merely to mitigate immediate distress, but are also a test by which the pressure of the scarcity can be gauged. Should the attendance at these at any time indicate that the resources of the villagers are exhausted, it may be necessary to adopt the more active measures of relief, for which timely preparations have been made, but the Lieutenant-Governor hopes that the

recent rain will have done much to dissipate this danger. The Collector of Durbhunga reports in a demi-official letter that it has already had an excellent effect, and that the people are busy putting down *cheena* and *mung* which they will harvest in Baisakh, and which will help to tide them over to the next bhadoi. Ploughing for the next dhan crop and the preparation of indigo lands are also reported to have begun and to be giving work to the labouring classes.

ORDER.—Ordered, that a copy of this Resolution be submitted for the information of the Government of India, and that a copy be forwarded to the Commissioner of Patna for information and guidance.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Government of Bengal.

No. 3909—182Fam., dated Calcutta, the 10th December 1888.

From—P. NOLAN, ESQ., Secretary to the Govt. of Bengal, Revenue Department,
To—The Secretary to the Govt. of India, Revenue and Agricultural Department.

I AM directed to submit, for the information of the Government of India, the following report on the state of the crops in the Lower Provinces, and on the relief measures which have been or will have to be adopted.

2. It is within the knowledge of the Government of India that the rice crop reaped in the autumn season was in many places destroyed or injured by floods in July or August, and that the early cessation of the periodical rains has greatly diminished in many districts the yield of the winter harvest. The effect of the floods was most seriously felt in Orissa, and the attention of this Government was, in the first instance, directed to that division, the condition of which was briefly intimated in the telegraphic summary of the state of the weather and crops on the 21st of March 1888. With the gradual development of the symptoms of distress, periodical reports have been duly submitted for the information of the Government of India in the correspondence marginally noted.

No. 2633—99F., dated ...th August 1888.
No. 3066—119Fam., dated 10th September 1888.
No. 125T—R, dated 29th September 1888.
No. 292T—R, dated 7th November 1888.

It was at one time anticipated that the damage done to the autumn rice would almost certainly be followed by the loss of the winter crop on the unirrigated tracts, but this result has been averted by an unexpected and most opportune fall of rain in November, varying from 0·43 to 7·66 inches. The Lieutenant-Governor having, during his recent tour through all the districts of Orissa, had the means of making personal observations, as well as of consulting the local officials and experienced residents, is happy to be able to state that there is now no reason for serious apprehension in regard to that division. This statement does not extend to the Tributary Mehals, as to which the information received is imperfect, owing to the absence of communications, and the difficulty of ascertaining with precision the real facts in States administered by Chiefs possessing a considerable degree of independence. All that can be said in regard to these States is that there is no reason to expect any distress which will be beyond the resources of the Chiefs themselves. The expenditure sanctioned on account of relief in Orissa up to date is as follows :—

	Rs.
Road works	28,372
Charitable relief	15,000
Total ...	43,372

The sum of Rs. 90,000 was also assigned for loans under the Agriculturists Loans Act, 1884. It is believed that the outlay will be kept within these limits.

3. In Bengal Proper there has never been any anxiety as to the Eastern districts, the question in their case being only as to the amount of surplus food available for exportation. This will be considerable in the Chittagong Division. The autumn and winter harvests in the Western districts have been bad, and they cannot be said to be altogether out of danger, but there is no immediate prospect of their requiring relief.

4. Anxiety is now concentrated on Behar, which, for the present purpose, may be taken to include the Patna Division, with the adjoining district of Bhagulpore, having a total population of 17,030,102 souls. Intimation of the condition of this part of the country was

conveyed to the Government of India in the telegraphic summary of weather and crops for the week ending 23rd October 1888, and in subsequent summaries, while a copy of the correspondence on the subject has recently been forwarded to the Government of India with my letter No. 3682—156Fam., dated the 20th November 1888.

The following statement indicates the extent to which the rainfall has been deficient—

(a) The District Officer has not given separate figures for the comparative importance of the several harvests in the different parts of his district.
(b) The District Officer has not given separate figures for the outturn in the different parts of his district.

It may be compared with the following estimate of the out-turn of 1873-74, compiled mainly from Mr. MacDonnell's volume entitled "Food-grain Supply and Famine Relief in Behar and Bengal."

Name of District.	1873.			1874.	Remarks.
	Rubbee.	*Bhadoi.*	*Aghani.*	*Rubbee.*	
	Annas.	Annas.	Annas.	Annas.	
Shahabad ..	16	4	2	16	The *rubbee* of 1874 was "fair average," though no rain fell in October or November 1873.
Sarun ...	13	10	2	7	Yield of subsidiary crops 10 annas.
Durbhunga ...	16	9	3	9	The *rubbee* and *aghani* of 1872 were good, and there was at least an average stock in hand—perhaps more. The great drought of 1873 in many places rendered it impossible to sow *rubbee* for 1874.
Mozufferpore ...	16	12	5	10	
Chumparun ...	14	10	2	14	*Rubbee* of 1873 is not precisely estimated, but the crops of that year generally are said to have been good; the *rubbee* slightly injured by hailstorms. The Collector made no estimate of the *rubbee* of 1874. Mr. MacDonnell entered it as "average," and added in a foot-note that on further consideration he thought this too favourable.
Gya	No estimate.	5	8	16	The figures for Gya are of little authority. The good *rubbee* crop in 1874 is attributed to rain in March.

5. The general result of this information is to suggest that considerable scarcity will be felt in Behar, but that it will be far less than that experienced in 1873-74. The recent rain as shown in the margin, affords a fair prospect of a good *rubbee* crop in the spring. On the whole, the Lieutenant-Governor, as at present advised, does not anticipate any necessity for adopting measures of relief in Behar generally. The people will, in his opinion, be able to tide over their difficulties, with such help as the poorer classes may be able to obtain from their zemindars, or from charity. There are, however, certain tracts of no inconsiderable extent in which the loss has been very marked, and in these it will be desirable to open test works at once, taking such further steps hereafter as circumstances may suggest.

6. The chief seat of the distress is a tract stretching through Chumparun, Mozufferpore, and Durbhunga, and defined as about 90 miles in length from east to west along the Nepal frontier, taking in the Dhaka thana and parts of Motihari thana and Madhubun outpost of the Chumparun district, parts of the Bairagnia, Majorgunj, Sonbursa, Bela and Sursund outposts, and a small part of Pupri thana in Mozufferpore, and the Jali and Khajowli thanas of Durbhunga. The tract also extends into the Bhagulpore district. In this area the rainfall has been much more limited than elsewhere; in the Chumparun portion it is stated to be 26 to 28 inches, against an average of 55 inches, and to be badly distributed, no rain having

fallen since 9th September. For the Parihar Circle, in the north-east corner of the Sitamurhi sub-division, Mr. Lewhellin gives the following figures :—

	1888.	1887.
	Inches.	Inches.
January	......	2·33
February	......	......
March	·79	·58
April	2·41	·79
May	1·53	8·59
June	2·87	16·36
July	6·63	5·86
August	2·74	19·71
September	·95	3·78
October	......	17·55
Total ...	17·92	75·55

The failure of the winter rice crop on this tract has been almost complete, while in parts the autumn crop failed also, and the prospects of the coming *rubbee* are indifferent.

7. It is believed that distress is also threatening in a strip on both sides of the Bagmutti river, in the Sinhar thana of the Mozufferpore district. In Gya a tract near Shergbati is said to be affected, and in Shahabad parts of the thanas of Bhabua and Chowsa. The Commissioner has not yet been able to supply a map of the worst tracts, but he is preparing one, and the importance of expediting the work has been urged upon him.

8. The Lieutenant-Governor in the early part of last month requested Commissioners to furnish full and accurate information as to crops, and to pay special attention to the repair of roads and improving of ferries used for the purposes of traffic in grain. Mr. Henry, Collector of Chumparun, rendered valuable assistance to cultivators by damming up the streams of his district, so as to utilize the water, and at his suggestion other Collectors have been encouraged to follow his example, the expenditure of a moderate amount from Provincial revenues for the purpose, and the employment of Government Engineers being sanctioned. Mr. Henry has recently been appointed to assist the Commissioner, whose duties are at present very onerous. The general policy adopted in regard to relief is indicated in the following extract from a letter addressed to the Commissioner of the Patna Division on the 5th instant :—

"The action taken by Local Boards in opening test works, and works designed to give relief, is entirely approved. As pointed out by you, 'the attendance on these test works, where the rate of wage to be given must not be in excess of the amount of wage prescribed in the Code, will afford valuable information as to the actual pressure upon the people.' You will understand that, in order really to serve this purpose as a test, these works must be properly supervised to ensure, in the first place, that wages are paid daily as prescribed by section 44 of the Code, without deduction or delay, and in the second place that the rates are duly fixed in accordance with the provisions of Chapter X. It is desirable to give piece-work under section 130 where practicable, as in that case labourers can obtain the full wage. If the system of task work is adopted, care must be taken that the tasks are not excessive, that their performance is enforced, and that the wage does not exceed the maximum defined in section 131. If these prescribed precautions are not observed, test works may not only be useless as an index to the degree of distress prevalent, but positively injurious, as suggesting false conclusions. The Board's works specified in Mr. Martin's note appear to be very suitable. It is, however, desirable that they should be supplemented by plans for further works to be undertaken in case a very large number should have to be accommodated, and the organization should be such as to preclude panic and confusion in the event of a sudden rush sor employment at a critical period, such as occurred in Durbhunga in 1883-84.

"Steps will be taken to prepare for the construction of the line of railway recommended from Durbhunga to Setamarhee should such a work be found necessary, and arrangements will also be made for the survey of the proposed line from Sukri to Joynuggur. The Lieutenant-Governor cannot, however, give any assurance that the railways will be constructed, as the determination of that question rests with the Government of India, and if the lines are not held to be reproductive, the work, regarded merely as one of relief, is open to the objection that the expense will be out of all proportion to the amount of employment given during the continuance of the scarcity. *Pains*, such as those proposed for the Gya and Chumparun districts, will probably afford far more employment at a smaller cost, and officers will be deputed by the Public Works Department to mature the plans proposed for this purpose by Messrs. Grierson and Henry.

"The instructions issued by you to Collectors contemplate the opening of civil agency works at the expense of Government, and this course will probably be necessary in the strip of land along the Nepal frontier, where the failure of crops has been most complete. If these works are of moderate extent, the Lieutenant-Governor would be glad to leave their supervision to District Boards, paying the cost from Provincial funds. Proposals for reasonable advances or grants to District Boards on account of works to be conducted under the

Code in distressed areas will be favourably considered; but it is to be remembered that by the rules for the grant of loans under the Local Authorities Loan Act, 1879, this Government cannot assign more than Rs. 5,000 for any one work without the consent of the Government of India.

"The Board of Revenue will be requested to see that advances for the construction of wells are made by the Opium Department in as liberal a manner as possible during the present season in the distressed areas. As to the definition of these areas for that purpose, you are requested to communicate directly with the Opium Agent. If in any instance the officers of the Opium Department find that the construction of a well is desirable, but that the cost cannot properly be advanced by the Department, the amount can be lent under the Agriculturists' Loans Act, 1884.

"The Lieutenant-Governor entirely approves of your proposals for making advances under the latter Act, and the sum asked for by you on that account in your letter No. 17G—F, dated the 28th November 1888, has been sanctioned in my letter No. 3823—165Fam., dated 3rd December 1888.

"In the same letter I communicated the Lieutenant-Governor's sanction to the sum asked for by you on account of gratuitous relief. It is understood that this money is needed merely for the casual assistance of wanderers and others, whose immediate wants it may be necessary to relieve. The facts reported do not as yet warrant anything of the nature of an organised search through chowkidars or other village agencies for cases of distress—a proceeding which could hardly fail to create the expectation that Government was about to undertake the support of the dependent portion of the population, which, as you are aware, forms a considerable proportion of the whole. The Code contemplates the grant of gratuitous relief only where relief circles have been regularly organised under section 11, and any attempt to give away money on a large scale without such organisation would probably lead to the worst consequences.

"In the sixth paragraph of your circular, dated 29th November 1888, you notice the recommendation of a Collector that Government should import rice with the object of keeping prices down, and in connection with this suggestion you refer to section 14 of the Code, under which local officers may appoint contractors for the supply of grain. It is most desirable to point out that contractors so appointed have nothing to do with importations for purpose of controlling prices, being merely the agents through whom relief officers buy the grain they may require for gratuitous distribution, or for wages paid in kind. Where, owing to the absence of traders, or to the localities affected being difficult of access, a reserve has to be formed, from which grain may be sold, the special orders of Government are required (sections 152, 157). In Behar the commercial class is efficient and communications are excellent—conditions which seem to preclude the idea of any interference with the ordinary course of trade. The Lieutenant-Governor has at present no intention of exercising the power of accumulating reserves, and can anticipate only evil results from any effort which may be irregularly made by local officers to regulate or supplement the ordinary action of the law of supply and demand, by which the necessaries of life are distributed. Such action would very possibly paralyse trade, private individuals being unwilling to compete with the State in supplying the markets; and the officers who might thus destroy the existing channel would be quite unable to supply its place. This should be clearly indicated to Collectors, as they will probably receive many proposals suggesting their interference to put down combinations among the dealers in grain, to use influence for the reduction of prices, to import at the cost of Government and sell cheaply, or otherwise to interfere with the course of trade. The temptation to take action in this direction when prices are high is frequently great, and dread that Government officials may yield to it has probably a deterrent influence on private enterprise. On the other hand, a general and beneficial stimulus would be given to the trade by the assurance that its operation will remain free and uncontrolled.

"The result of your call upon Collectors for proposals as to establishments is awaited with interest. The Lieutenant-Governor is disposed to think that the formation of relief circles may be necessary in the area on the Nepal frontier, but that elsewhere it will be sufficient for the present to appoint officers to the charge of such works as may be opened for the purpose of affording relief. If it should subsequently be found desirable to undertake the work of relief organisation on a wider scale, it will always be possible to extend the scope of the system."

9. The following sums have been sanctioned up to date for purposes of relief:—

	Rs.
Loans under the Agriculturists' Loans Act	17,500
Gratuitous relief	4,000
Civil works	4,000

It is, however, understood that this very moderate outlay is no indication of the expenditure which may eventually be necessary.

No. 39G.F., dated Bankipore, the 20th December 1888.

From—JOHN BOXWELL, ESQ., Officiating Commissioner of the Patna Division,
To—The Secretary to the Government of Bengal, Revenue Department.

I HAVE the honour to submit the report for the fortnight ending the 15th December on the prospects of the crops and the condition of the people in the districts of the Patna Division.

PATNA.

2. The Collector writes:—"I have much pleasure in reporting that according to the latest and best information I possess, there is no portion of the district in which the failure of the crops has been so considerable that relief measures will have to be undertaken. On the 28th and 29th November, there was general rain throughout the district, the quantity recorded at the several registering stations varying from ·24 at Hilsa to 1·5 inches at Barh, and this rain has been of immense service to the growing *rabi* crop, and has also enabled the cultivators to sow *rabi* over a considerable additional area. There is now every prospect of a full outturn of *rabi*, which, if realized, will remove all cause for anxiety."

SARUN.

3 The Collector of Sarun writes:—"As you are well aware, Sarun is, humanly speaking, quite secure for the coming season, and I do not expect anything more than the inconvenience which results to the lower classes from a rise in the price of food-grains. The rainfall in the last week of November has done infinite good to the *rabi*. I have already telegraphed to you that the rain seems to have been from an inch to an inch and a half everywhere in the district, and I have now from detailed enquiries little reason to modify this report. The rain has been partial, as it has been all through the year, but it has been sufficient almost everywhere. Private letters confirm the official reports. Prices have fallen, and I have no doubt that under the excellent prospects of the *rabi*, they will fall still further.

SHAHABAD.

4. It is estimated that the *dhan* crop, which is now being harvested all over the district, will yield an average outturn of not less than 8 annas. Some damage is reported to have been caused to the crop over a very limited area by hail, and on this area advances will, when necessary, be given under the Agriculturists' Loans Act, and leniency will be shown in collecting Government rents.

The Collector writes:—'*Rabi* is coming up well, and on the whole prospects have much improved of late. I do not think there is any cause for anxiety so far as this district is concerned.

5. From the information now submitted, it will be seen that Patna, Sarun, and Shahabad may be removed from the list of districts in which the condition of the people, present or prospective, need cause any anxiety. In future reports, therefore, I will not trouble Government with detailed information from these districts, but will state from time to time what the *rabi* crop prospects are. I am instructing the Collectors accordingly.

MOZUFFERPORE.

6. *Area affected.*—The area affected by the total or partial failure of the paddy crop remains the same as last reported, viz. a tract of from 300 to 400 square miles in the Sitamarhi sub-division lying along the Nepal frontier from Majorgunge on the north-west to Bheta on the east, and including the villages south of Bheta as far as Charout on the Madhubani boundary. This area is shown in the coloured tracing of the Mozufferpore district map herewith sent. The explanatory statement attached to the map gives information as to the outturn of the *dhan* crop in the various areas of the affected tract, and also as to the population.

To this area of 300 or 400 square miles, above described, may have to be added an unascertained as yet area of Sheohur thana. Mr. Macpherson, late Officiating Collector, has proceeded on a tour through this thana jurisdiction, and I hope to be able in my next fortnightly to give all necessary information regarding this area also.

7. *General state of the affected tracts.*—The outturn of the paddy crop is now estimated at nine annas in the Sudder sub-division and at 11 annas in the Hajipore sub-division, and this estimate the Collector believes to be rather under than over the truth. In both these sub-divisions the *rabi* prospects have much improved, great benefit having resulted from the rain which fell on the 28th and 29th November. In Hajipore a 16-anna *rabi* crop is expected. In the Sudder sub-division the prospects of the *rabi* are favourable in the south, but not so good in the north.

Summing up the situation, the Collector writes:—"There is no cause for anxiety with regard to the Hajipore sub-division, and I see no cause for present anxiety with regard to any part of the Sudder sub-division."

As regards the Sitamarhi sub-division, the Collector is unable to report any improvement in the outlook. He quotes from a report furnished by the Sub-divisional Officer as follows:—"There has been no alteration in the state of the affected tracts. Since my last report no

rain has fallen, and the country is getting more and more dry. The tanks are fast drying up, and there is every reason to apprehend that, even before the hot weather sets in, there will be a great scarcity of water within the above tracts."

The Collector is of opinion that there is serious cause for anxiety with regard to the condition of the people in the affected tracts, the great majority of whom are petty cultivators and labourers who are immediately affected by the failure of the paddy crop, by the high prices of food-grains, and by the loss of employment resulting from there being no paddy crop to cut. Mr. Bolton writes that the planters and zemindars are unanimous in stating that the failure of the paddy crop has been very serious, and that the people are [illegible] severely in consequence.

Bhadoi and *rabi* are not important crops in the affected area, and the *rabi* is said to be not doing well.

8. It will be seen from the explanatory statement attached to the map that in North Pupri and Sursand, which represent about one-third of the population of the affected tract, the outturn of the *dhan* harvest is estimated at six annas, and in North Sitamarhi, which represent, about one-sixth of the population of the affected tract, at four annas. It seems improbable, therefore, that distress on a large scale will be felt for some time to come over a considerable area of the affected tract.

Works have been opened, but no figures of the attendance upon them which can be considered trustworthy have as yet been submitted by the Collector. The wages given being, in my opinion, in excess of the rate of wage prescribed by the Famine Code, instructions were issued to the Collector to modify his rates accordingly, and I am awaiting information as to the actual wages now paid and the attendance on these works

9. I have deputed the Inspector of Local Works, Mr. King, to carefully inspect all the test works open in Chumparun and Mozufferpore, and to ascertain and report whether the work test is being strictly applied, and whether the wages given are those prescribed in Chapter X of the Famine Code. Upon receipt of Mr. King's report the necessary orders will issue and information will be supplied to Government.

10. At present it may be said that we have no indication of any value, from the test works opened in the Sitamarhi sub-division, as to the pressure upon the people. This information will, however, be supplied in my next report. No works are at present being carried out through tuccavi loans. Zemindars have been invited to take loans for this purpose, and it is expected that some will do so. The Maharajah of Durbhunga has directed the excavation of five tanks at a cost of Rs 10,000.

11. *Gratuitous Relief.*—No gratuitous relief has been given at the expense of Government. In [illegible] the numbers of persons receiving such relief from the Maharajah of Durbhunga were as follows:—

279 on the 2nd, 356 on the 3rd, 461 on the 4th, 603 on the 5th, [illegible] on the 6th, 1,038 on the 7th, and 1,104 on the 8th.

The Collector is now enquiring into this upon the spot, and has made arrangements to obtain quietly information regarding the condition of the infirm and helpless persons in the worst villages of the affected tracts There is no reason to think that the time has come for giving gratuitous relief.

12. *Grain stocks.*—Mr Macpherson's enquiries lead him to believe that the stock of grain in Sitamarhi is sufficient, and that at present it is being hoarded. Importations of grain from surrounding districts are being made, and maize is coming in from Nepal

13. *Organization of Circles.*—The affected area has been divided into three circles—

1st.—The Majorgunge and Sonbursa outposts in charge of the Sub-Divisional Officer.

2nd —The Bela outpost and part of the North Sitamarhi thana in charge of the Sub-Deputy Collector

3rd.—The Sursund outpost and part of the Pupri thana in charge of a kanoongo.

In these three circles the officers in charge are recording the outturn of the paddy crop and prospects of the *rabi* village by village, are receiving applications for advances under the Agriculturists' Loans Act, and are making enquiries regarding infirm persons to whom relief may hereafter have to be given.

This sub-division of the affected area into three circles seems sufficient. I have informed Mr. Bolton that if he needs more assistance, I will appoint two kanoongos. I am separately addressing Government regarding superior officers.

The Assistant Superintendent of Police is in the Sheohur thana with instructions to record information regarding the condition of the people there.

14. *Sub-divisional Establishment.*—The whole affected tract has been thus provided for. Upon receiving fuller information as to any further increase of establishment required, I will address Government if necessary

District Engineer's Establishment and Tools.—Such civil agency works as may hereafter be opened will be under the District Engineer for the present. The increase already made to the District Engineer's establishment is shown in annexure to this letter. 1,500 kodalis are kept in reserve and more are being purchased, and the Collector has been asked to arrange for baskets, so that the labour of the women and children may be fully utilized.

A.

15. The Collector of Gya furnished the Secretary to Government in the Public Works Department with a coloured map showing the affected areas, and he has sent me a copy of this

map. His estimate, as shown by the map, being less favourable than facts appear to justify, he has been referred to demi-officially. I am now in a position to submit an estimate which I have reason to believe more correctly represents the actual state of things. Mr. Grierson reports an average nine-anna *dhan* crop in his district, and with an average nine-anna crop there need be no apprehension that distress will be felt over any considerable proportion of the district area. I have shown on a tracing which accompanies this report the localities in which the Collector now states " there is apprehension of distress occurring within the next month, and where relief works will probably be necessary."

Details concerning these areas are given in the explanatory statement attached to the map tracing, which I have not, however, coloured. I deem it better to send this information, imperfect as it is, to delaying the divisional report.

16. It will be seen that the revised estimate puts the affected area at 310 square miles with a population of about 147,000 persons. Over a tract the population of which represents two-thirds of the population of the affected area, the *dhan* outturn is estimated at from 4½ to 5 annas, and no immediate distress there need be anticipated Over the remaining area the failure of the crop has been almost complete. Mr. Grierson shows another area " where there is no immediate apprehension of distress, but where relief measures may be necessary later on." This area he estimates at 1,465 square miles, with a population of 562,000 persons. I propose discussing these figures with Mr. Grierson, and if necessary will, on return from my present tour, carefully visit portions of this tract. Until I have satisfied myself as to the full meaning of these figures, I will not ask Government to take them into consideration.

17. *General state of affected tracts.* - Test works have been opened, but as labourers are not flocking to them it may be inferred that the reaping of the harvest is giving sufficient employment. The attendance upon these works when the harvesting has been completed will afford evidence of the actual pressure upon the people.

There appears to be no cause for entertaining apprehensions regarding the condition of the Jehanabad and Aurungabad sub-divisions, and only comparatively small areas of the Sudder and Nowada sub-divisions have suffered from the failure of the crops

Mr Grierson writes:—" The late rainfall, though satisfactory in the north, centre, west and south-west of the district, was not sufficient for the *rabi* sowings elsewhere. Still, even where it was least copious, it has done great good to the *rabi* crops which were already sown, and taking the district as a whole has facilitated the sowing of more than half of the *rabi* land which had hitherto been lying untouched for want of moisture.

" In the Nowada sub-division it has enabled the cultivators to sow half the unsown area, and so in the Sudder sub-division except in pergunnah Shergliati and the western portion of Barrachuti, where large tracts of *rabi* area, called *tear* lands, remain unsown. No special cases of distress have been reported from any portion of the district. The paddy crop is being harvested everywhere, which gives the labourers plenty of employment."

One or two good showers of rain during the month ending the 15th January next will everywhere improve the prospects of the *rabi* crop, and will, in the Collector's opinion, reduce the apprehensions of scarcity to a minimum.

18. *Public works open in or near affected tracts.*—Test works have been opened by the District Board on the roads shown by numbers in the accompanying map tracing, but no returns have as yet been submitted. The attendance. if there is any, upon these works is extremely small. The District Board has set aside a sum of Rs. 12,000 for expenditure on test works, and at Mr. Grierson's earnest request, and as the outlay will prove remunerative to the Government estate, I have, in anticipation of the sanction of Government, authorized him to incur expenditure up to a limit of Rs. 1,000 in making *gendas* or water reservoirs in Sarawan. As the District Board has provided funds for test works, I deem it desirable that Government, in its status of landlord of Sarawan, should also assist in the same direction. The sum sanctioned will be expended on work carried out in accordance with the provisions of the Famine Code.

19. *Gratuitous relief.*—A sum of Rs. 200 has been allotted to the district under this head, but there has been no expenditure up to the present.

20. *Grain stocks.*—At present there is sufficient grain in the market for local supply. People of all classes are getting food from the paddy that is being harvested. Bengal rice is being imported by rail and distributed to the mofussil from Gya town.

21. *Organisation of Circles.*—Mr. Grierson has submitted an elaborate scheme of circles which he will be asked to reconsider. No circle organization will be required in this district for the month ending the 15th January.

22. *Sub-divisional establishment.*—No immediate increase of establishment is called for. If necessary, I will depute one or two kanoongos to assist Mr. Grierson.

23. *District Engineer's establishment and tools.*—The Inspector of Local Works will shortly proceed to Gya and decide, in consultation with the Collector and District Engineer, what increase of establishment will be needed. The Collector has been instructed to make provision for spare *kodalis* and baskets, so that labour may be properly utilized.

CHUMPARUN.

24. *Area affected.*—The area affected by the total or partial failure of the paddy crop is shown in the map now forwarded. The part in which the failure of the crop has been most complete is marked in purple: that in which the failure has been less severe, or in which,

owing to irrigation and other causes, present prospects are somewhat better, is coloured indigo.

Roughly speaking, the affected tract is now reported to comprise about two-thirds of the jurisdiction of the Dhaka thanna, *i.e.*, about 200 square miles. According to the census of 1881, the population of the Dhaka thanna amounted to 253,992 persons. Allowing for a normal increase at the rate of 1·2 per cent. per year, it may be now put down at about 275,000 persons. The population therefore of the affected tract as shown in the map may be put down at 180,000.

25. *General state of the affected tract.*—No information has been furnished as to the estimated outturn of the *dhan* harvest in the Bettiah sub-division, and the remaining portion, *i.e.*, the unaffected tracts of the Sudder sub-division. The latest information, which, however, is not new and may have to be modified, as the result of later observation gave the estimated outturn of the *dhan* harvest at 9 annas in the Bettiah sub-division and at 6 annas in the Sudder sub-division. There is no reason to anticipate that the condition of the people anywhere outside an area equal to the Dhaka thanna jurisdiction need cause any apprehensions. Excellent reports have been received by the Opium Agent regarding the prospects of the poppy crop in the Bettiah sub-division, and in the Sudder sub-division, although the crop is reported to be backward, it is not reported to have failed.

26. Test works have been opened in the affected tract. A statement is appended which shows the attendance on these works. The number of persons on them has increased very rapidly, although the rate of wage given is below the rate usually given in the district. If the work test has been strictly applied—and I have deputed the Inspector of Local Works to ascertain from personal observation and to report upon this point—there can be no doubt that the attendance upon these works in Chumparun indicates that pressure is already being felt. The rates given are 7 *dibuas* or *lohiya* pice to full-grown men, 5 *dibuas* to women, and 1, 2, 3 and 4 *dibuas* to children, six and-a-half *dibuas* representing one anna.

The District Engineer has furnished me with a statement of the actual cost of the ration defined in the Famine Code, and from his figures it would appear that the rate of wage given on the test works—where up to the present only task work has been demanded—represents not more than 75 per cent. of the full wage. Instructions have been given to him to introduce without delay, wherever practicable, the system of payment-by-results, and I hope in my next fortnightly to be able to state what result this measure has in affecting the number of persons upon the works. Considering that *dhan* harvesting operations are not yet finished, the attendance on the works in Chumparun must, if the work test has been properly enforced, be held to indicate that pressure resulting from a marked failure of crops is felt over a well-defined tract.

27. *Gratuitous relief.*—No gratuitous relief has been given.

28. *Grain stocks.*—The grain supply in the local markets is so far sufficient, and prices are steady at fairly low rates. No complaints of insufficiency of supplies have been received. It is satisfactory to be able to report that Indian-corn is now being freely imported from Nepal.

29. *Organization of Circles.*—The Collector reports that there is no need to open relief circles before March. Should circumstances then render it desirable, two relief circles will be opened. I need not now give any fuller information under this head, as establishment to man these circles is not at present required.

30. *Sub-divisional establishment.*—No extra Deputy Collector will be required for the next three months. Should the Collector represent the necessity of having one or two extra kanoongos, I will comply with his requisition and report my action for the sanction of Government.

31. *District Engineer's establishment and tools.*—The following extra establishment is required by the District Engineer—

			Rs.
1	Supervisor at	... ...	200
1	Overseer „	... ...	50
1	Surveyor „	... ...	25
1	Clerk „	... ...	30

Having regard to the limited establishment under Mr. Sealy, the Chumparun District Engineer, and to the large attendance upon the test works, &c.—attendance which may be expected to increase considerably during the next month—I request that the officers now applied for may be directed to join at once. It is impossible to start the payment-by-results system or to supervise and control effectually labour upon task work with a smaller increase of establishment than that now applied for. I trust therefore that Government will be pleased to pass very early orders upon this application. The Collector has already been instructed to make due provision of *kodalis* and baskets, so that labour may be properly utilised.

DURBHUNGA.

32. Later observation has enabled the Collector to modify his estimate of the affected areas in his district.

A map tracing is attached to this report, which is a copy of the map furnished by the District Engineer to the Secretary to Government in the Public Works Department. Mr. Beadon, after explaining that in his opinion the map furnished to Mr. Martin gives "an erroneously exaggerated account of the drought," has thus embodied his own estimate

of the actual condition. He writes—"I have shaded with pencil what I believe to be the area of total failure, and with check lines the part where the crop may not have been on the average above four annas. The former strip I should put at about 60 miles by 8, or 480 miles. The next portion would be a strip representing in length the widest stretch of the district with an average breadth of five or six miles."

The width of the district here is about 60 miles, so this area, *i.e.*, the area indicated by check lines, would be some 300 square miles.

33. *General state of the affected tract.*—Adverting to the condition of the district as a whole, the following information is of value:—

The *dhan* crop in the Tajpore sub-division is reported to be "a good 12-anna crop. The moisture for the *rabi* is fairly good. An ordinary amount of rain in January or February will produce a good *rabi*."

The Manager of the Nurhun estate in that sub-division writes—"All fear of the failure of crop has been dispelled by the rain of the night of the 28th and 29th November, and I sanguinely hope that we shall have bumper *rabi* crops in the villages of this estate. The outturn of the *aghani dhan* has been about $12\frac{1}{3}$ annas."

In the Durbhunga sub-division the outturn of the rice harvest is better than was expected, and the light showers which fell on the 29th November are reported to have benefited the *rabi*.

Mr. Beadon reports that he has succeeded in obtaining an estimate, village by village, for 115 villages belonging to Rai Gunga Prasad, situated in all parts of the district, which g veson the whole an average outturn of $10\frac{1}{3}$ annas for the dhan crop. The estimate which was prepared two months ago, Mr. Beadon, as the result of his personal observation, states might be raised to $12\frac{1}{3}$ annas. Regarding the eastern portion of the Durbhunga sub-division, the District Superintendent writes:—"The crops all along the road from Rosera to Benepore are excellent."

Rain fell subsequent to the dates to which the above opinions refer, and the *rabi* has benefited thereby. The Collector writes:—"Driving through the town of Durbhunga I could see no traces of high prices telling upon the physique of the people." As the prices now reported to be prevailing there are rice 16 seers, *makai* 22 seers, *marua* 23 seers, it is quite certain that the people are not suffering in any way from pressure of high prices.

33. The following information relates to the Madhubani sub-division. The places named are marked on the map:—

In the Phulparas and Madhubani thanas the *dhan* is being harvested and the prospects of the *rabi* crops are favourable.

On the 12th December the following are the reported rates for coarse rice at the various police-stations:—

	Seers.
Benepatti	12
Madhuapore	11
Lankaha	$14\frac{2}{3}$
Madheypore	10
Phulparas	$14\frac{2}{3}$
Ladaria	13
Madhubani	13 to 14
Jhanjharpore	17

34. Mr. Beadon writes:—"Personal enquiry by myself and Mr. Grier, Sub-divisional Officer, has satisfied us that the outturn on the Alapore pergunnah will be 9 or 10 annas at least. In Jubdee there is an 8-anna crop, though here and on Alapore there are scattered villages which have suffered much. All the way from Naraya to Mohadeo Nath (nine miles) the crops are first-rate, but they are less good, though very fair, up to the frontier. For this reason I have greatly curtailed the area of total failure, as already explained."

35. It is much to be regretted that up to the 15th instant the Collector had not opened any test works as directed. He explains that he omitted to do so, as he misapprehended the purport of the orders communicated to him. He has now received explicit orders to open these works at once.

The attendance upon the District Board's works, where the normal rate of wages is paid, affords no indication whatever of the pressure upon the people. In the first place, these works are under contractors who engage only what may be termed skilled labour, and consequently women and other feeble persons can get little or no employment on them, however great their need. Skilled labourers, on the other hand, are able to earn much more than the full wage of the Famine Code.

I have asked Mr. Beadon to open some of the works sanctioned by his District Board, and for which funds have been allotted by them, as test works. By introducing the system of payment-by-results, these works can be executed without wasteful expenditure of the Board's funds.

36. The estimates framed of the actual condition of this district have varied so much from time to time that I consider the practical evidence which test works, properly supervised, would afford of the pressure upon the people, of more importance than estimates of crop outturns which, under the most favourable conditions, must be more or less conjectural. While attaching much value to estimates which have been so carefully considered by the Collector, I think it necessary to have the correctness of these estimates, affecting the condition of the people, checked by the evidence (which, if the supervision is efficient and rules attended

to, must be considered to be positive evidence) afforded by test works. I shall at once place myself in correspondence with Mr. Beadon, who, in his report just received, discusses the relative value of test works and works carried out under normal conditions, and issue to him explicit instructions for his guidance.

37. I am at present on tour in the Durbhunga district, and in my next narrative I hope to be able to express an opinion, the result of personal observation, as to the condition of the affected tracts. At present, I can only forward the Collector's estimate, which, as I have remarked, is not supported by any evidence obtained from attendance on test works. There can be no doubt that there has been a marked failure of the rice harvest in well-defined areas in this district. As to the effect this failure has had upon the condition of the people, I regret to say I am not at the present time in a position to give precise information.

38. *Gratuitous relief.*—No gratuitous relief at the expense of Government has been given.

39. *Grain stock.*—The Collector, who has made enquiries from everybody whom he meets, is satisfied that there are stocks of grain in the country. He discusses figures of export of grain obtained from the railway authorities in support of his opinion. He is able to give a statement showing stocks of over three lakhs of maunds stored in the Madhubani sub-division, which stocks do not include any portion of the new crop. He writes:—"In the face of the above returns, I can have no doubt that the stocks throughout the sub-division (Madhubani) are ample for the support of the population. For the rest of the district the stocks of grain are wholly sufficient."

40. The Collector is of opinion that no circle organisation is required at present. Assuming his estimate of the failure of crops to be correct, it seems desirable that the area which he considers to be seriously affected should be divided into two or three circles, which might be placed in the charge of officers of the status of kanoongos, whose duties would be to make enquiries in cases of applications for loans under the Agriculturists' Loans Act, verify estimates as to the crop outturns, and generally collect all information of value should it be necessary hereafter to organise systematically measures of relief. Unless some such sub-division of areas is carried out, it is possible that the Sub-divisional Officer may not be kept fully informed as to the condition of the people. The Collector will be addressed regarding this. One kanoongo, one mohurir and one peon would be a sufficiently large establishment for each of those circles, and if their entertainment is deemed necessary, I will pass orders which will be subsequently represented for Government confirmation.

41. *Sub-divisional establishment.*—No increase is required at present. An experienced Joint-Magistrate is stationed at Madhubani, Mr. Greer. Mr. H. Lee is under orders to join at Durbhunga, and if vested with appellate powers under the Criminal Procedure Code, and powers under certain collectorate laws and rules, will be able to relieve Mr. Beadon of much routine work. The references necessary upon this point will be made to Government in the Judicial Department.

42. *District Engineer's establishment and tools.*—No application has been submitted for an increase of the District Engineer's establishment. The Collector has not, it would appear from his report, apprehended that test works are to be under supervision of the District Engineer. For the works carried out at normal rates from the District Board's funds, the District Engineer appoints establishment as required. Mr. Stevens has applied for the following increase of establishment "to enable him to conduct relief works, and at the same time to carry on the current duties of his district":—

1 Assistant Engineer.
6 Overseers.

It is desirable that Mr Stevens should have a sufficient establishment, and that all test works opened should be placed under him.

The Collector has expressed no opinion upon the scale of establishment applied for. I have no information which enables me to pronounce upon it, and I leave the matter therefore for the consideration of the Public Works Department. I shall be glad if very early orders are passed, and that any officers deputed to Mr. Stevens' assistance may be ordered to join without delay, so that he may be in a position to take over charge of test works.

The attention of the Collector will be called to the necessity of having a sufficient supply of tools in stock.

43. *Financial statement.*—The following statement shows the funds at the disposal of Collectors:—

DURBHUNGA.

	Rs.
For loans under the Land Improvement Act	10,000
Ditto Agriculturists' Loans Act	7,000
For gratuitous relief	300
Total ...	17,300

No account of expenditure has been received, but it is believed that a very small portion of this allotment has as yet been utilized. The Collector will not require any further allotment of funds for the present. According to a revised statement lately received, the District Board has set aside Rs. 56,800 for expenditure on works to be carried out in the Sitamarhi sub-division.

A portion of this sum will, I trust, be devoted to expenditure upon test works.

MOZUFFERPORE.

The allotments made are—

	Rs.
For loans under the Agriculturists' Loans Act	5,000
Gratuitous relief	500
For civil agency works	4,000
	9,500
Given by District Board and to be employed on test works	6,000
Total ...	15,500

No account of expenditure has yet been received. Mr. Bolton having only lately taken over charge, is not able to frame an estimate of his probable requirements, which he promises to submit shortly. No present allotment of funds is therefore required.

GYA.

The funds at Collector's disposal are—

	Rs.
For loans under Agriculturists' Loans Act	3,000
For gratuitous relief	200
Sanctioned by Commissioner for expenditure on test works in Sarawan estate ...	1,000
	4,200
Allotted by District Board for expenditure on test works	12,000
	16,200

Details of expenditure not received. No further allotment of funds at present therefore seems required. The Collector has estimated for giving out a large sum on loan to agriculturists, but this will not possibly be necessary. Until I have discussed the matter with the Collector, I refrain from submitting his estimate.

District Board's funds	8,676	7	8
Total Balance ...	13,083	12	9

The Collector estimates that his expenditure during the month ending the 15th January will be—

	Rs.
For advances under Agriculturists' Loans Act	2,500
For gratuitous relief	200
Payment of labour on test works, maximum average expected 20,000 at 13 souls per rupee	47,678

Of this sum the District Board supplies Rs. 8,676 and the Maharajah of Bettiah Rs. 1,707, leaving a balance of Rs. 37,295 for which the Collector requests that a grant from Government may be made.

Until the reports of the Inspector of Local Works are received, I am not in a position to say whether the attendance upon the test works cannot be diminished, or at any rate prevented from increasing over rapidly by a more rigid adherence to the provisions of the Famine Code. I will therefore only ask Government to sanction a grant of Rs. 10,000

to Chumparun for civil agency works. In my next report I shall be able, I hope, to make a forecast based upon fuller information of the probable expenditure during the coming month.

44. I have submitted in some detail information upon points of importance for all districts of the division. It will be seen that the areas which are stated to have suffered severely from the failure of crops in the several districts of the division are—

An area of from 300 to 400 square miles in the north of the Sitamarhi sub-division of the Mozufferpore district, with a population of about 250,000 persons, *plus* an unascertained area in the Shewhur thana to the west of the sub-division.

An aggregate area of about 310 square miles, the component areas being situated in the Sudder and Nawada sub-divisions of the Gya district, with a population of about 150,000.

An area of 480 square miles along the northern frontier (with a population of about 270,000) of the Modhubani sub-division of the Durbhunga district, and immediately below this an area of 300 square miles with a population of about 200,000. In this latter tract the failure of the crops has been much less marked.

Test works have been opened in Gya, but no labourers have flocked to them. This indicates that at present the pressure resulting from failure of crops is not severe, labourers being able to obtain more lucrative employment elsewhere. I learn from the Opium Agent that the prospects of the poppy crop all over the Gya district are magnificent; and as the outturn of opium in this district varies from 14,000 to 16,000 maunds in a good year, there is reason to expect that the Gya cultivators will receive nearly 30 lakhs of rupees for their opium this year. Taking this fact, with others, into consideration, I entertain hopes that the distress to be experienced and dealt with in Gya will be much less than indicated even by the revised estimate I have now submitted.

Test works have not been opened in Durbhunga and Mozufferpore, and so there is no trustworthy evidence to show what the pressure upon the people there is. There seems to be no reason to doubt that the crops have seriously failed over well-defined areas, and that assistance will have to be given to a large number of persons in those tracts either in the form of advances of money, or by providing them with employment. More than this cannot be now said.

In Chumparun the attendance upon the test works has increased very ominously. If the work test has been strictly enforced, as the wage given appears to be the wage prescribed by the Famine Code, we have for this district at least a trustworthy and positive indication that pressure is being felt, and that we may expect to have on our hands a gradually increasing number of persons to whom assistance in some form or other must be given probably until the harvesting of the next *bhadoi* crop. Grain stocks everywhere are sufficient, and importations of Indian-corn are being made from Nepal, which shows that in the Terai there is a surplus of grain available for export. This is a fact of much importance, as the Nepal Terai immediately adjoins the affected tracts in Mozufferpore, Chumparun and Durbhunga.

The prices of grain are fairly steady, and except at one or two stations in the north of Madhubani are not excessively high, although above the normal.

No cases of distress have been reported, and it has not been found necessary to give gratuitous relief.

A scheme of works upon which the largest number of persons likely to flock for employment can be employed has been prepared for each district.

The strengthening of establishments where necessary has been considered.

Orders have issued for the immediate opening of test works, and the Inspector of Local Works has been deputed to inspect them, and to see that the ordinary contract system is not introduced, that the work test is rigidly applied, and that the prescribed rates of wage are given.

Finally, I may add that I am myself on tour, and will visit the Madhubani and Sitamarhi sub-divisions before returning to head-quarters.

Taking the work at Rs. 2 per 1,000 cubic feet, and calculating the number of persons at 13 for the rupee, these works were for 25,000 persons' employment for three months.

It is impossible to say which particular civil agency work is more necessary than another. The circles into which they have been grouped are so small that there would be no difficulty in people of any part of the tract attending any of these works.

It should also be noted that the calculation of 13 persons working per rupee assumes that they are all adults obtaining the full wage. This of course is not the case, and employment would therefore be afforded by these works for many more people than the above numbers.

CHUMPARUN COLLECTORATE, W. R. BRIGHT,

The 11th December 1888. *Officiating Collector.*

No. 4138—204, dated Calcutta, the 31st December 1888.

From—P. NOLAN, ESQ., Secretary to the Government of Bengal, Revenue Department (Famine),

To—The Commissioner of the Patna Division.

I AM directed to acknowledge the receipt of your letter No. 39G.F., dated the 20th instant, which contains, in the form of a report for the fortnight ending 15th December, a clear and comprehensive statement of the condition of the people in your division.

2. It is observed with satisfaction that Patna, Sarun and Shahabad have been removed from the list of districts as to which anxiety is felt, and that in Mozufferpore, Durbhunga, and Chumparun, the areas affected, with the degree of failure of crops in each, have been indicated on suitable maps. The general purport of the information given may be summarised as follows:—

Statement showing areas of crop failure in North Behar.

DISTRICT.	Area affected square miles.	Population of area.	Estimate of outturn of winter crop on area of each.	REMARKS.
Chumparun ...	200	180,000	Outturn small.	
Durbhunga ...	400	200,000	Failure almost complete.	Population not stated; taken at 500 the square mile.
Ditto ...	300	150,000	Above 4 annas.	Ditto.
Mozufferpore. North Pupri ...	350	30,000	6 annas.	
Sursund ...		50,811	6 ,,	
Bela ...		47,090	Nil.	
North Sitamarhi		40,000	4 annas.	
Sonbursa ...		45,181	1 anna.	
Majorganj ...		33,065	2 annas.	
	1,250	786,147		

It does not appear that the stock of grain is in any place deficient. In regard to the district of Gya, in South Behar, you have not yet satisfied yourself of the extent of the failure, and the Lieutenant-Governor accepts the fact that the matter is still being discussed with the Collector as evidence of the pains taken to arrive at the truth.

3. The Lieutenant-Governor notices with approval that you are giving effect to the instructions conveyed in my letter No. 3857, dated 5th December 1888, as to the measures of relief to be adopted. The strict observance of the rules prescribed by the Famine Code for the control of test works is properly insisted on by you as essential to the attainment of the object with which such works are maintained. It seems that it is only in Chumparun that any attempt has hitherto been made to carry out the rules, but it is uncertain whether they have been effective even there, and the Inspector of Local Works has, it is observed, been deputed for the purpose of ascertaining this fact. Since the submission of the report the Lieutenant-Governor learns with satisfaction that District Boards have permitted their works to be executed on the Code system.

4. Separate orders have been issued sanctioning the grant of Rs. 10,000 proposed by you for civil agency works in Chumparun, and the extra establishments for which you apply. The Lieutenant-Governor is pleased to observe that the Maharajah of Durbhunga has given extensive relief on his estates.

No. 57G—F, dated Bankipore, the 5th January 1889.

From—JOHN BOXWELL, Esq., Offg. Commissioner of the Patna Division,
To—The Secretary to the Government of Bengal, Revenue Department.

I HAVE the honour to submit the report for the fortnight ending the 31st December 1888 on the prospects of the crops and the condition of the people in the districts of the Patna Division.

2. *Sarun, Shahabad, Patna.*—The prospects of the *rubbee* in these three districts are satisfactory. A fall of rain would much benefit the standing crop. The Collector of Shahabad, who has been out on tour, is of opinion that the average outturn of the *dhan* harvest in his district is not less than 10 annas.

Little fluctuation is reported in the selling prices of food-grains.

3. *Gya.*—The Collector, in his report for the fortnight ending the 31st December, fully confirms the accuracy of the information already submitted to Government that in the Gya district the affected area is 310 square miles, with a population of about 147,000. With reference to the area of 1,465 square miles with a population of 562,000 persons, in which the Collector reported that "there is no immediate apprehension of distress, but where relief measures may be necessary later on," I am now able to report that over this area the outturn of the *dhan* harvest is reported to be 7½ annas, or about half an average outturn. This information appears to me to fully justify the opinion I had formed that in this tract the pressure upon the people cannot be so great as to necessitate Government intervention. Mr. Grierson will be at Bankipore when the Lieutenant-Governor arrives on the 12th instant, and by that time he will have been able to collect fuller information regarding this debateable tract.

The Collector considers that only three-fourths of the area ordinarily under *rubbee* has been sown down this year. He gives no information as to the prospects of the standing crop, regarding which all that can be said is that so far it is healthy and would benefit from a fall of rain.

Public works open in or near the affected tracts.

4. The test works opened by the District Board in the vicinity of affected tracts not having attracted any labourers have been closed, but will be re-opened after the *dhan* crop has been harvested should this be necessary. On the test works opened at Government expense in mehal Sarawan, where payments are made by results to able-bodied labourers and by task work to females and children, the attendance is 45 persons only. These facts indicate that at present the harvesting of the winter rice crop has supplied all the employment required, and also, it may be said, that the pressure upon the people is at present not marked.

Gratuitous relief.

5. None has been given.

Grain-stocks, and prices of food-grains.

6. The supplies of grain in all the markets are sufficient. Coarse rice is selling at from 17 to 18 seers (Government weight) in the interior, and at 16 seers in the head-quarter towns.

Establishment.

7. No increase of establishment required.

Area affected.

8. *Mozufferpore.*—Mr. Bolton, who spent the 17th December and the six following days in inspecting the whole of the affected tract, is able to confirm the information already submitted to Government that the area of bad failure comprises from 300 to 400 square miles, as defined in the map forwarded to Government with the last report from this office. The Collector states that the average outturn of the rice crop for the whole of this area has not exceeded two annas, while in the worst part on the east, including Bela and Parihar, the failure has been complete, less than one anna being harvested. He writes: "In numbers of villages practically no crop has been gathered, and even the small outturn of two annas would not have been reached had not much of the crops of particular villages been saved by irrigation from streams and tanks."

While the Collector was on tour in the area already reported as affected, Mr. Macpherson made a careful inspection of the Sheohur thana, which area was referred to in the last divisional report as the "unascertained area." Mr. Macpherson found that, while in some villages the crop had completely failed, in others there was a very fair outturn. The average outturn for the whole Sheohur thana is estimated at 4 annas.

The Collector does not at present wish to include this thana in the affected area, as it has a large area under *rubbee*; and if the outturn of this harvest prove favourable, it will not, in his opinion, need much in the shape of relief. A test work has been opened here, and the tract will be carefully watched. For the present, therefore, I will not ask Government to include the Sheohur thana as an affected area.

I crossed from the Durbhunga district to Mozufferpore close to the Nepal frontier, walking a short cut through Nepal territory. There was hardly any *rubbee*, but curiously most of the *rahar* that I saw was very good. In some villages, where either my tent was pitched or I changed horses, there were crowds of people ready to clamour for help. There were, however, very strong sign that the clamour was prompted by recollection of the extensive relief operations of 1874. At Sursand I met Mr. Bolton, and with him Mr. Disney, the District Engineer. The condition of this part of Sitamarhi is exactly like that of the contiguous parts of Madhubani, and the improvement going south to Pupri is as strongly marked as the opposite change going north from Kamtaul.

General state of the affected tract.

9. The area under *rubbee* on the affected tract is small; and although an attempt has been made to sow a larger area than usual, much cannot be expected from the *rubbee* harvest. Owing to the deficiency of moisture in the soil, and the absence of rain, the crops have not germinated well, and are not making satisfactory progress. The Collector thinks that upon a fall of rain *cheena* and *mung* might be sown. As these crops are largely consumed by the labouring classes, and could be harvested within three months, the Collector will be directed to do whatever may be possible to ensure that there is a sufficient supply of seed available should rain fall.

Grain-stock, and prices of food-grains.

10. The supply of grain in all the local markets is reported to be ample. Exportation of rice from Nepal has been prohibited by the Durbar, but *makai* is being exported. The Collector, in the course of his tour, noticed that rice was being imported into the affected area from the south of the district. I reproduce a statement, from which it will be seen that there has been a rise in prices during the past fortnight—

Price-current, Mozufferpore District.

Pucca seers are given.

Prices in the principal markets of the affected area are double or more than double those prevailing at a corresponding period in 1887. These high prices must tell severely on the labouring classes and petty cultivators. Fortunately there exists at present a plentiful supply of the sweet potato which is selling at one pice for five-eighths of a Government seer.

Public works opened.

11. Test works have been opened on four roads, viz. Bela road, Pupri Sursand road, Sonbursa road, and Batnaha-Sursand road. The attendance of labourers on those roads was 725 during the week ending the 15th December; 927 during the week ending the 29th December. The expenditure per week on these roads is being met by the District Board. Payment by results is made, and the Collector has satisfied himself that labourers cannot earn more than the full wage. The contract system has been absolutely prohibited. Civil agency works have been started at Kunhowli, Dastea, and Charout, where tanks are being excavated. The two former works are being supervised by the Assistant Superintendent of Police. Payment by result is made, and instructions have issued to give out the work as far as possible by families. Full attendance figures have not been supplied, but on the 30th December there were 1,090 persons working at the Dastea tank and 95 at the Kunhowli tank.

The following works are being carried out by private agency:—A large tank at Bela, four tanks in the neighbourhood of Sonbursa. The attendance on all these works is small and not increasing.

Work was started at Parihur on a tank by the Assistant Manager of the Durbhanga Raj; but as the supervision was inefficient, the influx of people became so great that the Assistant Manager stopped work until his staff was strengthened.

No works are at present being carried out by means of tuccavi loans, but as the Collector has received applications for such loans, a reference for funds under this head may be expected.

Gratuitous relief.

12. No gratuitous relief from Government funds has been given. On the 8th December 1,004 persons received gratuitous relief from the Maharajah of Durbhunga's Parihur office; this number had decreased to 415 on the 22nd December. The Assistant Manager explains the decrease by stating that he gave gratuitous relief until he was in a position to provide employment. The majority of the persons formerly receiving this gratuitous relief will now have to work on the Bela road. The result is decidedly satisfactory, as the distribution of gratuitous relief to able-bodied persons has a demoralising effect.

Establishment.

13. The Collector has not submitted any proposals for increase of establishment. An Assistant Engineer has already reported himself, and the overseers, four in number, have, I understand, also joined. Specific information regarding establishment will be given in my next report.

Circle organization.

14. No alteration in the scheme of circle organization already reported has been made.

15. *Durbhunga.*—There is no alteration in the area and position of the affected area in this district.

16. The Collector writes: "The general appearance of the villagers in the north and north-eastern part of the district indicates that the inhabitants are still well above the condition of actual want: herds of bullocks and buffaloes in numbers beyond the requirements of cultivation denote wealth available for the purchase of food supplies, and are a temporary safeguard against any danger of famine. Any pressure that may come will be first felt in pergunnah Bhola, and work will be opened without delay in that tract. The information at hand shows the crop prospects somewhat more favourable during the fortnight under report.

General state of affected tracts.

"The *rubbi* crop, it is true, has suffered considerably owing to the absence of rain, but throughout the affected tracts the other winter crops promise a fair harvest. The supply of water along the frontier is not abundant; tanks are needed in many villages for drinking and irrigation purposes."

Mr. Beadon is making enquiries regarding these propesed tanks. I have paid two visits to Durbhunga. In the beginning of December I saw the country about Madhubani and Pandaul, and discussed the state of the crops with several good observers. The crops were good. It was well worth while to see this good rice so close to the boundary of the affected area.

Again on the 14th I went to Durbhunga and rode and drove by Kamtoul, Benipatti, Harlakhi, Umgaun, and Madhuapur, and into the Mozufferpore district. My observation of the look of the country, the number and condition of the threshing-floors, the quality of the corn being threshed, confirmed the previous reports received from Mr. Beadon. From Durbhunga north to Kamtoul there was nothing to complain of. Between Kamtoul and Sauliman Ghât, a distance of about five miles north, there were still no strongly marked signs that anything was wrong. From the ghât north I found a quite different state of things; khalihans much less frequent and less well supplied; large maidans with little or no stubble, and hardly any *rubbi*. The same general features were seen throughout my journey till I reached Narayanpore, about four miles north of Pupri in Sitamarhi. These two places, Sauliman Ghât and Narayanpore, are on or close to the boundaries of affected tracts given by the district officers. As far, then, as observation of the state of affairs, the reports hitherto given may be considered very accurate and improving in accuracy.

I found that test works had not been set going; but there has been so much correspondence on this subject lately, and the wishes of Government have been set forth so clearly, that I will not refer to it again. The usual heavy southward traffic had ceased almost completely, and in its place there was a very much smaller northward transport of grain. Sweet potatoes formed part of the remnant of southward traffic. Cattle showed good condition, but were being driven home unsold from fairs in considerable numbers. Tanks were dry to a very great extent. In the north-west corner of Madhubani poppy was thicker than I have seen it anywhere even in Gya, but there were loud complaints that there was no water. Kutcha wells fell in almost as soon as made from the unfavourable nature of the earth.

17. Mr. Beadon now reports that two test works have been opened, one at Lowkahi and one four miles west of Lowdania. The names given will be found in the map submitted in my last report. Lowkahi and Lowdania are frontier police outposts. No applicants for work had appeared, although the wage given is, in the Collector's opinion, sufficiently high to afford an able-bodied labourer a full ration at present prices. In this opinion I am not prepared to concur, and as it seems to me that the rate of remuneration fixed is, with reference to possible outturn of work and present selling prices, too low to represent the full ration, I am instructing the Inspector of Local Works to visit these test works and ascertain by actual trial whether the rate given is or is not sufficient.

Public works open.

Under existing conditions, no significance can be attached to the attendance on the Durbhunga test works, as it appears that during the fortnight ending the 31st December work was being carried on or near the affected tracts simultaneously by (1) District Boards under the contract system; (2) by the Sub-divisional Local Board; (3) by private agency; (4) persons who had taken advances under the Land Improvement Act.

Mr. Beadon has stated that the contract system will be absolutely abandoned, and before long I hope that much of the work now being carried on will be executed under the conditions prescribed in the Famine Code.

Much work is being executed through private agency, principally by the Maharajah of Durbhunga and Rajah Rameswar Singh.

Gratuitous relief.

18. None has been given.

19. The Collector has made careful enquiries regarding grain stocks, and has ascertained that grain is being imported into the affected tracts from Madharpore, Bahera, and Rusera on the south-east. The stretch of land lying immediately to the north of Durbhunga, which ordinarily supplies the Durbhunga market, has fine crops this year, and is exporting direct to the north. The Durbhunga merchants have expressed their willingness to export to any part of the district where prices are high, if Government builds sheds to serve them as temporary shops; while two of them, Mohesh Chandra and Ram Lal Sahu, have expressed their intention of opening

Grain stocks, and selling prices of food-grains.

golahs in the affected tracts very soon. All the information received gives reassuring indications that private trade is active and sufficient for all requirements. The price-current of the 31st December showed the price of common rice at Durbhunga as 14 $\frac{15}{16}$ seers, Madhubani 14 seers, Tajpore 14 $\frac{3}{16}$ seers. During the fortnight there has been a slight tightening of prices due probably to exceptional causes which will not continue to exist.

Circle organisation.

20. In accordance with instructions conveyed to him, the Collector has now established four circles. The existing staff of the sub-division has been utilized on the duties connected with these circles, which have been so constituted as to be capable of being sub-divided into smaller circles directly any officer reports the necessity for more detailed work in his neighbourhood. The instructions issued to the circle officers are sufficient, and we may now feel satisfied that early and reliable information as to the condition of the people will now reach the Collector from all parts of the affected area. For purposes of reference, I may note that the circles have been constituted according to police jurisdiction. The following names will be found on the map already submitted:—

Circle (1).—Beniputty thana, Madhwapur outpost.
Circle (2).—Harlaki outpost.
Deodha outpost.
Circle (3).—Khajowli thana, Ladounia outpost.
Circle (4).—Lowkaha outpost.
Lowkahi outpost.

Establishment.

21. No application for increase of establishment has been received. When I was in Calcutta, I arranged with the Secretary to Government in the Public Works Department regarding an Assistant Engineer and some upper subordinates for this district, but as yet I have not learnt whether the officers selected have joined. When the District Engineer's establishment has been strengthened, I hope that a large number of the works in progress will be carried out under the Famine Code tests.

Area affected.

22. *Chumparun.*—No alteration is reported in the area affected

General state of the affected area.

23. The Collector states that distress is being felt by poorer cultivators, numbers of whom are resorting to the test works, and applications for loans are being made by them in hundreds. The prospects of the standing crops continue unchanged: where irrigated, the *rubbee* and poppy promise well. Elsewhere these crops are suffering slightly from the continued drought.

The attendance on the test works was on the 31st December 11,316 persons, viz., 4,793 men, 2,431 women and 4,092 children The Collector in a demi-official letter, dated 2nd January 1889, reports that the payment by results system has been practically introduced on all the test works. When the District Engineer receives the increase of establishment arranged for during my visit to Calcutta, more perfect arrangements for securing a full day's work for each person will be made.

Grain stocks, and selling prices of food-grains.

24. Mr. Power writes: "Hitherto there has been no deficiency of grain supyly, but apparently the stocks from which the local markets are supplied are being depleted, for prices have risen. Coarse rice is now selling at $12\frac{3}{16}$ to $14\frac{9}{16}$, and *makai* (Indian-corn) at $18\frac{1}{4}$ to $19\frac{7}{16}$ Government seers per rupee.

25. The important points I have to bring to notice in this report are—

1st.—That the skeleton circle organization has been carried out in the Durbhunga district.

2nd.—That in the Mozufferpore and Chumparum districts, the payment by results system has been introduced on all works.

3rd.—That two test works have for the first time been opened in the Durbhunga district under conditions however which do not seem to me to be suitable. I am in correspondence with the Collector on the subject, and hope that his District Board will furnish a number of these works to be carried out under the Code system. I have deputed the Inspector of Local Works to Madhubani with instructions to visit works in progress and to report to me upon the rates paid and the amount of work which is exacted, and generally upon all matters which have a bearing upon the usefulness of these works as affording indication of the pressure on the people and as supplying employment to persons in need of it.

26. I give no financial statement in this report, as, owing to the break caused by the Christmas holidays, the district reports are not sufficiently full to enable me to give precise information. All districts have sufficient funds for immediate requirements

27. No rain has fallen throughout the division during the fortnight under report. There has been no marked tightening of prices, except in the Madhubani sub-division, and these may be attributed to special and temporary causes. A tendency to a rise in prices is noticeable, however, in Chumparun and Durbhunga.

No. 84GF, dated Bankipore, the 24th January 1889.

From—JOHN BOXWELL, Esq., Offg. Commissioner of the Patna Division,

To—The Secretary to the Government of Bengal, Revenue Department.

I HAVE the honour to submit my report upon the prospects of the crops and condition of the people in the districts of the Patna Division for the fortnight ending the 15th January.

This report has been written very hurriedly on my return to head-quarters, and I must apologise for the clerical mistakes that may be found in it.

SHAHABAD—PATNA—SARUN.

2. The Collector of Shahabad writes :—

" The prospects of the standing crops continue on the whole fair, though rain is badly wanted to prevent them from suffering. There was slight rain on the 13th, but the fall was not general and not enough to do any good to the crops. The prices of food-grains are stationary. Coarse rice is selling at 15 seers, barley at 18 seers and *makai* at 19 seers the rupee."

3. The Collector of Sarun writes :—

" The *rubbi* and poppy crops have much benefited by the showers which fell on the 13th instant, and their prospects are excellent.

" The prices of food-grains obtaining in the market on the 15th instant were—

" Common rice (old)	...	...	12 seers 13 chittacks.
Ditto (new)	...	...	14½ to 15 seers.
" Makai	...	...	19½ „
" Rahar	...	...	21 „
" Marua	...	...	20 „
" Barley	...	...	21 „

The stocks in hand are reported to be as full as ever ; there is no reason for apprehension.

4. The Collector of Patna writes :—

" The prospects of the standing crops are favourable. The Sub-divisional Officer, Barh, reports that there was a good deal of hail in his sub-division, which may possibly have injured the young poppy plants, but the extent of damage has not been ascertained."

The fluctuations apparent in the selling prices of food-grains are unimportant.

Coarse rice is selling at 15½ seers the rupee, *makai* at 20½, barley at 20½ at head-quarters : slightly lesser quantities are given for Barh.

CHUMPARUN.

5. *Area affected.*—There is no change in the affected area.

6. *General state of the affected tract.*—The Collector writes :—

" Distress is spreading among the poorer classes of the cultivators, but not yet in an acute form ; numbers of them resort to the relief works, but complain that not being accustomed to manual labour of the kind required, they find it difficult to earn a full ration at piece-work. Arrangements have been made whereby, with ordinary diligence, they can earn fully 75 per cent. of the full wage as prescribed in section 131 of the Famine Code. The effect of the change from payment of daily wages to piece-work has been to reduce the numbers of persons, especially of women and children, and to increase the numbers of applications for loans and advances. Prospects of crops continue unchanged ; there were a few drops of rain on the 13th, and the weather has been cloudy off and on since. Poppy is holding on satisfactorily ; numerous kutcha wells are being excavated to irrigate the crop. The water-channels from the dams on the three rivers north of the affected tract have done immense good to the *rubbi*. Elsewhere this crop is beginning to look somewhat yellow."

7. *Public works open.*—I annex three statements A, C, and D, which show the attendance on works carried out at the expense of the District Board, of Government, and of private individuals. All these works are under the District Engineer. It will be seen that, while the system of payment by results is being introduced as largely as possible, due provision has been made for the requirements of the more weakly and less efficient labourers by supplying task work. The Collector's action in this respect has my fullest approval.

8. *Grain-stocks and prices of food-grains.*—The supply of grain is reported to be sufficient. Mr. Power writes :—

" There is a tendency towards equalization of prices all over the district. Coarse rice is still procurable at a fraction above 12 seers per rupee in the affected area and cheaper food-grains (*makai*, &c.) in proportion."

9. *Gratuitous relief.*—No gratuitous relief has as yet been given. The Collector reports that a commencement has been made in the preparation of Register A under section 11 of the Famine Code in an unostentatious manner.

10. *Establishment and circle organization.*—The Collector requires two additional canoongoes, and arrangements have been made to send them to him at once.

No alteration in the circle organization is reported.

GYA.

11. *Area affected.*—There is no change in the area affected.

12. *General state of the affected tract.*—The prospects of the *rubbi* continue favourable. Mr. Grierson writes :—

"There has been no rainfall during the fortnight. At Fatehpore, where I have been in camp, there has been some rain for a few miles all round, which has done great good. If there be a good shower of rain followed soon by clear weather, the prospects of the *rubbi* will be further improved"

13. *Public works open.*—The ordinary annual repairs of village roads are in progress under the Local Boards.

No report of attendance figures on the test works in the affected tract of Nawada, which have been lately re-opened, has been received.

On the test works opened in mehal Sarawan for the construction of gendabandi, the average daily attendance of labourers is 180. Mr. Grierson writes :—

"I would also draw your attention to my proposal that the earthwork on the new railway to Benares, when it passes through the south of the district, should be commenced not as a relief work, but as a good thing likely to save the necessity of relief works at a later stage when much pinching will be felt by the poorer classes."

I commend Mr. Grierson's proposal to the consideration of Government.

14. *Grain-stocks and prices of food-grains.*—The supply of grain is reported to be sufficient everywhere in the district. Common rice is selling at 15½ seers the rupee in Gya, 16 to 17 seers at sub-divisional head-quarters, and at 21 seers at Govindpore, an outpost of the Nawada sub-division.

15. *Gratuitous relief.*—No gratuitous relief has been given.

16. *Establishment and circle organization.*—Mr. Grierson needs the assistance of another Deputy Magistrate, but this will be dealt with in a separate communication.

No change in circle organization.

MOZUFFERPORE.

17. *Area affected.*—The area affected remains unchanged. The Collector writes :—

"I am not yet satisfied that it should be extended so as to embrace the southern portion of the Shewhur thana. I have already explained that the *rubbi* cultivation in that part is fairly large, and a good *rubbi* outturn may considerably improve the state of things. One of the recently-appointed canoongoes has been deputed to Shewhur. His reports give a somewhat gloomy account of the tract, but the Sub-divisional Officer is not disposed to attach much importance to them, and I am myself of opinion that they are much exaggerated. Mr. Maude will shortly visit Shewhur, and I shall also go there after a brief stay at Mozufferpore. For the present, work is provided near Shewhur, and this will suffice for the labouring classes, who are the only persons in need of assistance."

18. *General state of the affected tract.*—There has been no improvement in the state of the crops in the affected tract. The Collector writes :—

"The absence of rain has done much harm. Signs of rain have been frequent during the past week, but beyond a few drops on the 18th and the early morning of the 19th there has been no fall. In Mozufferpore and further south fairly good rain has fallen, and the *rubbi* must have much benefited. There is now every reason to hope that a very good *rubbi* harvest will be gathered in these parts of the district, and that will to some extent benefit the distressed tract by causing a fall in the prices of *rubbi* food-grains, although infinitely greater good would have been done by a fall of rain in the tract itself, sufficient to enable cultivators to sow *cheena* and *mung*. It has already been reported that *rubbi* cultivation is very slight in the affected tract, *rahar* being the principal crop now seen. The crops generally appear stunted and unhealthy (except *rahar*), and unless rain falls shortly the outturn is likely to be very small. The people are using such water as there is in the hill streams for irrigation of the *rubbi* within a few hundred yards of the banks."

The people are reported to be in fairly good health, and the cattle to be in good condition everywhere.

19. *Grain-stocks and prices of food-grains.*—It is satisfactory to note that there has been a slight fall in prices during the fortnight. Exact figures cannot be given, as the Collector had not the returns for the several markets by him when writing; but he is able to report that there is an improvement of about one seer in the selling price of rice and of about two seers in *marua* and *makai*. The Collector reports that the supply of grain is sufficient in all the markets, and that *makai* continues to be imported from Nepal and rice from the south, although the quantity is not large in either case. It would appear from the fall in prices that a large supply of these grains came into the market during the fortnight.

20. *Public works opened.*—The average daily number of persons employed on road work carried out at the expense of the District Board is shown in the following statement:—

	Week ending 29th December.	Week ending 12th January.
[illegible]	291	218
Pupri-Sursund...	124	1,356
Sonbursa	113	543
Batnaha-Sursund	399	1,089
Parihar-Sursund	......	289
Shewhur	......	655
Total ...	927	4,100

The above figures show a large increase for the whole period. The Collector reports that there has been a further increase on the 12th and on the 15th instant: he estimates the number of persons on the District Board's works in the affected tract at 5,000. Details of the number of men, women, and children on each road will be given in the next report.

The civil agency works consist of three tanks, Konhowli, Dostia, and Hanmaunager. The total number of persons working on these tanks was 1,902, of whom 899 were men, 718 women, and 288 children. The total numbers of persons on works in the affected tract of the Mozufferpore district on the 15th instant may therefore be put down roughly at 7,000. The Collector reports that women and children resort more freely to tank works than to the roads. On the former the work is allotted to families. Mr. Bolton writes that this arrangement will be tried on the roads.

It appears that upon one tank the rate at first given was too high; when this rate was reduced, the number decreased, and labourers were able to stay away because the Sursund zemindar started some work in the neighbourhood, [illegible]ing daily wages without regard to the quantity of work done. Piece-work has, however, since been introduced on these private works, and the people have again commenced to flock to the civil agency tank.

Mr. Bolton proposes extending tank work throughout the affected area. He writes:—

"I have refrained from undertaking it more extensively hitherto be[illegible] the entire cost is borne by Provincial funds, while I am of opinion that the zemind[illegible] derive the chief gain from works of this class should contribute a portion of the cost. I propose in future to offer to re-excavate tanks provided the zemindars bear half the cost."

The Collector is prepared to make advances to them for the purpose under the Land Improvement Act, and has intimated his intentions to the zemindars of the affected tract.

The Maharajah of Durbhunga and other zemindars are excavating tanks at their own cost. Figures of the attendance on these private agency works are not available.

21. *Gratuitous relief.*—The only gratuitous relief given is that needed in urgent cases. Mr. Bolton writes:—

"There is still no necessity for organizing charitable relief, but I shall shortly select the villages which will serve as the centres for such relief, if it must be undertaken hereafter. At Parihar, the Maharajah of Durbhunga is reported to be still giving gratuitous relief to several hundred people, a number of whom are, the Collector considers, not proper objects of charitable relief. The Raj Manager has given orders for the exclusion of able-bodied persons; so a diminution in the number of recipients may be expected. At Sursund a zemindar and near there three mohunts are also giving charitable relief on a limited scale."

22. *Establishment.*—The Collector considers that the time has now come for some increase of establishment. Details will be given when the proposition statement is received. The Collector is having a list prepared of old tanks which could be usefully re-excavated, and will also select the most suitable centres for the distribution of gratuitous relief, should it be necessary later on to afford relief in this form. His arrangements have been carefully considered, and the action he is taking, while it will not in any way excite public feeling or raise false hopes, is required to ensure that the best possible preparation shall be made against a possible time of greater pressure later on in the season.

23. *Circle organization.*—No alteration in the scheme of circle organization is reported.

24. *Grain-stocks and prices of food-grains.*—The Collector writes—

"Stocks are not showing signs of depletion, except in so far as a very slow and slight rise in price is concerned, but this only in certain places. The Deputy Collector charged with the duty reports that several mahajans have sent orders for rice from Burdwan, Ranigunge and other districts in Bengal. The Sub-divisional Officer reports that there is a tendency to rise in prices, but that nowhere has this rise been marked. Mr. Greer writes from the south-east of Madhubani and the Durbhunga Sudder sub-division, large quantities of grain are being carried across the frontier to Nepal where there is also scarcity. The export of food-grains from railway this year shows a marked falling off as compared with the corresponding period of previous years. On the other hand, there is a marked decrease in the amount of imports from Nepal. So far as available, information can guide us to an opinion, there seems to be little doubt that up to the present private trade is sufficiently active and extensive to maintain the stocks of grain in the local markets up to the actual requirements.

25. *Gratuitous relief*—Has been given to some twelve persons only. The Collector fully realizes the necessity of not giving relief in this form until the circumstances of the persons who, on account of infirmity or disease, are fit recipients, are such as to render the administration of relief in this form absolutely necessary.

DURBHUNGA.

26. *Area affected. General state of the affected area.*—The area affected remains unchanged. The Collector has had detailed estimates, village by village, for the Madhubani sub-division, made of the outturn of the *dhan* harvest, and of the probable outturn of the *rubbi* harvests. These statements I reproduce on a separate sheet.

It will be seen that the whole jurisdiction of the Madhubani Sudder thana has harvested considerably above an 8-anna crop: regarding this area therefore there need be no apprehension. In the remaining three thanas of Benipatti, Khajouli, and Phulparas, representing an aggregate of 598 villages,* it will be seen that on 37·75 per cent. of these villages, or on about 240 villages, the failure of the *dhan* has been almost complete, 2 annas or less having been harvested, while in 18·44 per cent., or on about 110 villages more, there was a 4-anna crop only of *dhan* harvested. The significance of these figures is obvious. The Lieutenant-Governor, who has lately visited a portion of these Durbhunga affected tracts, has satisfied himself that the condition of the people there is better than in the affected tracts of the neighbouring districts, Mozufferpore and Chumparan, and there are many indications to support this view. Whether this relative superiority will be maintained, it is not so easy to determine. My own opinion is that, if failure of the *dhan* harvest is correctly shown in this figured statement, and I have every reason to believe that the information was carefully collected and examined, the condition of the people in the 240 villages of the Madhubani sub-division, in which the *dhan* crop almost completely failed, must sooner or later conform to the condition of the people in the affected tracts of the neighbouring districts. A considerable proportion of the agricultural. population (and in agricultural I include all the non-urban population) possess little or no reserve, and if their *dhan* fields this year yielded them an outturn of two annas or less, such stocks as they possess will very soon be exhausted, and assistance in some form or other will have to be given to them. As already stated, there are no indications that at present the pressure upon the people of these villages is severe, but that it will become so before long appears incontestable if the Collector's estimate is correct. The local officers will continue to make fullest enquiries and to watch the attendance figures upon the works which have been opened, and we may hope therefore to receive timely warning of the necessity, should such necessity arise, of affording employment on a more extensive scale to the population and of giving special relief to the infirm and aged in exceptional cases. The Famine Commissioners have estimated that in the worst famine not more than 15 per cent. of the population seek relief. Taking the population of the 240 villages in which there has been an almost complete failure of the rice crop at 275,000 persons (and it is not less) the largest possible number that would come on to our works in the affected tracts of the Durbhunga district would at no time exceed 40,000 persons, and I have no doubt whatever that the local officers would be able to deal with this number, as the District Engineer's staff has been strengthened, and the present skeleton circle organization is capable of considerable expansion.

* With a population according to the last census of 695·783.

We must also not lose sight of the extra strain that may be put upon our organization by the influx in large numbers of residents of the Nepal Terai. The Sub-divisional Officer, Madhubani, reports that the scarcity in the Terai resembles the condition of our worst tracts, and if his information is correct we may expect Nepalese ryots to flock to our works in large numbers later on, and if their condition is one of severe distress, it will be our duty to allow them to secure employment on our works, provided that these works are being carried out in strict accordance with the rules laid down in the Famine Code.

27. *Public works open.*—In my report for the fortnight ending the 31st December, I stated that the contract system had been prohibited on all works carried out by the District Board. This statement was made in error. Work is carried out by the District Board on a modified contract system. The restrictions imposed are that contractors must accept all labour which offers itself, and must pay for it at the rate of Rs. 1-4-0 per hundred cubic feet. The circumstances under which the Lieutenant-Governor has agreed to the present system being tentatively maintained were fully discussed on the conference held at Durbhunga.

The following works are now being carried out by the District Board:—

1.	Phulparus-Gongaria	road repairs.	7.	Barhi	road repairs.
2.	Kumtant-Pupri.	,,	8.	Benepati-Harlaki	,,
3.	Raika-Jainagar	,,	9.	Mirzapore-Jainagar	,,
4.	Mirzapore-Burha,	,,	10.	Benipati-Bulwa	,,
5.	Khajouli-Madhubani,	,,	11.	Balwa-Madhwapore	,,
6.	Khajouli-Lodania	,,	12.	Umgaon-Charawt	,,

This information relates to the fortnight ending the 5th January. Exact figures of attendance are not available; but estimating numbers according to the payments made, the Sub-divisional Officer states that the attendance was 3,246 men in the first and 4,733 men in the second week. No women or children appear in the statements, but from Mr. Greer's personal observation it would appear that women and children are also working. Payments are made according to the work done independently of the sex or age of the labourers. It

will be seen that the labour on the roads is distributed throughout the four circles into which the affected area has been subdivided, being most extensive in the worst affected tracts.

The following roads are under repair by the Madhubani Local Board :—

1. Mirzapore-Motipore.
2. Janjharpore-Modheypur.
3. Mirzapore-Belwa.
4. Kewna-Johara.

Attendance figures on these works are not available.

The two test works at Lodania and Lowkaha are still open. The attendance on them is small

The District Engineer has arranged to take them over.

The Sub-divisional Officer is engaged on making a list of tanks upon which work can be commenced hereafter should necessity arise.

Several works have been undertaken by private individuals at their own expense within the sub-division at Salempore within the Madhwapore outpost jurisdiction: two tanks are being excavated by Buchoo Soonri and Halman; they are estimated to cost Rs. 450 and Rs. 400 respectively. In Palhnarguan two tanks are being excavated by Jamah Rast and Boloram Kandoo, and a third tank is being excavated by , employing 100 labourers on it.

In the Buchour neighbourhood tanks are being excavated at Rajuyar (350 labourers employed), Thabur (80), Sedhef Kolan (100), Boohoura (80), Paduma (100), Koomar Khal (100), Patharyarha (160).

The Rajah of Buchour is reported to be giving employment to a large number of labourers on a tank at Narar, and will provide further works to relieve distress in his estate.

At Lurkaha tanks are being excavated by Koonja Lall Saho at Luchmipore at an estimated cost of Rs. 1,000; at Bahuputty a tank estimated to cost Rs. 1,000 is being excavated by Girdhary Beldar; at Karmegh a tank to cost Rs. 500 by Hulman; at Habaha a tank to cost Rs. 700 by Bhoka Oja, at Kotpore Sah a tank to cost Rs. 600. by Mondar, and also tanks at Lukeh Taht at Madonpore and jote Tarsahi.

At Phulparas two tanks are being excavated, one by Chede at an estimated cost of Rs. 600, and one at Lugapoti by Khub Lall at an estimated cost of Rs. 700.

Details of the attendance upon these tanks are not available, but the above information affords evidence of the extent of the private relief agency and of the means of employment offered to the inhabitants. Making a rough estimate of numbers, it may be said that in the Madhubani sub-division not less than from 6,000 to 7,000 persons are obtaining employment.

28. *Establishment and circle organization.*—The question of increase of establishment will be separately dealt with. It is absolutely necessary with the Durbhunga system of employing labourers on the modified contract system to have a very efficient circle organization. Circle officers will have to go their rounds frequently and systematically to satisfy themselves that all persons in need of employment are able to get it. They will also have to satisfy themselves that payments are made punctually at short intervals, and that each individual labourer is able to earn a wage sufficient to purchase a day's food. At present payment is made according to the amount of work measured up, and the distribution of wages to individuals is not made. Very strict supervision consequently will be required to ensure that the weakest and least efficient member of the gang gets sufficient for the day's food. This is the more necessary, as under the Durbhunga system the principle of providing task work for the more feeble workers has not been brought into operation.

No change has been made in the scheme of circle organization, but the Collector does not think that officers of the status of canoongoe can be entrusted with the responsible duties of circle officers. This is a point which will be dealt with when the question of establishment is being discussed.

29. *Prices of foods-grains and stocks.*—A price current statement is annexed. The Sub-divisional Officer writes :—

"Throughout the sub-division there is a tendency to a rise in prices, but nowhere has there been an increase of serious consequence. Grain is being extensively imported from the south-east of Madhubani and the Durbhunga Sudder sub-division."

30. *Financial statement.*—I will submit shortly an application for allotment of funds under the various heads of expenditure. In the meantime I have authorized Collectors to incur expenditure in anticipation of sanction. When submitting this application I hope to be able to discuss the question of the suitability of making advances under the Agriculturists' Loans Act as a form of relief. I may here state that on the whole district officers are against making these loans at present. Some light will be thrown upon the question by an examination of the figures showing the percentages of recovery made in the several districts of amounts so lent during the famine of 1873-74.

31. The important points I have to bring to notice in this report are—

1st.—That detailed enquiries made village by village in the Madhubani sub-division confirm the opinion already expressed by the Collector as to the extent of almost complete failure of the *dhan* harvest in certain tracts of that sub-division.

2nd.—That public works in the affected tracts of the Madhubani sub-division are being carried out on a modified contract system, no provision being made to give weakly or unskilful coolies employment under any system approximating to task work.

3rd.—That in Chumparun, as will be seen from the figured statements attached, the payment by result system has been widely introduced, and that side by side with it the system of payment by task work is also in force.

4th.—Figured statements for Mozufferpore are not available, but there also the system of payment by results has been widely introduced. The Collector will be asked to submit statements which will show whether the task work system is in force.

5th.—In my opinion the provision of employment under the task w[illegible]ystem is an integral part of the scheme for relief, is formulated in the Famine Code and should be insisted upon, due discretion being exercised in drafting the able-bodied to the payment by results works. An expression of the views of Government upon this point is solicited.

6th.—There is a marked steady increase in the number of persons on the works in Mozufferpore. Attendance figures, which fell very rapidly upon the introduction of the payment by results system in Chumparun, are again going up rapidly. In Durbhunga there would appear to be also a steady increase in the number of persons on the works.

7th.—A strong expensive agency will be required in connection with the modified contract system upon works in the Durbhunga district.

8th.—Grain-stocks everywhere are reported to be sufficient. Prices of food-grains are fairly stationary. The late rain does not appear to have done any benefit to the *rubbi* crop in the affected areas, though it has much benefited the *rubbi* elsewhere in places.

9th.—No increase of crime of importance is reported. Up to the present the measures of relief taken have been sufficient for the protection of the population of the affected tracts, and the arrangements made are capable of expansion should the number of persons seeking relief rapidly increase.

REGISTRATION OF VITAL STATISTICS OF EUROPEANS AND EAST INDIANS.

MUNICIPAL DEPARTMENT—SANITATION.

Calcutta, the 9th February, 1889.

RESOLUTION.

READ—

Resolution of this Government, No 1, dated 15th September 1869.

Letter No. 4929, dated 23rd July 1888, from the Sanitary Commissioner for Bengal.

In the Resolution of this Government, dated 15th September 1869, a set of rules, prescribing the forms in which the mortuary statistics relating to natives of this country, of all classes and creeds, were to be embodied, and the procedure to be adopted by the officers upon whom the duty of preparing the returns would fall, was circulated to the Commissioners of Divisions for communication to the officers concerned. It was stated that the mortuary statistics of Europeans and East Indians would not be included in these forms, but that a separate set would subsequently be issued for this purpose. The mortuary statistics of Europeans and East Indians are now prepared under the rules issued with Government Resolution, dated 4th October 1872, for the submission of quarterly returns of baptisms, marriages, and burials of European Christians. The Sanitary Commissioner, in his letter No. 4929, dated 23rd July 1888, has now pointed out that, in consequence of this arrangement, the mortuary statistics of Europeans and East Indians are not included in the weekly and monthly returns which are submitted to him by municipalities, and that the mortuary statistics of the Province, which are compiled from these returns, are consequently inaccurate. The Sanitary Commissioner now proposes that municipalities should be empowered to record all births and deaths occurring within municipal limits irrespective of nationality or religion, and that all deaths in hospitals, dispensaries, lunatic asylums, and jails should be reported to the Municipal Commissioners. Under Act IV (B.C.) of 1873, the necessary power to carry out these proposals has already been extended to all municipalities in which that Act is in force, but it appears that the Municipal Committees have hitherto continued to follow the rules laid down in the Resolution of 1869.

The Lieutenant-Governor approves of the proposals of the Sanitary Commissioner, and is pleased to direct that the Commissioners of all municipalities, to which Act IV (B.C.) of 1873 has been extended, shall in future record all births and deaths, and that registrars of vital statistics in rural areas shall record all deaths, occurring within their jurisdictions irrespectively of nationality and religion. Sir Steuart Bayley also directs that all deaths in hospitals, dispensaries, lunatic asylums, and jails, situated within the limits of municipalities, be reported to the Municipal Commissioners. A column should be added to each of the Forms A to F to show the births and deaths of Europeans and East Indians.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Sanitary Commissioner, the Inspector-General of Civil Hospitals, Inspector-General of Jails, Inspector-General of Police, and Inspector-General of Registration and Registrar-General of Births, Deaths, and Marriages, for information, and to all Commissioners of Divisions for information and communication to municipalities situated within their jurisdiction, and to the General Department for information and such action as may be deemed necessary.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Offg. Secy. to the Govt. of Bengal.

	25	Chittagong Hill Tracts. " 5, '89	0·57	Weather—chilly with foggy mornings. The gathering of mustard has commenced in some places. Tobacco, chillies and other winter crops thriving well. A fall of rain on the 1st has greatly improved the condition of the winter crops.
		Hill Tipperah " 6, '89	0·52	Weather—cold. Tobacco and chillies doing well. In the hills, *jums* are being cut.

Division	No.	District and date of return.		Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BEHAR.					
Patna Divn.	26	Patna Dinapur Barh	Feb. 9, '89	Nil 0·77 0·87	Weather—cold. Prospects of *rubbi* continue favourable. Harvesting of early mustard commenced. In the Barh sub-division the late rain has done slight damage to gram and *mussoor*. Prices stationary.
	27	Gya	,, 9, '89	Nil	Weather—fair and seasonable. Harvesting of paddy almost finished. *Rubbi* crops coming on well. Poppy is progressing.
	28	Shahabad	,, 9, '89	Nil	Weather—much warmer, but fair. *Rubbi* crops doing well. Peas and *masuri* are being harvested, and wheat and barley are in ear. Poppy promises well and does not seem to have been damaged by last week's rain. Prices stationary.
	29	Durbhunga	,, 9, '89	Nil	Weather—bright. Last week's rain has considerably benefitted *rubbi* and indigo. It has, however, done injury to *rahar* and tobacco in places where hail has fallen. Lands are being prepared for *mung*, *cheena* and paddy sowings. Prices of common rice ranging from 14 to 19 seers per rupee.
	30	Mozufferpur	,, 9, '89	Nil	Weather—clear and dry; getting warmer. Reports from all parts of the district show that the late heavy rain has done much good. Prospects of the *rubbi* harvest are excellent. *Cheena*, *mung* and sweet potatoes, which are largely consumed by the poorer classes, are being cultivated in North Sitamurhi and elsewhere. No material change as yet in prices.
	31	Sarun Sewan	,, 9, '89 ...	Nil 0·63	Weather—fair with strong west wind. Cloudy in the beginning of the week. Prospects of *rubbi* crops continue excellent. Poppy is also doing well. Lands are being prepared for indigo and sugarcane.
	32	Chumparun	,, 9, '89	Nil	Weather—fair; getting warm gradually. *Rubbi* and poppy doing well. The rainfall of last week has facilitated sowing of *cheena*, which is grown over a large area in this district. Prices almost stationary.
Bhagulpore Divn.	33	Monghyr	,, 9, '89	Nil	Weather—seasonable and fine. *Rubbi* crops are doing well. Prospects good.
	34	Bhagulpur	,, 9, '89	Nil	Weather—seasonable. Harvesting of mustard nearly over. Lands are being prepared, and *cheena* is being sown. Prospects of the *rubbi* crops continue fair, but the recent hail is reported to have injured wheat in the Sudder sub-division. Harvest of peas and gram has commenced.
	35	Purneah	,, 9, '89	Nil	Weather—clear and seasonably cold. The late rain is said to have done much good to the *rubbi* crops.
	36	Maldah	,, 9, '89	Nil	Weather—fair and cool. Serious damage is reported to have been caused by hail-stones to the *rubbi* crops in thanah Kharba, where the yield is expected to be not more than 6 annas on the whole. In other thanahs, *viz.*, Shibgunge, Nawabgunge and Ratna, rain has improved the prospects. *Boro* paddy is being transplanted.
		Sonthal Perghs. Deoghur	,, 9, '89 ...	Nil 0·08	Weather—clear and cold. *Rubbi* prospects fair. Sugarcane pressing has begun. Prices stationary, but higher than usual.
ORISSA.					
Orissa Divn.	38	Cuttack	Feb. 8, '89	Nil	Weather—seasonable. *Sarad* is being threshed. *Rubbi* crops are being gathered. *Dalua* rice doing well. Prices stationary.
	39	Pooree	,, 7, '89	Nil	Weather—seasonable. Threshing of the winter crop (late *sarad*) is nearly over. *Dalua* crop is doing well. Rain is wanted for *mung* crop. Common rice 19 seers 12 chittacks per rupee in the Sudder sub-division and 17 seers 7 chittacks in the Khoorda sub-division.
	40	Balasore	,, 8, '89	Nil	Weather—again somewhat cooler. Sugarcane is being pressed. *Dalua* rice and cotton (both very petty crops) doing well.
CHOTA NAGPORE.					
		South-West Frontier Agency.			
Chota Nagpore Divn.	41	Hazaribagh	Feb. 8, '89	Nil	Weather—bright and cold. Prospects of *rubbi* and poppy crops are unchanged, except in Gawan, Kharrukdiha and Giridi, where some damage is reported to have been done by hail. Mustard is being gathered with about an 8-anna crop. Sugarcane pressing continues; probable outturn between 8 and 10 annas. Prices rising.
	42	Lohardugga		...	Report not received.
	43	Singbhoom	,, 8, '89	Nil	Weather—dry and very hot. *Rubbi* crops being harvested; outturn 6 to 8 annas. Prices stationary.
	44	Manbhoom	,, 9, '89	Nil	Weather—fair and seasonable. Pressing of sugarcane continues vigorously; outturn 8 to 12 annas. Mustard, wheat and barley growing; expected average outturn 8 annas. New rice selling at 18 to 22 seers per rupee.

* The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, ≡ fog, dew symbol dew.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF JANUARY 1889.

THE normal meteorology of January in Bengal is very similar to that of the two previous cold-weather months, except that usually the cold-weather conditions are more strongly developed in this month than in any other part of this season. Fairly strong northerly winds with practically cloudless skies, and with low temperature and humidity, rather high pressure and an almost complete absence of rain obtain for the greater part of the month, unless these normal conditions are disturbed and almost reversed by the formation or appearance of barometric depressions over Northern India, which subsequently drift in a southerly or south-easterly direction through Central India and the North-West Provinces into Chutia Nagpur, Behar and Bengal. These disturbances give moist southerly and south-easterly winds to Bengal with heavily clouded skies and damp rainy weather, the day temperature remaining low, but the night temperature increasing largely. The heaviness of the rainfall brought up by these depressions varies largely, but the rainfall is usually largest in Behar.

Pratically the whole of the rainfall in January is brought about by these disturbances, and the amount is usually small, averaging from about a third of an inch in Orissa up to nearly two-thirds of an inch in North Behar and Chutia Nagpur.

Meteorology of the month.—The chief features in the meteorology of January 1889 have been—

1. Pressure has been in excess over the whole province, the excess being very small in the south-western districts, and moderate in amount in the eastern and northern districts In Bengal the excess has averaged about 0·017 inch, while in Assam it has averaged 0·018 inch.

2. The average temperature for the whole month in Bengal has been about 2·2° above the normal, while in Assam the excess has been 2·4°. The distribution of temperature during the month has, however, been irregular, and while for the first half temperature was generally below the normal, during the second half it was above the normal by decidedly large amounts.

3. Humidity has been rather largely above the normal at almost all stations, the average variation in Bengal being an excess of about 13 per cent., while in Assam it has equalled 15 per cent.

4. Cloud proportion has been slightly above the normal in Bengal and rather largely above it in Assam.

5. There was an almost complete absence of disturbances until about the middle of the month; but on the 13th and 14th fairly general but light rain was brought to the greater part of Behar and North Bengal, and to parts of East Bengal by a disturbance which apparently travelled in a south-easterly direction along the line of the hills. Rainfall was again brought to the same districts and to Chutia Nagpur also on the 24th by a depression which advanced from Central India, but the most important rainfall during the month was brought by a decided barometric depression from Northern India which passed over Bengal on about the 30th and 31st, and which gave heavy rain to Behar and North Bengal, and moderate rain in all other districts, except Orissa.

6. Rainfall has been largely above the normal in North Bengal and Behar, moderately above it in South-West Bengal and Chutia Nagpur, slightly below it in East Bengal, while in Orissa rainfall has been almost absent, and has not been more than about a sixth of the usual fall.

The weather conditions for the first twelve days of the month call for practically no comment as they were of normal north-east monsoon character. The conditions then underwent change and a feeble depression formed on the 12th in Bengal, but this rapidly filled up, and on the 13th a depression which had proviously been slowly advancing form Northern India along the line of the Himalayas existed apparently over the hills to the north of Behar and Bengal. Southerly moist winds then set in over the province for some days, temperature rose rapidly, and rain fell on the 13th and 14th in all districts except Orissa and South-West Bengal, but even in the last district a few showers were reported. Conditions again became settled and of ordinary north-east monsoon character from the 14th up to the 24th, and on this day a depression from Central India advanced over Bengal giving cloudly weather and light showers, but the depression rapidly passed in an easterly direction and fine settled weather again set in from the 25th to the 30th, when again Bengal was affected by two depressions which had formed in Central and Northern India, and which advanced in an easterly and south-easterly direction. This disturbance was of sufficient importance to give general and rather heavy rain on usually two days to almost all stations in the province, except in Orissa, and there is no doubt that this disturbance formed by far the most important feature in the meteorology of the whole month. The depression however, passed comparatively rapidly over Bengal, and by the 1st of February weather was again of normal north-east monsoon character.

Pressure.—Except for the variations of pressure caused by the passage of the depressions above described through the province, the oscillations of pressure have been of little importance. Taking into consideration only those stations from which pressure averages have been received for a number of years, and which therefore yield reliable averages, the mean

pressure of the month has been 0·017 inch in excess of the normal. In South-West Bengal and at the head of the Bay, as represented by such stations as Calcutta, Saugor Island and False Point, pressure has been almost normal, while such stations as Jessore, Chittagong and others show excess pressures of about 0·03 inch. In Assam also Dhubri shows a pressure almost normal for the month, while the other stations show a decided excess.

Temperature—Was comparatively low for the first half of the month an[illegible] very high for the second half. For the whole month temperature has been in exces[illegible] of the [illegible]al by about two degrees, though for a part of the month, from the 13th to the 18th, temperatures of from 6° to 8°, and even nearly 10° above the normal were reported.

The actual oscillations and variations of the temperature f[illegible] the month from the normal are best shown in the following table, where the variations from the normal of the average maximum, minimum and mean temperature at nine typical stations in different districts of the province are given week by week :—

Rainfall—The periods of rainfall du[illegible]g the month have [illegible]eady been discussed. The actual amounts of rai[illegible]fall have been larg[illegible] North Behar, the stations of which average 2·88 inches for the [illegible]onth; or nearly five times the amount which falls in normal years. In North Bengal an average fall of 2·38 inches has been registered, or about six times the normal fall. South Behar has received an average amount of 1·90 inches, or from three to four times the normal. In South-West Bengal a fall of 0·82 inch is recorded, or about twice the usual amount; while in Chutia Nagpur an average fall of 0·80 inch has been registered, which is only slightly larger than the normal. In East Bengal the fall has been 0·46 inch, which is about four-fifths of the normal fall in this district, while finally in Orissa the rainfall has averaged merely a few hundredths of an inch, and is about a fifth of the usual fall only

Taking up the rainfall more in detail, the following districts have received falls, which average more than three inches—Durbhunga, Mozufferpore and Maldah; the following between two and a half and three inches—Dinagepore, Rungpore, Darjeeling Hills, Purneah, Bhagulpore, Sarun and Monghyr; the following from two to two and a half inches—Bogra, Rajshahye, Julpigooree and Cooch Behar, Champarun, Patna and Sonthal Pergunnahs. Falls of between one and two inches have been received in the districts of Beerbhoom and West Burdwan, Moorshedabad, Nuddea, Pubna, Gya and Hazaribagh, and falls of between half and one inch in Midnapore, Burdwan, Jessore, Khoolna, Furreedpore, Dacca, Mymensingh, Shahabad, Lohardugga and Manbhoom. The smallest falls of less than a tenth of an inch, and where the districts have been practically rainless, are reported in Pooree, Cuttack, Balasore, Chittagong and Chittagong Hill Tracts and Noakholly.

METEOROLOGICAL OFFICE, INDIA;
The 11th February 1889.

For Offg. Meteorological Reporter to the Govt. of India.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 8TH FEBRUARY 1889.

THE meteorology of the previous week had been extremely important in Bengal from the fact that a large and influential disturbance had passed through the pro[illegible]om Central and Northern India, which had given general, and in many cases heavy rain, particularly in Behar and North Bengal. The depression had passed rapidly over the province, and on the last day of the previous week it was in East Bengal, and on the first day of the present week it had quite disappeared in an easterly direction. With the disappearance of the depression weather conditions again became normal in Bengal for the north-east monsoon, temperature fell exceedingly rapidly in Bengal and Behar, and pressure rose, while skies cleared quickly, and rainfall ceased, except for one or two showers of no importance. The return of the weather conditions to those of normal north-east monsoon character took place on the 2nd and 3rd, and for the remainder of the week a fairly steady northerly and north-westerly wind current has been blowing over the province, and conditions generally have been those of a rather strongly pronounced cold weather type.

Pressure.—The principal variation in the pressure during the week was the very rapid rise which took place on the 2nd after the passing away of the depression. This rise in many cases was considerably larger than a tenth of an inch. This was generally followed by a smaller but steady increase of pressure, which continued up to about the 5th instant, but from this date, to the end of the week, pressure fell; the fall from the 7th to the 8th being again rather rapid. For the whole province for the week, taking into consideration only those stations from which observations have been received for a series of years, and which therefore yield reliable averages, the mean pressure has been 0·042 inch in excess of the normal for the same period. This excess has been largest in South and South-East Bengal, where at such stations as Dacca and Jessore it equals about 0·06 to 0·07 inch, and smallest in the north of the province, where the average excess is only about 0·03 inch.

Temperature.—As before mentioned, the principal change in the temperature of the province has been the rapid fall which accompanied the setting in of the normal northerly current at the commencement of the week. The fall was so large as to bring temperature considerably below the normal, and for the whole week the mean temperature of the province has been about [illegible] below the normal. This defect has been largest in South-West Bengal, where it has equalled no less than [illegible]°.

The general range of temperature for the week, and its variation from the normal, are clearly seen in the following table, where the average maximum, minimum, and mean temperatures at nine typical stations in different districts of the [illegible] are compared with the normal values for the same period, and from which it will be [illegible] that during the past week the day temperatures have been particularly low :—
